

LEGISLATION FOR PLUMBERS

Measure Will Be Examined By Inspector and City Attorney.

Plumbing Board Proviso Chief Feature of New Ordinance.

Duluth's new plumbing ordinance, prepared by members of the Duluth Plumbers' association, is now in the hands of the city council. It will shortly be presented to City Attorney Greene, who will prepare a new draft. Mayor Prince expects to introduce it before the council some time this month.

Long Campaign Waged.
For several years past local plumbers have asked for better legislation affecting their business and not recently did the city council instruct the organization to prepare an ordinance favorable to the plumbers of the city. The measure is an exceptionally long one and the plumbing inspector is preparing a new draft, to contain the more important features and those of vital interest to the business.

The principal feature of the ordinance is the proviso for a plumbing board, to consist of a master plumber to be selected by the local organization, one member of the inspector's board of the water and light department and the city inspector. The members will be appointed by the council to serve two years, without pay.

Features of New Ordinance.
Some of the more important features of the new ordinance follow:
Each building must be separately plumbed.
It shall be unlawful to employ unlicensed plumbers.
No person shall be appointed a city inspector unless he has five years' experience.
The plumbing inspector shall be appointed by the commission of public safety.

All plumbing work must undergo the 5-foot air or water test.
Underground sewers must not be nearer than two feet from a wall or in bad ground.
All pipes must be supported or properly secured.
All pipes must be free from defects and must be of the proper size set down by the ordinance.
All joints must be made with pure lead.
Every fixture must be trapped separately as near the fixture outlet as possible.
All refrigerator waste pipes must be of galvanized iron.
The inspector shall charge \$1 for inspecting a drain and fixture, and 25 cents for each fixture above ten.
For violating the ordinance there should be a fine of not less than \$5 and not more than \$50 or imprisonment of from five to sixty days.

SHRINERS WILL GO TO GRAND FORKS

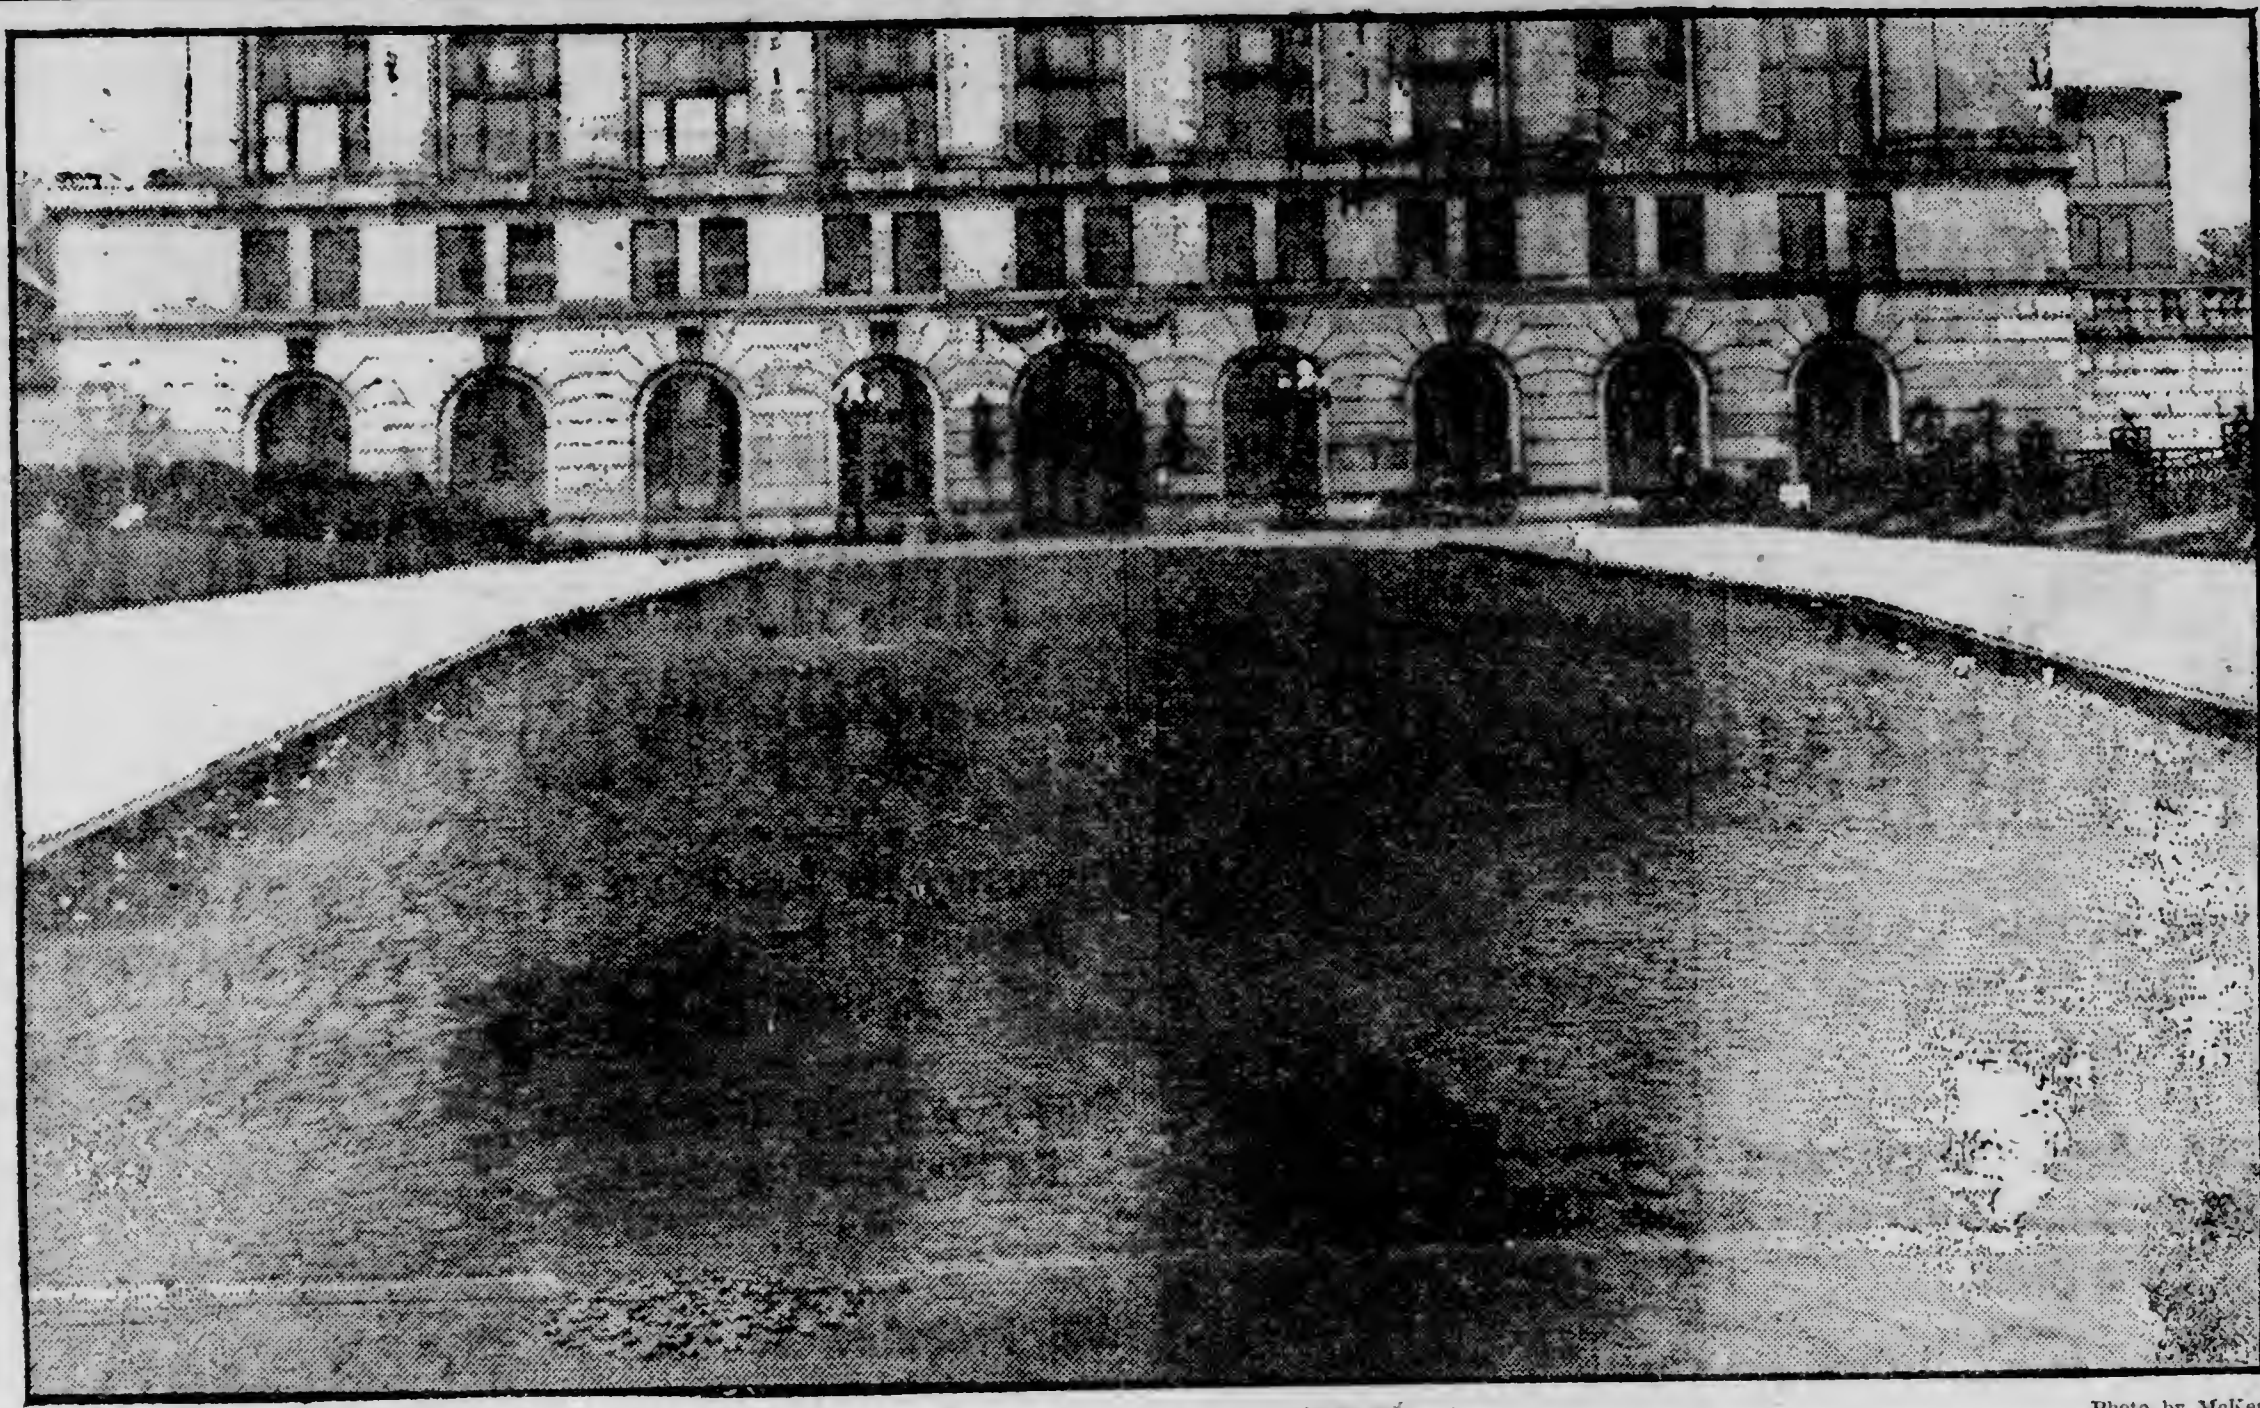

Thirty Delegates From Duluth, Two Harbors and Range in Party.

About thirty Shriners from Duluth, Cloquet, Two Harbors and the range towns will journey to Grand Forks Thursday afternoon for the annual convention to be staged by Kem Temple.

The local delegation will be headed by Loyd Ayres, notary of And Temple, who is arranging for the pilgrimage to the way to the North Dakota city, the Duluth caravan, including the range Shriners, will meet the delegation from Crookston and smaller cities en route.

Buffalo Bill, the famous showman, who is one of the most prominent Shriners in the country, will be the honor guest at the Kem ceremonial and he will participate in the outdoor parade at 1 o'clock Friday afternoon. This parade will officially open the festivities, which come to a close

WATER POWER BILL GOES OVER

Madison, Wis., June 8.—Due to the absence of so many members of the assembly today the water power bill was put over until Thursday.

The assembly killed the Prescott bill for the repeal of the county park commission in Milwaukee and the senate bill which would have permitted several kinds of insurance to be written in one policy.

The Weber bill limiting the issuance of injunctions in labor disputes was passed and was messaged to the senate and the Huber bill to permit the settlement of estates within one year was concurred in after a motion by Assemblyman Hembricht to kill the bill had failed.

E. Rossard—Appropriating \$2,400 from the fish and game fund for enclosing a portion of the forest reserve for protection of native game.
Finney—Providing for reimbursement of state fair board members for expenses incurred in a suit brought by a victim of an airplane accident at the grounds.

Tinkins—A resolution for the distribution of the report of the special committee on investigation of the state forest reserve.
Blucher—Providing for the filling of vacancies of income tax boards of revenue by the tax commission from lists submitted by county boards.
Staudenmayer—Prohibiting temporary residents from voting at special elections.
The senate concurred in the Janssen bill authorizing the city of De Pere to build a dam across the Fox river.

DULUTH PASTOR USES OLD RESORT OF CHICAGO CROOKS AS SHELTER FOR HOMELESS MEN

Rev. F. E. Plumb Carrying on Work in Chicago Slums on Same Plan He Followed in Duluth Gospel Mission; Will Feed and Shelter 1,500 Daily.

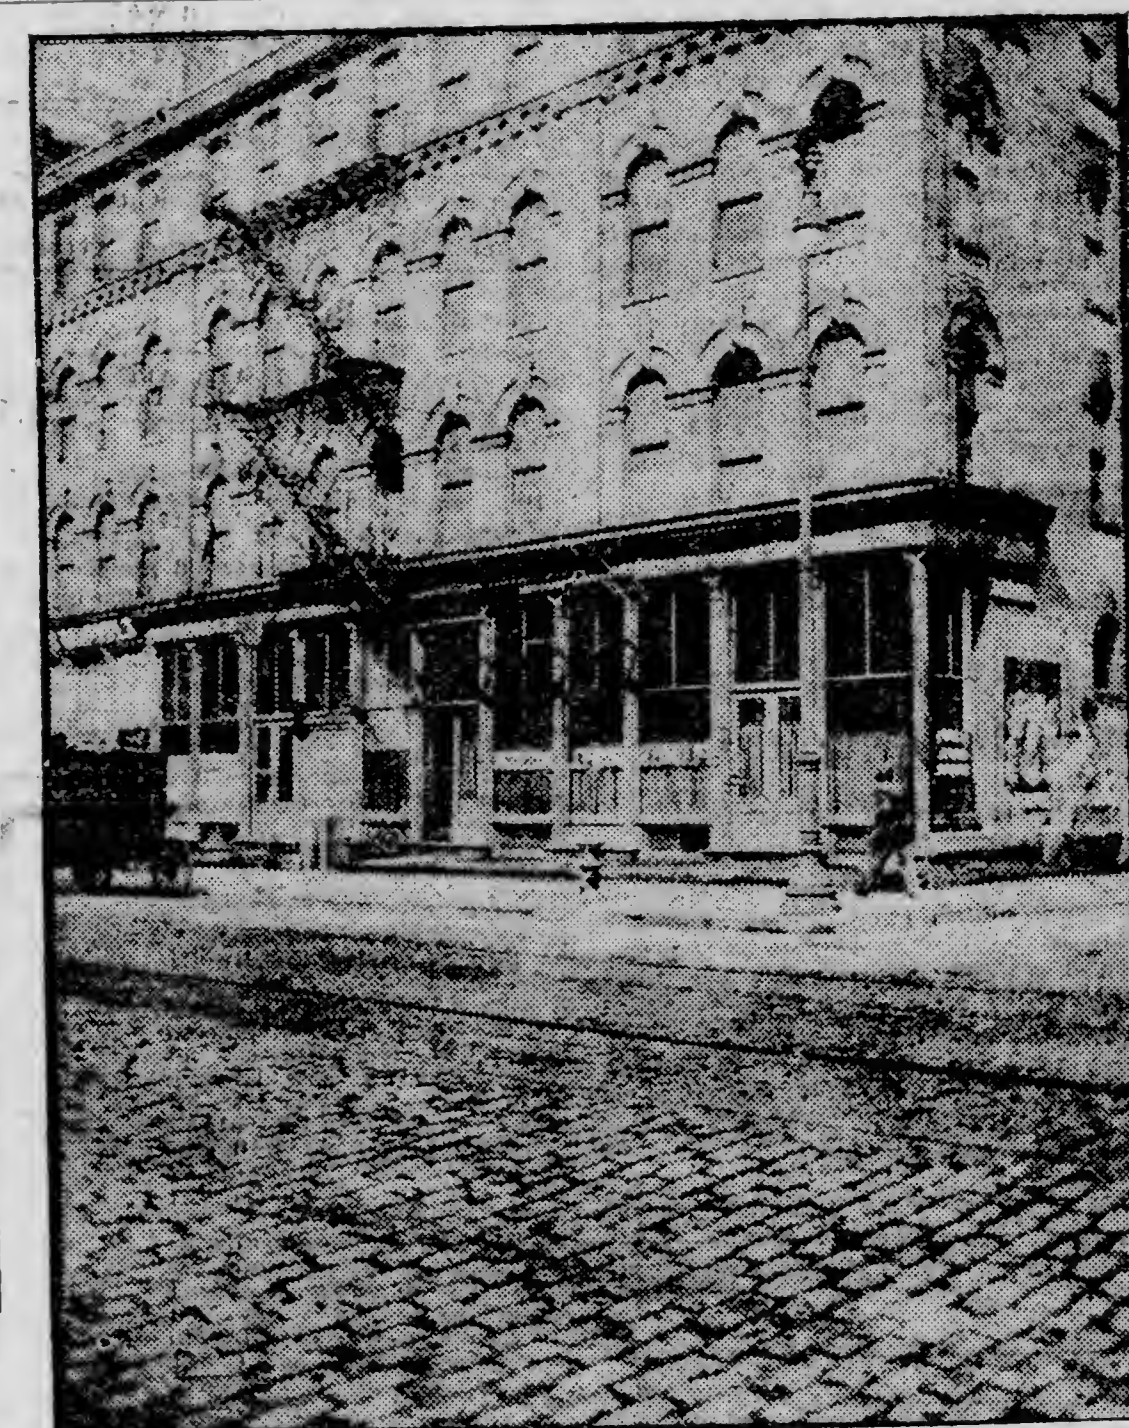

Deep in the Chicago slums, occupying a building once known as "The Liberty Bell," a nationally known assembly place for crooks and thugs, Rev. F. E. Plumb of Duluth is showing Chicagoans some "new stunts" in rescue mission work.

"The Liberty Bell" has been remodeled slightly and now is a place where 1,500 men can be housed and fed daily, without charge. That is the mark set by Rev. Plumb and the start of his new work indicates that it will be one of the most successful missions in the city.

"We have adopted the same plan followed at our gospel mission on Lake avenue near Superior street," said Rev. Plumb this morning, upon his arrival here after several weeks' absence. "Commission houses and wholesale firms give us vegetables, meats and fruits they cannot use for shipment, but which are perfectly good, and we can feed an army of 1,500 down and out men without much difficulty."

"Several prominent Chicagoans, including Mayor Hale Thompson, are enthusiastic about my plan, and it looks as though it would be a big success." The new mission was opened Sunday, May 23, with religious services and after the hour of the sermon given by Rev. Plumb, services now are held nightly, and the "bums," as they are called by Rev. Plumb, get food for the body as well as for the mind and soul.

Rev. Plumb will be in Duluth two days, checking over the work of his Duluth mission, which now is under the superintendence of Frank Leary. In the future he will divide his time between Duluth and Chicago. He expects to hold a conference with Mayor Thompson upon his return to the Windy City late this week, to complete plans for forwarding his work among the destitute.

KNIFED MAN HE BELIEVED THIEF

Herman Sittula Held for Assault—Victim Is Penniless.

Angered at the loss of \$40, Herman Sittula, age 29, last night threatened to kill John Uppa, the man he thought had taken the money, and then, drawing a penknife, tried to carry out his promise.

After a short range duel Uppa escaped with a slight cut in the breast and notified the police. His assailant was arrested by Officers Stewart and Tinkler a short time later.

When he was brought to headquarters, Sittula swore eternal vengeance, so that he could get his \$40. Officers finally complied with the request, but Uppa was poor as a church mouse, judging from the contents of his pockets.

Sittula was held charged with second degree assault. He will be given a hearing this afternoon. The fracas took place in the rear of Sittula's home, 335 South First avenue east.

FIGHT OVER RENT. Landlord Has Tenant Arrested, Charged With Assault.

A landlord and his tenant clashed about the rent yesterday afternoon, and William S. Carhart, age 22, was taken to police headquarters and charged with third degree assault.

Hans Lund, the other party to the quarrel, told the police that Carhart had beaten him, and exhibited bruises to prove his statements. Carhart said the blows were struck in self-defense, however, and entered a plea of not guilty before Judge W. H. Smallwood.

The court released Carhart on his own recognizance to appear for a hearing this afternoon.

MAKE ANOTHER RAID. Police Arrest Two Women Who Plead Not Guilty.

Continuing their campaign against alleged disorderly rooming houses in various parts of the city, a police raiding squad consisting of Chief R. D. McKeercher, Sgt. John Robert and Patrolmen Duff and L. A. Root visited a place at 112½ First avenue west last night.

Ella Syms, age 30 and Ida Jefferson, age 28, both colored, were taken into custody. The former was charged with keeping an unlicensed drinking place and the latter with being a common prostitute. Bail for the Syms woman was set at \$100 and for the other at \$25. Both pleaded not guilty and will be given a hearing this afternoon.

G. S. COMMISSION WILL DECIDE CASE

Will Take Up Discharge of Ruben Johnson at Special Hearing.

Whether the city council or civil service commission has jurisdiction over Ruben Johnson, secretary of the latter body, and whether or not he can be removed from the office to be replaced by another man, who will work without pay, will be finally decided by the civil service commission at a special hearing called for 2 o'clock tomorrow afternoon.

Hearing on Wednesday.
Mr. Johnson announced early this afternoon that the meeting of the commission will be held tomorrow to decide finally his status as a city employee. H. W. Nichols, George Parker and M. J. Ellitrault are the members of the commission.

The city council last evening postponed action of the matter until the decision of the civil service body, which will meet tomorrow. Commissioner Silberstein had a resolution prepared, appointing Leonard McHugh, law clerk to the city attorney, to succeed Mr. Johnson on July 1, the former to work without salary, but the safety board decided to hold the matter over for a few days.

Can Work Without Pay.
The resolution submitted by Commissioner Silberstein yesterday, the city attorney states that Mr. Johnson will be replaced by an employee who will work without salary. The opinion follows:

"The first question involved is whether Johnson can be removed as secretary in view of the fact that he is himself under the classified service. This is answered by the fact that McHugh is to get no additional compensation. Giving of the work to him amounts to a layoff and not a removal. Civil service rules never prevent the laying off of a man not needed. The rules never prevent giving two men's work to one man, if this is at a saving."

Must Take State Test.
No more leniency for Automobile Drivers Without Licenses.

Any person, without a license, who is driving an automobile for hire, must take the state examination for chauffeurs at police headquarters tomorrow morning on make himself liable to arrest for violating the statute.

W. H. Healey, a member of the state examining board who will be in charge of the examination, said today that drivers, without licenses, who have failed to be examined, will be prosecuted.

The examination tomorrow is open to any resident of Minnesota.

SUBMIT LOWEST BID FOR PAYING

Rogers & McLean submitted the lowest bid on paving Commonwealth avenue with brick. The bids were opened this morning by Secretary Culver of the works division, but the exact figures will not be available until tomorrow.

The bidders follow: Rogers & McLean, Butler, Coss & Co. of Hibbing; Olson & Johnson, D. R. Clough & Co., John Runquist and Preston & Nelson. Bids were submitted on paving the thoroughfare with brick and asphalt. If brick is finally selected, Commissioner Farrell will introduce a resolution at the council meeting next Monday awarding the contract to Rogers & McLean. This means that active Commonwealth work will begin some time during the last week of this month.

Commonwealth avenue will be paved on both sides of the street, leaving a space in the center of the street for street car tracks, from Crestline court to the south line of Gary, First division.

RETRENCH OR BORROW

Alternatives Before County Board Resulting From Hibbing Tax Trouble.

Village Will Ask for Court-house Building—Other Matters.

At its regular monthly meeting this morning, the county board took no action with reference to the matter of meeting the Hibbing tax trouble, which arises from the failure of the Hibbing companies to pay any taxes on their holdings at Hibbing. It is probable that the commissioners will take this matter up for consideration at the afternoon session of the board.

Approximately one-fourth of the assessed valuation of St. Louis county is on the tax rolls of the village of Hibbing and as a result of the refusal of the companies to pay their taxes because of the alleged program of exchanging land for taxes, the village is in a financial straits.

The board has either to direct a retrenchment in all departments so as to meet the emergency or arrangements will have to be made to borrow the money on the county's credit. It is not thought that bonds will be issued, as this will not probably be necessary.

The commissioners, this afternoon, will probably consider an application from the village of Hibbing for a courthouse to be built in that village this summer. It is understood that the board in support of the project, the last legislature authorized the county to construct a building, if it is deemed advisable. The board this afternoon will consider the feasibility of such a move in connection with the proposed retrenchment policy which may be made necessary by the action of the failure of the Hibbing interests to pay their taxes on their holdings in this village.

The board this morning established as a county highway a four-mile road to be known as the Lake Nichols road in 53-16 and 53-17.

The sum of \$8,900 was appropriated from the special county fund for the improvement of nine miles in the Fifth commissioner district.

The board directed the auditor to call for bids for the construction of one and one-half miles of the flood-wall road. The bids will be opened at the next meeting.

The commissioners appropriated \$400 from the county revenue fund for repairs and extensions to Lateral No. 3 of State Ditch No. 54 in the Meadows-lands district. In accordance with law, the cost will be assessed against the benefited lands as in the original ditch proceedings.

Sheriff John B. Meining, who has in charge the collection of property taxes, today requested that he be granted an extension of time in which to complete his work. In accordance with his request, the board this morning extended the time to July 7.

The Duluth and Iron Range Railroad company was granted permission to make an extension of its telephone line along the Burnside road for three and one-half miles to Burnside lodge on the lake of that name.

The county board this morning approved the depository bonds of the following Duluth banks: Northern Na-

tional bank in the sum of \$150,000, the First National bank in the sum of \$500,000 and the American Exchange National bank in the sum of \$500,000.

A. J. Meland of West Duluth was appointed as inspector of contract work on the Miller Trunk, Eklund and Breckner roads in the Fifth commissioner district. He will be compensated at the rate of \$4 per day.

Permission was granted to the Lake View and Newport tennis clubs to use a portion of the old courthouse grounds at Sixth avenue east and Third street, for a tennis court.

The board appropriated \$2,000 to reimburse J. J. Cox, president of the St. Louis County Agricultural society, for the amount which he advanced to the county at the time that the fair ground site was purchased at Hibbing. At the time the site was actually purchased, the county was availing action on the part of the legislature giving it authority to make the appropriation.

Carriers Object to "Straws."
Duluth is not a straw hat city. At least that's what the mail carriers of the city think, and the ruling that "straw hats" must be worn, beginning today, has not met with popular approval. The carriers will hold a meeting and discuss the hat question, and it is probable that the ruling will be revised because "it's cool in Duluth." RETURN FROM HONEYMOON IN WAR ZONE OF EUROPE

Mr. and Mrs. A. T. Banning, Jr., Lived in London for Eight Months—Two Trips to Continent—Heard Cannonading in Antwerp.

After spending their honeymoon in war torn Europe, Mr. and Mrs. A. T. Banning, Jr., of Duluth returned today, arriving about 1 o'clock this afternoon from Chicago.

Mrs. Banning was formerly Miss Margaret Cuklin, daughter of Mr. and Mrs. William E. Cuklin of Hunter's Park. She was married to Mr. Banning on Oct. 13 last, in Duluth, and on Oct. 17 they sailed from New York for Liverpool. They have been in England and on the continent since that time, arriving in New York last Thursday on the Philadelphia.

Mr. Banning's trip to London was a business journey as well as his honeymoon. He went to England to represent a number of American grain exporters, among them the Ames-Barnes company, to the complicated conditions that arose in the grain exporting business as a result of the war.

Mr. Banning acted as the representative in England of these exporters, and he opened offices in London as an attorney and agent for these exporters, and that it would not be fitting for him to comment on his clients' business.

"We took a house in London and he, residents of the boarders," said Mr. Banning. "I had to make two trips to the continent. On one I got as far as Antwerp only, and on the other to Hamburg and Dusseldorf. I saw nothing of the war, but could hear it.

MRS. A. T. BANNING.

In Antwerp. The cannonading could be faintly heard there at that time. You felt it rather than heard it, it was so faint, but when this rumbling was heard, the people would say, "There came the allies."

"Outside of these two trips to the continent I spent virtually all of my time in London, and of course saw no actual fighting there. There is not nearly the amount of industrial depression you would expect in London, in much the usual way. That seems to be the complaint in England—that the citizens are paying too much attention to business and not enough to the war."

will be made along the way, and the citizens of various towns will be given free concerts so that they may know that the Duluthians are boosting for the city. Duluth delegates are determined to capture the 1917 convention for this city.

PUPILS' WORK ON DISPLAY

At the fourth annual exhibit of manual training work by Central and Manual Training high school pupils tonight and tomorrow, parents will have an opportunity of seeing what their children have accomplished during the last two semesters.

Embroidery cabinet makers, draftsmen, architects, carpenters and machinists have been hard at work for weeks and their handiwork is expected to make one of the most unusual displays ever attempted by Duluth schools.

Edward E. Geiger, head of the manual training work in city schools, is in charge of the exhibit and promises some surprising results. He is asking that the citizens be so kind as to see the results accomplished in these classes.

Open to the Public.
The exhibit will be held from 3 p. m. to 9 p. m. each night so that visitors will have chance of seeing just how the furniture is made and the large exhibit, given for the first time this year, is that of the high school pupils' work in carpentry.

As announced by Mr. Geiger this morning, the list of exhibits will include work in various trades in carpentry, cabinet making, joinery, wood finishing, wood turning, pattern making, machine shop practice, sewing, mechanical drawing, architectural drafting, machine drawing, architectural drafting, structural drafting, sheet metal work, free hand drawing, basketry, pottery, leather tooling, metal working, block printing and stenciling.

Special invitations to attend the exhibit have been sent to the various clubs and allied organizations.

During the hours the exhibition is open girls of domestic science classes will serve tea and refreshments to visitors, taking the opportunity to show their work, what they have learned about housework.

POSTPONE WORK TO ATTEND FUNERAL

Work of the convention of the Imperial council of the Modern Samaritans was deferred until tomorrow by action of the delegates this morning so that all Samaritans in the city might attend the funeral of W. O. Smith, one of their members, who died Sunday.

The convention was organized this morning and the business session postponed until tomorrow.

Six candidates were initiated at the Old Masonic temple last night by Duluth council, No. 3. The work was accomplished under the direction of Good Samaritan E. Nedenfour and chief messenger of the council, Merrill Merritt. A short social program was held.

Members of the imperial council who were E. Lovett, imperial good samaritan, Duluth; T. A. Galt, vice imperial good samaritan, Duluth; John Christie, past imperial good samaritan, Duluth; H. A. Barnes, delegate, West Duluth; A. French, delegate, Plain View; O. B. Clark, delegate, Winona; Oscar Erickson, delegate, St. Paul; L. U. Young, delegate, Minneapolis; A. Graham, delegate, Hancock, Mich.; C. H. Richter, grand good samaritan of Minnesota, St. Paul; J. C. Schnacke, grand scribe, St. Paul; J. N. Mounts, imperial secretary, St. Paul, and W. A. Hicken, past imperial scribe, Duluth.

When President Wilson signed his release, Rhodes was taken to the prison at San Francisco.

He expects to reach Duluth today and is confident of being able to secure employment. Although this formerly was his home, he has not been here for many years, as he served in the army of the Philippines for some time before he was tried on the murder charge.

WALKS HOME FROM PRISON

Released from a Federal prison at San Francisco, where he had served ten years of a 10-year sentence imposed for alleged murder, Alfred Rhodes, formerly a teamster in the United States army, is on the last lap of a walk to Duluth.

Formerly a resident of Duluth, Rhodes intends to make his home here in the future. He reached Minneapolis on Sunday and planned to start the walk to Duluth the following day.

He was released from prison by President Wilson Feb. 6, after a group of army officers had intervened themselves in him and interceded in his behalf, asking that the sentence be commuted.

Rhodes was convicted of murder after he had fatally injured Algenito Silvio, a Filipino general. He was sentenced to a life term in the prison at San Francisco.

When President Wilson signed his release, Rhodes was taken to the prison at San Francisco.

He expects to reach Duluth today and is confident of being able to secure employment. Although this formerly was his home, he has not been here for many years, as he served in the army of the Philippines for some time before he was tried on the murder charge.

Your "Undivided Profits"

The "Undivided Profits" item in this bank's financial statement means profits earned but not spent. The money is an additional source of strength to the institution.

In the same way, your savings in the bank are your "undivided profits," a surplus which you can fall back upon in an emergency. You can scarcely do anything wiser than to build up that reserve fund now while you are able and while the opportunities for savers are so great.

City Officials and Business Men Make Tour in "Mr. Hanna's" Car.

Spieler Gives Vivid Picture of Zenith City on Opening Trip.

"All aboard, gentlemen!" And thirty-three of Duluth's prominent business men boarded "Mr. Hanna's" sight-seeing car at 3 o'clock yesterday afternoon in front of the Spalding hotel and started out on the car's first trip through the city. It marked the opening of "Mr. Hanna's" newest plan to advertise Duluth and give information to the visitors, who come here each summer. "Seeing Duluth

ness men from the Spalding hotel to the aerial bridge, east to Lester park, back to Twenty-fourth avenue east and then out to Woodland, back down Fourth street and ending up in front of the Lyceum theater.

Of course one of the best parts about the trip was the sight of R. D. O'Brien, former Duluth young man, who has just been graduated from the University of Minnesota and who will do the talking on the sight-seeing car during this summer. Douglas C. Moore, superintendent of the street car company, was along to see that the car was properly handled.

Thirty-three Duluthians for the first time realized an earnest desire of years to smoke in a "street car." They smoked during the entire ride.

Those in the party were: Commissioner Leonard Merritt, Postmaster William E. McEwen, Former Commissioner W. A. Hicken, Secretary E. C. Wade of the Y. M. C. A., Chief of Police R. D. McKenney, Richard W. B. R. Kerr, R. D. Hills, A. K. Squier, W. N. Hart, G. P. Ballou, F. R. Smalley, Richard Freimuth, Elmer M. Fuller, A. B. Stewart, S. W. Richardson, De Witt Southwick, H. Elliott, F. A. Wadsworth, Roy Quigley, H. Nurick, E. J. Carland, S. Oslie, Ray Fenton, George E. Ly, H. W. Nichols, Harry Hurdon, H. D. Clow, L. P. Hogstad, G. W. Alexander, A. R. Kahan, E. J. Garret and C. D. Skillings.

Adrian Gages was the motorman and V. J. Holmes was the conductor.

Spieler Enthusiastic Passenger.

Following is the entire trip according to Spieler O'Brien:

To your right you see the Spalding hotel, the largest hotel in the city, and to the left the Lyceum building, oldest playhouse in Duluth.

"We are now traveling along Superior street, the main thoroughfare of Duluth. To our right the Alworth building, the tallest structure in the state of Minnesota. It is sixteen stories high and on the roof is a large observatory.

"Right here at Third avenue west, the center of the city, are the three largest banks, the capital and surplus of all the institutions last year having been \$6,000,000.

"On your left is the Grand theater, home of vaudeville. We are now in the shopping district. To your right the Selwood building and across the street the Glass block building.

"This block and the Spieler quite a laugh.

"To our right is Kelley's hardware store and next on the right corner is the J. M. Gidding store. As we approach Lake avenue is the Silberstein & Bondy store and on the right corner the Fremuth department store.

"We are now going down Lake avenue toward the canal. The aerial bridge looms ahead. To your right are the trimmings of a wholesale house. Next is the building of the Marshall-Wells Hardware company which does the second largest wholesale hardware business in the world.

"Gentlemen, we will leave the car for a few minutes and go across the aerial bridge.

"This bridge is practically the only one of its kind in the world, and it will not notice is propelled by electricity.

"The Patrick mills can be seen on the harbor front. These mills manufacture the mackinaws now being worn by the New York Giants.

"We will now proceed out to the East end and thence to Lake. You are now passing the police station and city hall. The mayor of Duluth is W. I. France and his four commissioners are: Fred G. Voss, Leonard Merritt, Bernard Silberstein and H. J. Carland.

"To your left is the Orpheum theater, the handsomest playhouse in the city.

"We are now traveling east on Superior street. To your left is the Kitchi Comut club, one of the most beautiful club buildings in the Northwest.

Curling Rink Best in World.

"To your right you will see under the construction the new armory and a block south the curling rink, the handsomest building of its kind in the world.

"To your right is St. Paul's Episcopal church and on the corner is the Joseph Selwood residence. One block up is the Epworth League building, cathedral and to the present time.

"We are now approaching Congdon park and you will see the beautiful Congdon roof. It is probably one of the handsomest residences in the United States.

"To your right is the new Country club grounds, and to your left a cost of \$100,000 and the club has a membership of about 100.

"This is Lakeside, where everybody owns his own home.

"To your right, near the lake shore, are the government fish hatcheries. Last year more than 40,000,000 fish were hatched. This is not a fish story; it is not a tall tale; it is a fact.

"We will remain at Lester park about ten minutes.

"Going up Twenty-fourth avenue east we are approaching the normal school grounds. To your right is the residence and along the street to your right are the new Bagley and French homes.

Original Trail.

"We are now on our way to Woodland. To your left is the residence of Mr. Miller. To the right, the beautiful home of Mr. Woodbridge and to your right the original trail that went to the Vermilion Iron range. To your left is the Glen Avon church and the Washburn school two blocks up. To your left is the residence of Mr. Sherwood, to the right the residence of Mr. McLaughlin and to the left the Hunter home and grounds.

"To the right is the Forest Hill cemetery and to the left the greenhouses.

"We will now return and continue down Fourth street to the center of the city. To your right is the Normal school and the various buildings. To the left is the residence of Mr. Harris, superintendent of the Zenith Furnace company. To the right, one block up, is the Children's home and beyond that the old dump.

"This is Chester park, comprising forty-three acres.

"To the right is Portland square.

"The St. Mary's hospital is to the right.

"We are now on Second street, and to your left you will see the First Presbyterian church. To the right is the Central high school, the handsomest structure of its kind in the United States. It was erected at a cost of \$500,000. Duluth has forty schools, 440 teachers and 15,000 pupils.

"To the left is the Congregational church and across the street the Masonic temple, erected at a cost of \$100,000.

"On the right is the public library, which contains 65,000 volumes. The circulation last year was 221,000 volumes.

"The Y. W. C. A., erected at a cost of \$150,000, donated by the public, is on the left.

"One block ahead you will see the \$1,500,000 courthouse, the handsomest and most costly in the West. Below that is the postoffice. Up avenue you will see the First Methodist church.

"We are now going down Third avenue west to Superior street. On your right is the Y. M. C. A. and to your left is the Steel corporation, and to the right the Board of Trade building. The French & Bassett company, one of the oldest in Duluth, is on the right, and the Columbia Clothing company on the right corner. The First National bank is on the left corner.

"And now, gentlemen, we are nearing the end of our destination. If—and this is only to visitors who have been to be in town—you want amusement this evening, there is a moonlight ride up St. Louis river, a stock company at the Lyceum, vaudeville at the Grand, orchestras at the hotels and

motion pictures at the Rex and Zelda and other theaters.

"Gentlemen, I thank you."

And thirty-three of Duluth's prominent business men alighted from "Mr. Hanna's" sight-seeing car at 5 o'clock. The first trip was over.

WEST END WILL SOUND CITY ON COUNTY OPTION

No-License League Formed at Swedish Mission to Start Campaign.

At a meeting held last night at the Swedish mission church for the purpose of considering the organization of a local "No-License St. Louis County League," a committee was appointed to visit various organizations of the city for the purpose of ascertaining whether the time is ripe for placing before the people a referendum vote on county option. Fifteen churches and temperance lodges were represented at the meeting.

Among those present who spoke were Magnus Martinson of Minneapolis, legislative superintendent of the Anti-Saloon league; Rev. U. S. Villars, pastor of the Lester Park M. E. church; P. A. Nelson, former district president of the Swedish lodges of the I. O. G. T.; and Carl J. Carlson, grand chief of the Junior grand lodge, I. O. G. T.

Mr. Villars was appointed temporary chairman and Mr. Nelson, temporary secretary. The committee appointed to take the subject up with other organizations of the city is composed of the chairman and secretary and Rev. W. H. Farrell, Rev. Herbert Ford, Rev. Swane Nelson, O. A. Wicklund and Carl Carlson.

It is proposed to form a permanent organization at a meeting to be held later in the year.

WEST END BUILDERS

JOHN MOIR.

John Moir is one of the pioneers of the West end who is actively working in the interest of this community. He is an active member of the West End Commercial club as well as taking leading part in the work of the business men's organization at their motor luncheons.

Mr. Moir is in his leisure time an enthusiastic motor boat owner by the motor boat on the river. He is an enthusiastic member of the West end, where he has been visiting among friends in the West end, where he will be in charge of the Baptist church during the summer.

P. Johnson from Bethel academy, St. Paul, who has been visiting among friends in the West end, will leave this evening for Sandy Lake, Minn., where he will have charge of a Baptist church during the summer. Both are members of the First Swedish Baptist church.

Mr. Sholund will leave the latter part of the week for Sandy Lake, Minn., where he will have charge of a Baptist church during the summer. Mr. Johnson left last evening for Evansville, Ind., where he will have charge of that place will be under his care.

MIDSUMMER DAY PROGRAM COMPLETED

Four Addresses and Long Parade Are Provided for Occasion.

William A. Anderson, chairman of the speakers' committee for the celebration of the Midsummer day, announced the completed program for the speakers at the meeting of the league held last night. Dr. C. J. Hertzman of Ashland and Charles Chisholm of Chicago are the speakers of the evening. The program will be given by the speakers at the Midsummer day celebration.

Details for the parade are nearly complete. One of the eleven organizations affiliated with the league will be represented in the parade. The members will turn out in the uniforms of their societies.

The parade will start at 1 o'clock from the warehouse and march east on First street to the armory. From there it will go to the park and west along that thoroughfare to Twenty-fifth avenue and thence to Lincoln park. The services of two bands have been secured. In addition to this feature, the singing society will sing along the line of march as well as at the various stops.

The program in the park will begin shortly after the arrival of the speakers. Following the speaking program, there will be sports and games. For the amusement of the children, the league has arranged for band concerts and dancing in the Lincoln park pavilion.

MANY AFTER PRIZES.

Herald Letter-Writing Contest Creates Wide Interest.

Several letters are coming in daily from men, women and children of the West end, telling why they like to shop in this part of the city. Interest created by the announcement of the contest, which was held on Thursday evening, has been widespread.

Responses have so far been received from persons living in nearly every part of the district. Those who have not yet sent in their communications, which will have to be done by June 10, are urged to do so. The contest closes on Thursday evening, June 10. Write the communication on one side of the paper and address the letters to the West End Editor, Duluth Herald.

BAPTIST UNIONS MEET.

Duluth-Superior Societies Hold Their Quarterly Rallies.

Duluth-Superior Baptist Young People's Union of the Swedish Baptist churches met Sunday afternoon at the Swedish temple for their quarterly rally. Short addresses were made by the pastors of the several churches represented. That of Rev. Mr. Landis of West Duluth, Rev. Mr. Lindner of Bethel, East end; Rev. Mr. Nelson of West end and Rev. Mr. Ritten of Superior. Besides these, two students from Bethel academy, St. Paul, S. Sholund and P. Johnson gave short talks. The temple choir sang two selections. The banner for the best attendance was

MONTANA PLOWMAN UNEARTHS GOLD COINS

Kalispell, Mont., June 8.—The discovery of gold coins in a tin can unearthed by a plowman employed by Alby Oullette on his ranch near here yesterday, revived tales of treasure buried by pioneers during Indian raids.

Ripped by the share the coins rolled from the can onto the ground. The farmhand told Oullette of his find and a search revealed several other pieces of gold. The total estimated value was \$50.

You'll Do Better at Kelly's

You Should Have One!

Here's a range in which you can burn either coal, wood or gas and get exactly as good results as you could from a separate coal range or gas range. In the winter when you want your kitchen and adjoining room warm and cozy, burn coal in it; in summer cook in comfort with gas. In spring and fall use whichever you please—changing the fuel to meet the weather's varying moods—use both gas and coal at the same time, if you wish.

Stewart Combination Coal and Gas Range

In the Combination Stewart you get both a coal range and a gas range for but a few dollars more than the price of a single-fuel range. It takes up no more space in your kitchen than a one-fuel range. It gives you a quick fire in case of emergency and a warm fire whenever you want it. It is the one two-fuel range that hasn't a single drawback, but gives you absolutely satisfactory service at all seasons and under all conditions.

STREETS WILL BE WIDENED

Mayor Promises Improvements to Morningside Park Residents.

Council Postpones Action on Housing Code; Much Routine Business.

Morningside park will have wider streets, as soon as the details for the changes can be worked out, according to a statement made by Mayor Prince to a delegation of residents from that end of the city at the regular council meeting last evening. In addition several other matters were taken up by the commissioners.

Homer C. Fulton, attorney, spoke in behalf of the Morningside park residents, and he declared that the streets at the present time are but 15 feet wide and that property owners want a 30-foot street in the center of that part of the city. The present plan, he said, did not pass the council, but was submitted by the council auditor. There are ninety-two lots included in the Morningside park plat.

New Plat Will Be Made.
After some discussion, Mayor Prince, speaking in behalf of the commissioners, declared that a new plat will be prepared and in view of the fact that the property owners want the changes, the council has no objection. Assessments will be levied against all the owners of property.

A resolution was adopted placing the salary of Leonard McHugh as the wheelage tax collector at \$130 a month. The mayor's pay was also ordered amended to show that such was the compensation fixed.

The contract for printing the index of the 1914 council proceedings was awarded to the Greer Printing company on its bid of \$159.

The house-moving ordinance, requiring a deposit with telephone or electric companies for the removal and adjustment of wires, was passed last evening, after it had been amended by striking out a requirement for a permit from the commissioner of public affairs and taking the power of arbitrating disputes from the affairs division to the entire council.

Final action on the housing code and the ordinance prohibiting searchlights on automobiles was postponed until next Monday evening.

Robert McLean were awarded the contract for paving Kenilworth and Sussex avenues on their bid of \$8,824.66, and Kiffin & Co. the contract to lay cement walks west of Twelfth avenue west on their bid of \$1,998. The council passed the ordinance appropriating \$15,000 for the purchase of coal during the year beginning July 1.

Several Contracts Awarded.
Action on the claim of Edward Johnson for \$500 as damages to his property from the overflow of Keene creek at Fond-du-Lac two years ago was laid over for another week.

The commissioner, Merritt, introduced a resolution awarding the contract for the painting of the aerial bridge to Stromquist & Moyer on their bid of \$1,113. Final action will be taken next week.

The Interstate Construction company was awarded the contract for the installation of 20-inch cast iron pipe at New Duluth on its bid of \$124.

WILL BEGIN WORK THIS SUMMER

Kauppi Promises Prompt Action on Cloquet-Saginaw Road.

At a meeting of the good roads committee of the Commercial club yesterday, County Commissioner Charles Kauppi announced that work on the highway that will connect Cloquet with Saginaw will be begun this summer. The committee asked Mr. Kauppi to be present at its meeting. He attended and his promise was the result. Carlton county has sought the completion of the road for some time, for it will give access to a rich farming country and will give Carlton county farms an outlet in this direction.

Mr. Kauppi said yesterday that it is planned to spend about \$30,000 on the road this year, the construction work to begin at the southern boundary of St. Louis county and go northward. There has been considerable dispute between the county-boards of St. Louis and Carlton counties over this road, the former board insisting that the latter bear half the expense of the proposed highway. An attempt was made to settle the matter by the old St. Louis river road along the southern edge of the county. Mr. Kauppi asserted yesterday that each time this request was made of the Carlton commissioners they replied that their road fund was too depleted to permit them to bear a share of the expense.

TEETH OF AMENDMENT TO JITNEY MEASURE EXTRACTED

Drivers Attend Meeting Ready to Protest—Find No Need.

THE ORIGINAL AMENDMENT.

Following is the amendment to the city ordinance, providing for hourly schedules and routes, as it was originally introduced:

"Each auto car shall have a fixed route and shall, when running regularly, traverse said route from one end to the other thereof, and also in the reverse direction, making a complete circuit of said route at least once every hour, between 7 a. m. and 7 p. m. Such route shall be indicated by the auto car and also on the license of said car, but may at any time be changed by the permission of the commissioner of public safety."

Duluth will not have a jitney ordinance making hourly schedules and routes compulsory, because the original measure, containing this provision, and which was to have received its third reading at the council meeting last night, was changed without anything being said about it, and the hourly schedule feature eliminated, making the amendment almost meaningless and wholly harmless from the jitneys standpoint.

The new measure was read by City Clerk Borgen at the opening of the meeting, and when Capt. C. C. Teare, attorney for the Duluth Jitney association, arose to object to hourly schedules and routes, he was informed by Commissioner Silberman that a safety division that there was no such feature in the amendment.

"I have a copy here that was given me Saturday," said Capt. Teare, "and provides for hourly schedules and routes."

"Read this over," suggested the safety head, "and you will find no reference to hourly schedules."

Provision Regarding Hourly Schedules Removed on Attorney's Advice.

THE SUBSTITUTE AMENDMENT.

Here is the amendment that was presented last night in place of the original, and which was to have been passed over the first ordinance:

"Each auto car shall have a fixed route and shall, when running regularly, traverse said route from one end to the other thereof, and also in the reverse direction, making a complete circuit of said route at least once every hour, between 7 a. m. and 7 p. m. Such route shall be indicated by the auto car and also on the license of said car, but may at any time be changed by the permission of the commissioner of public safety."

The original amendment providing for hourly schedules has "died an unnatural death," after two readings. The council chamber was packed with jitney drivers and persons interested in the proposed amendment.

On Attorney's Advice.
After the meeting Commissioner Silberman admitted that the amendment had been changed at the suggestion of the city attorney, who had declared that it could never be legally enforced. The city clerk said that the new measure was given him yesterday after noon and that it had been passed over the ordinance introduced last Wednesday night. "No one can explain how the amendment was given its second reading last night."

Although the new measure contains no feature of any importance, there was an undue amount of excitement at the meeting and for some time it looked as though the entire evening would be given over to a discussion on the jitneys. Citizens after citizens arose to speak his mind on the subject, and only the intervention of Mayor Prince saved the commissioners from holding what looked like an all-night session.

Should Regulate Jitneys.
John Norton, who declared he represented a number of citizens in Duluth, attacked the new amendment and said that the council should regulate the jitneys so that they will have a fixed route and not a back regulation. "Definite routes," he said, are reasonable and, if common carriers, they become amenable to the traffic laws.

"If you don't regulate these jitneys as should be done," said Mr. Norton, "you are giving an ordinance to a measure that is no earthly use whatever. I thought the original amendment was introduced last Wednesday evening and which received its second reading last night."

Instead of giving the substitute measure its first reading last night, "second reading" was called by the safety commissioner and the amendment was to come up for its third reading at the meeting of the council. As a result, the original amendment was not passed.

Brainerd, Minn., June 8.—(Special to The Herald.)—The high school graduates of the largest classes in the history of the local schools, forty-four pupils, and Rev. James E. Freeman, rector of the Episcopal church, Minneapolis, delivered the commencement day address.

Dr. Freeman paid a glowing tribute to President Woodrow Wilson, whose conduct of his great office at this critical time had won the favor of the whole world. "He will be accounted as a worthy successor of President Lincoln," he said, "and his administration of all affairs and one that made the world believe in the future of this nation and on its coins it places the name of Woodrow Wilson. This belief, however expressed, must be made more vital."

CLASHES WITH CONTRACTOR

Commissioner Farrell in Hot Dispute With "Paddy" McDonnell.

Choice of Material for First Street Paving the Cause.

Commissioner Farrell, head of the works division, and Patrick McDonnell, paving contractor, clashed at the council meeting last night over the selection of bituminous for the First street pavement. From Twenty-eighth avenue east to Congdon park, and as a result a meeting of property owners will be held preceding the meeting of the commission next Monday evening. In addition Mr. McDonnell announced this morning that property owners along East First street, the city commissioners, competitive bidders and any one interested in asphalt and bituminous pavements, are invited to take a trip over First and Superior streets next Thursday morning at 10 o'clock at his expense. The trip will be made in automobiles and Mr. McDonnell plans to show the difference between asphalt and bituminous pavements.

McDonnell Makes Protest.
The clash came following a protest made by Mr. McDonnell against bituminous for the First street pavement. A resolution awarding the contract to the General Contracting company of Minneapolis on its bid of \$24,985.47 for bituminous was introduced by Commissioner Farrell. As the contract involved an expense of more than \$1,000, the resolution will have to go over until next Monday for final action.

The contractor and works commissioner engaged in a very heated debate for more than a half hour, at the end of which time Mayor Prince announced that the resolution would not come up for final action until next Monday and that the council was willing to meet with the property owners at any time and deliberately settle the matter. It was then decided to meet with the property owners at the regular council meeting next Monday evening.

Owner Chose It.
"Why is this contract for bituminous being introduced after the reading of the resolution?" "Because property owners want it to choose it at a meeting in my office," said Mr. Farrell. "Fifty per cent of affected property owners in the city have chosen it. It is a bituminous pavement in the city of Duluth, the best asphalt."

"I don't want to be humbugged, Farrell," said Mr. McDonnell. "What authority are you on asphalt, anyway? How Farrell? I'm an expert. Ask me. I've been paving roads for thirty years. There are thirty other asphalt bidders better than Trindler."

"You are an inexperienced man. You don't know anything about asphalt. You use Paddy as a target and advertise me as a bad man throughout the Duluth press. The Duluth newspapers are read all through the Northwest, and wherever I go they ask me what's wrong with me in Duluth. You're too young to kid Paddy. It is easy to criticize the work of a contractor. But let the critics try doing something themselves."

Tried to 'Stick to Paving.'
At this point Mayor Prince interrupted and declared that the council was discussing paving matters and not personalities.

"I don't want to go to it," said Commissioner Farrell. "If he can get me recalled on First street all right, but as long as I am on the job, we'll have no more bad streets. Bituminous asphalt is the best pavement. The city of Duluth is an example. McDonnell got 35 cents extra on the East Superior street job. I'll get the bonding company to make repairs if possible."

Property owners choose a standard street, the city will accept it. The bituminous contract on East First street will go through, as far as I am concerned."

Farrell declared that a number of owners want an asphalt pavement, and he promised to bring them all to the meeting next Monday.

"We'll have a show-down at that meeting," concluded Mr. McDonnell as he took his seat.

Mr. McDonnell submitted the lowest bid on an asphalt pavement for East First street, but at a meeting of property owners held in Commissioner Farrell's office last Friday, bituminous was selected. Mr. Farrell claims that these owners represented over 50 per cent of the property affected by the proposed improvement.

ITALIANS TO RAISE RED CROSS FUNDS

Duluth Colony Will Hold Mass Meeting to Perfect Plans.

Before the first consignment of volunteers leaves Duluth for New York, whence they will clear for Italy to be organized in the struggle against the German-Austrian forces, Italians in the various cities of the Northwest will hold a mass meeting to consider plans for helping the mobilization work and to raise funds for the support of the Red Cross society's work.

Members of the Duluth Italian colony will hold a meeting at St. Peter's Italian church 10 Eleventh avenue west, some time in the near future, although the exact date has not yet been decided upon.

Rev. Fr. Zarilli, head of St. Peter's church, is in charge of arrangements for this meeting, and has sent out invitations to prominent Italians of Duluth.

Low Bid on Sewer.
Gust Hiner submitted the lowest bid on laying a sanitary sewer between Olney and Tacony streets and between Sixty-first and Sixty-third avenues west, and he will be awarded the contract at the council meeting next Monday. The bids were opened yesterday by Secretary Culver of the works division.

The bidders and their proposals follow: Gust Hiner, \$1,155.81; Charles Eklund, \$1,227.46; C. J. Greenlund, \$1,350.31; A. Hedenberg, \$1,439.31; Norquist & Berg, \$1,446.75; Olman Murphy, \$1,456.30; J. R. MacLachlan & Co., \$1,459.31; George W. King, \$1,866, and John Hedenberg, \$1,811.40.

CHRISTIANITY AND SOCIALISM.

To the Editor of The Herald: In the social message of the Bible it can be shown that Socialism is the economic expression of the religious life. To end the class struggle by the establishing of industrial democracy and to hasten the reign of justice and brotherhood upon earth, and that the economic teaching of the Scriptures would find its fulfillment in the co-operative commonwealth of modern Socialism.

WAR AND THE AVERAGE MAN.

To the Editor of The Herald: Here is the way the average man looks at it—I mean the one who has no interest in a powder factory, gun or other foodstuffs, nor a son waiting for promotion in the army or navy, but the average man of the large majority who would have to do the actual fighting if we declared war. We believe that war is only justified in self defense. No government should have power to declare war unless the majority of the people demanded it.

What does the average man gain to be killed or mutilated and leave widows and orphans or help to make the tax of the war debt for generations to come? We don't believe any honor will result from the United States to get mixed in this horrible war. Let the fighting nations fight it out for themselves. If we have any serious grievances against any of them let us hold it against them and demand justice when the war is over and if we feel that the world will be in a good shape to do it in the end.

AFTER SUFFERING TWO LONG YEARS

Mrs. Aselin Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Minneapolis, Minn.—"After my little one was born I was sick with pains in my sides which the doctors said were caused by inflammation. I suffered a great deal every month and grew very thin. I was under the doctor's care for two long years without any benefit. Finally after repeated suggestions to try it we got Lydia E. Pinkham's Vegetable Compound. After taking the third bottle of the Compound I was able to do my housework and today I am strong and healthy again. I will answer letters if anyone wishes to know about my case."—Mrs. JOSEPH ASELIN, 622 Monroe St., N. E., Minneapolis, Minn.

Lydia E. Pinkham's Vegetable Compound, made of native roots and herbs, contains no narcotics or harmful drugs, and today holds the record of being the most successful remedy we know for woman's ills. If you need such a medicine why don't you try it?

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (Confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

People of United States want war. It looks to me like hypocrisy to talk of war and even get down on our knees and pray for peace and at the same time manufacture and sell to the warring nations all the munitions of war they are able to buy. Just for greed. Here the cry goes up what would the working people do if we shut off the manufacturing of munitions of war? For the sake of humanity let us ask the government to spend a few billions of dollars in building of public highways and waterways, which would be of great benefit and money well spent. Spending money on war brings benefit to no one and only brings destruction. The Good Book says: "What you sow you shall reap." If we don't stop being a party by furnishing material to continue this murder in Europe, we will soon reap it and see the best of our young men slaughtered the way the highly civilized nations so well prepared in Europe are doing today.

WOODSMEN AND OTHER PASSENGERS

To the Editor of The Herald: Almost all the workmen (especially lumberjacks) know that it is necessary to have a pass in order to gain admittance to the coach on a railroad train. His ticket entitles him to it. He knows that this pass consists of a fine suit of clothes and a good general appearance.

To convince the unbelieving I would just invite them to come to a passenger train in the lumbering districts, when it is about to be boarded by a bunch of lumberjacks and watch the brakemen look for the pass.

When passengers fortunate enough to be in possession of the necessary insignia come along, they are not only allowed to go where they please, but are courteously assisted aboard the train. But when the lumberjack puts in an appearance he is ceremoniously commanded to take the smoker along with the rest of his associates.

It is high time a crusade was started against this arbitrary imposition by the railroad companies and especially lumberjacks at whom it seems to be particularly aimed. I am doing all that is in my power to check it.

POEMS ASKED FOR.

Requests have been received for copies of "The Ladder of St. Augustine" from Wilhelmmina E. Dietrich of West Duluth.

Clifford Byron, Eveleth—I am writing you a line today for a little information in regard to butterflies. A large butterfly flew in on the porch today, the most beautiful one I ever saw, and I caught it. It measures about six inches from tip to tip of wings, and has a body like you know of anybody looking for such big butterflies. The insect you have captured is in all probability a Cecropia or a Prometheus moth, two large varieties of American moths and fairly common in these latitudes. They belong to the silk-producing family of these insects. The Herald knows of no collector of rare butterflies in this part of the country.

Wilhelmina Dietrich.—Will you please print in your Open Court column the recipe for making dandelion wine?—Take one quart dandelion blossoms, three sliced lemons (leave one seed), three pounds of white sugar, one quart of boiling water (spring water preferred). Put the blossoms and lemons in alternate layers in a stone jar and pour the boiling water over them. Add the sugar and let stand ten days. Strain through a flannel bag and bottle.

J. J. D., Duluth—Kindly answer following questions:

1. Did Germany at any time during the last two years ship munitions of war to any of warring factions in Mexico?
2. Did the government of the United States prevent the landing of firearms from German ships at Vera Cruz?
3. Did the German ships evade the United States government officials and succeed in landing their cargoes of firearms for the revolutionists at a secluded place along the Mexican border?

—Germany did ship munitions of war to Mexico. The ship was stopped by the United States government when it held Vera Cruz.

Two Different Effects

The quality of food is very largely determined by the ingredients in the baking powder with which it is made. Cream of tartar baking powders, such as Royal, add only healthful qualities to the food.

The cream of tartar of Royal Baking Powder as used in food has the same wholesome effect on the digestive system as the cream of tartar in grapes, from which it is derived.

In like manner it is in evidence that the unwholesome effects of alum, which is a mineral acid salt, exist in food made with alum baking powder.

There is a clause on baking powder labels which names all the ingredients. Read it and let it guide you.

OUT OF WORK, MAN STEALS; MOTHER ILL

Frank Kieley Pleads With Judge to Save Parent Worry.

With his aged mother seriously ill, Frank Kieley, age 41, the only other member of the family, was arrested yesterday afternoon and held in \$1,000 bail on a grand larceny charge. Kieley pleaded, "can't you let me go?"

It was a mistake, Judge. Kieley pleaded, "can't you let me go?" Kieley came to Duluth with his mother, from International Falls about a week ago, he told Detective J. L. Bradley, so that she could be treated. He has not been working since he came to Duluth. A roll containing \$37 from Oscar Ostrom, a transient, when the latter displayed the roll at the foot of the incline railway on June 4.

Detectives Toews and Bradley arrested Kieley.

REQUIRED TO PAY BUT HALF OF TAX

Special Taxpayers Included in Federal War Tax Regulation.

According to information received at the office of the deputy collector of internal revenue, special taxpayers, including dealers and manufacturers in certain lines of business will not be required to pay more than half of the so-called special war tax. Bankers, brokers and dealers in real estate, and theaters are included in the list. Regarding this regulation the deputy collector said today:

"The internal revenue office is advised that special war tax payers under the so-called war tax law, including bankers, brokers, clear and tobacco manufacturers and dealers, proprietors of billiard halls, bowling alleys and theaters are required to pay but half of the amount of the special tax for the year beginning the first of next July."

It may be paid at any time during that month or the present month of June.

The Norroena club, the purpose of which is to promote the welfare and social intercourse of the Scandinavians of Duluth, was organized last evening at a meeting of local Scandinavians held at the Elks' club rooms.

About forty were present. John Uno Sebestien was selected as president, John J. Moe, first vice president, J. J. Vangenstein, second vice president, Capt. Albert Swenson, secretary, and Odin Halden, treasurer. The directors named were: Capt. Albert Swenson, Dr. D. E. Seashore, Mar-

TRAFFIC MORE SATISFACTORY

More General Freight Now Being Handled Than in Months.

Reports Indicate Bumper Crop Will Be Harvested This Year.

Freight traffic from the Head of the Lakes over the West is bounding to nicely, according to Duluth railroad officials. The volume of general merchandise being shipped out by local wholesale and manufacturing establishments is increasing and freight receipts are counting upon handling a heavier tonnage from now on.

Better Local Business. "We can notice a marked betterment in our local business and more general freight is being handled than in some months back," said John L. Thomas, general agent of the Northern Pacific today. He averred that reports from agents regarding crop prospects could not be more satisfactory than at present. The condition of the wheat plant is pronounced to be perfect and unless some serious weather developments should materialize within the next three or four weeks, a record yield is predicted.

Northern Pacific made a satisfactory showing during April, net income being reported at \$1,429,230, compared with \$1,359,322 for the corresponding month last year, an increase of \$69,907. The road's net for the ten months ending April 30 was \$12,105,246, a decrease of \$640,000 from the same period last year. It is hoped by the management that this decrease will be largely cut down before the close of the fiscal year ending June 30.

It is expected that the road will earn its 7 per cent dividend on its common stock for the year, with approximately \$1,000,000 to spare. This year the road will have a dividend on the stock of the Northwestern Improvement company, a subsidiary that handles its land sales. This is taken as undisputed evidence of the fact that the road's campaign to induce settlement upon its farming tracts in Minnesota and North Dakota.

Net Income Greater. Great Northern's net income increased to the extent of \$33,182 during April, the figures of the month standing at \$238,448 against \$205,266 last year. For the ten months its net income aggregated \$2,036,723, over the same period in 1914. If rigid economy, a decrease in gross revenue of \$23,234 was converted into the gain mentioned.

GIVEN ONE WEEK TO PAY LICENSE

Wm. Hesbeck "Hard Up" After Operating Saloon for Fourteen Years.

Unless William Hesbeck, 314 Lake avenue south, can pay \$1,000 by next Monday for the liquor license granted him on May 17, his permit will be revoked.

At the council meeting last evening Mr. Hesbeck asked the commissioners for more time and pleaded with the officials not to put him out of business. He said that he had been in the saloon business here for the last fourteen years and that this is the first time he has needed money for a license.

As a result, a resolution prepared by Commissioner Silberstein, to reconsider the granting of the permit and revoke the license, was laid over until next Monday night.

Saloon license renewals were granted to Edward L. Olson, 509 West Michigan street; A. A. Erickson, 214 South First avenue; and J. J. Peterson, 524 West Superior street; Luther Dawson, 21 West Michigan street.

Other licenses granted last night follow: Cigarettes, Byers Pharmacy, 928 East Fourth street; and East Ramsey street; second hand stores, Northwestern Iron and Metal company, 17 East First street; Sam Gold, 633 West Superior street; and Sam Kasper, 204 West Michigan street; plumbing, James Gorman, 2423 West Superior street.

ST. PAUL CHILDREN'S HOME HAS GOOD YEAR

From the annual report of the superintendent, the Children's Home society of Minnesota has just closed a very successful year. The finances are in good condition. Many improvements have been made on the property which is located at St. Anthony park, St. Paul, and others are contemplated.

The society is incorporated under a law of the state passed in 1903 to legalize its work for the purpose of receiving and placing dependent children in family homes. Section 1732 reads: "All associations receiving and placing dependent children under the same visitation, inspection and supervision by the board of control as are the public charitable institutions of this state. While the society is supported by private charity, it is thus under state supervision, reports to the board of control and receives from it a certificate each year."

A little paper is published, and representatives of the society are constantly traveling throughout the state, speaking in churches and seeking homes for the children, and thus many excellent homes are secured. Applications are often sent to the office and sometimes exceed the number of children to be cared for, but sometimes they are not from such persons as are desirable to place children.

Two hundred and forty children were in charge in the year closing April 1, 1915, and 3,720 in all have been cared for. Fifty-two are now in the home.

SMALLWOOD GETS BACK PAY AT LAST

At last Judge Smallwood has come into possession of the \$150 salary held out during his election contest.

This "roll" has been the cause of a dispute between the city and the Roosevelt-Barnes libel suit to the second case.

Last night Mayor Prince introduced a resolution to draw an order for \$150 on the city treasurer to pay Judge Smallwood his salary from April 13 to April 30. The resolution was adopted.

MAYBE CONNE MACK WAS WISE TO WORTH OF COOMBS

Story Says Willy Philadelphia Leader Asked the American League Magistrates to Keep His Castoff Twirler; It Looks as If the Sport Followers Are Adopting the Simple Life.

BY BRUCE.
JOHN WESLEY COOMBS is one of the distinctly modern types of a ball player, the player joining the Philadelphia Athletics shortly having his diploma placed in a gift-edged frame. All through his career on the diamond Coombs has been a fine example of what a ball player should be.

Up to the time Coombs was injured he was ranked with the great pitchers of the land. The last of his injury was directly due to the zeal and enthusiasm of Coombs and his love of victory.

Connie Mack left Bender, Plank and Coombs out last fall. Why? The answer is in a measure eloquently simple and direct. The lasting thing like \$60,000 in baseball last season. Every one of these twirlers was drawing a large salary from the Philadelphia club. Need ask why Mack startled the baseball world by the release of Bender, Plank and Coombs and the sale of Eddie Collins?

There is a little story in connection with the cutting adrift of Coombs. Cornelius McGillicuddy has long been famed for being one of the shrewdest men in the baseball, if not the shrewdest, and followers of the pastime have vaguely wondered and idly speculated as to why Mack should be so completely deceived as to the future ability of Coombs.

The story says that Mack was not deceived; that he knew Coombs had several years of good baseball left in him, but that the lack leader of the famed Athletics had sternly resolved that if the fans of the Quaker city would not support one of the greatest baseball machines in the world, he would give them a cheap team.

It is also stated that Mack, loyal to the American league before all else, begged every club owner in the junior major to take Coombs. Taking Coombs would obligate the paying of his rather large salary, and the entreaties of Mack met with curt refusals.

So Coombs went to the National league and today is pitching almost as good ball as in the days when he was dubbed the iron man of baseball. If the story of Mack's entreaties is true, then the American league lost a great pitcher because it did not believe in the judgment of Mack—and the fans of Philadelphia lost a great pitcher because they were evidently unwilling to pay to see a grand aggregation of ball players perform.

Signs of the Times.

HARRY FRAZEE was the man behind the tour of James J. Jeffries. It is said that Mr. Frazee collected something over several hundred thousand dollars as his end of the theatrical venture of the former heavy-weight title holder.

As all the sport world knows, Jack Johnson took the measure of the California giant. Then the hue and cry was raised over the length and breadth of the country for some man who could dethrone the ebony hued gladiator.

The country was sufficed with white hogs. The hue and cry for some man of mastodon proportions was heard around the world, like the first gun at Sumter. Willard came, was intensely ridiculed and finally conquered.

From the inner offices of big theatrical agencies to the open court of street corners it was repeated that the first man who licked Johnson would make a million. Astute producers of amusement enterprises believed it. Scatter-brained followers of sports, believed it.

Fismet—along came the Willard-Johnson fight and the world was treated to the spectacle of a once great fighter being beaten down to the crab dust of oblivion by this gangling cowboy. The man who was to collect the million was at hand.

Old Otto Floto and others friendly to the Curley combination blazily sounded the tocsin and loudly declared that Jess was packing 'em in. Such was not the case. The tour of Willard was such a frost that it was found necessary to call it off. A wild west show made the new champion an offer and it was gladly accepted.

Now the whys and wherefores of this shrewd man like Harry Frazee, and Lawrence Weber, another theatrical magnate, and sporting men like Jack Curley and Tom Jones were dead wrong on the proposition of Willard making big money. So was the whole world as a matter of fact.

Willard ceased to be seriously considered for nine days. Are we living in an age that moves so fast, that produces so many big events, so many stupendous spectacles, that we refused to be awed? Or are professional sports on the wane? It is a difficult question to answer, and yet one that is being gravely considered by every thinking man who follows the trend of the times.

College professors are strenuously advocating the abolition of intercollegiate football and the playing of a form of sport that will call every man in college onto the athletic field. Municipal golf fields are daily taking thousands out into the sun and air.

Are we American as a nation losing our zest for professional sports in a new born ardor for amateur competition? Things are changing. A blase man from the swirl of the city often becomes entranced with some simple bass of the country—see latest best sellers. Perhaps in the midst of the busy whirl of this age of miracles the people are turning to the simpler sports and pastimes.

It is indeed something for the promoter to think over.

CRITICISM IS USELESS

Suffragette Says Older Organization Must Welcome New Ones.

Women Cheer Signing of Bill By the Governor of Florida.

Chicago, June 8.—A telegram from Governor Trammell of Florida to Mrs. Roosevelt C. Cooley, stating that he had signed the bill, charter act, for which the women had worked, was received with cheers at the midyear conference of the National Woman Suffrage association here today.

Miss Alice Stone Blackwell of Boston, Mass., addressed the delegates and Mrs. Medill McCormick, chairman of the congressional committee of the association, further explained the work of her committee.

"We must get together and criticize as little as possible," said Miss Blackwell. "When we of the older organizations see new ones spring up we do not exactly welcome them, but we must remember that after all we are working for the same object, although possibly by different methods."

"We are making great progress in the south, and we will make it faster when it is understood that the Bristol-Blondell amendment does not enfranchise white women indiscriminately, but only in the same way that men are enfranchised."

Methods of Campaigning. The methods of campaigning were expected to be devised at today's session.

Miss Laura Clay, granddaughter of Henry Clay, and a Kentucky delegate to the conference, announced that she had drafted a measure which permits women to vote for senators and representatives. She plans to have it introduced at the next session of congress.

POSSIBILITY OF PEACE AWAKENED BY VISIT OF HOLLANDER TO CAPITAL

(Continued from page 1.)

Geldemeester had been in Berlin and had been at the German foreign office, gave his visitor a letter of introduction, setting forth the fact that the ambassador carried no credentials from Germany and had absolutely no official connection with his government.

Mr. Geldemeester left Washington Saturday without seeing any prominent officials of the American government. He stated on his trip to New York, Chicago and other cities with the idea of convincing the editors of German-American newspapers of the help they can render in promoting better and more friendly relations between Germany and the United States.

While in Washington, the impression to those with whom he talked, that there was no party of some importance in Great Britain as well as in Germany, and what was needed at present was a continued pressure by the neutrals for mediation. He intimated to his friends that he feared his own country—Holland—might even be drawn into the conflict if it continued but was grateful that efforts by neutrals to mediate.

NEW N. P. DEPOT. Aitkin Commercial Club Gets Good News From President Hannaford.

Aitkin, Minn., June 8.—(Special to The Herald.)—Aitkin is to have a new brick Northern Pacific depot and the tracks rearranged to meet the new requirements, according to a letter just received from President Hannaford by the Commercial club. Work will be started at once and the new building is to be ready before cold weather.

The proposal of the company to repair the old depot met with protests from the people and resolutions by the Commercial club asking that a new depot be built. President Hannaford did not consider the time ripe for the improvement he decided to go ahead and has given instructions to the depot, plans for which were drawn some time ago.

Just Apply This Paste and the Hairs Will Vanish

(Boudoir Secrets)

The judicious use of a delicate paste insures any woman a clear, hairless skin. To prepare the paste, mix a little of the prepared cream with some water, then apply to the objectionable hairs for 2 or 3 minutes. When the paste is removed, and the skin washed, every trace of hair will have vanished. No pain attends the use of the delicate and it will not irritate the most sensitive skin, but to insure results, see that you get real delatone.—Advertisement.

Significant Impressions.

Most significant of the impressions which Mr. Geldemeester brought from Berlin, it was said, was that a large section of the population, and an important element in the German government itself, were not in sympathy with the extreme militarism, and believe a discussion of peace terms not undesirable.

Just how far Mr. Geldemeester may have been encouraged in Berlin to present his views to the people in the United States, is not definitely known. James Addams, and others interested in peace who have recently visited Berlin, have been cordially received by high German officials and in German quarters here, lately, there has been constant reference to the likelihood of peace growing out of the present correspondence concerning neutral rights.

In allied quarters here, any talk of peace emanating from Germany, is looked upon with much circumspection and doubt, and the time is regarded as inopportune with German troops on French, Belgian and Russian soil. It is suggested that peace talks might be designed to divert the attention of the government from the serious issues involved in the sinking of the Lusitania.

Mr. Geldemeester is expected back in Washington in a few days. He may be seen by officials, but to inform himself in other ways on the subject of peace. It is thought that he will be reflected in the diplomatic and the official quarters at the capital of the neutral nation. He plans to return to Europe soon.

To Announce Conditions of Peace.

Amsterdam, via London, June 8.—The Cologne correspondent of the Tys says a report is current that Austria and Germany will shortly announce their conditions of peace, in which emphasis will be placed on the declaration that the German allies are not engaged in a war of conquest but only to insure the security of their territory.

FRENCH BEGIN AN EXTENSIVE ADVANCE

(Continued from page 1.)

On the western front, merely recording the progress of French attacks.

On Eastern Front. From the eastern front the Russians claim to have pushed their offensive movement across the Petrograd front. The advance of the Austro-Germans across the river Dnieper has been checked. Dubaya changed hands five times in one day with the Russians finally in possession and the Austro-Germans in the scene of the most important Italian advance into Austrian territory.

There has been little news with regard to this Italian movement, other than the official admission from Vienna that the Italians appear to be advancing against the Austro-Germans in the region of the Isonzo. Although the opposition leaders have expressed their dissent, controversy has prevented the formation of a coalition cabinet.

French Statement.

Paris, June 8, 1915.—The French war office this afternoon gave out a statement on the progress of hostilities, which reads:

"In the sector to the north of Arras there were yesterday evening and last night some infantry engagements, but the eastern slopes of the plateau of Lorette the enemy replied to our attacks. This activity did not result in any change of position."

"To the northeast of the sugar refinery of Souchez, we yesterday made further progress."

"At Neuville St. Vaast we gained possession, as a result of our fighting, of a further group of houses. In the region of the labyrinthine German counter attack has been repulsed."

"To the southeast of Hebuterne the Germans yesterday endeavored to recapture the positions they had lost. Four different times they were driven back. We increased our gain to the northeast by taking possession of two lines of German trenches, along a front stretching for 500 yards, or as far as the roadway running between Hebuterne and Serre."

"We took a total of 150 prisoners, of whom 100 had not been wounded."

WOULD RAISE LAKE LEVEL

County Board May Construct Dam at Vermilion Falls.

Uncle Sam May Be Asked to Chart and Improve Lake.

St. Louis county commissioners at their June meeting this afternoon expected to take definite action on a petition for the reconstruction of an old dam at Vermilion Falls for the purpose of raising the waters of Lake Vermilion. The petition was presented to the board at its May meeting and was referred to E. K. Coe and A. E. Dyer, county engineers.

The improvement is sought by several residents of Tower and is urged by the Tower Commercial club. The engineers recommend that the dam be reconstructed as follows:

"We have examined the site of the proposed dam at the outlet of Lake Vermilion and find the construction would be quite ample. If the legality is clear, and the dam will maintain the water at about the level of May 17, 1915, to be built on the upstream side of the present foot bridge."

"This would necessitate a dam averaging about four feet high, and we recommend a timber crib filled with rock, gravel and earth, which is available at the site. The dam would be about eight feet wide, with numerous cross ties and openings, or near the middle—about thirty-six feet across, with the crib built down each side of the opening, an additional sixteen feet. Across the opening we would recommend a concrete dam with sufficient rock to weight it. This would provide a fish-way, which the law requires."

"The work would not cost to exceed \$10,000, and would be deemed advisable, either now or later, to build a road in connection with the dam, and earth could be filled on the downstream side of the crib, and a bridge built across the opening for a water way, at an additional cost of about \$1,200."

"We do not recommend a concrete dam at this time, as the cost would be about \$20,000, and the conditions and demands may necessitate a change in the width of the waterway. As Lake Vermilion is navigable and carries an important commerce, we further recommend that the United States government be urged to take over the improving and charting of the lake."

NOTE TO GERMANY AS FINALLY DRAFTED IS APPROVED BY CABINET

lunchtime on other members. The cabinet members said they were not likely to be changed, but they agreed upon today's meeting.

Delay in Preparation. The president explained that there had been a delay in the preparation of the note, that he had brought only a rough draft of it to the cabinet meeting Friday, and that there had been all sorts of suggestions since the cabinet last met. The president said, however, that he had not been modifying the note, but that he had been waiting for further information concerning the situation.

These two cases, however, do not affect the main principle, contending that Americans on unarmed merchant ships of every nationality should be treated as a place of safety before any prize is destroyed.

The president said he had learned only through the newspapers of the mission of Van Chell, and that he had arrived here in the interests of neutral mediation in the European war. Individual officials might have information concerning Geldemeester's trip.

When the cabinet assembled to discuss the note, Secretary Bryan was not among the number. He remained at his office at the state department.

At noon, after the cabinet meeting had been under way an hour, Secretary Bryan arrived.

"I'm sorry I am late," he said, as he entered the executive offices. "I sent word to the president I would be delayed by important work."

There were some indications that the discussion of the note might have been delayed until Mr. Bryan's arrival, but the cabinet proceeded with its work.

HIGH SCHOOL ZENITH APPEARS WITH MANY NEW FEATURES

Harold Coe. Townsend Hoopes. Mary McGonagle. Muriel Smith.

The Zenith, the official organ of the student body of the Duluth Central high school, has just come off the press in its twenty-second edition.

Yesterday 100 copies were placed on sale. Copies will be furnished to high school students until June 16. The annual is printed by the high school printing department and is up to its usual high standard. A number of new features have been introduced and the edition speaks well for those who had to do with its making.

The staff includes Harold Coe, editor-in-chief; Miss Mary McGonagle, assistant editor; Townsend Hoopes, business manager; and Robert Zuger, Muriel Smith, Ralph McCarthy, Esther Ross, Hazel Burnside, Irving Grover, Bertha Blair, Harold Baker, Mildred Turner, May Webb, Raymond Silk, Ben Wood and Horace Craig.

The book is dedicated to Leonard Young, principal of the school, who contains no advertising matter this year.

POSITION IS DANGEROUS

British Troops on Gallipoli Peninsula Without Support of Fleet.

Turks Said to Have Forced Allies Back With Heavy Losses.

Berlin, June 8, by wireless to Sayville, N. Y.—Among the news items given out today by the Overseas News agency is the following:

"Constantinople reports give further details of the severe defeat at Seddul Bahr. The Turks in their attack forced their enemies back and captured large stores of arms and ammunition and took prisoners. The position of the British troops is dangerous. They are without the support of the heavy guns of their ships, and the men are nervous and demoralized."

Forty Thousand Wounded. "Travelers report that at Alexandria, Egypt, there are no fewer than 40,000 wounded British soldiers."

The British consul general at this port, Frederick C. Selous, declined any connection with the matter, saying the responsibility lay with the official United States communication officials.

Congressman Taggart announced that he would go to Washington to discuss the situation with Secretary Bryan and officials of the department of justice. He said he had had letters from the parents of sixty young men in this state who had enlisted in England.

FIVE HUNDRED DYING DAILY IN MEXICO CITY

Streets of Capital Filled With Paupers Begging for Food.

San Antonio, Tex., June 8.—Streets of Mexico City are filled with paupers begging for food and the death rate is averaging five hundred a day, many of them children who die from hunger, it was said in a letter received yesterday by a relative here from H. Jamison Swann, for fifteen years a merchant in Mexico City.

The letter was received from a relative here from H. Jamison Swann, for fifteen years a merchant in Mexico City.

"While our residents are dying of hunger, soldiers of Zapata are robbing and killing," the letter stated. "General Garza is in charge of the situation, but he is unable to offer any relief. He already has confiscated all foodstuffs in the stores, private residences and restaurants, and is distributing it among the poor and middle classes. He was enabled to give each family rations for last through seventy-two hours."

Streets Filled With Paupers. "All day the streets are filled with paupers begging for food to eat. Most of the street beggars are women with babies in arms."

"At night naked children go to the streets of the city, and when morning comes their little bodies are stiff. Ammunition is being distributed to the hundreds every day. It is estimated that the death rate is a day, many of them children who die from hunger, it was said in a letter received yesterday by a relative here from H. Jamison Swann, for fifteen years a merchant in Mexico City.

Just recently a mob of hungry women forced an entrance into the chamber of deputies where Zapata delegates were endeavoring to amend the constitution. Mexican soldiers interrupted the meeting with appeals for food. The soldiers drove them away."

RAIN AND COOL.

Weekly Weather Prediction Issued by the Washington Bureau.

Washington, June 8.—Weather predictions covering the week beginning tomorrow were forecast today by the weather bureau as follows:

Great Lakes region—Rain is probable June 9 and again about June 12. Temperature will be somewhat below seasonable normal average.

Plain states and Upper Mississippi valley—Showers probably about June 11 and June 15, cool spell at beginning of week, followed by warmer weather. Short period of cool night temperatures will set in about June 12, after which weather will be about normal.

SAYS AMERICA WILL SHIRK OBLIGATION

Writer Declares Germany Does Not Want Lecture From United States.

Amsterdam, June 8, via London.—George Bernhart, writing in the Vossische Zeitung today, says:

"It appears as if America will shirk the obligation to discuss with us preliminary questions concerning the character of the Cunard line steamship Lusitania. Whether this British ship seems to President Wilson to be less important than to learn him as what we think of the prosecution of a submarine war."

Apparently he would have nothing to do with such distortion of facts. If President Wilson is not a patient man, he will not be able to wait for the Lusitania to be sunk."

THE GOOD JUDGE SEES HAPPINESS PERSONIFIED

JUDGE HE IS THE MOST CONTENTED MAN IN TOWN SINCE HE SWITCHED TO THE REAL TOBACCO CHEW.

HE CERTAINLY SEEMS TO BE SATISFIED WITH LIFE NOW.

SMILES like a basket of chips since he started using the Real Tobacco Chew. Fact is, men take to the little chew that satisfies like a duck takes to water—and how they talk about its goodness to each other.

A little chew of pure, rich, mellow tobacco—seasoned and sweetened, just enough—cuts out so much of the grinding and spitting.

THE REAL TOBACCO CHEW IS NOW CUT TWO WAYS!! W-B CUT IS LONG SHRED, RIGHT CUT IS SHORT SHRED.

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less than the old size chew. That's why it costs less than the old size chew.

The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much.

Notice how the salt brings out the rich tobacco taste. WEYMAN-BRUTON COMPANY 50 Union Square, New York

HAUGE SYNOD WILL CONVE

Question of Amalgamation With Other Norwegian Synods Coming Up.

Gathering Begins at Grand Forks June 9 and Ends June 16.

Grand Forks, N. D., June 8.—(Special to The Herald).—The annual meeting of the Hauge Norwegian Evangelical Lutheran synod will begin here tomorrow morning and end June 16.

The most important problem to be considered will be amalgamating with the other Norwegian synods. This problem has been before the various synods for a number of years and the Hauge synod will not definitely dispose of it this year.

Every phase of the question will be discussed, after which it will be referred back to the synod congregation for final settlement. At the 1916 meeting the final vote is to be taken.

The synod delegates also will consider the question of extending missionary work in China, and theological seminaries in that country, and, while no more institutions are contemplated, the synod expects to greatly expand the work in China. More missionaries undoubtedly will be sent to that country during the ensuing year.

The "home" institutions, such as the schools at Red Wing, Minn., Jewell, Ia., and Camrose, Alberta, and the institutions of Charities at Beresford, S. D., also will have their problems considered at this meeting.

No Official Election. With the exception of choosing board members to all terms, which expire next week, there will be no election of officers. The delegates will elect every three years, and they still have two years to serve.

A number of board-member terms expire each year, however, and these will have to be filled. The voting will be spread over the entire convention sessions. Three members will be voted on each time. By voting at various sessions in this way, the synod does not find it necessary to devote an entire session to elections.

Except for the opening session, which will be devoted to addresses of welcome and responses, there is no fixed program. The program for the remaining sessions depends upon the report of President M. G. Hanson, of Revere, Minn. In his report, he makes various suggestions and recommendations, and these are immediately referred to special committees appointed for each problem.

The entertainment feature will be a concert, which will be given Monday night, June 14. The proceeds of the concert will be given to the Missionary Society, which is erecting a house for the purpose of devoting this country on a full-time basis.

HAUGE SYNOD WILL CONVE

Question of Amalgamation With Other Norwegian Synods Coming Up.

Gathering Begins at Grand Forks June 9 and Ends June 16.

Grand Forks, N. D., June 8.—(Special to The Herald).—The annual meeting of the Hauge Norwegian Evangelical Lutheran synod will begin here tomorrow morning and end June 16.

The most important problem to be considered will be amalgamating with the other Norwegian synods. This problem has been before the various synods for a number of years and the Hauge synod will not definitely dispose of it this year.

Every phase of the question will be discussed, after which it will be referred back to the synod congregation for final settlement. At the 1916 meeting the final vote is to be taken.

The synod delegates also will consider the question of extending missionary work in China, and theological seminaries in that country, and, while no more institutions are contemplated, the synod expects to greatly expand the work in China. More missionaries undoubtedly will be sent to that country during the ensuing year.

The "home" institutions, such as the schools at Red Wing, Minn., Jewell, Ia., and Camrose, Alberta, and the institutions of Charities at Beresford, S. D., also will have their problems considered at this meeting.

No Official Election. With the exception of choosing board members to all terms, which expire next week, there will be no election of officers. The delegates will elect every three years, and they still have two years to serve.

A number of board-member terms expire each year, however, and these will have to be filled. The voting will be spread over the entire convention sessions. Three members will be voted on each time. By voting at various sessions in this way, the synod does not find it necessary to devote an entire session to elections.

Except for the opening session, which will be devoted to addresses of welcome and responses, there is no fixed program. The program for the remaining sessions depends upon the report of President M. G. Hanson, of Revere, Minn. In his report, he makes various suggestions and recommendations, and these are immediately referred to special committees appointed for each problem.

DAVENPORT, N. D.—A CLASS OF EIGHT BOYS AND FOUR GIRLS, WHO WERE GRADUATED FROM THE DAVENPORT SCHOOLS LAST FRIDAY.

Davenport, N. D.—A class of eight boys and four girls, who were graduated from the Davenport schools last Friday. The commencement address was given by Supt. Riley of the schools of Cass county, who spoke on the subject of "Arbitration vs. War." An excellent program was offered in connection with the graduation exercises.

According to F. W. Jones, Port Williams transportation agents, the business there has been "a little better" since the strike. Six cargoes have been unloaded—four anthracite and two bituminous—three carried in Canadian steamers and three in American steamers. The outlook is "not very bright. Only two cargoes are in sight. It is not clear whether the strike is one for the Canadian North coast, or if expected that business will be better. The Western car shipments were practically stopped long ago."

"There were no shipments of ore from Port Williams during the strike," Jones says. "This ore is lying at the rock at the rate of about 100,000 tons per day, and it will take about 400,000 tons to come down."

"The opening of the J. J. Jones & Co. wharf, at Port Williams, has been a big increase in grain shipments, but there has been a drop of 1,350,000 bushels in wheat shipments."

ROBERT LANSING NAMED ACTING SECRETARY OF STATE TO SUCCEED W. J. BRYAN, RESIGNED

RUSSIAN ARMY IN BUKOWINA CUT OFF FROM MAIN FORCES IN GALICIA AND DRIVEN EAST

STANISLAU CAPTURED BY AUSTRIANS

City Is Situated Seventy-Five Miles Southwest of Lemberg.

Stubborn Fighting Continues in Vicinity of the Dniester.

Germans Again Using Poisonous Gases North of Rawa.

Cologne, Germany, June 9, via London.—A dispatch from the Austrian press headquarters on the eastern front states that the Russian army in Bukovina, which had been strengthened by portions of the detachments already defeated at Kalusz, Eastern Galicia, has been fully cut off from the middle Galician forces of the Russians and is being driven back eastward.

STANISLAU CAPTURED.
Berlin, June 9, via London.—The Galician town of Stanislaw has been captured by the Austrians, according to the official statement issued by the German army headquarters today. Stanislaw is seventy-five miles southeast of Lemberg, the Galician capital.

Fierce Fighting.
Petrograd, June 9, via London.—An official announcement today reads as follows: "In the Shavli district, province of Kovno, the enemy received reinforcements, changed his front, and made an obstinate attack in the direction of Double. On Monday our troops had (Continued on page 11, sixth column.)

PRESERVATION OF PEACE NOT OF SUPREME CONSIDERATION

English Papers Comment on Resignation of Secretary.

Foreshadows More Decided American Policy With Germany.

London, June 9.—The Pall Mall Gazette, in its issue today, characterizes the resignation of Secretary Bryan as a political event of unmistakable importance. Continuing the newspaper says:

"It does not appear that any of Mr. Bryan's colleagues share the scruples which induced him to give up office and we assume that his secession will not impair any delay to the developments of the attitude of America toward Germany."

"Mr. Bryan's record as an advocate of arbitration and international friendship is well known and whatever the outcome of the situation may be, no criticism of a personal character can fall on the step Mr. Bryan has taken. At the same time it is obvious that if American influence is to have any effect upon Germany's methods of warfare, the United States must convince Berlin that the preservation of peace (Continued on page 6, fourth column.)

STATE SENATORS AND REPRESENTATIVES ARE WELCOMED AT CLOQUET

DROP BOMBS ON VENICE

One Person Killed and Several Wounded By Austrian Airmen.

Some Property Damaged But No Historic Building Injured.

Venice, June 8, via Paris, June 9.—One person was killed and several were wounded by bombs dropped today from an Austrian aeroplane which flew over the city. The property damage was not heavy and no historic buildings suffered.

Two Aeroplanes.
Later it was seen that there were two aeroplanes together. Their presence was signalled promptly, and they at once became the object of a concerted fire from the anti-airship guns stationed around Venice. There was a heavy fire and one of the machines gave up the attack and disappeared in an easterly direction. It is assumed that it was damaged.

EMPEROR TO RELIEVE AUSTRIAN GENERAL

Paris, June 9.—Information this afternoon publishes a dispatch from Rome saying that Emperor Francis Joseph has decided to relieve Gen. Conrad von Hotzendorf of the supreme command of the Austro-Hungarian forces on the Italian front because of the recent Italian offensive movements on this line.

OFFENSIVE RESUMED BY ALLIES AT STRAITS

Attack Begun With General Bombardment of the Turks' Positions.

Paris, June 9.—A Havas dispatch from Athens, filed yesterday, says the allies have resumed the offensive at several points on the Gallipoli peninsula since Friday, says a dispatch from Mitylene. The attack was begun in the morning by a general bombardment of the enemy's positions with the aid of the fleet. A fierce struggle all along the line followed and the fighting continues.

Transport Sunk.
Constantinople, June 9, via London, June 9.—An official statement issued today at the Turkish war office says: "On the Dardanelles front there was artillery fighting Tuesday. Fire broke out on an enemy transport struck by our shells. The vessel listed and soon sank. Another transport hastily left its anchorage."

SECRETARY OF STATE AD INTERIM

ROBERT LANSING.

DECLINES TO RECOMMEND CLEMENCY FOR LEO FRANK

Atlanta, Ga., June 8.—The Georgia prison commission declined to give to Governor Slaton a recommendation for the commutation of the death sentence of Leo M. Frank, convicted of the murder of Mary Phagan.

RUSS SUBMARINES ENGAGE GERMANS

Petrograd, June 9.—The Army Messenger, referring to the naval engagement June 6 in the Baltic sea off the Gulf of Riga, says that Russian submarines engaged no fewer than ten German warships, which were attempting a sortie into the Baltic. The explosions on board some of these vessels lead to the belief that damage (Continued on page 6, fourth column.)

CHANGE IN CABINET OCCURS AS NOTE TO GERMANY IS SENT

Bryan Retires to Private Life Rather Than Sign Note to Berlin Conflict- ing With His Principles.

Believes He Can Build Up Sentiment for Peace Outside of Official Life--To Assist the President.

Washington, June 9.—William Jennings Bryan formally left his office as secretary of state today and Robert Lansing, counsellor of the state department, was appointed by President Wilson as secretary of state ad interim.

The change in the cabinet at a critical moment in the nation's history took effect with the dispatch of the note to Germany.

Differing, not in the object sought, the prevention of war, but in the method of approaching the problem, Mr. Bryan resigned rather than sign his name to the note which states in unmistakable, determined and emphatic terms, the demands of the United States.

Mr. Bryan told his colleagues and friends today, as they gathered about him in farewell, that his affection for President Wilson was unchanged and that he knew the president felt as warmly toward him.

BACK TO PRIVATE LIFE.
Firmly believing he can advance the cause of peace outside of official life and build up a sentiment in the United States that will assist the president in maintaining friendly relations with all nations, Mr. Bryan today went back to private life.

The resignation of the secretary of state of the United States over a difference on a vital question of foreign policy, itself unusual in the annals of American history, was most dramatically touched by numerous manifestations of personal regard for Mr. Bryan and his own emotion at leaving the office he held so dearly.

Tears stood in his eyes while friends commended his courageous fight for principles and his determination to eliminate himself rather than continue in the cabinet as a possible embarrassment to the president.

STORY NOT YET TOLD.
The story of his fight to sway the president's judgment on method of dealing with the situation with Germany, is, as yet, untold. He made no effort to align other members of the cabinet with him, and when he came to the parting of the ways on an irreconcilable question of principle, he did not tell his colleagues generally and hoped that his action to the last would not produce any complications in the cabinet.

For three days—from Saturday to Monday—the president had (Continued on page 11, first column.)

DIFFERENCES WITH GERMANY SHOULD BE INVESTIGATED

Stand Taken By Bryan and Which Caused His Resignation From the Cabinet.

Washington, June 9.—Just as the new American note to Germany was started on its way over the telegraph wires, Mr. Bryan, at his home, gave out this statement of his position:

"My reason for resigning is clearly stated in my letter of resignation, namely, that I may employ as a private citizen the means which the president does not feel at liberty to employ. I honor him for doing what he believes to be right, and I am sure that he desires, as I do, to find a peaceful solution of the problem which has been created by the action of the submarines."

POINTS OF DIFFERENCE.
"Two of the points on which we differ, each conscientious in his conviction, are:

"First, as to the suggestion of investigation by an international commission; and

"Second, as to warning Americans against traveling on belligerent vessels or with cargoes of ammunition."

"I believe that this nation should frankly state to Germany that we are willing to apply in this case the principle which we are bound by treaty to apply to disputes between the United States and thirty (Continued on page 16, second column.)

POOR MEMORY HIS UNDOING.
Prisoner Couldn't Remember Working During Last Two Years.
 For two years Frank Kieley, aged 41, has been traveling around the country, and most of the time he has had money in his pocket, but in municipal court this morning he was unable to name a single place where he had worked in the two years.
 "Two years and a half ago I worked for the Virginia & Rainy Lake company," he said in response to Assistant County Attorney Forbes' queries. Later than that he "couldn't remember."
 His poor memory proved his undoing, for he was bound over on a charge of stealing \$37 from Oscar Ostrom, a laborer, although the state's evidence was lacking in many respects.
 Witnesses were unable to identify Kieley as the man who entered the

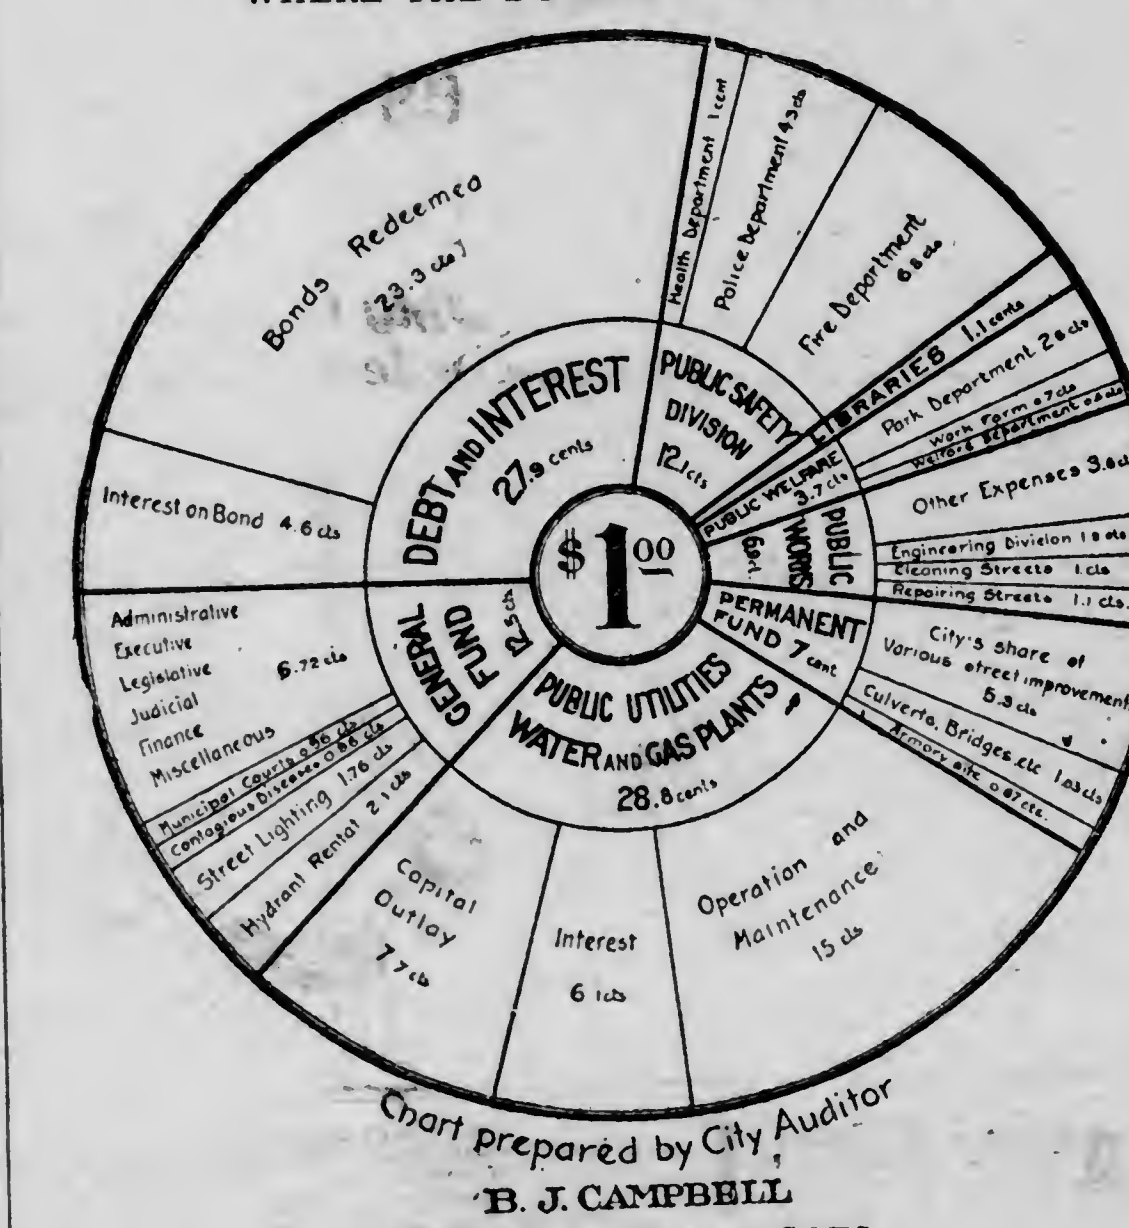

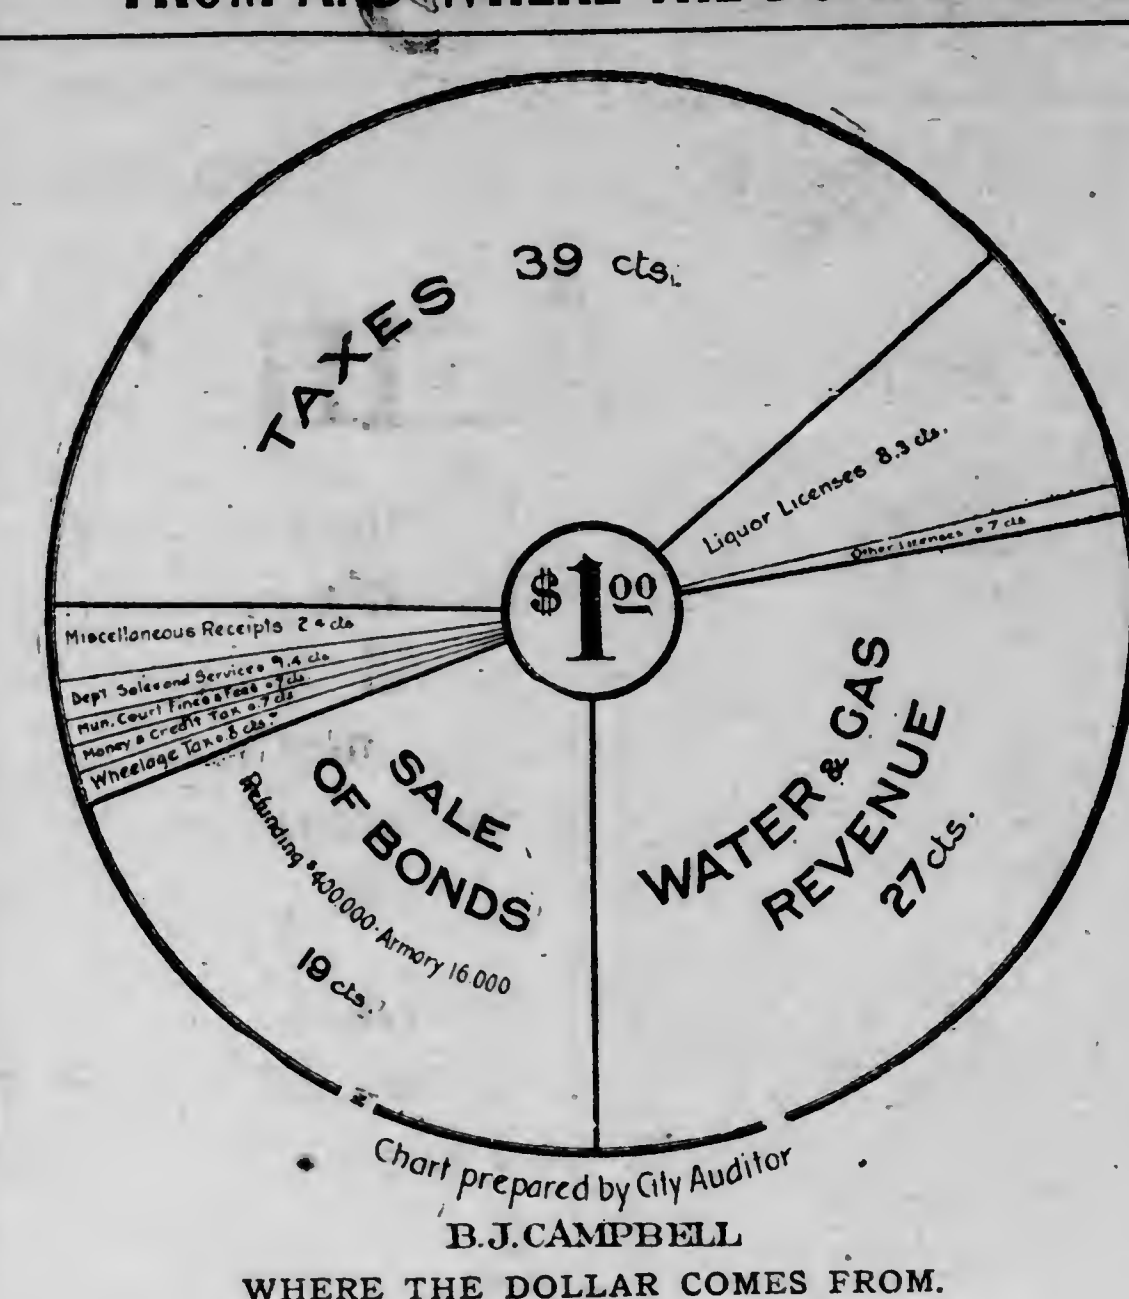

lunch car at the foot of the incline railway late on the night of June 4, and Kieley produced witnesses who testified that he was in Superior at the time of the robbery.
 Up to the time Kieley went on the stand in his own behalf, there was a preponderance of evidence seemingly in his favor. Patent misstatements and a poor memory turned the scale.
 Kieley, who has a police record, was bound over to await the action of the September grand jury under \$500 bail.

WIFE CHANGES HER MIND.
Has Hubby Arrested; Then Decides He Is "All to Good."
 Exercising the privilege of changing her mind, which cannot be denied a woman, according to authorities, Mrs. Cornelius Maher decided that her husband did support her, after all, and refused to appear in court against him yesterday afternoon.

On Saturday Mrs. Maher informed her mystified spouse that she had sworn out a warrant for his arrest, charging non-support, and commanded him to "go and get arrested."
 Always obedient, Mr. Maher went to headquarters, where he was duly placed in custody and released on bail. He laughingly denied the charge at the time and said he guessed his wife "was practicing."
 It developed that he was right.

OVERHEATED IN ICE HOUSE.
 In an early morning row over the disposition of some fresh fish, Charles Swanson, age 35, became overheated, although the argument took place in an icehouse, and is alleged to have used an ice pick to emphasize his argument.
 O. A. Mattson, the other member to the quarrel, did not like the chisel argument, and after two or three blows, began looking for a policeman. Officer Montgomery arrested Swanson and he was charged with third degree assault.
 Mattson, nursing a badly injured arm, was taken to his home and cared for. Swanson will be arraigned in municipal court this afternoon.

WHERE THE CITY'S DOLLAR COMES FROM AND WHERE THE DOLLAR GOES

Just where each dollar comes from and how it is spent by the city, is shown in detail in the accompanying charts, which were prepared by City Auditor B. J. Campbell, from the schedules and statements of his annual report for 1914, just off the press.
 The sectors of the two circles show the comparative amount received from various sources and the comparative amounts spent in the many city departments. The charts were completed this morning and officially passed on by Commissioner Voess, head of the finance division. They were prepared at the request of The Herald.
 The following statement was also prepared by Auditor Campbell in explaining the two charts:
 "This graphic representation of how the city spends a dollar during the last year includes not only the cost of operation, maintenance and interest of the several departments of the city, but also expenditures resulting in the acquisition of permanent properties and in the liquidation of a portion of its fixed indebtedness.
 "This comparison is based on the revenues and receipts from bonds, and supporting figures, schedules, and statements appearing in the auditor's annual report for the year 1914. The permanent improvement revolving fund is not included, however, as this is really a trust fund for financing local street improvements and is at all times intact."
 "It is noted that the 6.72 cents expended in the general fund covers the salaries and expenses of the commissioners, the auditor's, treasurer's, assessor's, attorney's, city clerk's, building inspector's, plumbing inspectors' and electrical and smoke inspectors' offices, the city hall, armory, aerial ferry bridge, expense of elections, poundmasters, printing, damage claims, water fountains and the state inebriate tax."

TAKING THE JOY OUT OF LIFE FOR FOLLOWERS OF IZAAK WALTON

Fishermen Who Tell Tales of Big Catches Must Prove Themselves Liars or Go to Jail Under New Policy of State Official.
 Another precedent seems in a fair way of being put out of the way—the executive agent of the state game and fish commission says he is going to check up the statements of fishermen who tell stories of big catches.
 It is too early, of course, to state definitely whether the sport of fishing will be ruined, absolutely ruined—but what fun is there in going fishing if you can't come home and tell all the neighbors about the string of fifty bass caught? And what will become of the newspaper pictures of long strings of fish?
 Carlos Avery is the executive agent in question. Whether Mr. Avery became deeply impressed with the beauty of that little tale concerning George and the cherry tree incident or whether Mr. Avery, as a practical man, hates to have others think that the fishermen are putting it over on the game wardens, is not known.
 Be that as it may, the fact remains that Mr. Avery has sent instructions to the various game wardens of the state, advising them to check up fishermen who have told of excessive catches, and see whether the tales are true. Mr. Avery has kept newspaper clippings of these wonderful tales, and in many instances he has sent along the clipping or a copy to assist the game warden in his efforts.
 Therefore, gentle follower of the late Izaak Walton, if you have come home with a harmless fishing trip and told the neighbors of the catch of fifty bass or so, make haste to contradict this wondrous tale and collect proofs against the yawning of the prison door in your slinking path.
 This Carlos Avery person is a regular joy killer. In cases where some fisherman has merely followed the

beaten path and told of the wonderful number of fish he has caught, the Avery joy destroyer proposes to arrest him and make him show that he is merely a pleasant liar or go to jail.
 It looks bad for the fisherman. It would be something like this if the chief of police of our fair city should send forth an order forbidding the fans at Athletic park to abuse the umpire. Suppose you were ordered to sit all through a close baseball game and not say a mean or unpleasant thing to the umpire? Perish the thought. Well, it is nearly as soul-destroying and joy disturbing to tell a man he can't tell wonderful stories about the number of fish he did not catch.
 If you ask your neighbor one of these beautiful, sunshiny days—poet's license, see weather report—to go fishing, and he yawns, turns his paper over and says, "Nope, guess I stay home today and mow the lawn," why just put it down that he has read about the order of Carlos Avery.

FIVE DRIVERS SENTENCED

Four Pay Fines and One Draws a Suspended Sentence.
 Four automobile drivers, two of them jitneys, paid fines in municipal court yesterday afternoon and this morning for traffic violations. A fifth was given a suspended sentence.
 Harry Hayden, 1801 West Superior street, paid a \$5 fine for forgetting to light his rear lamp. He is the jitney who failed to see Traffic Officer George Wood recently when the officer signaled him to stop, and he paid a \$7 fine for his oversight.
 Oscar Peterson, another jitney, was arraigned before Judge Smallwood yesterday afternoon and paid a \$12.12 fine for reckless driving. Through carelessness, Peterson is alleged to have bumped another machine at the Lake avenue and Superior street crossing on June 5.
 Oscar Carlson was charged with reckless driving, and after changing his plea from not guilty to guilty, was fined \$23.36, the stiffest yet to be imposed for this offense.
 Mike Gallagher, age 31, was arrested at Fifth avenue west and Superior street this morning by Officer Holand for driving around a street car the wrong way. He pleaded guilty and was released with a warning.

The road of Surlinam, Dutch Gulana, is very remarkable in one respect. It first awakens to life while on its mother's back. When the eggs are laid the male takes them in his broad paws and contrives to place them on the back of its mate, where they adhere by means of glutinous secretion, and by degrees become imbedded in a series of curious cells formed for them in the skin.

SEVEN TAKEN IN FOURTH POLICE RAID

Officers Continue Clean-up By Paying Visit to Negro Resort.
 Five women and two men, all negroes, were gathered in last night by the fourth disorderly rooming house.

paid since the inauguration of the Silberstein regime.
 Shortly after 11 o'clock a raiding party composed of Lieut. F. A. Schulte, Detective Irvine, Sergeant John Rosenberg and Officer Connor visited the place at 224 1/2 Railroad street and five women were brought to headquarters. The two men were arrested later.
 Media Price, age 40, was held under \$100 bail for a hearing June 10 on a charge of running a house of ill-fame. Frances Cooper, age 24, Cora Harrison, age 27, Evelyn Fisher, age 25, and "Willie" Stupica, age 32, were required to give \$25 bail and will be heard June 10 on a charge of being common prostitutes.
 James W. McGowan, age 27, and Morris Allain, age 22, pleaded not guilty to a charge of visiting a house of ill-fame and will be given a hearing with the others.
 "We were just having a little whist party," said the Price woman, when officers entered the house. All but the Price woman succeeded in furnishing bail.

POISONED HIMSELF AT 40!

Death by slow poison is killing many a man, young in years, who has made the fatal mistake of failing to understand the warnings of kidney trouble. When your kidneys begin to lag in throwing off natural poisons that accumulate in your body, the first warning comes in little twinges, or stiffness across your back and hips. Urination may be too frequent; you may feel "tired" in the morning when you should feel your best.

The best known remedy for these troubles is GOLD MEDAL Haas Oil Capsules. This remedy has stood the test for more than 200 years since it was first produced in the ancient laboratories in Haarlem, Holland. It acts directly on the kidneys and bladder and gives relief at once, or your money will be refunded. GOLD MEDAL Haas Oil Capsules are imported direct from Holland, and can be had at any drug store. Prices 25c, 50c and \$1.00. Accept no substitute.

WOULD SIGN NOTE FOR CITY

Silberstein Would Provide Fund for West Duluth Fire Hall.

Commissioner Wants New Building Erected This Season.

If necessary, Commissioner Silberstein announced this morning, he would sign a personal note to obtain a \$20,000 loan for the construction of the new West Duluth fire hall. Conditions at the building are so insatiable that a new structure must be erected before the coming winter, he said.

City Funds Overdrawn.
Present funds are all overdrawn and it is impossible for the city to borrow any money or issue certificates of indebtedness on the 1915 tax levy, as that cannot be done until some time in October, at the earliest. The safety head wants the building erected this summer and unless some public-spirited citizen or corporation is willing to loan the required amount without any surety, he declared this morning that the city when the funds are available.

"As soon as the plans for the structure are completed," the commissioner said, "I am going to start negotiations for the construction of the building. The present fire hall and police station are in no shape for another winter's use and from a humanitarian standpoint the city is obligated to the firemen in West Duluth to give them a decent building in which to live."

Would Sign Personal Note.
"If I find it impossible to obtain a loan I will endeavor to give the job to a contractor who is willing to build the city until certificates of indebtedness can be issued next October. Otherwise I will sign a personal note for that amount and charge the interest for four or five months to the city."

While a member of the park board ten years ago, Mr. Silberstein took action in purchasing property for park purposes. On three occasions he signed notes to obtain money for the city, which was unable to pay out of its own funds or issue certificates for the amount. In all he signed notes amounting to \$21,000.

According to the tentative plans for the West Duluth fire hall, the new structure will be two stories high and will also accommodate the police station and the West Duluth municipal court. Two lots were purchased by the city last year directly opposite the present fire hall and police station, the corner of Central avenue and Cody street.

DENFELD JUNIORS HOSTS AT BANQUET

Seniors and Faculty Entertained at First Junior-Senior Dinner.

The junior class of the Denfeld high school was host to members of the senior class and faculty at the first junior-senior banquet given in the institution, last night. Nearly 100 guests were present.

The supper was served at 6:30 o'clock in the hall on the third floor of the building. It was served and prepared under the direction of Miss Irene Walker, domestic science instructor of Denfeld high school, from the freshman class assisted in serving.

The program consisted of an address of welcome on behalf of the juniors by Reginald Le Falver, Miss Minnie Brown gave a toast to the teachers, which was responded to by Leon C. High. A toast to the boys was given by Miss Myrilla Johnson and the one to the girls was given by Helen Huth.

Gordon Huth, president of the senior class, spoke on behalf of the seniors, and a response on behalf of the juniors was given by Chester Rosborough, president of the class.

S. A. Foster, principal of the school, also spoke. Stanley Allen was toastmaster.

The musical program consisted of selections by Jackson's orchestra, vocal solo by Chester Rosborough, and selections by a quartet of boys from the junior class. Miss Edna McLennan was accompanist. Following the program the young people enjoyed an hour's dancing in the gymnasium.

LEAGUE LODGES ELECT OFFICERS

Women Have Spirited Contest; Delegates Chosen for State Meet.

West Duluth council No. 255, and Pochontas council No. 319, Royal Leagues, held their annual election of officers last night at the West Duluth Commercial club rooms. A spirited contest took place during the election for the women's lodge. Officers will be announced at the session of the men's lodge.

Brain, Mrs. W. E. Judson, Mrs. Louis Bennett and Mrs. Wetterlund, at the meeting of the lodge to be held on June 22 the committee in charge of the social following will be L. S. Larson, Lawrence Simpson, Fred Beck and David Harris.

WEST DULUTH BUILDERS

M. J. FILIAUTRAULT.

West Duluth's most consistent booster and representative citizen is probably M. J. Filiatrault. As a citizen who is always ready to help along a cause which will benefit the community, Filiatrault is well known to all who are less public spirited. Some years past Mr. Filiatrault represented the Seventh ward in the city council and while he did his share to let the rest of the city know that West Duluth was "on the map," in the recent campaign he was one of the big factors in the election of the successful candidates.

Mr. Filiatrault is the state president of the Minnesota Association of Undertakers and Embalmers, and a member of the state examining board. He is also a member of the city civil service commission.

He has taken an active part in securing better game laws and is now interested in securing a fish hatchery for this district.

While attending a recent state convention as delegate from a local lodge, Mr. Filiatrault was referred to as "The best dressed" and the most round man on the floor.

BOYS DRIFT OUT ON BAY.

Police Rescue Lads From Perilous Trip on Raft.

Poling a raft on the bay with a strong wind blowing nearly resulted in Clarence and Carl Selman, age 11 and 13, 3516 West Third street, drifting out on a scow last night. The boys had gone a short distance from the shore line and were unable to get back against the wind, so they drifted out to sea. The police were alerted and a patrol boat was sent out to rescue them. When the officers arrived the boys were numb with cold.

CLASS WILL HOLD BANQUET.
Sophomores of Denfeld School Will Give Spread Friday.

The sophomore class of the R. E. Denfeld high school will hold its annual banquet in the school Friday evening. The supper which is a short program of speeches has been planned by the class.

Richard Duffy will be toastmaster. Talks will be given by Robert Donald, president of the class, and S. A. Foster, principal of the school. A short musical program has also been planned.

Yeomen Memorial Service.
Memorial services will be held this evening by Non-excelled homestead, No. 4275, Brotherhood of American Yeomen. The ceremony will be held following the regular meeting at 6 o'clock. John Allen, foreman of the homestead, and a musical program has been arranged.

HINT AS TO IMPROVEMENT.
Washington Star: "Father," said the small boy, "Is there really a Santa Claus?"
"Why, I believe so, my son."
"But as a boy grows older, doesn't a boy's own father come to the front

and choose the gifts himself?"
"I shouldn't be surprised if that were the case."
"Well, I hope it is. I haven't said much about it, but after thinking over the presents I've been getting for two or three Christmases past, I'd rather cut out Santa Claus and take my chance with you."

WEST END GRADING WORK BEGUN ON WAREHOUSE SITE

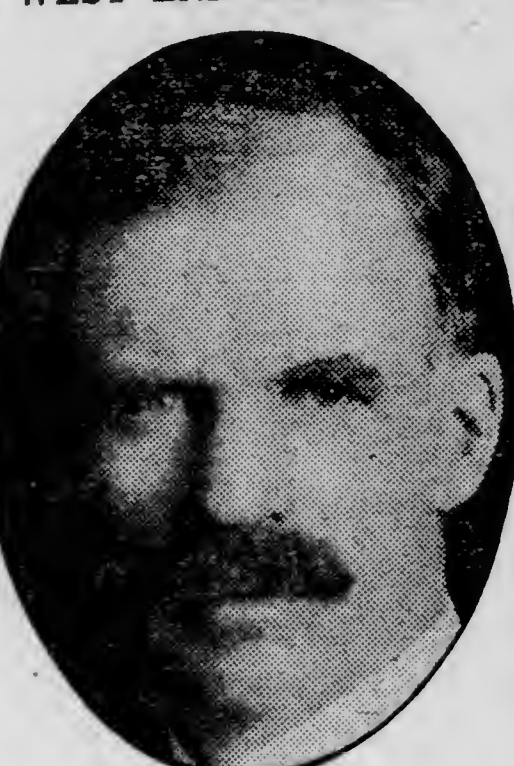

Soo Road Employs Crew on Extensive West End Improvements.

A crew of men has begun work grading the block between Twenty-ninth and Thirtieth avenues west, on the lower side of Superior street, which will become the site for the West end warehouse and freight sheds of the Soo railroad. The entire block will be brought down to the level of the street.

Improvements to the property which will take at least two months to complete are planned. In addition to the grading, a roadway will be made which will enable teamsters to drive to the property from either Twenty-ninth or Thirtieth avenue and to pull alongside standing cars of the warehouse. The dirt is being hauled in dinky cars to a point near the ore docks where it is used to fill one of the large ravines.

The company intends erecting a warehouse on the north side of its tracks at this point. The building will be about 100 feet long. As the business of the company increases locally, it is said, additions will be built until the sheds ultimately extend over a block and a half in length.

WEST END BUILDERS

ANNON HEGLAND.

Annon Hegland is one of the firm believers of the future prosperity of the West end as a great business center. In order to make it such he says the business men must not only give the right treatment to the people of their community, but must work in harmony among themselves in all matters.

"Too many communities prove to be failures because of the petty jealousies of the business men," said Mr. Hegland. "We believe we have overcome this and that there is perfect harmony among all of the business men. This is rapidly showing in the results attained in the last two years in the business life of this part of the city. There is no cry of hard times here because all are pulling together and each getting his share of the business."

DROP BOMBS ON VENICE

(Continued from page 1.)

dozen bombs aimed principally at the ship station at Campagna. None of them struck the harbor but a corporal of engineers was killed, the only victim.

Other bombs fell in the grand canal, and one damaged a steamboat. The windows of the Hotel Monaco were broken by one missile, while another crashed through a roof and fell into a bed but did not explode.

In the meantime the fire directed against this aeroplane increased and it finally turned seaward and disappeared.

Austrian Official.

Vienna, via London, June 9.—The following official communication was issued last evening:

"A telegram from our naval command states that naval flying machine L-47, Commander Bonfield and Observer Naval Cadet Von Strobel this morning successfully bombed Venice and dropped bombs on a balloon shed at Murona (two miles northeast of Venice), and also on an enemy torpedo boat destroyer."

Another official communication tells of the destruction of an Italian airship by an Austrian aeroplane. It says:

"The Italian airship Citta di Ferrara, returning from Fiume this morning, was attacked, set on fire and destroyed by our naval aeroplane L-48, commanded by Lieut. Glasing with Naval Cadet Von Fritsch as observer. Two officers and five men of the crew were captured."

The Simple Way to Keep Your Baby Well

See that your baby gets enough fresh air, sleeps a certain number of hours each day, wears the right clothes, and gets the proper food. Then you will have a well baby, a happy baby, a rosy, dimpled baby.

If, in spite of all your loving care, baby loses weight, grows pale and restless, he is not getting the right food. A well nourished baby is seldom sick.

Nurse your baby if you can. If your milk fails, do not give him cow's milk—the milk intended for strong little calves, not for your delicate baby. Give baby the safe substitute—so like mother's milk that he will never know the difference—

Nestlé's Food

Nestlé's is made from pure, rich milk from healthy cows, milked in clean dairies, purified and modified so that the tiniest, feeblest baby can digest it. The heavy tough curd is made soft and fleecy as in mother's milk, and the special things your baby needs to build a healthy little body are added. Just add cold water and boil, and it is ready for your baby.

Send the coupon for the book about babies written by specialists. It tells you how to keep your baby well, how to make him a "Better Baby." With this comes a big, free sample box of Nestlé's—enough for 12 feedings. Don't delay. Your baby's future health depends on the food you give him now.

MINNESOTA SOIL SURVEY

Prof. F. J. Alway Explains Method and Cost of Survey.

Yearly Expenditure of \$10,000 Would Cover Everything Needed.

St. Paul, Minn., June 9.—(Special to The Herald.)—In reply to a request of the secretary of the state forestry board, the chief of division of soils, Prof. F. J. Alway, University farm, St. Paul, under date of June 4, thus explains a soil survey of the state's land:

Gen. C. C. Andrews, State Capital, St. Paul, Minn.: My Dear Sir—Dean Woods has your letter of the 1st inst., regarding a soil survey of state-owned lands.

These might be classified as either agricultural or non-agricultural without carrying out anything that would be worthy of the designation of a soil survey. In the case of the very rocky lands, that is those with the solid rock showing up through the surface, as is the case around Carlton, for instance, and in that of very stony lands, such as some of the hills near the country rock does not appear upon the surface, but where boulders are so large and so numerous that the expense of removing them would exceed the value of the land, the best removal, a farmer of experience, a forester, or even a lumber-crafter, can make the classification. In the case of the very rough or lumpy lands, the same might hold true. With the peat or sandy or gravelly lands, the classification might vary.

What the United States Has Done.

The United States bureau of soils has already prepared soil maps for Blue Earth and Goodhue counties, as well as for parts of Carlton, Lyon and Polk, all of these being published. The most recent surveys are those of Pennington and Ramsey counties, the reports on which are not yet available.

In the case of these, the Federal government bore the entire expense, but starting with this year, the policy has been changed, so that the Federal government will confine its survey work to those states which are willing to stand their share of the field work. Accordingly we cannot expect further help from it, unless Minnesota should provide funds for half the expense.

This assistance will be given only in case an actual soil survey, either of the detailed or the reconnaissance type, is carried out, and this only where counties or large parts of counties are considered as units of survey. Thus, in order to secure any assistance in Koochiching county, of which a large part still belongs to the state, it would be necessary to make a survey of the whole county, omitting only the Indian reservations. As it would be far cheaper to make the survey of the whole tract in co-operation with the Federal government than it would be to survey only the state-owned lands without such co-operation, it would be good business policy when the occasion requires. England will not emulate Germany in attempting to bully or dictate to other nations.

"The policy of the United States is a matter for the government and the people of the United States to settle themselves. Political feeling runs high in America during the next few days, but the issues are clear enough, and the United States will certainly attempt to confuse the public mind."

"We have already expressed our hope that the United States will not be drawn into the conflict, but it is becoming increasingly difficult for her to remain out."

handsome souvenirs, and then were taken through the box factory of Rathbun, Hilt & Ridgway.

The weather is perfect. A dinner at the new Masonic temple are planned for this evening. The special will be served at 7 o'clock in the morning. Governor Hargrave was not on the special today, but will arrive in Duluth from St. Paul tomorrow morning to join the party there.

In Duluth Thursday.

Tomorrow morning the visitors will be in Duluth. They will reach here at 2 o'clock in the morning, and shortly after 8, autos commencing by the Duluth convey, I am sending you a copy of the "Special Report on the Reconnaissance Soil Survey of the Villages and Portions of Adjoining Counties," published by the Wisconsin Geological and Natural History survey. This is of the reconnaissance type. This report and the accompanying map were prepared in compliance with a resolution of the legislature of 1913 for the describing and classifying the soils of this region as to make the report of most aid in distinguishing between those lands which have so large a value for agricultural purposes as to make it unwise for the state to use them as a forest reserve, and those which have so low a value for agricultural purposes that their use as a forest reserve would be reasonable. In the work on which the map was based the aim was to see each square mile of land sufficiently well to get a good idea of the soils upon it. This was the rule adhered to in the wooded and undeveloped portions. It required that at least some portion of every section of land be examined, but does not mean that every forty of acres was visited. Thus the small marshes or ponds in some cases were not seen and are omitted on the map. In the more accessible townships, all roads were traversed with a plane-table and all logging roads, railroad grades, etc., were traveled on foot. Canoe and boat trips on lakes and streams were employed where necessary to see the country. Every farm and clearing was visited. The work was done usually by parties of two men in company who confined their efforts to a single township which was completed before work in another township was taken up. The total amount of field work represents the equivalent of one man's time for twenty-eight months.

Nearly sixty townships are included in the survey. Thus, each party of two men averaged two townships per month, the expense of the field work amounting to \$250 per square mile, about half for salaries and half for traveling expense. The preparation of the report and the making of the maps would be extra, and on this I have not secured. The men employed for soil survey work differ in the extent of their experience, but all have had more or less college training. The leaders of the party are paid \$150 per month and his expenses, while the helpers receive \$40 to \$50 per month and expenses.

Implement Used.
All the members of the survey party are provided with three-foot soil augers with which they examine the

soil and the subsoil. They observe the crops, farm improvements and the timber, as well as the soil, and enter their observations in their field notes. They also secure all the information they can get about the country, the county officers, the bankers, if there are any, the old residents and the settlers. After the surveys have been completed the work on a county, they prepare their map and report. It has not proved satisfactory to attempt to prepare the maps as the field work in each township is completed, for the reason that, when the work on the whole is finished, a much better view of the soil situation can be obtained. The different types of soil and their boundaries are decided by the surveyors while on the land and not from the laboratory examination of the few samples that are forwarded to the laboratory. Mechanical analyses of a few samples of each type are usually made to show the proportion of sand, silt and clay, and these are included in the report. Usually no chemical analyses of the soil samples are reported.

In the case of the land where the government stakes have been deeded, it would be necessary to employ land surveyors to go in advance and run the line and set stakes.

Ten thousand dollars per year is probably as much as could be advanced, it being difficult to secure the necessary men. Yours very truly,
P. J. ALWAY,
Chief of Division.

PRESERVATION OF PEACE NOT OF SUPREME CONSIDERATION

(Continued from page 1.)

however cherished, is not the supreme and overriding consideration.

Are Other Things. "There are other things which must be considered, the heart of America's representatives if they are to hold the respect of foreign nations and of their own. They are the protection of American citizens in the rights of travel where conferred upon them by the rules of war and there is a certain eventuality the part which may devolve upon America in the defense of that civilization which she shares with the rest of humanity."

"We may take it that the president, whose devotion to honorable peace no one can doubt, has felt it necessary to show in his second note that there are certain sacrifices which he cannot make of the sake of friendly relations with Berlin. He has allowed it to be seen that the much more as the American people are to hostility, they will not be floated interminably by Prussian high-handedness, as appeared by the very amateurish sophistry of the note."

Position Not Weakened.
"The position of President Wilson will not in any way be weakened by the course which has been his chief official supporter. In accepting Mr. Bryan's resignation and persisting in the course which has brought about the president has given the last blow to the legend that he was himself lacking in decisive qualities or in the nerve demanded by a real crisis. In taking his stand upon the platform of strict accountability at the cost of a rupture in his most intimate circle, he has given in conclusive proof of his prolonged self-restraint was moderation of strength and not timidity. He will find himself more firmly planted in the regard of the American people today than at any period since his accession to office."

Forebodings More Decisive Policy.
"The Evening Standard says: 'Mr. Bryan's resignation from President Wilson's cabinet appears to forebode a more decided American policy—not necessarily intervention or war. It was some vision of this, no doubt, which led Germany to dispatch Soest, an unofficial emissary to talk unofficially of peace in the United States; he can be disavowed more easily than Count von Bernstorff when the occasion requires. England will not emulate Germany in attempting to bully or dictate to other nations.'

"The policy of the United States is a matter for the government and the people of the United States to settle themselves. Political feeling runs high in America during the next few days, but the issues are clear enough, and the United States will certainly attempt to confuse the public mind."

"We have already expressed our hope that the United States will not be drawn into the conflict, but it is becoming increasingly difficult for her to remain out."

MINERAL RIGHTS TAXATION INVALID Cannot Be Taxed Apart From Real Estate in Wisconsin.

Madison, Wis., June 9.—The 1913 Wisconsin law permitting the taxation of mineral rights in land, apart from those of the real estate, was declared unconstitutional in a decision announced by the supreme court today, in a mandamus proceeding entitled State ex rel Owen, Attorney General, vs. Donald, Secretary of State. The decision was by a divided court, 4 to 3. The majority opinion was by Justices Trimble, Barnes and Vilas. Justices Schocker, Kerwin and Winslow dissented.

The majority opinion holds that the mining tax law creates an unreasonable classification of property which is repugnant to the Constitution.

July 30, the vessels will remain there until Aug. 15, when they will go to Block Island and on for fleet maneuvers, to continue until Aug. 31. Two squadrons will exercise in tactics of battle approach, torpedo and mine work.

On Sept. 1 the fleet will assemble in Hampton Roads for fleet maneuvers, to continue until Oct. 15. The fleet will go to sea for a war game, which will continue for ten days.

No formal announcement had been made hitherto of the abandonment of the cruise to San Francisco.

MR. BRYAN QUILTS.

Mr. Bryan has quit his place in the
cabinet, he says, because he fears that
the tone of the president's second note
to Germany is so brusque that it may
lead to war.

It is not wholly impossible that this
act of an advocate of peace might
prove more provocative of war than
the president's firm stand. If so, it
illustrates admirably what it means to
have a mind that determines upon ac-
tion under the influence of emotion,
yet does not penetrate far enough to
foresee consequences.

Manifestly, the president's second
message is to be brief, vigorous, point-
ed. Though one cannot imagine Wil-
son abandoning courtesy, the iron
hand will be more noticeable this time
than the velvet glove.

It may seem a far-fetched hypothe-
sis, but let us suppose that this train
of events followed the delivery of the
president's note: When the German
receives it, he might scowl at its vigor
and directness, then brighten as he
thinks of Bryan. "Ah," he might say,
"but Mr. Bryan does not agree with
this. Mr. Bryan is a great popular
leader. Half the people of America
voted for him for president. His in-
fluence made Wilson president. Half
the people of America, then, do not
agree with Wilson. It is a divided
nation that is behind him. He is weak.
This stand is a bluff, and the Ameri-
can people, divided, will not support
it."

So, reasoning thus, the German
falls again to realize the true situa-
tion, and acting upon his false deduc-
tion from the Bryan schism pro-
vokes President Wilson to prove that
he did mean it. Then it develops not
only that he did mean it, but that
the American people, not divided but
united regardless of party, creed or
race, is back of him in it. Because
of a move made by a peacemaker,
then, the two nations would have
been drawn into a false position from
which there might be no withdrawal
short of war.

If this came about, it would be the
work of a mind reacting too readily
to emotion, and not probing deeply
enough into consequences.

Mr. Bryan is for peace. So are all
of us for peace. Mr. Bryan is no
more for peace than President Wil-
son is. Until we know just what
were the differences between the two,
judgment is impossible.

The passing of Mr. Bryan from
the Wilson cabinet was inevitable.
Nobody ever dreamed that he would
stay out the four years. Hardly any-
body anticipated that he would stay
so long. Rumors of his resignation
have repeatedly appeared, only to be
denied and disproved. These rumors
have been particularly busy of late,
and were based largely on the im-
pression that the president, in taking
over full charge of foreign relations,
had divaricated Mr. Bryan into an in-
significance that he could not toler-
ate.

Mr. Bryan might have chosen a
better time to quit. The plausibility
of the process of German reasoning
above outlined is altogether too clear
to leave any doubt about that. Mr.
Bryan is like an uneasy passenger in
a boat in a storm. He has got off
at a time when his leaving might
perilously rock the boat, instead of
waiting till the vessel glided into
stiller waters.

So far as surface indications went,
the relations between the president
and his secretary of state have been
harmonious—amazingly so. Mr.
Bryan has been loyal to the presi-
dent. He has been self-sacrificing,
even self-effacing at times. It can-
not be said in truth that he has made
a great secretary of state. Indeed,
it is more likely that history will ac-
cord his term in that office as an
anti-climax in his career. Though
he is a great popular leader, a high-
idealized democrat—in the broad, not
the partisan, sense—a marvelously
eloquent spokesman for the masses,
the executive qualities have manifest-
ly been proved lacking.

It should be made clear, as Mr.
Bryan has tried to make it, that the
difference between the president and
his secretary of state concerns only
the means, and not the end to be at-

To Winfield Scott Hammond, governor of Minnesota; to J. A. A. Burnquist, lieutenant-governor of Minnesota; to Julius A. Schmah, secretary of state, to Irving A. Caswell, clerk of the supreme court, to Walter J. Smith, state treasurer; to the members of the senate of the state of Minnesota; to the members of the house of representatives of the state of Minnesota; to the other members of their party, and above all to the ladies thereof: GREETING.

Duluth, speaking for Northern Minnesota, bids you welcome. Of your own initiative, and paying your own way, you have come on the patriotic and public-spirited mission of discovering your own state. It is a mission that does you credit, and it is Northern Minnesota's most earnest hope that your journey will be pleasant, successful and unmarred by any flaw.

The gateway is open, the door is unlatched. Whatever is within is yours.

Northern Minnesota has been looking forward to this visit with eager and pleasant anticipation. It is proud of it, feels honored by it, and its only desire is to repay it with every possible effort of hospitality. Its wish is that you do not stand on ceremony; that you do not wait for introductions, but that you consider everybody you meet as your friend and act toward him accordingly. If you have questions, ask them freely.

What we are striving to make clear is that we want you to make yourselves at home, to feel that you are among friends, and to realize that Northern Minnesota's wish is that you will have a pleasant and profitable time and that when you go back to your homes it will be with a new and larger and prouder notion of your state and ours. This excursion is a new thing, unprecedented in Minnesota. A body of state officials and lawmakers, of its own volition though the act was eagerly welcomed by the representatives of Northern Minnesota, is undertaking a study of a part of the state with which most of them are little acquainted. It is no mere pleasure trip, though it is to be hoped that it will lack no element of pleasure which Northern Minnesota can supply, but a tour of self-education and state-education. By it Minnesota will come to know herself better, and the effect will be to create what is vital and what is needed—state solidarity, state unity.

It was a splendid thing to do, to set out deliberately on a study of Northern Minnesota: an act of good citizenship and real statesmanship. Northern Minnesota appreciates it and values it, and wants to contribute by whatever is in its power to make it successful and enjoyable.

Again, welcome. Again, we ask you not to stand on ceremony, but to act as though you had known us all for years, and to treat us accordingly. We hope you will have the time of your lives, and if you can think of anything we can do—any of us—to keep from falling down on our job of making it agreeable for you, please mention it.

Ladies and gentlemen, come right in and make yourselves at home!

tained. Both are for peace. Both, doubtless, are for upholding the cause of humanity, of civilization, of American self-respect. Apparently Mr. Bryan is not willing to go so far, nor to take means so direct, toward that end as the president is.

It is an unpleasant and regrettable incident, and the quicker it is pushed aside and forgotten the better. There are things far more vital than this that will call for earnest consideration in the next few weeks. Chief among these things is that whatever the president's note may contain, and whatever Mr. Bryan may think about it, the people of the United States are behind it to a man.

Of late the outlook that the dispute between Germany and the United States might be settled peaceably to the satisfaction of both countries has been improving. The German ambassador has risen nobly to the opportunity to clear up misunder-
standing and to bring the two coun-
tries to a common basis of peace and mutual respect. It cannot be said that Mr. Bryan's action has improved this outlook.

But Commissioner Merritt mustn't allow himself to think that his opin-
ion about the fecklessness of public opin-
ion is entirely original.

NOT ALL LOSS.

War is not all loss, though the gain never begins to compensate for the losses.

American correspondents in Ger-
many have been impressed by the way Germany is utilizing every avail-
able foot of land throughout the coun-
try, and they have been telling us about it. Every vacant lot is being
tilled and is growing a crop. Behind
the battle lines soldiers push the plow.
Every spot in the empire, hitherto
waste, is being put to use. Not only
the railroad rights-of-way, but even
the space between the tracks, is be-
ing cultivated.

Even in Germany, where system,
thoroughness and intensification are
watchwords, the change is note-
worthy.

"If a nation in time of war can be
thus moved to extreme conservation,
why should it not be possible to ex-
pend equal energy in time of peace?"
asks the Cleveland Plain Dealer. "The
individual effort is almost negligible,
yet the nation's wealth is immeasur-
ably increased. Germany is unques-
tionably the most efficient of nations,
and the lesson of forced efficiency
thus taught by the war will very prob-
ably not be forgotten after the return
of peace."

There is small likelihood, indeed,
that these newly cultivated areas will
be permitted, when the war is over,
to slip back into neglect. In this les-
son of compulsory thrift taught by
the war there will be a permanent
gain, and a great one.

Nations are like individuals in that
they do not develop their best until

they have to. The mere item of
waste, even in so thrifty a country
as Germany, would feed millions.
What must it be in this country? Na-
tions at peace, if they would, could
learn much from this war-time con-
servation in Germany. Nowhere is
there a nation that could learn so
much and profit so much by the les-
son as this country.

There is likewise a tendency in
some quarters to feel that in at least
one case, a Nebraska has torpedoesd
himself.

THE DOWNTRODDEN, AUTO-OWNING FARMER.

One hitherto very useful campaign
implement the candidate of late has
lost, and that is the "downtrodden
farmer."

The farmer still has his problems,
like the consumer. On a good many
things he gets too little and the con-
sumer pays too much, because our
marketing system isn't yet on a civil-
ized basis. This isn't true of grain,
because in some ways the grain-mar-
keting system is ideally organized;
but it is true of a great many of the
farmers' products.

But at that, the farmer can hardly
be looked upon as a pitiable object.
For instance, a financial paper con-
tributes this item:

It is estimated that fifty per cent
of the 1,750,000 automobiles in use
in the United States are owned by
farmers, and the percentage is in-
creasing each year. It is estimated
that sixty per cent of the 1915 out-
put will go to the farming com-
munities.

The farming communities are pros-
pering, nowhere more than in Minne-
sota, and we are glad of it. It is a
good thing, too, to rob the candidate
of his tools of buncombe. It will
force him to talk sense or shut
up, either of which would be an agree-
able variation from the rule.

No doubt fate merely meant the tor-
pedoing of the Nebraska as an ad-
vance notice—maybe the secretary
took it as an oracle.

AN OUTSIDE VIEW.

"Many physicians," says the New
York World, "are fighting the affilia-
tion agreement with the famous Doc-
tors Mayo of Rochester, Minnesota,
which puts a two-million-dollar med-
ical institution at the service of the
state university, on the ground that
it gives private practitioners too much
prestige."

"Since the Mayos have world-wide
prestige already, and merely offer its
product to the medical department of
the University of Minnesota, the ob-
jectors are exhibiting an unusually
stupid example of professional jeal-
ousy."

Off again, on again, gone again—
Przemysl.

It's a nuisance to try to pronounce
that word "pacifist" anyway.

Also the resignation of the "peace
member" of the cabinet may have a
salutary effect in various quarters.

The War, and After

Editorial in the Washington Star.

The most poignant sentence uttered
by the president at Arlington was
this: "Great days lie before this na-
tion than it has ever seen yet."

Where the American who does not
subscribe to this sentiment? Who
does not believe in it? Who is not
willing to add to the fullest extent
of his power to so great a cause?

And yet the president spoke in the
slight of thousands of graves which
were filled at a time of profoundest
gloom for America. The hearts of
some of the kindest friends of free
institutions were cast down. It seemed
as if the end approached; as if, no
matter which side won, the scheme of
the fathers of the republic would fail.

But it did not fail. It was not the
practical, yet the inspired for
"greater days" than we had ever
known. We found ourselves with
many thoughts we had lost. We stood
upright for the first time a nation in
all the world expressed and implied.

They are fighting over many things
with the years until our place is now
in the front rank.

Gloomy as the outlook is today—war
has grown and strengthened—may not
the president's words be given a new
and a tremendous rebound in the
future? May it not be said with truth
that he left before the world that great
and ever-springing life? When the struggle
ends and it must end—shall we not
behold the nations of Europe recover,
as we have, and grow and strengthen
and not be in the way we recovered,
because the problem will be different.

Ours was a family row. We fought
over practical questions. The right of the
Union to use force to preserve its integ-
rity was the question. All the questions
of the important from European
points of view.

The Widening War

Editorial in the Springfield Republican.

All the signs in the Near East point
to a further extension of the war, and
the report from Paris of an accord be-
tween Roumania and Bulgaria, which
from a partisan source, is in line with
the general drift of things. If Italy
had met with initial reverses it would
have been sharp deterrent, but the
Italian army, though it has yet to
show what it can do against serious
resistance, has shown such elasticity
and good generalship that its prestige
has materially risen, and the effect in
the Balkans must be great.

The points in dispute are difficult, but
they could be rewarded at Austria-
Hungary's expense. It would be no
trifle to offer Bulgaria very handsome
pay, Macedonia territory on Serbia's
side and on Roumania's land taken
from Bulgaria in 1913. And if these
states acted together, it is hard to see
how Greece could stand out.

Such a new alliance, which may
come any day, might or might not
hasten peace, but it would at all events
bring the war to a close. It would
isolate in which Germany finds it
difficult to maintain its position. The
guard is shown for what the world may
think, we must try to figure to our-
selves how Germany would be likely to
shrink. It is indeed a strange and
dismal spectacle upon which the Ger-
man looks through the horizon has con-
tracted as in a great storm at sea
when sky and water mix in angry
masses with the whole universe seems to
be bounding the tormented ship.

THE OPEN COURT

Members of The Herald are invited to make free use of this column to express their ideas about the issues of general interest. On discussions of sectarian religious differences are barred. Letters must not exceed 200 words—the shorter the better. They must be written on one side of the paper only, and they must be accompanied in every case by the name and address of the writer through these need not be published. A signed letter is always more effective, however.)

GRAVE ROBBERS.

To the Editor of The Herald: A couple of years ago I read in the Open Court that flowers had been stolen from the graves at the Onota cemetery. This habit seems to be still prevailing among some people in Duluth. Yesterday I was up there to examine some flowers I had planted on my wife's and baby's graves, and I found that two of the plants were stolen. I wonder how those who did this dirty trick feel when they look at those stolen plants. Don't they feel a black spot on their souls when they remember that they are "grave robbers." And how would you feel if you had my experience? My whole family is hidden in that little spot on the sand-hill, and the spot is "robbed." Respectfully,

CARL JACOBSON,

Coleraine Mecca for N. M.

Part of State.

Governor and Party Will
Spend One Day at
Conference.

Coleraine is the mecca this week for Duluthians and other Minnesotans who are interested directly or indirectly in the development of Northern Minnesota, for there, tomorrow and Friday, that subject will be paramount. The "conference on development" to be held under the auspices of the Northern Minnesota Development association at Coleraine on Thursday and Friday, will, it is expected, attract quite a number of Duluthians. The attendance from all parts of the north-west end of the state is expected to be very large, and Coleraine accommodations are likely to be taxed to the utmost, judging from advance orders.

Many members of the national prominence in agriculture and in the development of districts will be on hand and will make addresses. On Friday the touring state officers and members of the state legislature will spend the day at the conference, and two of the chief speakers will be Senator F. H. McGarry of Walker, and Governor W. S. Hammond.

George D. McCarthy, secretary of the association, left this afternoon for Coleraine to remain until the finish, and he expects quite a number of Duluth people to go there tomorrow and also on Friday, many accompanying the legislative special that

TWENTY FEATURES
IN ALLEN CARNIVAL

The Tom W. Allen shows, which will furnish the attractions for the Knights of Pythias spring carnival to be held in this city during the week of June 23, have no less than twenty features on the midway.

These attractions include the Big Hippodrome arena, a two-story circus with ten special and carefully selected acts. The dog, pony and monkey circus will appeal to the children. The Noma show has clever singers and dancers to entertain, and the Mamie show, "Show Beautiful," is a novelty. The animal annex Jungles and the Wonderful shows will show to show strange and curious animals and people from all parts of the world. The Trip to Mars, the Crazy House, the Giggler and the Katzenjammer castle are mechanical attractions that never fail to please.

The great feature of the Allen shows is that they are strictly clean in every particular. Many carnivals overlook the fact that it is only by clean methods that the public can be amused nowadays, and it is a rarity to run across a manager whose watchword is "Decency First."

FUND FOR WAR VICTIMS.

Poles Will Sell Flags in Duluth on July 24.

Duluth Poles will sell small flags on July 24 to aid the Polish war sufferers in Europe.

Representatives of the Polish citizens of Duluth met last night at the Polish hall, Fourth avenue east and Fourth street, and made arrangements for the flag day sale. Committees were appointed to take charge of the preparatory work and another meeting will be held on June 22 to make the final arrangements.

The flag sale is national in scope, and the money raised in Duluth will be turned over to the American fund for Poles and then to the general fund, the custodians of which are in Switzerland. A. Grabarkiewicz presided at the meeting last night.

BUILDINGS
CONDEMNED

Eleven Structures in City
Must Go, Says State
Fire Marshal.

Firetraps Will Be Torn Down
in Safety First
Campaign.

Eleven Duluth buildings, one owned by the City of Duluth, have been condemned by R. W. Hargadine, state fire marshal, and Deputy M. J. Murray, as fire hazards and ordered torn down and all material removed within periods extending from 15 to 90 days.

The inspection was made yesterday by Marshal Hargadine and Deputy Murray and the official notices were sent out this morning. It marks the first of a series of inspections to be made in Duluth for the purpose of removing all the dangerous buildings in the city. Fifty buildings were recently condemned in St. Paul by Mr. Hargadine, who is making an energetic campaign against unsafe buildings throughout the state.

The buildings condemned by the officials follow:
Frame building at 1226½ West Michigan street, owned by the City of Duluth, papers were served today on Mayor Prince, building 1529 West Michigan street, owned by B. A. Zumata; stable at 1216½ West Superior street, O. B. Johnson; frame building at 4602 Grand avenue, Charles Downer; building at 5319 Grand avenue, Charlotte Miller; building at 10 South Fifty-third avenue west, Helen A. Abbott; building at 1317 West Michigan street, Allen Shedd & Co.; two frame sheds at 4528 Gladstone street, S. C. Miller; building at 107 South Fifty-fifth avenue west, Herman Gasser; and frame dwelling at 5528 Albion street, Brindos Bros.

HEARING ON
BREAKWATER

Tomorrow morning at 9 o'clock there will be a hearing at the Duluth Commercial club rooms before Maj. Peek, chief government engineer at the Head of the Lakes, regarding the proposed breakwater for this port. A large attendance is expected.

Maj. Peek has already made his first recommendations to the army board of engineers and reported favorably. After the hearing there will be a survey and a final report will soon be made. It is hoped that the matter may be concluded so that congress may act at the next session.

The Commercial club is taking an active interest in the breakwater plans and the rivers and harbors committee is using its influence in its support. Capt. McDougall and the steamship lines also are active.

Maj. Peek has given instructions that the discussion tomorrow be confined strictly to a breakwater, and all other marine topics will be sidetracked. It is expected that there will be a reasonable demonstration in favor of a breakwater.

DISMISS MONTANA U HEAD.

President Craighead Alleged to Have
Been "Perniciously Active."

Holena, Mont., June 9.—By a vote of 7 to 4 the state board of education has refused to renew the contract of D. B. Craighead as president of Montana state university at Missoula.

This action was taken after Dr. Craighead had been called before the board to answer charges that he had used and members of the faculty with dismissal unless they wrote letters to the board endorsing his work. His accuser was J. H. T. Ryman of Missoula, a member of the university board of control.

Dr. Craighead produced a telegram signed by more than twenty-five members of the faculty denying Mr. Ryman's statement, and asserting that no coercion had been used. The telegram was set forth in the telegram, had been written voluntarily. His connection with the university will end in September.

CROSBY VOTES TO
BUILD SCHOOL WING

Crosby, Minn., June 9.—(Special to The Herald.) The school election resulted in a vote of 74 to 1 in favor of building a wing to the Franklin school instead of replacing the Crosby frame school building that was badly damaged by fire May 4. The ruins of the Crosby school will probably be sold for the lumber it contains and bids for the erection of the wing to the Franklin will no doubt be called for in the near future.

MARQUETTE JITNEYS
CHARGING 10 CENTS

Marquette, Mich., June 9.—The first jitney buses have put in their appearance in Marquette. Several cars are being used in the service, which was commenced last week. The fare charged is 10 cents to any part of the city.

MILL CITY ROBBERY;
NORTH DAKOTAN LOSER

Minneapolis, Minn., June 9.—Four men tossed Herman Tatten, Jamestown, N. D., into a taxicab at the Great Northern station Monday night, robbed him of \$36 and escaped. H. H. Carhart, driver of the machine, brought Tatten to police headquarters.

Dernburg to Sail Saturday.
New York, June 9.—Dr. Bernard Dernburg has engaged passage on the steamship American line, according to an announcement made at the offices of the company here. The ship sails from here on Saturday for Norwegian ports. Passage was also engaged for Mrs. Dernburg.

Shot By Holders.
Douglas, Ariz., June 9.—Four wealthy citizens of Sonora, Mexico, were reported yesterday to have been shot by Carranza raiders because of a demand for heavy ransom Sunday which was not complied with.

At your house, perhaps, there is some important member of the family who should be enjoying Kellogg's Toasted Corn Flakes—with good milk poured in the side of the dish—not on top—just enough to float the crispy flakes and bring out their delicate flavor. Spare the sugar.

Oh, you'll all be eating them—and

repeating oftener than with any other breakfast food—these golden flakes with the ever-alluring fresh-from-the oven taste!

And remember please that you don't know corn flakes unless you know Kellogg's—the original Toasted Corn Flakes—with the pride of the originator to keep the delicate process complete. Even Baby can tell the difference!

NEW YORK STREET CAR PASSENGERS ARE
ALLOWED BUT 17.78 INCHES OF SEAT

If Rule Were Adopted in Duluth Many Citizens Might Be Forced to Cling to a Strap or Walk—Would Mean More Trouble for Abused Fat Man.

"You'll have to crowd in a little bit, as you are occupying more than 17.78 inches."

"Just a minute, lady, while I measure the space you are taking up in this car."

"Say, conductor, this fellow here is sitting on 19.04 inches of space. Tell him to move over."

"I don't see why I have to pay more than 3 cents for my little girl; she takes up only 13.19 inches."

"Can I have a ride back for nothing, conductor? You see I only take up

8.55 inches."

These and many more similar expressions might be heard by Duluthians in street cars, if the plan of the New York public service board is adopted in this city.

The other day the members of the New York board announced that 17.78 inches is accepted as the official width of a single passenger's sitting space in a street car. This will mean, probably, that if a fat man comes in, he will either have to occupy just the 17.78 inches, or hunk to a strap.

The Duluth Street Railway company is not contemplating any such move, as the local line has enough street cars and sufficient space for all its patrons, according to the management, especially since the jitneys came. The city officials declare there is no need for an official sitting space in local cars. Commissioner Farrell is opposed to it as discrimination.

However, if such a ruling was made in Duluth, one might imagine Commissioner Farrell or City Prosecutor Gonska occupying 17.78 inches of space.

Mr. Gonska estimated they would charge him about 16 cents under such a ruling. He urged Mr. Farrell to be firm in his opposition.

The ruling of the service board in New York has been placed in effect and conductors have the power to allow a certain number of passengers on one of the long side seats, if a person occupies more than 17.78 inches, he or she will have to hang to a strap or get out of the car.

MORE CASUALTIES IN
CANADIAN CONTINGENT

Ottawa, Can., June 9.—In an official statement issued by the militia department fifty new names are added to the casualty list of the Canadian contingent. Private Mervyn R. Givan

of Neche, N. D., and five others were killed in action.
Lance Corporal Edward Davidson, Detroit, Mich.; Privates Charles Stout, Black River Falls, Wis.; James E. Wheatley, Eagle Grove, Iowa, and Axel Morken, Peckin, N. D., are listed with the wounded.

APOLLO CLUB
HOLDS ELECTION

First of Series of Monthly
Dinners at Commercial Club.

All the officers of the Apollo club, with the exception of vice president, were re-elected for the ensuing year at the annual meeting of the organization held at the Commercial club last evening. The business session followed the first of a series of monthly dinners and smokers planned for this summer.

The officers re-elected are: Dr. Frank W. Spicer, president; Thomas G. Lee, Jr., secretary; Henry L. George, treasurer, and Louis Junker, librarian. Hadley A. Hanson was chosen vice president.

The members selected O. E. Amtsbuecher as chairman of the finance committee; J. A. Sund, chairman of the membership committee, and Dr. Spicer, chairman of the concert committee.

The next meeting of the Apollo club

will be held at the Commercial club on July 15.

KNIGHTS OF PYTHIAS
CARNIVAL CONTEST

The standing of the candidates in the contest that the Knights of Pythias are conducting in connection with their big spring carnival which will be held during the week of June 24, was, at the last counting, as follows:

Rose Coran 4,129
Mazie Miller 3,287
Louise Hennings 3,785
Ada Johnson 3,251
Helen Macdonald 3,487
Lillian Dinham 2,812
Alice Mattison 2,658
Mamie Le Beau 1,908
Marie Tapley 1,009

Charles S. Palmer has charge of the contest and personally handles all votes, in connection with Charles V. McCoy and a representative of the carnival company.

FORGERIES USED
IN OBTAINING "DOPE"

No Attempted Violations of
Law Discovered in
Duluth.

While it has been rumored about Duluth that "dope" fiends are evading the Federal law regarding the handling of narcotic drugs, neither druggists nor officials have discovered any leak here they declare. It is said that in many other cities, forgeries are being committed by both traffickers and users of "dope."

When the law first went into effect, the cutting off of "dope" had a re-

markably acute effect upon "dope fiends," and in many cases throughout the country these victims had to be sent to hospitals for treatment and confinement. Now it is said that in many parts of the country doctors' names are being forged by those who are addicted to the habit.

F. E. Smith, a local druggist, said today that he knew of no case where a forgery had been committed in Duluth. "The druggists have strictly enforced the law, and the 'dope fiends' have learned to respect the rules," he said.

According to Police Surgeon Klein no drug user has been brought to him for treatment since the new Federal law went into effect.

Because of the numerous attempts of drug users to violate and evade the law, the federal authorities have revised the measure many times with the idea of covering every possible loophole for would-be violators.

DEPORTED WHEN RELEASED.

Owen White, Badger Prisoner, Sent
Back to Canada.

Owen White, a carpenter, age 39, after remaining locked up at police headquarters yesterday, was deported to Canada last night by R. F. Davis, immigration inspector of Minneapolis, who took the prisoner from the Wisconsin state penitentiary at Waupun, on completion of White's three-year sentence for adultery. White served two and a half years of the sentence. He is charged with importing a woman from Canada for immoral purposes. He was convicted of adultery at Shell Lake, Wis., three years ago.

Hindoo married women wear a nose ring of the value suitable to their position. Sometimes it is simply a wire of gold, sometimes it is set with valuable and brilliant diamonds. Of whatever description, the nose ring is a most hallowed thing. If you are not careful how you speak with the lady about it, or if you say, "There is no necessity for wearing such a useless thing," she will understand by this that you wish her husband's death.

"DULUTH IS BUSY TOWN"

So Says Visitor From Wrenshall After Meeting Highwaymen.

Slugged and Robbed Within Few Hours After His Arrival.

A few hours after Edward Vanzlyken of Wrenshall, Minn., arrived in Duluth to visit relatives, he was found lying in the street near the Mulvey-McDonald mill, twenty-fourth avenue west, with his pockets empty.

"This Duluth is a busy town," said Vanzlyken when he recovered sufficiently to report the affair. His pocketbook, containing \$35, was taken by the thugs, who followed their victim from the street car shortly after 1 o'clock, after riding a short distance with him, and slugged him in the head after he had left the car and walked away from Superior street on his way to his sister's home.

Mr. Vanzlyken arrived in Duluth on a night train and was detained downtown, so that he did not leave for the home of his sister, Mrs. Alvin Martin, until about 1 o'clock.

There were several men on the car, he said, in telling police of the robbery, and two of them got off at twenty-fourth when 1 did. They followed me down the street a ways and just as I was nearing the Mulvey-McDonald mill, one of them stepped up from behind and slugged me across the head.

Mr. Vanzlyken did not remember any more of the affair, and was unable to give much of a description of the assailants. He sustained a severe cut over the right eye.

Sergeant John Hunter of the West end station found him near the scene of the encounter about 2 o'clock, and took him to his destination.

SPECIAL MESSAGE BY GOV. PHILIPP

Outlines Legislative Plan for Development of Wisconsin Schools.

Madison, Wis., June 9.—A complete outline of a legislative plan for the development of the schools of Wisconsin was given by Governor E. L. Philipp today in a special message to the legislature. He urged the passage of the central board of education law because, he says, it will "put into educational hands responsibility for educational affairs and business affairs."

Coincident with his recommendation for the passage of the substitute for the Van Gordon central board of education bill, the following bills to improve the common schools are approved by the governor:

A bill proposing that the state pay from the seventh-month mill tax for the common schools graduated increases in salary to rural and village school teachers according to length of efficient service.

A bill for better supervision of country schools, giving a supervising officer for every fifty or sixty schools.

A bill for a county board of education of three members to be appointed by the county board instead of elective.

A bill to increase the minimum compensation of county superintendents from \$1,000 to \$1,200 per year.

college, asserted that world peace would never be maintained without strong force, and advocated a union of nations with international police and a strong enough to overcome the strongest state.

"How is peace to be established and maintained among nations?" Senator Lodge said. "One thing is certain, it cannot be done by people who are sheltered under neutrality, gathering outside the edge of the fight and from comfortable safety summoning the combatants to throw down their arms and make peace because war is filled with horrors and women are the mothers of the world's peace."

MUST STAND COLOR TEST

Applicants for Chauffeur Licenses Take State Examination.

If you are color blind, you can't obtain a state chauffeur's license. That's the ruling of the examining board, which is conducting examinations today and tomorrow for all chauffeurs, who have no state license. W. H. Healey, a member of the board, is in charge of the examinations and before announcing the questions to the applicants, each chauffeur was this morning put through the color test.

Several bunches of colored wool are placed on the table and the applicant picks out the color called for by Mr. Healey.

Thirty applicants were examined this morning by Mr. Healey, who expects a similar number this afternoon and tomorrow morning. These examinations, he said, will be held once every month during the coming summer.

BRYAN'S RESIGNATION AND THE PRESIDENT'S ACCEPTANCE

LANSING NAMED ACTING SECRETARY OF STATE

(Continued from page 1.)

Mr. Bryan's resignation under consideration and the secretary did not go to yesterday's cabinet meeting until the president's letter of acceptance reached him. The president had invited him to attend after letting the cabinet know of the situation. Quietly, the consideration of the note continued, and at the end of the meeting the president and remaining members of the cabinet expressed to Mr. Bryan their sense of personal regret.

CONTINUE STaunch SUPPORTER.

The close personal relationship of Mr. Bryan and the president will be reflected in the former secretary's future course, it was learned today authoritatively. Mr. Bryan intends to continue a staunch supporter of Mr. Wilson on domestic affairs and believes he can even assist him in the sentiment he hopes to build up for the principle of investigation of disputes before hostilities are begun. It was this idea which was embodied in the thirty peace treaties negotiated by Mr. Bryan with the principal nations of the world—all but Germany, Austria, Belgium and Japan, the first three of which had accepted the principle.

Late today after the note to Germany is on its way to Berlin, Mr. Bryan plans to issue from his home a statement outlining his position on the questions that have arisen on the relations between the United States and Germany. Mr. Bryan contends it would be better to submit the entire question to an investigating commission and, pending its deliberations, have Americans refrain from taking passage on ships carrying contraband, or which venture into danger zones on the high seas.

PRESIDENT OPPOSED.

President Wilson is said to have been opposed to that idea, not only because he believed the United States, in effect would thereby be yielding its rights under international law, but because there was no guaranty that lawful American commerce would be free from dangers during discussion.

That these principles are not of sufficient strength in American public opinion for the Washington government to commit itself to so firm a policy as might result in war, is the conviction of Mr. Bryan, and he hopes to test public sentiment in a way that will assist the president as the American government's policy is developed.

Reports Doubtful. Reports that Secretary Daniels had resigned or would do so were current today but were flatly denied on all sides. The report, it was said, grew out of the well-known friendship and long intimacy in national politics of Mr. Bryan and Mr. Daniels.

As a matter of fact, nine members of the cabinet stood solidly for the president's position and the resignation of Mr. Bryan would have been a complete reversal in the political question of the cabinet which was able to influence the action of the executive. Since the beginning of the war, the cabinet has been a more or less complete reversal in the political question of the cabinet which was able to influence the action of the executive.

Never Intended War. It is understood that the United States has from time to time received authoritative information from German officials that the administration was committed to a policy of non-interference in the European war at any time or under any circumstances to go to war. Mr. Bryan's resignation, it is thought, would remove all doubt in Berlin and Germany as to the policy of the United States.

The view that Mr. Bryan's action, therefore, might favorably influence the situation was shared by some of his closest friends.

Closing Up Affairs. Mr. Bryan was today to begin closing up his affairs at the state department. Before breakfast he took a long walk, and then through Rock Creek park and then returning to his home in Chevy Chase, he received one caller, Louis E. Post, assistant secretary of labor, who stopped on his way to his office to speak a word of regret at the secretary's departure.

Mr. Bryan said he would leave his promised statement in detail tomorrow after the note to Germany has been started on its way to Berlin. It will be about 1,000 words long.

"I will make it as public as soon as I learn that I am no longer secretary of state," said he. "I will be when the note is dispatched."

Mr. Bryan's letter of resignation had asked that his resignation be effective when the note was sent, unless President Wilson wished to accept it sooner.

Regretted by Co-workers. When Mr. Bryan walked down the drive with him to his carriage and at the approach of the carriage the old state department co-workers, who for many years have driven the secretary, got down from his box, and hat in hand, told them both how much he regretted to see Mr. Bryan go and how much he had appreciated the secretary's kindness.

As the secretary drove to his office, probably for the last time, he passed through the government clerks on the way to office, reading in the morning papers the news of his resignation. He was surrounded by scores who wanted to say a word of good-by as he entered his office.

First to Resign on Issue. So far as state department records show Mr. Bryan is the first secretary to resign as the direct result of a clear issue with the president on foreign policy. Some of his predecessors have had differences with their chiefs, but usually those have arisen from divergent views on details of negotiations, but never have they developed to a point involving the surrender of a portfolio.

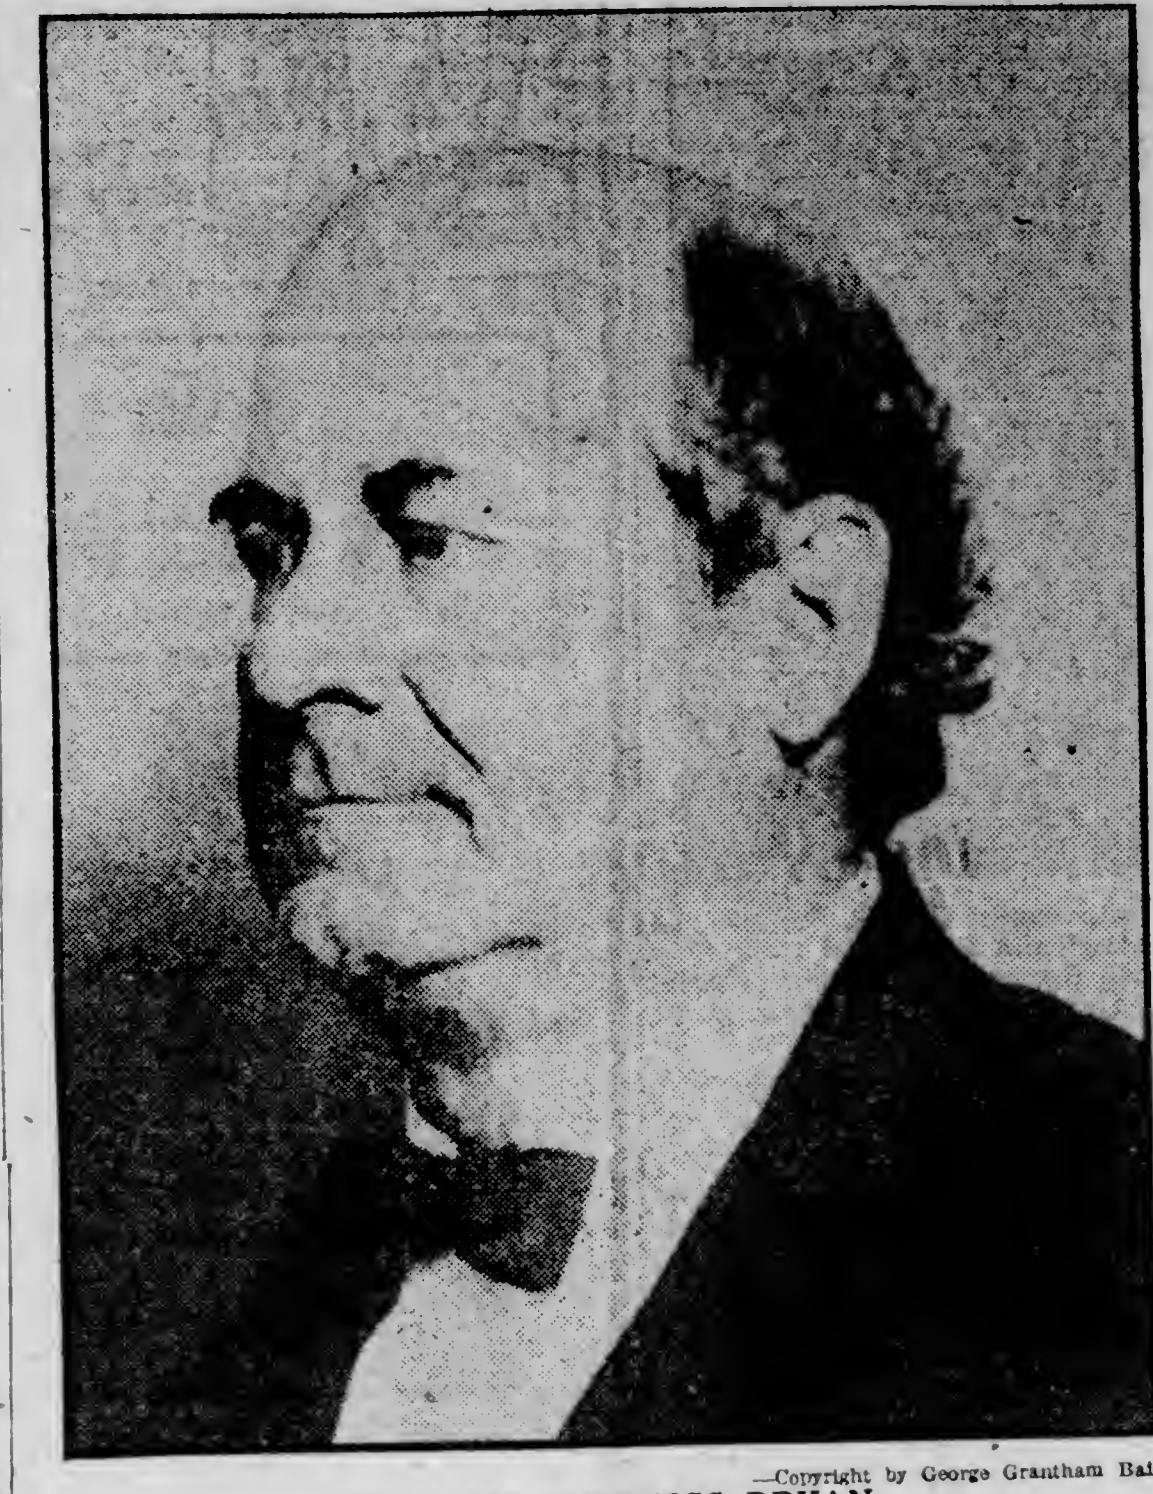

The nearest approach to Secretary Bryan's action recalled here was the resignation in 1896 of John G. Hay, Maryland, postmaster general in President McKinley's cabinet. His resignation was based upon his repugnance to the approaching war with Spain.

In Mr. Bryan's dramatic resignation observers in some quarters professed to see a new era in the history of the state department.

RETIRES AS SECRETARY OF STATE

WILLIAM JENNINGS BRYAN.

PRESIDENT'S DESIGNATION OF LANSING AS ACTING SECRETARY

Washington, June 9.—Robert Lansing, counselor of the state department, today received his formal appointment as secretary of state and interim.

While at the White House Mr. Lansing expressed regret at Mr. Bryan's resignation.

"I have grown very fond of the secretary and am very sorry to see him leave the department," said he. After seeing Mr. Lansing, President Wilson went automotically. As he entered his automobile, he made a tour of the White House grounds joined in a round of applause and the president raised his hat and smiled.

Designated by President. Following is the text of the president's designation of Counselor Lansing as acting secretary: "The White House, June 9, 1915.—The Honorable William Jennings Bryan, having resigned the office of secretary of state, I, Woodrow Wilson, president of the United States, do hereby designate Robert Lansing, counselor of the state department, to perform the duties of the office of secretary of state for a period not to exceed thirty days, until a secretary shall have been appointed and have qualified."

"WOODROW WILSON." Mr. Lansing is a life-long Democrat, and has been an international lawyer for many years. He is a son-in-law of John W. Foster, secretary of state under President Harrison.

While there is much gossip already as to President Wilson's probable selection for the secretaryship, it is the president's plan to make no immediate appointment. It would not be surprising if he made no change in the present status of the department's personnel for two or three months.

Secretary Lansing has been frequently mentioned as a possible successor to Secretary Bryan, but the belief exists that he will not be chosen on account of his own feelings. He is a life-long Democrat and the president would find it difficult in finding a man to take over Mr. Lansing's important position in the state department.

The president will make no shift in his cabinet, but will choose a new man to fill the vacancy. In well-formed quarters, it is considered very probable that he will retain Mr. Lansing as his personal secretary.

Mr. Lansing has prepared memoranda for practically all of the important matters of the state department, and has been looking upon, not only as an expert in international law, but as a clear thinker and adviser. For many years, he has served on boundary commissions and arbitration tribunals. He is a comparatively young man.

Relations Strained. Since then the official relations of Mr. Bryan with the president and the other cabinet officers have been somewhat strained. Although the closest personal friendship has been maintained, officials of the administration were unanimous in their expressions of personal regret. Secretary Lansing issued a statement in which he expressed his regret in the same manner in which Mr. Bryan had fought for and held to his conviction.

The strong personal attachment of the president and Mr. Bryan has long been noticeable in their everyday conferences. Even yesterday, when the cabinet meeting was held, the president's greeting was one of affection and regard.

It became known only last night that twice before in the two years and three months of his term Mr. Bryan had offered to resign so as to save the president from embarrassment, and each time the president refused to accept the resignation. Throughout the constant and unrelenting bombardment of Mr. Bryan for his views on peace, his advocacy of prohibition and his speeches on the Chautauques, the president has stood by the secretary, repelling criticism of him.

In domestic affairs the two men who were at the helm of the Democratic party in its first ascendancy into power in sixteen years co-operated most harmoniously. Often Mr. Bryan yielded some of his own views, as on the currency bill, and used his influence to assist the president's program in congress. It was not surprising, therefore, to officials and friends of the president and Mr. Bryan to learn last night that the latter continued undaunted in his support of the president. When Mr. Wilson telephoned an invitation, the secretary hurried to the White House, his face somewhat drawn and pale. When the cabinet met, Mr. Bryan entertained several of his colleagues who could attend at luncheon at the University club. The luncheon was in the nature of a farewell.

That there had been friction between the president and Mr. Bryan was a matter of common knowledge for several weeks, but as the president heretofore had always been able to secure the acquiescence of the secretary in his point of view, talk of a resignation was not given much credence. It came to light yesterday that the position of Mr. Bryan in the cabinet, however, had become very embarrassing—his advocacy of peace being so pronounced that other members of the cabinet who felt that the United States should assert itself, irrespec-

BRYAN'S RESIGNATION AND ACCEPTANCE BY PRESIDENT

Washington, June 9.—Secretary Bryan's letter of resignation was as follows:

"My dear Mr. President: It is with sincere regret that I have reached the conclusion that I should return to you the commission of secretary of state with which you honored me at the beginning of your administration.

"Obedient to your sense of duty and actuated by the highest motives, you have prepared for transmission to the German government a note in which I cannot join without violating what I deem to be an obligation to my country, and the issue involved is of such moment that to remain a member of the cabinet would be as unfair to you as it would be to the cause which is nearest my heart, namely, the prevention of war.

"I therefore respectfully tender my resignation, to take effect when the note is sent, unless you prefer an earlier hour. Alike desirous of reaching a peaceful solution of the problems arising out of the use of submarines against merchantmen, we find ourselves differing irreconcilably as to the methods and purposes which should be employed.

"It falls to your lot to speak officially for the nation; I consider it to be none the less my duty to endeavor as a private citizen to promote the end which you have in view by means which you do not feel at liberty to use.

"In view of the intimate and pleasant relations which have existed between us during the past two years, permit me to acknowledge the profound satisfaction which it has given me to be associated with you in the important work which has come before the state department and to thank you for the courtesies extended.

"With the warmest good wishes for your personal welfare and for the success of your administration, I am, my dear Mr. President, very truly yours,

"W. J. BRYAN."

ACCEPTANCE BY PRESIDENT.

The president's letter to Mr. Bryan follows: "Washington, June 9, 1915.—My dear Mr. Bryan: I accept your resignation only because you insist upon its acceptance, and I accept it with much more deep regret, with a feeling of personal sorrow. Our two years of close association have been very delightful to me. Our judgments have accorded in practically every matter of official duty and of public policy until now; your support of the work and purposes of the administration has been generous and loyal beyond praise, your devotion to the duties of your great office and your eagerness to take advantage of every great opportunity for service it offered, has been an example to the rest of us; you have earned our affectionate admiration and friendship. Even now we are not separated in the object we seek, but only in the method by which we seek it.

"It is the reasons for your feeling about your retirement from the secretaryship of state goes so much deeper than regret. I sincerely deplore it. Our objects are the same and we ought to pursue them together. I yield to your desire only because I must, and wish to bid you Godspeed in the parting. We shall continue to work for the same cause, even when we do not walk in the same way.

"With affectionate regard, sincerely yours,

"WOODROW WILSON."

from the cabinet. He accepted the resignation with greatest reluctance and only after he had become firmly convinced that the president's wishes were unalterably apart on the kind of note to be sent to Germany.

Dates Back to May 23. The real disagreement dates back to the famous speech of Secretary Bryan on May 23 following the sinking of the Lusitania, was drafted, it is said, by the president. The United States would not omit "any word or any act to protect its citizens."

Germany had a similar attitude, counseling peaceful measures and cautious action. Bryan's speech, it is said, was the only one that was tentatively arranged that a statement of the president should be issued and transmitted to the German government, announcing that the principle of the peace treaties negotiated between the United States and other countries, might be adjusted by a compromise.

At the conference he looked upon the matter as most vehement in some quarters, and the president should be issued and transmitted to the German government, announcing that the principle of the peace treaties negotiated between the United States and other countries, might be adjusted by a compromise.

Mr. Bryan's resignation, it is known, was discussed thoroughly at the cabinet meeting and several times made to get him to reconsider his resignation.

Resignation Should Serve as a Warning. French Papers Comment on Departure of Bryan From the Cabinet.

Paris, June 9.—The news of the resignation of Secretary of State Bryan which reached Paris too late last night for comment by the morning papers is given great prominence in the evening editions, which publish detailed sketches of the circumstances.

The Midi refers to the retiring secretary as a "pacifist at any price" in the cabinet having been there all his life, his resignation should be regarded as a strong warning to the government.

"President Wilson," this paper continues, "has developed a degree of firmness of which he was not believed capable. Happily what may, the situation is becoming clearer. Let us hope that Berlin will appreciate its great significance."

left Dubno and occupied positions in front of Shavl.

In the lower Volynia, the Russian army has been successful in capturing the town of Zhitomir, north of the Vistula, the Germans, taking advantage of a favorable wind, attempted to make use of poisonous gases.

In Galicia there has been stubborn fighting on the left bank of the Wislitz river. On June 6 the enemy succeeded in forcing back our troops, but the Russians counter-attacked and captured 2,000 prisoners within twenty-four hours.

On the Danister front there was fighting June 6 and 7. Between the Rivers Tlamanitz and Louka the attacks upon the Russians right from the morning hours without result. In this fighting the Russians at Zhidatchin captured 200 prisoners, six of whom were officers, and two Maxim guns.

On the left bank of the Danister the enemy has increased his forces at Zhitomir, and they now extend from the forest to the railroad. On the right bank of this river the Germans fell into a trap near Slawa. Two hundred of them were killed by a bayonet charge and several prisoners were taken. Attacks by the enemy between Slawa and the Louka have been repelled.

Italians Consolidating. London, June 9.—From Caporetto to the head of the Gulf of Trieste the forces of Italy are consolidating their positions along the River Isonzo and in a week or perhaps sooner the first serious battle along the front should be fought.

The clashes up to the present time have been of a preliminary character, but now that the Italians no longer command the river crossings from the western bank, but at several points have thrown troops to the eastern bank of the Isonzo, a conflict of great tactical importance in the opinion of British observers, is inevitable.

Russians Fight Desperately. In the eastern arena the Russians are fighting desperately to stem the Austro-German advance in the direction of Lemberg. While some of the British press maintain that the Teutonic rush has lost its impetus, the more cautious feeling is that unless the Russians succeed in developing a counter-offensive on a large scale the entire Galician situation will remain unfavorable to Russian arms and more than likely involve the abandonment of Lemberg, capital of the crownland of Galicia.

In the western theater the slow but steady French gains predominate the situation. The news of the resignation of Secretary of State Bryan was received too late for editorial comment in the morning newspapers. In the afternoon the first editions of the afternoon journals present the news most prominently.

French Statement. Paris, June 9, 2:30 p. m.—The French war office this afternoon issued a statement on the progress of hostilities reading:

"There is nothing to add to the official announcement of yesterday evening with the exception of some details concerning the situation at the forest of Le Pretre. Here we made an advance of 100 yards along the line of 350 yards. At the same time we occupied two and at certain places three lines of German trenches and took about fifty prisoners.

German Statement. Berlin, June 9, via London, 3:30 p. m.—The German army headquarters staff today gave out the following official statement:

"In the western theater: Enemy forces commencing an attack yesterday afternoon on the eastern slope of the Loreto hills were driven off by our fire. An enemy attack today on the eastern slope of the same hills failed. The last group of houses in the village of Neuville was destroyed by the enemy during the night.

"To the east of Neuville we defeated repeated attacks of the French with heavy losses to the enemy.

"In the district to the east of Heubertingen a battle began after an unsuccessful attack of the French in the early morning hours.

"An enemy attack in the forest of Lepretre was repulsed with sanguinary fighting. Fighting continues for a small part of the outer trenches.

"In the eastern theater: The enemy is attacking the town of Neuville (in Kovno) from the north. Our attacking troops are approaching the town of Neuville (in Kovno) from the south.

"On the Dubysa the enemy's northern counter-attack, by an encircling attack our forces repulsed the attack of the enemy from the north.

"In the southeastern theater: East of Przemysl the situation remains unchanged.

"To the northeast of Zurewka troops under General Linington brought the Russian counter-attack to a standstill. Further to the south fighting has progressed and the enemy has been driven from the heights of Kalusz and west of Jezewol.

"Extensive already in our possession. We took 4,500 prisoners and captured thirteen machine guns."

PAPERS BELIEVED TO HAVE BEEN OFFICIAL View of Naval Authorities on Stolen Examinations at Annapolis.

Annapolis, Md., June 9.—As a result of evidence adduced before the naval court of inquiry which is investigating irregularities in connection with the naval academy examinations the question has arisen whether the set of questions in French and Spanish, alleged to have been sent to Midshipman James E. Moss, third class, through the "yard" mail, were official or not.

The authorities have laid stress upon the point that as the margins had been cut away they apparently were the official papers and were stolen.

On the other hand, Commander Traut has testified that not all of the papers bear these markings. These markings, the officials say, bear a legend telling of the time of the examinations and the amount of time the students are allowed to finish the tests. If the papers had been of old examinations the margins would have been intact, they claim.

It has been established by the testimony that there is no definite system of preparing or guarding examination questions at the naval academy; that these matters, and in different ways; and that a considerable number of persons in possession of examination questions for a period of some length before the examination.

WOMEN BEGGING TO BECOME SOLDIERS

Berlin, June 9, via London.—From the town of Brest, numerous requests have been received by the military authorities for women to be allowed to serve in the ranks as soldiers. It has been pointed out that such a thing is impossible.

Summer weather has come to Berlin. It has been warm for several days past and yesterday the thermometer registered 84 deg. Fahrenheit.

TWO IMPORTANT NEW ORDINANCES DRAFTED

Would Stop Sale of Firearms to Minors, and Auto Thefts.

By an ordinance introduced by Mayor Konkki of Superior at the meeting of the commission yesterday, it will be possible to prosecute dealers for selling firearms to minors. The new ordinance calls for a fine of from \$5 to \$50 for the offense. An ordinance to prosecute youngsters who take automobiles out for joyrides, was introduced and to make the offense a misdemeanor punishable by a fine of from \$5 to \$10 or the spending of a short term in the county jail. A state law covers the offense, but makes it punishable by a term in the penitentiary. Auto owners are said to have refused to prosecute several cases because of the penalty. The police hope to stop auto thefts by the operation of the new ordinance.

THOUSANDS PUT TO WORK

Operations at Steel Plants Increased the Country Over.

U. S. Corporation Makes Big Gains; Spelter Prices Exorbitant.

Operations of the steel plants the country over are being steadily increased and according to reports from the leading centers thousands of additional men have been taken on during the last three weeks.

Incoming business of the United States Steel corporation during the month of May averaged between 35,000 and 40,000 tons a day. This is the best showing the corporation has made since the improvement began April 1, last week, leaving only one idle day, so that the gain last month amounted to about 20 per cent. The steel corporation is now operating at between 75 and 80 per cent of its capacity, the highest rate in more than a year. Export demand was largely responsible for the corporation's gain in new business during May. Orders for steel for ships, steel bars for shipbuilding, wire, steel rails and steel for cars featured in the buying during the month. The Illinois Steel company's seventh blast furnace at Gary, Ind., was blown in last week, leaving only one idle day, so that the gain last month amounted to about 20 per cent. The open hearth capacity is keeping pace so that the entire plant is near operating on full time. The Inland Steel company is operating at 75 per cent capacity with prospects of a further increase soon. Large contracts for bars, plates and rails are reported to have been booked by the Carnegie Steel company during the last few days.

Orders were issued at the offices of the U. S. Steel company on Saturday for the immediate firing of 800 ovens at two of the company's plants, 13,254 ovens in the Conneville, Pa., region, 12,856 are in blast, the record in more than a year.

Steel Market Firm.

Taken on the whole steel prices are reported to be more firmly held than at any time since the upturn began in 1914. The casting of ingots with foreign consumers to contract at above domestic prices. Galvanized sheet and wire markets are demoralized as a result of the exorbitant prices being asked for spelter.

Commenting upon the situation in the trade, the Iron Age says: "The large sales of round bars for shipbuilding and for gun barrels are still the outstanding feature, 60,000 to 70,000 tons of such business have been placed in the Pittsburgh district in the past week. One large shipbuilding contract on which work is under way in the Central West is understood to be for the United States government."

"Foreign business is well maintained, but the scarcity of vessels is more pronounced. The commanding by the British government of vessels that have been bringing iron ore from Cuba to Baltimore and Philadelphia is embarrassing companies which have felt secure in having charters covering several years."

"The Pennsylvania railroad has put out a new specification for its 128,000 tons of rails for 1915 and it may be several weeks before the order is distributed. The casting of ingots with sinkheads, as in the case of some of the rails ordered in 1914, is called for. The extra of \$4 asked by the mills for rails under the original 1915 specification was not satisfactory to the road."

"Rail orders of the week have been for minor tonnages—5,500 tons for the Norfolk & Western, 5,000 tons for the Louisville, Henderson & St. Louis, 3,000 tons for the Chicago & Alton and 1,600 tons for the Southern. The Southern Pacific order for 2,000 tons reported last week is for rolling in the spring of 1916. The New South Wales rail mill is making itself felt, taking a 30,000-ton Australian order that would have gone to British, Canadian or American makers."

"An export order for 275,000 boxes of plate for early shipment has been taken by the American Sheet & Tin Plate company. The 200,000 box recently ordered by the Standard Oil company go into exports after being made up into cans."

WIFE'S ALIMONY REDUCED.

Court Files Amended Order in Theodore Swanson's Case.

Under an amended order for judgment in the divorce case decided against him in district court recently, Theodore Swanson, 49, will pay his wife \$25 a month alimony instead of \$30. Judge Danon, on his own motion, today filed the amended order.

Mrs. Olivia Swanson secured a divorce on the grounds of cruelty. Swanson counter-claimed adultery, but failed to prove his charge to the satisfaction of the court.

JURY IN DAMAGE SUIT.

Action Brought By Peter Myhre Against the City.

In Judge Danon's division of the district court this morning a jury was drawn to try the case of action which Peter Myhre has pending against the city of Duluth. The suit is one in which Myhre is endeavoring to collect \$750 damages to his property on Vernon street. He alleges that during the fall of 1914 the city raised the grade on Vernon street in such a manner as to cause his property, which abuts on the street, to depreciate in value.

Want Pay for Furs.

Trial of an action in which the Seacurt Mercantile company is seeking to recover \$495.50 from Harry S. Wenger and Harry A. Goldberg was to begin today before Judge Cant and a district court jury yesterday afternoon. The trial had not been concluded when the noon adjournment of court was taken today.

The Mercantile company is suing on an account assigned to it by the firm of Bader, Rothenberg & Kressman, manufacturers of furs of New York City, from whom the defendants purchased a consignment of goods. Mr. Goldberg conducted a fur store at Virginia up to May 1, 1915, when he turned the business over to Mr. Wenger.

Northern League Managers Hold Different Opinions of Ball Players; Present Heavyweights Not Much; John Burmeister's Baseball Friends Have Not Prospered in Northern League; Minor Leagues Are Hard Hit.

BY BRUCE.

VERY one is feeling the hard times but Tom Sharkey. When it comes to money Tom can't feel anything.

When the negotiations were started for the Willard-Johnson fight Tom Jones held a legal contract in his hands and shouted loudly that he was the manager of Willard. The way things are breaking right at the present time it is probable that Tom is not shouting with so much vigor.

There is a grave suspicion that the Canadian aviator who performed so gallantly against the German Zeppelin received his aviation training as a pitcher in the Northern league.

Duluth released Hoffman and he was immediately signed by Grand Forks. Grand Forks released Snow and he was immediately signed by Superior. Cadron was released by Duluth and signed the very next day by Virginia. Doyle was cast adrift by Col. Robert Unglaub of Fargo and that same evening received a wire from Darby O'Brien instructing him to report to Duluth. Kirkham was released by Fargo and landed with Superior. It looks as if there is considerable hiatus of opinion upon the part of the various managers concerning the various players of the Northern league.

Back in the days of his fibrous prime Jim Flynn was considered no better than Billy Packey and not nearly so good as Tommy Burns. Time has passed and Pueblo Jim has become an ancient in so far as the ring game is concerned, and yet he is today one of the best heavyweights in the ring. This doesn't look as if the breed of big fighters is going ahead at a very rapid clip.

It was the gambling man who sang with philosophical calm of the fact that you are up today and down tomorrow. It looks strange indeed to the old followers of baseball to lamp the present standing of the teams of Connie Mack and John McGraw. Mack deliberately weakened his team because the fans would not pay the price of his support. McGraw has kept a fair team above its stride by his fighting ability and shrewdness and resourceful leadership. It looks as if McGraw must build a new machine—and it also looks as if Mack is again experimenting with youngsters in the hope of uncovering another Collins or Coombs.

John Burmeister talked A. L. Steece into buying the Superior baseball club. At the present time McGraw is filling the ancient atmosphere with threats of removing his recently acquired ball club from that beautiful little spot, Hixson park. The resolute threat of Mister Steece is one

that falls like a plaint upon the thin air of a burial scene.

Also it was the rugged eloquence and two-fisted forcefulness of Mr. Burmeister that directly resulted in the acquisition of a part of the Winnipeg franchise upon the part of Horace Webb. Mr. Webb has made several trips to Minneapolis since the acquisition of said franchise in the effort to dispose of his holdings, rumor sayeth.

A. L. and Horace should get together and sing in tremelo that popular ballad—"We knew him and we loved him, but we like him less just now."

Minor leagues have their troubles, and like the multifarious pests of Job, they come not singly but in droves. Down Winona way a bunch of real sportsmen each year called a meeting and dug down for the whereabouts to run the baseball team. Winona lost money with a regularity that would rival an eight-day clock. But there was never any kick from the men who were paying for the "privilege" of furnishing their fellow townsmen with baseball.

It was those who should have supported the game that let loose large knocks and staid away from the park. Then the league came along and took away the franchise from the men who had paid each year and smiled lightly at the losses.

At Grand Forks those furnishing baseball have merely hoped that the deficit would be within reason. Winnipeg has been the one money maker in the Northern league—and that only within the last few years. Duluth made a little money last year—but it required a neck and neck race from June to the close of the season to awaken a great amount of interest.

Don't blame the magnates of the Northern league for desiring to reduce the wages of the ball players. Grand Forks can't stand much over \$2,000 a month if those backing the team don't desire to mortgage their homes.

And yet the fans yell if the class of baseball falls off. This brings us down to the spearhead point of query—what is to become of minor league baseball? If the present times keep up, it will be something like the kid with the apple, who said there ain't a goin' to be no core. Minor league baseball has taken a lot of grief the last few years. It can't stand to suffer thusly and be expected to furnish baseball approaching that played in the big leagues.

NORTHERN LEAGUE

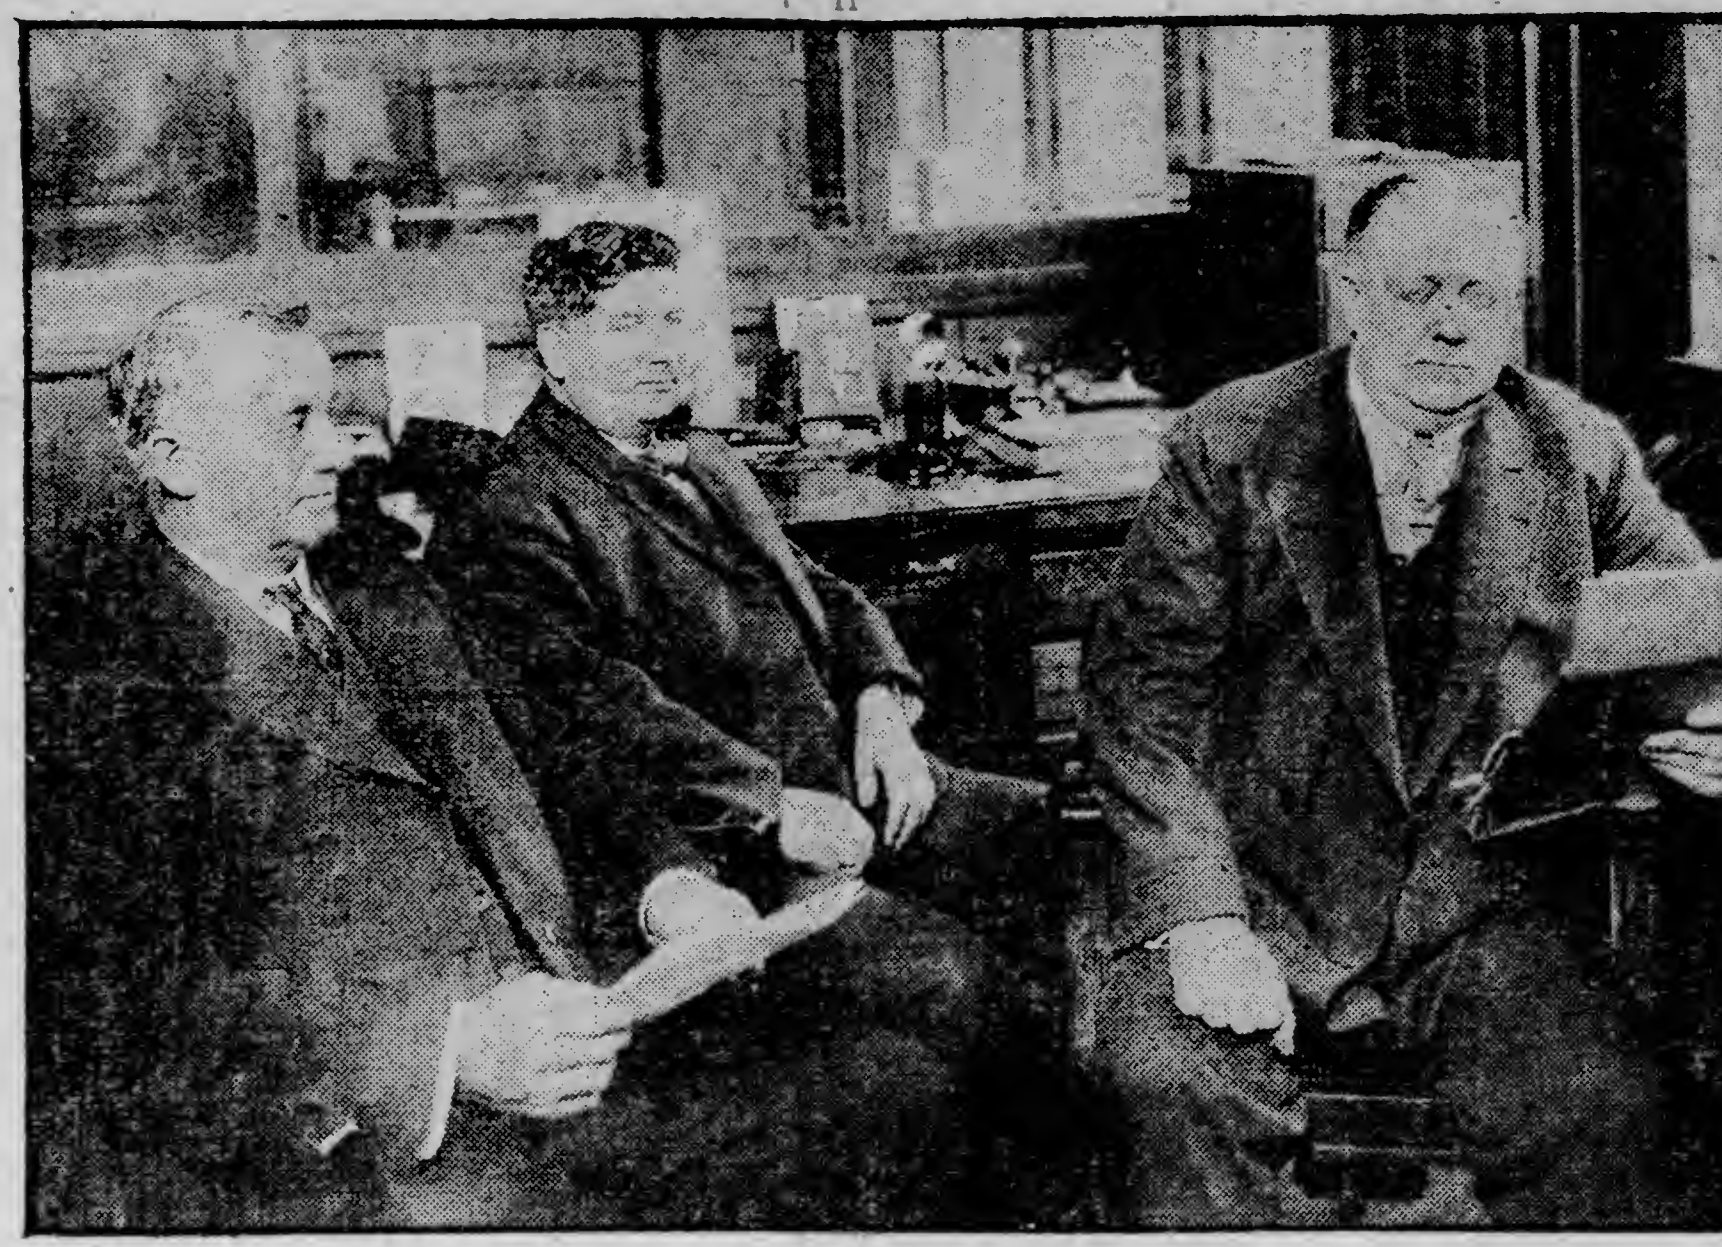

PEGGERS TAKE CLOSE GAME FROM CHEFS

Winnipeg, Man., June 9.—Winnipeg defeated St. Boniface yesterday by the score of 1 to 0. The Peggers, who were managed by the former manager of the Knolls and the former manager of the Peggers, had the better of the argument. The locals fielded in a clean manner. The score: Winnipeg.....000010010—2 4 0 St. Boniface.....000010000—1 5 0 Batteries: Patterson and Wilson; Boardman and Spellman.

After "Bigger Game."

Los Angeles, Cal., June 9.—Nat Brown and Claude Wayne, national play court tennis double champions, will not defend their title in the Cincinnati tournament, June 28, according to an announcement today. They prefer to default in order to enter the July 1, the winners of which will be sent to Chicago to contest for the honor of meeting Maurice McLoughlin and Thomas Bundy, national doubles champions.

MINNESOTA BOXING COMMISSIONERS

FROM LEFT TO RIGHT—HENRY RIBENACK, DULUTH; MICHAEL L. NOLAN, MINNEAPOLIS, AND FRANK B. THOMPSON, ST. PAUL.

SALARY RULE IS VIOLATED

Winnipeg Is Said to Have Gone Beyond \$1,400 League Limit.

From Minneapolis comes the statement that John Burmeister has tacitly admitted that the Winnipeg club of the Northern league has priced off the salary limit. It is believed in the desperate efforts of the league officials to place a winner at the Peg, the early season salary rule has been overlooked. Harry Blume stated some time ago that it was his belief that the salary limit rule of the league was being violated by the Grand Forks club. Now comes the statement that Winnipeg is leaping meretriciously over the limit of \$1,400 per month, exclusive of the manager of the team.

The salary rule was adopted for the benefit of the smaller towns of the circuit. It was not believed that Grand Forks, Fargo and Port William could compete in the matter of salaries with Winnipeg and Duluth. New players being sent to Winnipeg in the effort to lift the Peggers out of the hole. Magnate Blume is also after players for his team, for like Winnipeg, and even more so, this is one town where a winner is demanded.

It is said that another pitcher will join the Peggers within a short time.

TRAP SHOOTERS MEET.

First of North Dakota Events Begins at La Moure.

La Moure, N. D., June 9.—(Special to The Herald.)—Trap shooters from all over North Dakota and many professionals from other states are here today for the events arranged by the local gun club. Yesterday the shooters were at Lisbon, and Grand Forks will be the scene of the next event. There are a number of other events over the state during the next two weeks, concluding with the state shoot at Dickinson the latter part of the month.

FARGO CLUB CHANGES.

Possible Shiftings About on Team Are Being Discussed.

Fargo, N. D., June 9.—(Special to The Herald.)—Two more changes on the local team of the Northern league, possibly three may be made. The management is after a new infielder. Negotiations are being carried on with two men. One of these, possibly both, may come. In case they arrive, Fremmer will be shifted from second base to the outfield. He is hard of hearing and that defect sometimes causes a mix around the second sack. Fremmer will hit much better in the outfield than in the inner circle. He is popular with the fans and will be retained on the team.

Huotier, who was manager of the

Lancaster team in the Tri-State last year, and coach of the Johns Hopkins team this spring and summer, was expected to be a whirlwind at short, but his play has been decidedly indifferent. It may be affected somewhat by Premier at second, but unless he shows more he may be replaced. The management is also after another twinner. Dumont and Bell are classy and perfectly satisfactory. Bell throws brilliantly at times, but indifferently at others. Wahlstrom has been released and Foster, the Minneapolis sand lotter, seems hardly ripe for the league. Two pitchers are under discussion, either of whom would be regarded as a welcome addition to the local staff of heavies.

NORWEGIAN STAR

LOSES FIRST ROUND

Hard Play Features Second Day in National Tennis Tourney.

Philadelphia, June 9.—The defeat of Miss Molla Bjurstedt, the Norwegian star, and her partner, Mrs. E. F. Briggs, of Philadelphia, in the opening round of the championship doubles, and the hard-earned victory of Mrs. Marshall McLean of Morris-town, N. J., a former national title holder, over Mrs. Fargar-Wallach of Newport, in the second round of the Philadelphia Cricket club.

After being beaten in the singles by Mrs. McLean in a grueling three-set match, which taxed her strength to the utmost, Mrs. Fargar-Wallach, paired with Mrs. T. H. Cabot of Boston, in the doubles, won a hard-fought three-set match from Miss Bjurstedt and Mrs. Briggs. Fine team-work and steady, consistent lobbing gave the honors to Mrs. Wallach and Mrs. Cabot over the brilliant but erratic play of their opponents.

Five Bostonians, five Philadelphians, two New Yorkers, one Pittsburgher, one Californian, one Norwegian and one Californian, one Norwegian and one New Jersey woman survived the second round of the singles.

The doubles, save for the unexpected elimination of Miss Bjurstedt and her partner, Mrs. Briggs, resulted about as expected by followers of the game.

GOLF TOURNAMENT

Minnesota Men Are Slated for Contests at Memphis.

Memphis, Tenn., June 9.—Nine Southern and Western states were represented by players who qualified for the first round of match play today in the championship flight of the trans-Mississippi golf tournament. Harry C. Legg, Minneapolis, whose title of champion he had won, completed yesterday, gave him the title of medalist for the sixth time. He was matched with J. M. Scruggs of

GRADE TEAMS TO DECIDE CITY BASEBALL TITLE

Adams and Washington Nines Will Meet in First Game of Series—Winner of Two Out of Three Games Will Be Awarded Grade School Championship—Willis and McFarland to Oppose Each Other on the Mound.

Well, now that that's settled, let's play ball.

Whaddya mean play ball? The Adams grade school team of the Duluth Grade Baseball league and the Washingtons will play the first game of the city championship at Athletic park today. The game is scheduled to begin at 4:45.

Certain school authorities succeeded in nearly breaking up all attempts of the league to play a series of games in the park. Be that as it may, the fact remains that the Adams and Washington teams are scheduled to meet this afternoon.

Now the thing to do is for every grade kid in the city to get out and help swell the attendance and assist in every way possible in making the windup of the grade league season a success. Making the final games a success will go a long way toward insuring a successful season for the league next year.

A Great League—Let It Live. Respective of the merits of the controversy between a certain school principal and the head of the league, the fact remains that the Duluth Grade School Baseball league is a splendid little institution and one worth real effort to preserve.

The Lincoln school team was ordered and refused to play the semi-final series. The Adams team was ready and willing to play. The merits of the controversy will probably never be decided. Now the best thing for the league and everyone coming along with the league to do is to boost the games that are scheduled for today and tomorrow, or the day following.

If those belonging to the Lincoln school are real good "sports" they will forget their troubles and come out and root for the league. The mistakes of the present year can be avoided next season; now the thing is to make the finale of the present season successful.

Both the Adams and Washington teams are strong. Willis, the crack pitcher of the Adams, is expected by the host of followers of the West end team to stand the Washington hitters on their heads. All through the season that is nearly at an end Willis has been pitching steady and consistent baseball. It is expected that he will be right on top of the mound today.

McFarland is the probable mound

choice for the Washington team. Cohen is due to go behind the bat. Swanson will don the mask for the Adams.

Scores of followers of the Adams school team will be present at the game with banners and streamers. The contest is expected to draw a big crowd.

The series that starts today is for two out of three games.

WILL BOOST SWIMMING

"Teach Another to Swim" Campaign to Be Launched Friday.

There will be a meeting Friday at the Duluth Y. M. C. A. of those interested in the project of organizing a local swimming association. The idea is to start a "teach-another-to-swim" campaign here. Also a life saving corps will be organized.

After the organization of the association, it is planned to give swimming trials to those wishing to join the life saving corps. The Y. M. C. A.'s throughout North America are behind the "teach-another-to-swim" campaign and will endeavor to teach 50,000 persons to swim during the summer.

Every person in the city of Duluth is heartily urged to boost the campaign. Every swimmer in the city and every man, woman or child desiring to learn to swim, is asked to become a member of the association. Following is the test for the life savers' corps:

- (1) Dive into from 7 to 10 feet of water and bring from the bottom of the surface a loose bag of sand weighing 10 pounds.
- (2) Swim 200 yards, one hundred

THE SLUGGING KIDS

COBB AND CRAWFORD.

Ty Cobb and old Sam Crawford are the dynamic force that is keeping the Tigers up near the front of the race. Each season of recent years it has been predicted that Crawford would pass. And yet the veteran remains in the game and still hits out screaming triples when they are most needed. Cobb bats ahead of Crawford and the great hitting, old Sam has had much to do with the run-getting of Cobb. It is a great combination.

Chicago, June 9.—New York won the odd game from Chicago yesterday, when they batted out an easy victory.

The Sprained Ankle

THE first question to be settled in any case of sprained ankle is, is the ankle sprained? If you are sure it is only a sprain, and not a fracture, then the next thing to know is, what is the best first aid to apply? Theoretically, cold applications should be preferable to hot, for this reason: Cold tends to contract the local blood vessels and drive blood away, thus diminishing the congestion and the extravasation of blood, or the bleeding under the skin. Cold applications are generally better in the early stage or beginning of any inflammation, and heat later on.

But in the treatment of sprains heat seems to be most grateful. Whether heat or cold be applied, it must be extreme; as hot as can be endured, or ice cold. And it should be applied in the form of wet compresses, or by placing the foot in water.

If the heat or cold controls the swelling, it is advisable to apply either a snugly laced shoe, or better, a firm bandage of adhesive plaster immediately after the primary heat or cold is removed, say, after an hour. If the sprain is not a very bad one, it is better for the individual to keep about on the foot. If it is a severe sprain, rest for a few days may be required, but many times a day the ankle should be exercised by passive motion—movements given by a disinterested or neutral party.

Massage should begin at least within forty-eight hours after the injury. Light, steady strokes always upward, first well toward the knee, then gradually approaching the ankle, and increasing the strength of the strokes as endurance becomes better. This should be done for fifteen minutes three or four times a day.

Always within three or four days the individual should get about on his feet, with a cane or without. Prolonged rest for a sprain is objectionable, because it invites stiffness and prolonged disability. With the ankle supported properly there need be no fear of harm from walking about.

Dr. Brady will answer all questions pertaining to Health. If your question is of general interest, it will be answered through these columns; if not it will be answered personally if stamped, addressed, envelope to Dr. Brady will be sent to the office of Dr. William Brady, M.D., 1000 Broadway, New York, N.Y. All questions will be answered, whether they come from people residing in Duluth or outside, provided they comply with the rules here stated.

LEGG CAPTURES TITLE.

Mill City Man First in Southern Golf Tournament.
Memphis, Tenn., June 9.—Harry G. Legg of the Minneapolis club of Minneapolis yesterday won the title of medalist in the tournament of the Trans-Mississippi Golf Association, with a score of 154 for the 36 holes qualifying round. Martin J. Condon,

You'll sure get yours

by the beat-'em-to-it division if you'll stand pat just about long enough to buy some Prince Albert tobacco. Then the cards read: Jam your old jimmy pipe brimful to the spilling-spot, or roll a makin's cigarette, strike fire with a match—and go on. For you've got a through ticket.

That's all there is to it—this digging fun out of a pipe or a cigarette—if you follow suit and play the game via P. A., because then you've switched to the right track! And your tongue will be fine-like-silk whether you smoke one load or a hundred!

For Prince Albert is made by a patented process that cuts out tongue-bite and throat-parch! Now, you just let it sift in that no tobacco ever was, or can be, made like Prince Albert, the national joy smoke.

Cut-logge with a pipe or a cigarette and a tidy red tin of P. A. and swing open your chest to some genuine smoke-sunshine. For then you'll qualify to be a real and true pipe-r on the P. A. band wagon, which means 33d degree tobacco happiness—and a guarantee that you'll be jimmy pipejoy's and cigarette cheerful!

PRINCE ALBERT
the national joy smoke

Prince Albert smokers everywhere are enthusiastic about the moistureless, long-keeping, and the sponge-moistener top which keeps the tobacco in fine little always. It's a thing of joy for every man who smokes a pipe or rolls his own cigarettes. Prince Albert is also sold in tins of red bags at the grocers; tidy red tin, 10c; and handsome pound and half-pound tins in hardware.

LIFE INSURANCE DISTRIBUTIONS

Claims and Benefits Paid By Companies During Last Year.

New York, June 9.—Distributions by life insurance organizations in the United States and Canada amounted to \$686,700,000 in 1914, as computed by the Insurance Press. The amount was the largest on record, exceeding by \$40,150,000 the amount of the distributions in 1913. Under the policies of the level-premium companies and the certificates of life insurance organizations the assessment basis, the payments in the two countries for death claims, matured endowments and other benefits amounted to \$483,600,000. For premium savings, for the cash values of policies, for annuities, and for the beneficiaries under policies issued in foreign countries the regular companies of the United States and Canada paid amounts, estimated in part, that aggregated \$253,650,000.

The largest claim paid last year was on the policy that had been held by George W. Vanderbilt whose residence was in Washington. The policy was for \$1,000,000. The company that issued it reinsured \$750,000 of the face amount.

The largest single claim paid during the year in Minnesota was that held by Joseph Sellwood of Duluth, amounting to \$111,000. The total payments in Duluth in 1914 were \$172,600, those in addition to Mr. Sellwood being: John McAlpine, \$50,000; James L. Cromwell, \$16,000; E. W. Markell, \$10,000; names not given, one of \$10,202 and one of \$10,000.

Another common mistake is to make the ad "snappy" in order to catch the eye. It is not effective as a rule because the reader, if interested at all, is willing to read enough to get an intelligent idea of the article and to learn why he would profit by buying it.

Appeal to Reason.
"Make your ads appeal to the reason, not the emotions," he concluded, "and don't use scare headlines. For newspaper ads a liberal use of space, plenty of open space, and a consistent use of type are necessary."

Raymond T. Carver of the Cramer-Krasselt agency in New York gave a short talk, as did Felix Seligman of the Columbia Clothing company.

Harry A. Barnhart of Stone-Orlean-Wellis company was elected unanimously as third delegate of the Duluth club to the national advertising convention at Chicago June 20-24. A meeting of all local club members who will attend the convention will be held Friday in the Glass Block classrooms.

At a previous meeting Charles H. Mackintosh and Richard T. Close were chosen as two of the delegates.

SCHOOLS WILL AID ALIEN CHILDREN

County Superintendent Will Co-operate in Securing Their Enrollment.

N. A. Young, county school superintendent, will co-operate and assist in a nation-wide movement to provide the children of new immigrants with an opportunity to place their children in school as soon as they arrive in this country.

Mr. Young received a communication yesterday from a national bureau which has for its purpose the promoting of this plan.

One of the hardest problems confronting school authorities, Mr. Young said, is locating children of foreign birth in order to place them in school.

The national bureau proposes to furnish school authorities all over the country with the names of immigrants who arrive for their district.

No names have been received in Duluth as yet. This is due to the fact that immigration has been low owing to the European war. At the close of the war, when immigration is resumed, it is believed that the plan will be in working order.

Merely "Oil" Won't Do Here

Consider running your motor without any lubricant. That is only a much quicker way to ruin it than to run it with a poor oil. It takes longer, that is all.

An oil that does any damage has no place in any car, for the function of a lubricant is to protect friction-surfaces. The ease of running—easy action and full power—simply goes along with this protection.

Some oils are better than others, but only the best should be used. Anything less is injurious.

The question is—Which are the best oils?

Polarine

is made in the largest plant of its kind in the world. Here is every known facility, collected after years of experience, for the production of perfect oil. Here is a great laboratory. Here are chemical specialists—experts who have spent years working out lubricating problems of all kinds. Their prestige is at stake on every one of their recommendations.

Polarine is their recommendation for all standard makes and types of motor cars, motor trucks and motor boats in the world.

No better oil can be made, yet Polarine costs no more than poor oil. Our profits come from volume, for we are selling Polarine at the rate of 7,000,000 gallons yearly.

Use an oil about which you know all. All first class dealers, garages and filling stations can supply you with Polarine. Insist on getting it.

SUN SHINES FOR EAGLES

Snow of Tuesday Gives Way to Pleasant Weather at Eveleth.

Ball Game, Mulligan, Parade and Other Events Enliven Interest.

Eveleth, Minn., June 9.—(Special to The Herald.)—The weather man redeemed himself today by turning on a better brand of weather for the state convention of Eagles that began here yesterday and will conclude tomorrow. There was some snow during the cold drizzle of yesterday afternoon and it was an eye-opener for the visitors from the southern part of the state. Today opened bright and clear and with a much larger attendance than yesterday the convention is coming up to the expectations of all who have worked to make it a success. There are 100 or more delegates present today and many others from all over the range. The public meeting last night at the Auditorium was attended by about 1,000 and all enjoyed the program including a splendid address by Grand Trustee V. H. McCallum of Ashland.

Shows Healthy Growth.—This morning was devoted to a business session. The report of State Secretary V. M. Brady of Duluth showed that during the year the state membership had increased to 1,555. No new series were established. Other reports were equally encouraging. The financial showing being considered very good.

There are a number of affairs going on this afternoon. At 4 p. m. the Eveleth and Chisholm ball games lined up for a game that promises to be a notable spectacle. At 6 p. m. there will be a mulligan at Ely lake, while many others will enjoy auto rides to the mines and other points of interest.

There will be some athletic events and other sports at 4 p. m. The parade at 7 p. m. promises to be a notable spectacle. At 10 o'clock tonight there will be a big display of fireworks.

Duluth appears to have little opposition in the contest for annexation next year's meeting. The president of the St. Paul party is being crowned by state president and his friends feel confident he will land the honor. These matters will be decided tomorrow.

This is a holiday by Mayor Sear's proclamation and the day is being enjoyed by the visitors from all over the range and a good part of the state.

Committees Appointed.—The following committees were appointed yesterday afternoon: Credentials—P. B. Lott, St. Paul; W. C. Rust, Minneapolis; Henry Collins, Duluth. Judiciary—J. P. N. Earl, Eveleth; J. P. Gleason, Minneapolis; James Hendon, St. Paul; W. B. Brown, Duluth; William Cunda, Regina.

Finance—W. C. Rust, Minneapolis; George LeFlore, Minneapolis; P. C. Sandstead, Duluth; J. J. Prince, Eveleth; Guy McCord, St. Paul.

Resolutions—R. J. Clarke, St. Paul; J. McGuire, Minneapolis; J. Kelly, Minneapolis; H. F. Holst, Perham. For Capital Tax—A. B. Kelly, Minneapolis; H. F. Holst, Perham; Duluth; Walter James, Minneapolis; A. T. Lane, Hopkins; James A. Krome, Minneapolis; H. C. Mower, Faribault.

BIG ALIMONY ORDERED.—Former Minnesota Railroad Man Must Settle With Divorced Wife.

Hibbing, Minn., June 9.—Judge Martin Hughes has ordered J. H. Elliott, Hibbing, Minn., to pay \$10,000 in alimony to his divorced wife.

AFTER SUFFERING TWO LONG YEARS

Mrs. Aselin Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Minneapolis, Minn.—"After my little one was born I was sick with pains in my sides which the doctors said were caused by inflammation. I suffered a great deal every month and grew very thin. I was under the doctor's care for two long years without any benefit. Finally after repeated suggestions to try it we got Lydia E. Pinkham's Vegetable Compound. After taking the third bottle of the Compound I was able to do my housework and today I am strong and healthy again. I will answer letters if anyone wishes to know about my case."—Mrs. JOSEPH ASELIN, 606 Fourth Avenue, Minneapolis, Minn.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record of being the most successful remedy we know for woman's ills. If you need such a medicine why not try it?

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

NEW POSTMASTER FOR TWO HARBORS

Eveleth, Minn., June 9.—(Special to The Herald.)—Rev. Father Edward G. Mullaney of Chicago is having excellent success with his mission at St. Patrick's church here. Father has been holding two services each day and the church is crowded at each service.

WILL BE TOASTMASTER AT BANQUET OF ALUMNI

Chisholm, Minn., June 9.—(Special to The Herald.)—The technical high school will be the scene of a gathering of high school alumni tonight when the annual banquet is held with Axel B. Dahl as toastmaster. The dining room will be decorated with the school colors.

Richard L. Griggs, one of the oldest graduates, will speak on "Good Old High School Days." Henry Fehrn's subject is "What the Class of 1914 Means." Getting Together and discussed by Supt. P. R. Colgrove. Denison Hayes, president of the alumni association, will welcome the guests, while James Bright, head of the 1915 class, will respond. Leighton Simons, who will speak.

Following the banquet the graduates and their friends will dance at the Moose hall. Music will be furnished by the Dahl orchestra.

COLERAINE IS ALL READY FOR N. M. D. A.

Various Forms of Entertainment Planned for Big Gathering.

Coleraine, Minn., June 9.—(Special to The Herald.)—Everything is in readiness for the biggest gathering of representative men ever assembled on the Mesaba range. The local committee have been busy with preparations and nothing will be left undone by the Coleraine committee to give the delegates to the N. M. D. A. a good time here Thursday and Friday.

There will be one of the famous range smokers with the good stories and good music for one evening. Another evening of vaudeville entertainment, boat-riding, lake illumination and dancing will be given. One of the instructive features of entertainment will be a train ride through the mines and a visit to the greatest iron concentrator in America and an automobile tour around Trout lake by way of the North Central experiment station.

On Friday will be the governor's day and about all of Itasca county is expected to be present to greet the chief executive.

VIRGINIA COUNCIL IS IN DEADLOCK

Virginia, Minn., June 9.—(Special to The Herald.)—The question of appointing an inspector of the septic tank construction loomed up again last night at the council meeting when an effort was again made to have Milton Butler appointed over the veto action of the Board of Health.

The health committee indorsed the action of Health Officer Crease in disapproving with the services of John Roseward, superintendent of the incinerator plant. Sam Walker was appointed to the position.

COCKROACHES IN THE KITCHEN

How to Exterminate These Pests That Spoil the Food.

Nothing is more repulsive to the neat housewife than to see cockroaches in her kitchen. They are not only disgusting, but they are also a source of danger to health. They carry germs and spread disease.

Get a two-cent tin of Stearns Electric Paste from your druggist. It is twenty-five cents and use it at night. Paste it on the wall and the morning sweep up a panful of dead cockroaches. Directions in fifteen languages in every package.

BRIDAL COUPLE ARE NOW AT CHISHOLM

Chisholm, Minn., June 9.—(Special to The Herald.)—The marriage of Miss Mary Stark of Ely and Steve Storch of this city was solemnized on Monday morning at the Rev. Father's performing the ceremony.

The groom is a young business man, and the bride is a young woman. They were both graduates of the University of Minnesota.

The ceremony was performed by Rev. Father Storch, who is the pastor of the St. Mary's church in Ely.

The bride is the daughter of Mr. and Mrs. J. H. Stark, of Ely. She is a graduate of the University of Minnesota.

RESISTANCE TO DISEASE

The power of your body to resist disease and to fight it after disease gets a foothold is one of the most precious possessions you have.

You weaken this power when you let your general health run down, your blood gets thin and your nerves unsteady.

You weaken it when you worry, when you overwork or are guilty of excesses of almost any kind, when you do not get sufficient sleep and when you are under-nourished, either because you do not eat the right kind of food or because your digestion is out of order.

You prefer your power to resist disease when you keep good hours, eat proper food at regular intervals and are temperate in all things. You increase and strengthen it when you build up your blood and nerves by the timely use of a tonic like Dr. Williams' Pink Pills, free from alcohol, opiates and harmful drugs of any kind.

These tonic pills and careful attention to your diet will go far toward keeping you in health. Two books, "Building Up the Blood" and "What to Eat and How to Eat," contain just the information you need and will be sent free on request by the Dr. Williams' Medicine Co., Schenectady, N. Y. If you mention this paper, your own druggist sells Dr. Williams' Pink Pills.

REAL PIANO BARGAINS

Our Prices Are Cut Down After Dealers' Closing-Out-Sale Prices.

We closed out many dealers' stocks last winter and this spring, have now winter stock in, and will close it out until it is all gone at the greatest bargains ever known in the piano market.

We are not going out of business in ten days and then fifteen days to change our name. Our name is good and Korb's Piano Co.'s selling plans are the best.

Rotten, pushed-together piano parts, right where cheapest can be found, have very little if any value to us. While our famous built-up pianos are worth double the amount now asked, and bring pride to the user and value to the household goods.

Do not put off piano buying. Come to our store now, be sure and look Korb's No. 1, in order to get in the right store.

We have no going-out-of-business signs on our windows, but real piano bargains are on our two floors. Used pianos from \$100 to \$500 new pianos \$150 and up. \$750 player pianos \$350 and up. Cash or monthly payments.

GERMANY CLAIMS THE RIGHT TO DESTROY AN AMERICAN VESSEL CARRYING CONTRABAND

NORTHERN MINNESOTA ON PARADE BEFORE LAWMAKERS OF THE STATE, HERE IN "ADJOURNED SESSION"

DAY'S PLANS MARRED BY CHILLY RAIN

Party Spends Morning at Steel Plant and Model City.

Automobile Ride and Harbor Trip on Afternoon Program.

Dinner at Club Will Bring Duluth Entertainment to Close.

Northern Minnesota went on parade this morning, with Duluth leading the procession, while more than 100 members of the "adjourned session" of the legislature occupied the reviewing stand.

Undaunted by a cold rain and the prospect of a cold, cloudy day, members of the Minnesota legislative assembly, with their wives and many state officials, arrived in Duluth from Claguet aboard the "legislative" special early this morning, and after stopping long enough to pick up two score business men of Duluth, left for an inspection tour of the steel plant, the power plant and the northern end of the Jay Cooke State park.

For ten days the parade will continue, and on June 19, when the special train will pull into the St. Paul station, those from Southern and Central Minnesota will have been "shown." The entire north half of the state is prepared to give the lawmakers and senators, manufacturers and possibilities of this part of Minnesota, and the recreation committee members are not at all in doubt as to the impression they will leave.

This tour, the most extraordinary session in the history of the state and probably of any state, will be recorded as the "adjourned" session of the legislature.

TO MAKE CHEMICALS ON A LARGE SCALE

Three Big Plants Nearly Completed in Suburbs of Pittsburgh.

Pittsburgh, Pa., June 10.—Announcement was made here today of the early completion in the Pittsburgh district of three chemical plants to manufacture a wide range of chemical products heretofore imported from European countries now at war. One plant will produce twenty-five tons of synthetic alcohol daily, another sixteen tons of nitric acid, and the third will be confined to the production of the more refined chemical products of benzol. The initial manufacturing units represent an investment of some \$2,000,000 which is stated will later be increased to \$2,000,000. The plants are located at Carnegie, Oakdale and Noblesburg, all Pittsburgh suburbs.

NOTE SENT TO GERMANY NO MORE IN NATURE OF ULTIMATUM THAN FIRST

Washington, June 10.—The American note to Germany concerning the sinking of the Lusitania, which precipitated the crisis in President Wilson's cabinet and as a climax to which William Jennings Bryan resigned as secretary of state, was believed here to have reached Ambassador Gerard in Berlin early today. It was expected the ambassador would present the communication immediately to the German foreign office.

It became known today that just before the note was forwarded to Berlin it was shown to Former Secretary Bryan by Acting Secretary Lansing at the personal direction of President Wilson. Some slight changes had been made in the note and the president wanted Mr. Bryan to see it in its final form.

Pending the publication of the note tomorrow morning, officials would not discuss its details, but it was declared it was no more in the nature of an ultimatum than was the last note.

The note makes it very plain, however, that the United States expects that Germany shall cease attacks on American ships and citizens.

ONLY ONE COLLIER LOST, SAYS BERLIN

Conflicting Reports on Naval Engagement in Baltic Sea.

Berlin, June 10, by wireless to London.—Only one German ship, a collier, was sunk by a Russian submarine in the naval engagement of June 5 in the Baltic sea off the Gulf of Riga, according to reliable information obtained here. It is stated that a German destroyer which was sailing by the side of the collier, was slightly damaged by the same torpedo but was able to make port.

Denial was made of a report published in the Army Messenger at Petrograd that there were explosions on other vessels attacked by Russian submarines or that any other damage was done.

Insist on Report. Petrograd, June 10, via London.—In spite of the German denial it is insisted upon in authoritative circles here that one German torpedo boat and one transport were sunk and another torpedo boat damaged by a Russian submarine in the recent naval engagement in the Baltic.

State Auditor Preus Delivers Able Address on Development Work.

By a Staff Correspondent. Coleraine, Minn., June 10.—(Special to The Herald.)—Owing to the fact that incoming trains do not arrive until later in the morning, the spring conference on development of the Northern Minnesota Development Association opened with only a small attendance from outside of Coleraine this morning. Messages were received in sheets, explaining that the delegates would be here later in the day and tomorrow and it is therefore assured that a very large attendance will be the total result of the gathering.

The initial meeting of the association this morning was brief. After an invocation by Rev. Thomas B. Short of Coleraine, Mayor H. F. Downing heartily welcomed the delegates and a brief response of thanks was made by Charles T. Kelley of Menasha, president of the association.

Mayor H. F. Downing, in welcoming the delegates, said in part: "I consider it a great privilege and a high honor to myself, to the citizens of Coleraine for whom I speak, and to the people of Itasca county to welcome you to our city."

GERMANS RETREAT FROM THE BALTIC PROVINCES RECENTLY TAKEN FROM THE RUSSIANS

TEUTON WING WITHDRAWN TO THE SOUTH

Official Announcement Is Made From German Army Headquarters.

Wearied Russians Secure Breathing Spell on Eastern Front.

Many Austrians and Germans Taken Prisoners Near Przemyśl.

Berlin, June 10, via London, 3:30 p. m.—The official announcement from army headquarters today states that the German forces which invaded the Baltic provinces of Russia have retreated. The statement says that the German wing southeast of Shavli has withdrawn to the south, towards the Beisagola-Zoginie line.

Russians Ret. London, June 10.—Careful reading between the lines of the various official announcements of the last twelve hours leads British observers of the situation on the continent to the belief that the wearied Russians have been successful in gaining a breathing spell along the eastern front. Furthermore, evidence of the stubborn opposition which the Austro-Germans are said to be meeting near the center of the line in Galicia is declared here to exist in statements from Petrograd that 2,000 Austro-German prisoners have been taken in.

AUSTRIANS EVACUATE FORTIFICATIONS AFTER DESTROYING BIG GUNS

Italian Troops Find Fort Possaccio Abandoned on Arrival.

Equipped With Heavy Cannon Brought From Galicia.

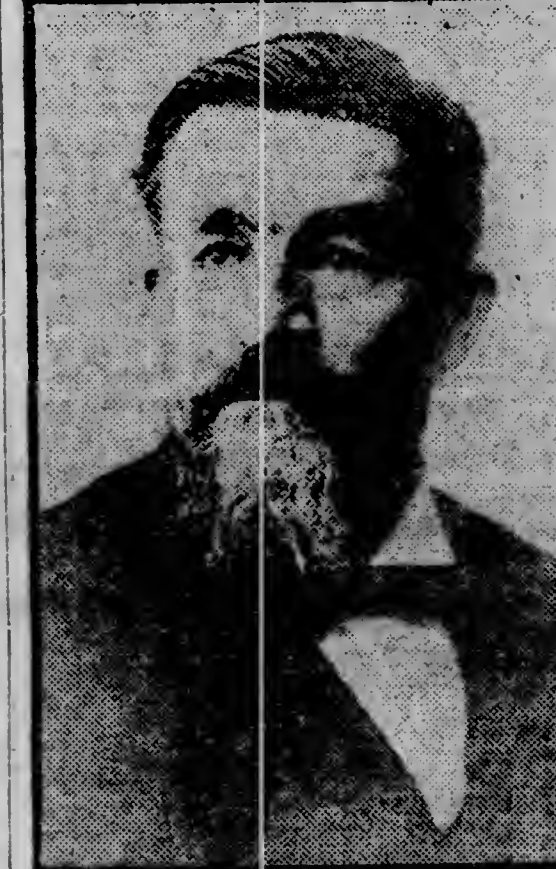

Verona, Italy, June 10, via Paris, 2 p. m.—The Italian troops which are invading Austria through the Arva valley, towards Rovereto, to the south of Trent, discovered that the Austrians had abandoned Fort Possaccio, two miles north of Mattiazzone. Fort Possaccio was rated as one of the strongest Austrian fortifications in that region. It was equipped with heavy guns said to have been brought from Galicia. The Austrians destroyed the fortifications before their evacuation.

Austrians Throw Bombs. Paris, June 10.—The Havas News agency has received a dispatch from its correspondent at Nish, Serbia, who says that at an early hour today three Austrian aeroplanes flew over Kragujevac, where there is an arsenal and factories for arms and ammunition, and threw down three bombs. Three persons were killed and ten were wounded.

Serbian aviators went into the air and met the Austrian airships as they were returning from this raid at a point near Smederevo. During the ensuing fight one of the Austrian machines, struck by bullets from a Serbian quick-firing gun, fell to the earth in Austrian territory. A thick cloud of smoke could be seen coming up from the spot where this machine landed.

Can Operate Line. Washington, June 10.—The Southern Pacific railway was today granted permission by the interstate commerce commission to continue the operation of its steamship line between Sacramento and San Francisco on the Sacramento river.

BRITISH SHIP BOLDT SENT TO THE BOTTOM

Steamer Torpedoed By German Submarine Off Harwich; Crew Saved.

London, June 10.—The British steamer Erna Boldt has been torpedoed and sunk off Harwich by a German submarine. The members of the crew were saved.

The Erna Boldt was formerly a German steamer. She was captured by the British and put into service by them. She was of 1,045 net tons and 260 feet long and was built in 1908.

Crew Landed. Harlepool, Eng., June 10.—The crew of the trawler Velocity, which was sunk at sea by a German submarine, were landed here this morning after being fifty-two hours at sea in a small boat without food or water. The men were in a terrible state of exhaustion when picked up by the vessel, which brought them to port. The submarine fired five shells at the Velocity to send her to the bottom.

SUMMARY OF THE WAR NEWS

A German tactical reverse in the Baltic provinces of Russia is indicated by the official statement today from Berlin. It is said the Russians brought up reinforcements in the district south of Shavli, and that the wing of the German forces, which has been attempting an encircling movement east of the Dubysa river was withdrawn.

Fresh Russian forces have been brought up also in Galicia to the south of Lemberg, where the principal Austro-German effort is now being directed. The Berlin announcement says the attacks of the Russians were repulsed.

War reports from Paris and Berlin respecting the situation in the west show that a series of sporadic engagements is in progress in several sections of the front. On each side minor successes have been won. The French attack south of Arras, which was for the allies a long section of German trenches near Hebuterne, apparently is not being followed up, no new fighting in this region being reported.

Unofficial dispatches from Italian sources say the Italian army which is invading Austria in the direction of Trent has made a further advance. The Austrians destroyed and evacuated a fortress south of Rovereto.

Three Austrian aeroplanes raided the Serbian arsenal at Kragujevac, dropping bombs which killed three persons and wounded ten. One of the Austrian aeroplanes is said to have been brought down.

Five more British vessels, of which four were trawlers, have been sunk by German submarines.

Imperial Government So States in Its Latest Note to U. S.

Sinking of American Ship Must Be Settled By Prize Court.

Two Points Made in American Note on Frye Case Rejected.

Washington, June 10.—Germany's latest note to the United States on the sinking of the American sailing ship William P. Frye by the Prinz Eitel Friedrich, received here today, makes the far-reaching claim of a right to destroy any American vessel carrying contraband, while agreeing to pay damages for the act.

Two points made by the United States are rejected by Germany. One was the statement of the American government in its note of April 23, that prize court proceedings meant unnecessary delay, all matters concerned being susceptible for prompt settlement through diplomatic channels and the other was that the destruction of the Frye was "unquestionably a violation of the obligations imposed upon the imperial government under existing

TWO TORPEDO BOATS SENT TO THE BOTTOM

London, June 10, 6:10 p. m.—Two British torpedo boats were torpedoed this morning off the east coast of England by a German submarine.

Two Trawlers Sunk. Grimsby, Eng., June 10.—The trawlers Tunisian and Castor have been sunk by a German submarine. The Tunisian's crew, which was allowed five minutes in which to leave the boat, arrived here today. The vessel was sunk with bombs. The Castor's crew was picked up at sea. In this case also bombs were used by the Germans. The submarine pursued another trawler, but the arrival of a patrol boat saved that vessel.

At various points along the Isonzo sharp fighting has occurred, and several successes for the Italians are announced, but it is conceded the Austrians still hold dominating positions on the right, or west, bank of the river. Italian forces still are moving northward over the Trent frontier, but thus far the engagements apparently have been little more than skirmishes.

Uninterrupted successes for the Austrians and Germans in Galicia are claimed in Vienna, where it is said the advance south of the Dniester is continuing. In Central Galicia, however, the Russians apparently are retreating the advance with more success.

A Berlin dispatch concedes the German lost one vessel, a collier, in the Baltic engagement of last week and that a destroyer was damaged. It is asserted in Petrograd that a German transport and torpedo boat were sunk.

BIG PARTY GOING TO U. C. T. MEET

About 100 Delegates Will Start for Winona for Convention.

The convention of the United Commercial Travelers who meet in Winona today, tomorrow and Saturday, will find Duluthians an important factor in the meeting every minute. Following the six delegates, who left for the convention yesterday noon, about 100 more Duluthians will leave tonight. The Third Regiment band, the commercial men's baseball team, and several squads of rowers will be in the party. An effort will be made to secure the 1917 convention for Duluth. The convention will receive delegates and visitors from Minnesota and North and South Dakota, which comprises a good share of the territory in the Northwest. It is expected that between 500 and 600 delegates will be present.

The Third Regiment band is expected to keep the party in good spirits, and concerts during the round trip will be given at every city possible, and Duluth boosted with songs and slogans.

The local men will carry with them the baseball team, which last year won the championship of the organization. Several games will be played, and the program of the convention is said to be the best ever arranged by the organization. There will be a number of athletic sports, and a number of social events. A grand ball tomorrow night is the biggest social feature. George M. Peterson of this city is general conductor.

BREAKWATER NEEDED TO SAVE LIVES AND SHIPS

Unanimous Approval of the Project By Duluth Marine Men.

Would Have Prevented Mataafa Tragedy, Says Capt. Weeks.

Forty Attend Hearing Conducted By United States Engineer.

CAPT. C. H. WEEKS.

If the loss of human life on boats plying the waters of Lake Superior is to be minimized and shipping interests are to effect any saving from shipwreck, a breakwater for the port of Duluth is absolutely essential. This was the unanimous verdict at least as expressed by Duluth marine men who voiced an opinion on the subject at the hearing conducted by Maj. Peck, chief government engineer at the head of the lakes, this morning at the Commercial club.

The purpose of the hearing was to obtain from the marine men at the head of the lakes an expression as to the necessity of the government constructing a breakwater in Lake Superior so as to shelter the harbor of Duluth in time of storms. About forty attended.

Maj. Peck, who presided at the hearing, has already made recommendations to the army board of engineers and has reported favorably on the project. A stenographic record of the speeches made this morning in support of the breakwater proposition will accompany his final report to the engineers.

Not Money Alone, But Lives.

Capt. Alexander McDougall, chairman of the harbor committee of the Duluth Commercial club, which is taking an active interest in the breakwater plans, spoke at some length. He urged the importance and necessity of such an improvement and declared that it would mean a great saving, not only in money to shippers but also in human life.

Capt. C. H. Weeks stated that in his opinion the Mataafa which was wrecked off the canal pier during a storm which whipped the upper end of Lake Superior into a fury in November, 1905, would never have met with disaster had the Duluth harbor been protected with a breakwater at that time. He also declared that the Lafayette, Zenith City and other boats which were trying to make port at that time would have been saved and that the steamer Noble would probably have been able to save herself.

Others Induce It.

Others who spoke in favor of the breakwater, giving it their hearty endorsement were: H. C. Strom of the Pickands-Mather fleet; H. W. Brown of the Pittsburgh Steamship company's fleet; J. H. Darling, former government engineer; Capt. Warren C. Jones of the steamer Davidson; Capt. John Kennedy of the steamer Buffalo; Capt. H. W. Vrooman of the Union Trading & Wrecking company; J. T. Elliott of the Pittsburgh Coal company; H. R. Spencer, attorney; Capt. John Monaghan, vessel inspector; and G. A. Tomlinson of the Tomlinson fleet.

The consensus of opinion was that the breakwater should be built at a point opposite Twenty-first avenue east and that it should extend in southerly direction from the foot of that avenue for a distance of about 7,000 feet. The kind of material to be used was a question for the engineers. A sand and gravel bottom with a rock superstructure is favored.

Others who attended the meeting this morning were M. S. Mead, August Eltzer, W. A. Whitney, Superior; C. W. Douglas, J. D. Striker, E. B. Spelman, S. George Stevens, E. Kenner, and A. S. McDonald.

Light and Shadows of Police Court.

ESCAPING DOESN'T PAY.

Work Farm Prisoner Must Spend Sixty Days Extra in Jail.

Eight months ago, Fred Gilbert, 38 years old, escaped from the work farm and as a result he will have to serve the remaining 35 days of his original 60-day sentence and in addition 60 days for making the escape. And the worst part of it is that he will spend the next 36 days in the county jail, where the authorities are certain he will be safe.

Gilbert was arrested last October and given 60 days on the farm. After serving 25 days, he escaped and was caught.

Yesterday Gilbert came to town and he was immediately recognized by Patrolman O. Olson, who caused his arrest. This morning Gilbert pleaded guilty and the sentence followed.

FINDS "ROLL" ON WALK.

Peter Berg Drops \$134 and Recovers It Untouched.

Peter Berg of 245 Lake avenue south came to police headquarters about midnight with a story that he had lost \$134. He thought pickpockets had taken the money away from him, he told the police.

And at 1:30 o'clock this morning Berg came back to the station, with the pocketbook and the \$134. He no longer thought pickpockets took the roll.

"I guess I dropped it when I came out of my boarding house," Berg told the police. He found the money on the sidewalk near his home.

JEALOUSY COSTLY.

Green-Eyed Monster Brings Work Farm Sentence to Pekelski.

A jealous disposition is costing Walter Pekelski a 30-day term on the work farm. The other night Pekelski, angered because his roommate, Joseph Beta, had stolen a march on him in their love affair, appeased his jealous wrath by cutting Beta's suitcase and two hats into bits. Beta had him arrested and this morning Judge Cutting found him guilty. He was fined \$50 or sixty days on the work farm.

Serenson is unable to pay his fine and as a result will go to the "cooler to cool off."

LOSES \$50 "SOMEWHERE IN DULUTH OR SUPERIOR"

Alex Gustafson last evening lost \$50 somewhere in Duluth or Superior. That's all the information he can give the police.

Gustafson knows he had \$50 when he started out from Connor's Point late yesterday and that he didn't have it when he arrived at his home, 904 East Third street.

He appealed to the police to aid him in finding the money.

Didn't "Look Good."

Henry Laine, 25, "didn't look good" to William Goldstein when the former asked him to cash a check and as a

result Laine is now in jail, pending an investigation.

Mr. Goldstein operates a store at 561 West Michigan street and when Laine came in this morning to cash a check the storekeeper suspected him. Laine fled the police. Patrolman Danielson made the arrest.

Laine had two checks he attempted to cash when the arrest was made.

FAILED TO APPEAR.

Jitneer Broke Promise to Report in Court, Say Police.

Never again will Ernest Rickard be accommodated by the police.

For last night Rickard was arrested on a charge of operating his jitney without lighting the rear lamp and after being booked up, promised to appear in court this morning. If the police would allow him to go on his own recognizance.

When his case was called by Judge Cutting, Rickard was not present and the police are now out looking for him.

Rickard lives at 3222 West Superior street.

BEWARE OF GARDENS!

Young Ball Players Must Not Trample Shrubby While Chasing Flies.

Damaging of shrubbery and gardens by youthful ball players will not be tolerated by the police and as a result two boys were arrested this morning by Detective Bradley. They will be arraigned in probate court Saturday.

Complaints have been received by the police from different parts of the city that boys are in the habit of trampling over gardens and shrubbery in "catching flies" or "stopping grounders."

John Makin, 25, and George Zepanski, 25, who were arrested on Miller's complaint, were found to have no connection with the theft and they were charged with being vagrants. They pleaded not guilty and their trial was set for this afternoon.

Too Many Suits.

Two suits, besides the one being

worn, are too many, according to the police.

This morning, Arthur Stevens, 49, attempted to put two suits to a West end business man and when the latter reported the matter to the police, Stevens was arrested, pending an investigation. Detective Toewe made the arrest.

Stevens denies having stolen the suits.

PLAYGROUNDS OPEN JULY 1

Chicago Woman to Supervise Play of Women and Girls.

"At Least Three Grounds at Start," Says Mr. Batchelor.

Duluth playgrounds will be opened to the public on July 1, according to an announcement made this morning by J. B. Batchelor.

Mr. Batchelor, who has been chosen as playgrounds director for the summer, returned this morning from a trip to Chicago, Milwaukee and Gary, Ind., where he has been inspecting the playground systems of those cities. He has secured some ideas which he hopes to put into effect in Duluth.

The three chosen are: Chester, in Chicago; I secured the services of Miss Strode as assistant director, to be in charge of the work for women and girls; said Mr. Batchelor. "She is a graduate of the Chicago School of Civic and Philanthropy and has had experience in playground work. She ought to be of great assistance to us here."

There will be three playgrounds at the start at least and the three will be kept open all summer if the funds permit. There will be a man and a woman in charge of the work at each playground. Miss Strode and myself will take charge at one of them, so that either of us will be able to get away to visit the others at any time. The three chosen are: Chester park, the Bryant school grounds and the grounds here at Fifty-second avenue west. They will be immediately placed in good condition and will be ready for the opening on July 1.

SHRINERS WILL VISIT GRAND FORKS

Fifteen in Duluth Party on Pilgrimage to Kem Temple.

Commissioner Silberstein, head of the safety division, will be a member of the local party of Shriners, leaving at 8 o'clock this evening to attend the annual ceremonial at Kem temple at Grand Forks tomorrow afternoon and evening.

There will be fifteen local Shriners in the party, while several delegations are expected here this afternoon from the range towns—Exord Ayres, potential member of the temple, is in charge of the pilgrimage.

In addition to attending the ceremonial at Grand Forks, Commissioner Silberstein plans to inspect the garbage disposal plant at Grand Forks and take the place of the old structure now in use.

Will be the guest of honor at the ceremonial and he will participate in an afternoon, which will officially open the new temple. The vote was 38 to 6.

The local delegation, including the safety commissioner, will return Sunday.

TICKET SELLERS ASK SHORTER HOURS

Passenger Agents Asked to Close Earlier in the Afternoon.

Railway ticket sellers in Duluth may have shorter hours during the afternoon, during the coming summer. Employees in the local ticket offices sent a petition yesterday to the general and district passenger offices requesting a change in hours.

It is suggested that the offices close at 3 o'clock Saturday afternoons and at 5:30 on other days from June 15 to Sept. 1. At present the offices are kept open until 6 p. m. every day.

Railway offices in Chicago, Milwaukee and the Twin Cities have been closing at 3 p. m. Saturdays and at 5:30 on other days since June 1.

STRIKES SNAG IN ASSEMBLY

Wisconsin House Insists on Amendment to Water Power Bill.

Madison, Wis., June 10.—The water power interests whose bill regulating water powers in this state passed the senate with comparative ease, suffered a reverse in the lower house today when that body refused to reject the Nordman amendment, in effect re-enacting the Husting law now on the statutes. The vote was 38 to 6.

A call of the house was thereupon ordered on motion of Assemblyman Hambrecht to secure the return of all absentees.

The assembly, 40 to 30, reconsidered its action in killing the Arnold home rule amendment. A substitute offered was laid over.

The senate refused to concur in an assembly bill prohibiting treating and concurred in a bill permitting open saloons on election days after the polls have closed.

The state affairs committee made no recommendation in reporting out the Stember bill legalizing saloon licenses.

The Harrison bill, a new normal school site in Northeastern Wisconsin was non-concurred in, 21 to 6.

Columbia University Confers Laws Degree on Woman for First Time

Louisa Lee Schuyler.

Columbia university for the first time in its history conferred on a woman recently the honorary degree of LL. D. The woman so honored is Miss Louisa Lee Schuyler. She was born in New York in 1837. She was prominent in the work of the sanitary commission in the Civil war. Since that time she has been prominent in hospital and poorhouse work and she founded the State Charities aid association in 1872. She established the Bellevue hospital training school for nurses, and she has done much other notable philanthropic work.

WHY SOME DON'T WED.

From "America, in Ferment," by Paul Leland Haworth. In the United States, as a whole the number of males is 2,692,288 in excess of the number of females, the ratio being 106 males to 100 females. In most European countries a reverse situation prevails. In England and Wales the number of males to 100 females is only 94.7; in France, 95.7; in the German empire, 97; in Italy, 96.5; in Russia, 98.

The excess of males in the United States, as a whole, is due to the fact that the male sex is more numerous than the female sex.

Columbia University Confers Laws Degree on Woman for First Time

Louisa Lee Schuyler.

Columbia university for the first time in its history conferred on a woman recently the honorary degree of LL. D. The woman so honored is Miss Louisa Lee Schuyler. She was born in New York in 1837. She was prominent in the work of the sanitary commission in the Civil war. Since that time she has been prominent in hospital and poorhouse work and she founded the State Charities aid association in 1872. She established the Bellevue hospital training school for nurses, and she has done much other notable philanthropic work.

WHY SOME DON'T WED.

From "America, in Ferment," by Paul Leland Haworth. In the United States, as a whole the number of males is 2,692,288 in excess of the number of females, the ratio being 106 males to 100 females. In most European countries a reverse situation prevails. In England and Wales the number of males to 100 females is only 94.7; in France, 95.7; in the German empire, 97; in Italy, 96.5; in Russia, 98.

The excess of males in the United States, as a whole, is due to the fact that the male sex is more numerous than the female sex.

CAPT. T. H. PRESSNELL TAKEN TO HOSPITAL

Capt. T. H. Pressnell, United States commissioner, who was taken ill yesterday, was removed to St. Mary's hospital this morning. His condition is reported about the same today as it was last night. Two physicians were in attendance last night for a time.

Mr. Pressnell was seized with an attack of rheumatism in his lower limbs about a year ago, and has been troubled more or less ever since. He was at his desk in the Federal building yesterday. His rugged strength and general good health have enabled him to keep at his work steadily for many months.

States is chiefly due to extensive immigration, the immigrants being males more than females. In 1907, for example, out of a total immigration of 1,286,248 only 352,373 were females.

The greater disparity between the number of the sexes is among the Chinese, with a ratio of 3,074.3 males to 1,000 females; the Japanese with 1,977.8 males to 1,000 females; the Greeks with 1,192.7 males to 1,000 females; then the Bulgarians, Serbians and Montenegrins, with 1,107.8 males to 1,000 females; the Danes with 1,066.4 males to 1,000 females; the Poles with 1,066.4 males to 1,000 females; the Russians with 1,066.4 males to 1,000 females; the Americans with 1,066.4 males to 1,000 females.

Industrial conditions influence the distribution of the sexes. Massachusetts, which has large cotton and woolen industries especially adapted to women workers, contains a female population of about 55,000 in excess of the male population, and is known among sociologists as a "female state."

Pennsylvania, with its mines and metal industries, demands men and has a male population about 220,000 in excess of the female population and is, therefore, a "male state."

In some of the mill towns of Massachusetts the disproportion is yet more marked, and the same is true of certain Western states, though for different causes. Nevada, for example, in spite of the presence of Reno within its borders, has 52,551 males and only 23,324 females.

Wyoming, in which the disparity is next greatest, contains 91,670 males and 54,228 females. Even Utah contains 136,822 males and only 176,468 females.

In response to the advertisement of the United States navy department for 1,500,000 (teak) docking lock, a Manila lumber firm has submitted an offer of 600,000 feet of teak, a Philippine wood resembling teak, which is regarded as the equal of teak for construction purposes. This is the first time that such offers of Philippine woods have been made to the navy.

RETAINED AS SECRETARY

Civil Service Board Considers Johnson Under Its Rules.

Members Take No Action as No Communication Is Presented.

Ruben Johnson, secretary of the civil service commission, will continue in that capacity and M. J. Segal is now on the eligible list of the health department and may continue his work as inspector of contagious diseases, as a result of the special meeting held by the commission in the city hall yesterday afternoon.

The members of the commission refused to take any official action on the status of Secretary Johnson, in view of the fact that no communications had been presented nor the matter placed before that body by any of the city commissioners, in discussing the question, the commission-

ers declared that Mr. Johnson is solely under the civil service rules and that he cannot be discharged without cause. The whole affair was viewed somewhat as a tempest in a teapot. Recently Inspector Segal asked the civil service body to reinstate him on the eligible list, as he had left the department two years ago, at which time he was senior inspector. The commissioners placed him on the list and he is now legally employed by the city. His continuance in the department will depend on whether he is needed in the department. All the commissioners were present at the meeting yesterday afternoon. They are: H. W. Nichols, George Parker and M. J. Philtrault.

YEOMEN HOLD MEMORIAL SERVICE

Tribute Paid to Mason Downey and Herbert Lewis.

Memorial services for departed members were conducted last evening at Maccabee hall by Duluth homestead, No. 3124, Brotherhood of American Yeomen.

M. E. Louissell, who gave the principal address, told of the origin of Memorial day. "Death," he said, "always brings sorrow. It comes when least expected without any passports or signals of its entry. Let us hope that next year all who are here may again be together, that the shadow of death will not fall on the paths of any of us. But let us always be prepared to meet it."

John Wesenberg, chairman of the meeting, paid a tribute to the two departed members of the order during the last year, Mason Downey and Herbert Lewis.

P. F. Harouff, district manager, gave a short talk in which he urged the Yeomen to remember the principles of the order. Several selections were given by a quartet consisting of E. Morris, Archie Moran, Albert Ferland and John Belanger.

FORMER MINNESOTA KILLED BY LIGHTNING

Lewistown, Mont., June 10.—Ned C. Hardy, 44 years old, was killed by lightning at his ranch near Winnett, in Eastern Fergus county, Tuesday. He was formerly of Minnesota.

His son, Bryan, 17 years old, will be graduated this week from a Minneapolis high school, and his daughter, Apollis, 19 years old, is a senior in the University of Minnesota.

"This is why they go so good"

(A few "quick-reading" facts about one of the most remarkable cigarettes ever made)

In town after town—in state after state, as fast as they are introduced—Favorite Cigarettes leap into big favor almost instantly.

In several cities during the past few months, Favorites have jumped from being an unknown brand to the biggest selling cigarette in those cities.

No other cigarette has ever shot ahead without help so fast as Favorites.

For, mind you, Favorite Cigarettes gained their tremendous popularity absolutely unassisted—before they were advertised—without being pushed—without help of any kind.

What is it, then, that makes Favorites "go so good"?

There's no mystery about it. What reason could there be except that it's **JUST BECAUSE THEY'RE SO GOOD!**

It is just because there's something about that all-pure, natural leaf tobacco in Favorites and something about the way in which it is blended

that gives Favorites an unusually good taste—a taste that the majority of men like.

If you have not yet tried Favorite Cigarettes, we say simply this:

"Favorites are mighty good. They are pure. Most men like them. Just try them and see what YOU think."

Why add more?

Urging alone won't make a man smoke a brand of cigarettes unless he likes them. A smoker is pretty careful what he chooses. Printed facts alone won't convince you that a cigarette is good.

You must try it.

And that try out of Favorites is the clincher that has won all the friends for Favorites wherever they have been introduced.

It isn't surprising that Favorite sales are leaping ahead every day. Men don't wait for the next fellow when they find a cigarette as good as Favorites. *Liggett & Myers Tobacco Co.*

JAY COOKE PARK IS SEEN

Legislative Party Charmed
By Beauty of the
New Park.

Shown Paper-Making From
Pulpwood to the Finished
Product.

By a Staff Correspondent.

Cloquet, Minn., June 10.—(Special to The Herald.)—The legislators of Minnesota who are visiting the northern portion of the state for a sight-seeing trip of ten days, began their education into the beauties, resources and needs of what has hitherto been the unknown portion of the state in Cloquet and the surrounding country. It is said that the tour is one of education. In that case the beginning was most conspicuous for Senator Fred D. Vibert and the Cloquet business men who had the visitors in charge from the time the legislative special pulled in here yesterday afternoon until the members of the party departed on their homeward trip. They kept them on the go, and showed more country and impressive sights than would seem possible in the short space of time allotted.

System was responsible for the excellent work done. Organization was marked in everything. Each auto used in the tour of Carlton county was numbered, and Senator Vibert had furnished each division—before the train arrived—with the number of the car to be taken. The rest was easy and within a few minutes the train had arrived at the station, each member of the party was placed and the long procession of autos was on its way to the forestry station.

Visit to Paper Mill.
Following the visit to that interesting place, involving a drive of several miles in air that was exhilarating, enough to continue an all-day engagement after several days of rain, the paper mill of the Northwestern Paper company was visited and so was the Eastborne, Hark & Midway company box factory. Then came the ride to Carlton and to Thomson, where the water power was viewed, and a visit was paid to the Jay Cooke park, the acquisition of which was recently authorized by the legislature. The legislators looked on with interest at the river that flows through the park and many were the exclamations of wonder that so beautiful a spot had existed without proper exploitation in the state.

When it was explained that the old right-of-way of the old Duluth & Winnipeg road, which is still in pretty good shape, would be used as the highway to Duluth, and the connections were explained, showing that a wonderful highway clear to Two Harbors would be the result, Representative McElroy explained:

"Most Wonderful Drive."
"Why, it will be the most wonderful drive in America."

A chorus of "Nothing to it" was the instant response from the group that stood about.

As to education the legislative party was enlightened in many ways, and Senator Vibert and the Cloquet men who helped him, have set a pace that it is going to keep the entertainment committees of other places to be visited hustling to equal. Fred, as he is known, was everywhere, had fathered the whole affair, the organization plan of entertainment and was the general on the ground to carry it out. His assistants were: C. E. Dixon, L. P. Finkle, John Long, W. A. Gamble, W. J. Peters, H. M. Dixon, J. T. Sheehan and L. A. Fawcett.

The legislators saw—most of them at any rate—for the first time the development of seedlings at a reforestation station, how the seedlings are set out, what a station looks like, they learned that the station consists of 2,700 acres; that the land was donated by the lumber companies; that the tract contains in the neighborhood of 3,000,000 feet of merchantable timber; and that the records and other requirements of such a station are far greater as to detail than any of them had supposed.

Busy Industries.
As to Cloquet they found out that 2,400 men are employed in the saw-mills, that 400 are in the paper mill and about 150 in the box factory; that the paper mill turns out sixty-four tons per day or enough to keep four papers the size of The Herald going; and that the box factory turns out sixty cars a month.

The visitors were taken through the paper mill and shown the whole process of paper-making, how it is peeled, dropped to a pulping machine, the grinders, and the rest of it. When the package of Herald arrived last evening for the legislators, C. L. McNair, president and manager of the Northwestern Paper company, passed them around saying:

"You have seen the paper start from the pulpwood and go on through, and now I present you with the finished product, on which The Herald is printed."

Mr. McNair has sold all of the paper used by The Herald for twenty-three years.

Great is Minnesota.
Representative O. A. Swenson of St. Peter voiced the feelings of a good many when he said after the trip was over:

"Minnesota is a more wonderful state than her people realize. She excels in mining, manufacturing, dairying, grain growing, and—oh, so many things that I can't think of them all. This is the biggest little city I have seen yet—I believe the best of its size in the state."

"And, one reminded him, 'tomorrow you are going to see—in Minnesota—the second largest port in the world.'"

"What?" said a chorus.
"A fact," they were assured. And it was explained that the figures will bear out the statement that Duluth has only one superior and no other equals on this round dwelling place of man. Governor Hammond will not be in Duluth, but will join the party at Coleraine.

The dinner served at the Hotel Cloquet to the visitors last night was given by the manufacturers of the city and was an elaborate affair. It was followed by a reception at the Masonic temple.

NORTHERN MINNESOTA ON PARADE BEFORE LAWMAKERS OF STATE

(Continued from page 1.)

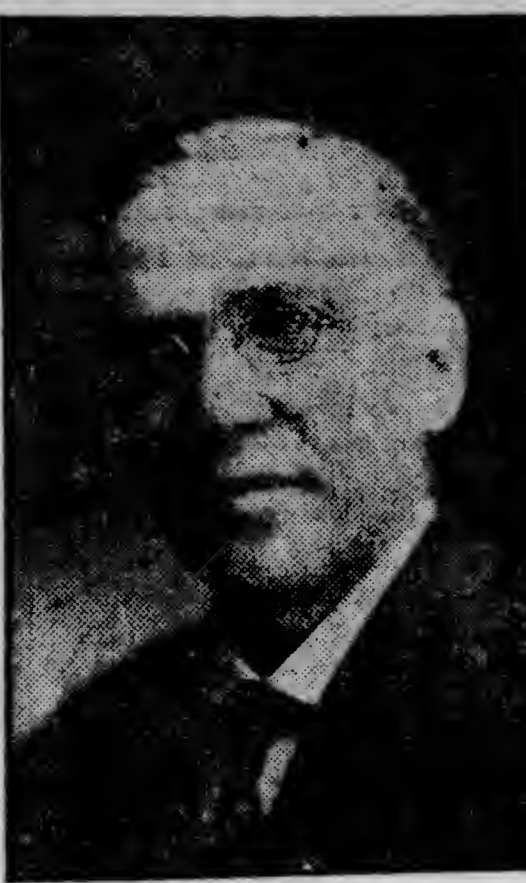

Duluth is in spotlight today and for twenty-four hours the visitors will be busy sight-seeing. After breakfast this morning, the special train went to Morgan Park, where the tourists braved a drizzling rain, long enough to see the model city of the Minnesota Stevedores and the continued to the steel plant proper.

Women in the party, including the wives and relatives of the lawmakers, and officials, were taken to the Spirit Lake branch of the boat club, where the men were conducted through the plant by officials of the Minnesota

Steel company. S. B. Sheldon, general superintendent of the plant, accompanied the party from Duluth and acted as guide, assisted by Vice President Pentecost Mitchell, General Engineer John U. Sebenius, Assistant General Manager J. H. Harding and Secretary George D. Swift.

After the steel plant inspection, the party returned to the train and was taken for a short trip into Jay Cooke park. Secretary H. V. Eya of the Duluth Commercial club and other prominent Duluthians, fortified with maps of the park, took advantage of the opportunity to show the lawmakers the plans for the big reserve.

Luncheon was served at the Spirit Lake Boat club branch and then Senator E. J. (Dad) Westlake of Minneapolis, official "lightning conductor" and speaker of the adjourned joint session, mustered his army of sight-seers for the return to Duluth.

They arrived shortly before 2:30 o'clock and were met by a small army of automobiles. After a tour through the residence and business districts of Duluth, and around the lake and boulevard drives, the automobiles will go to the Fifth avenue west dock, and Senator Eya will board the U. S. S. training ship Gopher for a trip round the harbor.

A complimentary dinner at the Commercial club will complete the day's program and at 9 o'clock tomorrow morning the "reviewing stand" will move down along the line of the stationery parade, to see the wonders of Coleraine, Hibbing, Virginia, International Falls, Baudette, Warroad, Thief River Falls, Red Lake Falls, Crookston, Hallock, Bemidji, Walker and Brainerd.

Governor Hammond did not join the party this morning, but is expected to arrive from the Twin Cities this afternoon and take his seat in the gallery.

Duluth, Two Harbors and the range towns were represented in the reception committee which met the train at the Union station this morning and accompanied the legislators on their jaunt.

Reception Committee.
Included in the reception list were: Representative S. J. Sears of Carlton county, Former Representatives A. L. Warner and Harry Chesdale of Duluth, Senators Griggs and Healey of Virginia, John Dwan and George Mumford of Two Harbors, Representatives Bernard, Borgen and Ribenack of Duluth, Senator Charles Adams of Duluth, Former Senator Thomas Fuch of Duluth, Pentecost Mitchell, H. Prince, Secretary H. V. Eya of the Commercial club, H. L. Dresser, Frank Crossweller, Dr. A. O. Oreson, L. A. Simonson, W. D. Batley, W. H. Hoyt, Gust Carlson, party will board the U. S. S. training ship Gopher for a trip round the harbor.

Increased by the addition of several sightseers who joined the party this morning, the list of lawmakers, state officials and business men from the more distant parts of the state who want to be shown now includes:

Senator and Mrs. Fred D. Vibert, Cloquet; Senator and Mrs. E. J. Westlake, Minneapolis; Mr. and Mrs. Henry A. Ives, St. Paul; Mr. and Mrs. L. M. Davis, Long Prairie; Senator E. P. and Miss Peterson, Litchfield; Senator and Mrs. H. N. Benson, St. Peter; Senator and Mrs. John H. Baldwin, Frazee;

FIND LIQUOR IN MILK CAN

Latest Wrinkle to Get Contraband Into Dry Bemidji Territory.

Six Bottles in Milk Can From Leonard, Minn., Are Confiscated.

Bemidji, Minn., June 10.—(Special to The Herald.)—The latest wrinkle in beating the Indian "dip" in this section is to place the contraband in a can supposed to contain cream.

This method of hitting the "dip" had, however, received a knock in the head Wednesday when Deputy Indian Agent Benson, confided in a can which had been shipped to the Bemidji station.

When the can was opened, six bottles of liquor were found in the cream.

The can was shipped from Leonard, Minn., and was delivered to one of the customers of the station, and which was first suspected by A. H. Brown, manager for the company.

Suspicion Aroused. According to Mr. Brown, the Andersons, formerly proprietors of a local saloon, pushed into the cream station Tuesday morning while the cream was being shipped to the Bemidji station.

The can was shipped from Leonard, Minn., and was delivered to one of the customers of the station, and which was first suspected by A. H. Brown, manager for the company.

TINY RED PIMPLES ON BABY'S CHIN Got Larger. Hair All Came Out. Cried Terribly. Could Not Sleep. Had to Walk Floor to Quiet Him. Used Cuticura and Now Well.

La Crosse, Kansas.—"When my son was one day old he began breaking out on his face in tiny red pimples that seemed to itch, as he was uneasy and could not sleep. The pimples got larger and changed to water blisters. They would break and run and cause new ones to break out until he was covered all over with a thick crust. His head was so hot we were afraid to wash it at all. All his hair came out. We kept him on a pillow for fear of breaking the blisters. Every time they broke they seemed to smart and burn, as he would cry terribly. The eruption disappeared the day we had to walk the floor to quiet him. Had used Cuticura and Now Well."

KNIGHTS TEMPLARS ARE SIGHT-SEEING

Looking Over Historic Points of Copper Country Before Leaving.

Calumet, Mich., June 10.—(Special to The Herald.)—The fifty-ninth grand convocation of the Knights Templars of Michigan will come to an end tonight with the leaving of the steamers

South American and North American with the southern Michigan delegations of nearly 300. Today is being spent by the visitors sight-seeing through the four counties of the Copper country, and an excursion to the mill and smelter towns.

The party left for Keweenaw county to historic Fort Wilkes, established in 1841, to the first copper mines of the district and the famous Douglas monument at Eagle River will be features of the day.

Perfect weather with bright sunshine and balmy breezes favored the gathering yesterday for the big day of the grand convocation. The city featured yesterday were the grand parade and the regatta, non-competitive, in the afternoon.

Eleven hundred knights with five bands, 125 pieces in all, marched in regatta, in the morning and afternoon. The regatta was a success.

Two Gopher Boys WALKING TO FRISCO Little Falls, Minn., June 10.—Two boys, Rodney Danley and Dewey Kern, are walking to San Francisco from Minnesota. They started from Royalton and arrived here this week, and hope to make the entire journey on foot and expect to take the train at San Francisco and San Diego. If they successfully complete the trip they will have their transportation paid for the return journey.

Two MURDERERS ARE HANGED AT WINNIPEG Winnipeg, Man., June 10.—Muttering prayers for divine pardon and blessing, two men, who were hanged yesterday for the murder of an Australian miner, were hanged here this week, and was resigned to his fate, but Kuzin protested his innocence to the last.

FLATIRON EXPLOSION CAUSES WOMAN'S DEATH Minneapolis, N. D., June 10.—Mrs. J. Lawton, 24 years old, died yesterday from burns sustained when a gasolene flatiron with which she was working exploded, scattering the burning fluid over her face and the upper part of her body.

Mrs. Lawton was the wife of a teacher in the Minneapolis high school, to whom she was married last Christmas.

Strawberry Short Cake For dinner every Sunday and once or twice on week days is not too often to serve this delicious dessert as long as strawberries last. The whipped cream for the tops not absolutely necessary, but makes a short cake more attractive to the eye as well as to the taste.

K C Strawberry Short Cake By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine.

24 cups sifted pastry flour; 24 level teaspoonfuls A. C. Baking Powder; 12 cups milk; 2 cups butter; 2 cups granulated sugar; 1 cup or more double cream.

Hall, wash and drain the berries; reserve a few choice berries to garnish the top of the cake; cut the rest in halves and mix with the sugar. Beat the cream and set aside to chill.

Sift together, three times, the flour, baking powder and salt; work in the shortening; then mix to a soft dough with the milk. Spread the mixture in two layer cake pans. Bake about twenty minutes. Turn one cake out on a hot plate, spread liberally with butter, pour on part of the berries; cover with the second cake, also spread with butter, pour over the rest of the berries and bake about ten minutes.

The Cook's Book contains 90 just such delicious recipes. You can secure a copy free by sending the colored certificate packed in 25-cent cans of K. C. Baking Powder to the Baker Mfg. Co., Chicago, being sure to write your name and address plainly.

SPORT GLEANINGS CULLED FROM CURRENT HAPPENINGS

Why Was the Jim Flynn-Jim Coffey Fight Stopped? Present Crop of Lightweights Is Sadly Below Former Standard—The Boxing Commissioners Should Appoint Competent Referees.

BY BRUCE.
JACK CURLEY is a member of the syndicate that is collecting on Jess Willard. Jack Curley is also the manager of Jim Flynn. Jim Coffey is the next prospective opponent for Willard. A meeting between Willard and Coffey in Gotham will pull a record gate. Jim Flynn was going strong in the ninth round against Coffey when the sponge was tossed into the ring. It would have been a severe setback for Coffey not to have beaten Flynn.

All of the New York papers have been sent to this column by the various managers and promoters. Most of the Eastern sport writers agree that the showing Coffey made against old Jim Flynn was nothing to cause the admirers of the Roscommon giant to leap into the air and kick their heels over. But Coffey won.

Coffey will be brought along some more and then in all probability sent against Willard. If Jim Flynn can have Coffey groggy and nearly out, well Willard should beat him.

Regarding the Lightweights.
HELE is not a light weight in the running who classes with Lavigne, Gans, Nelson or Wolgast. Indeed that was a great quartet. You'll find followers of the ring game right today disputing as to which was the greatest.

The compendium of opinion speaks mildly for Gans. Lavigne disputes supremacy with the record of the dead black boy, but Joe is generally given the place. Nelson and Wolgast rank well up.

Mandot is one of the leading contenders for the title today. Joe would have fallen before any one of the four lightweights alluded to, but Louisina Joey met them at their best. Mandot has a weak jaw, as was shown in the Watson fight. The little French kid is as game as a pebble, but lacks the class of the four men who ranked among the greatest in the world.

Charley White falls short of a champion and Freddy Welsh is about the poorest excuse of a champion lightweight that Fisticana has ever clapped gaily on the back and sent forth to conquer.

Wolgast, ragged-trousered and empty of pocket, went to the Pacific slope and rose to the front of the lightweight brigade because, like Kipling's Fuzzy Wuzzy, he was a first class fighting man. Forget the heatings that little Ad is getting these

days. When Battling Nelson was here last winter he said to us one day, "Why Wolgast has gone farther back than I have." In his rugged and dashing prime little Ad was one of the greatest we have ever had. That is something you can't say of any of the present crop of lightweights. Even in some of his fights of today Wolgast has a resurgent moment when he shows a flash of his old form. In that glorious return to knightlyhood he makes his opponents look very bad. We sat in a ringside seat and watched Wolgast and Tillman. The fight was a burlesque on a real battle. In the first round Wolgast dashed at Tillman and like a flash stuck a left in the stomach of the Minneapolis boy. To one knowing anything about fighters Wolgast showed in that wee flash what he once was. But he has gone—Ad's fighting yet, but he is only the gray ghost of the boy who beat Owen Moran, July 4, 1911.

A Warning Is Timely.
IT IS to be hoped that the Minnesota boxing commissioners exercise some degree of wisdom in the appointment of state referees. Some one may arise and declare why the importance of the referee when there is no decision to be given. The protection of the dear old public, child Harold, is today the chief duty of the referee.

Whether boxing promoters and managers of boxers know it or not, there is grave danger lurking ahead for the game. Boxers of the indifferent disposition of certain performers who have repeatedly failed to give the public their best efforts should be severely dealt with. It requires an experienced referee to know when two boxers have their heads together and it requires courage and decision to act when there is need for action. An inexperienced and rattle-brained referee has about the same tendencies as a faulty rudder—he is liable to permit the game to run on the rocks.

Sunday Baseball, Says Rumor.
IF Sunday baseball is to be permitted in the province of Manitoba, as Dame Rumor whispers, the burden of trouble will fall from the shoulders of the Northern league like the load from the weary shoulders of Christian in that interesting travelogue of morality.

Winnipeg and St. Boniface would make the turnstiles of the parks up that way do a wild and abandoned tango on the first day of the week. While the stands and bleachers may look bleak and forlorn on the week days, the crowds on Sunday will keep Kid Deficit from scoring a kayo on the magnates in the Canadian end of the league, should Sunday baseball be permitted.

The Auto Racing Game.
WITH new auto speedways in Chicago and New York, and with Minneapolis and Omaha about to enter the lists, and with Kansas City thinking of constructing a modern speed track, the auto racing game should boldly stalk forth as one of the

biggest of all modern sports. Something like 75,000 persons witnessed the Indianapolis races. On June 10 the Chicago races are to start with Dario Resta, winner of the Grand Prix and Vanderbilt races, as one of the stars. De Palma, Louis Chevrolet, Barney Oldfield, Mulford and others are also entered. It is probable that more than 100,000 persons will witness the first day's racing.

We Americans love action, excitement and the spectacular—and auto racing on the big ovals supplies all of these sport ingredients.

WOMEN'S GOLF DATE SHIFTED

Qualifying Round in Handicap Will Be Played Saturday Morning.

There has been a postponement of the date set for the playing of the women's 18-hole qualifying round of the spring handicap at the Northland club. The date was originally set for today, but owing to the difficulty in securing caddies until the close of the public schools, the date has been shifted to Saturday morning. Play will begin at 9 o'clock.

The contest is to be a straight match, eight to qualify. Every woman in the club who plays golf is expected to enter the play.

Just as soon as the weather clears, play will be resumed in the spring handicap event. Some of the best players in the club are in the play down, including R. S. Patrick, state champion, and some good golf is expected.

O'DONNELL CAPTURES 100-MILE AUTO RACE

Has Easy Victory Over Eleven Rivals at Galesburg.

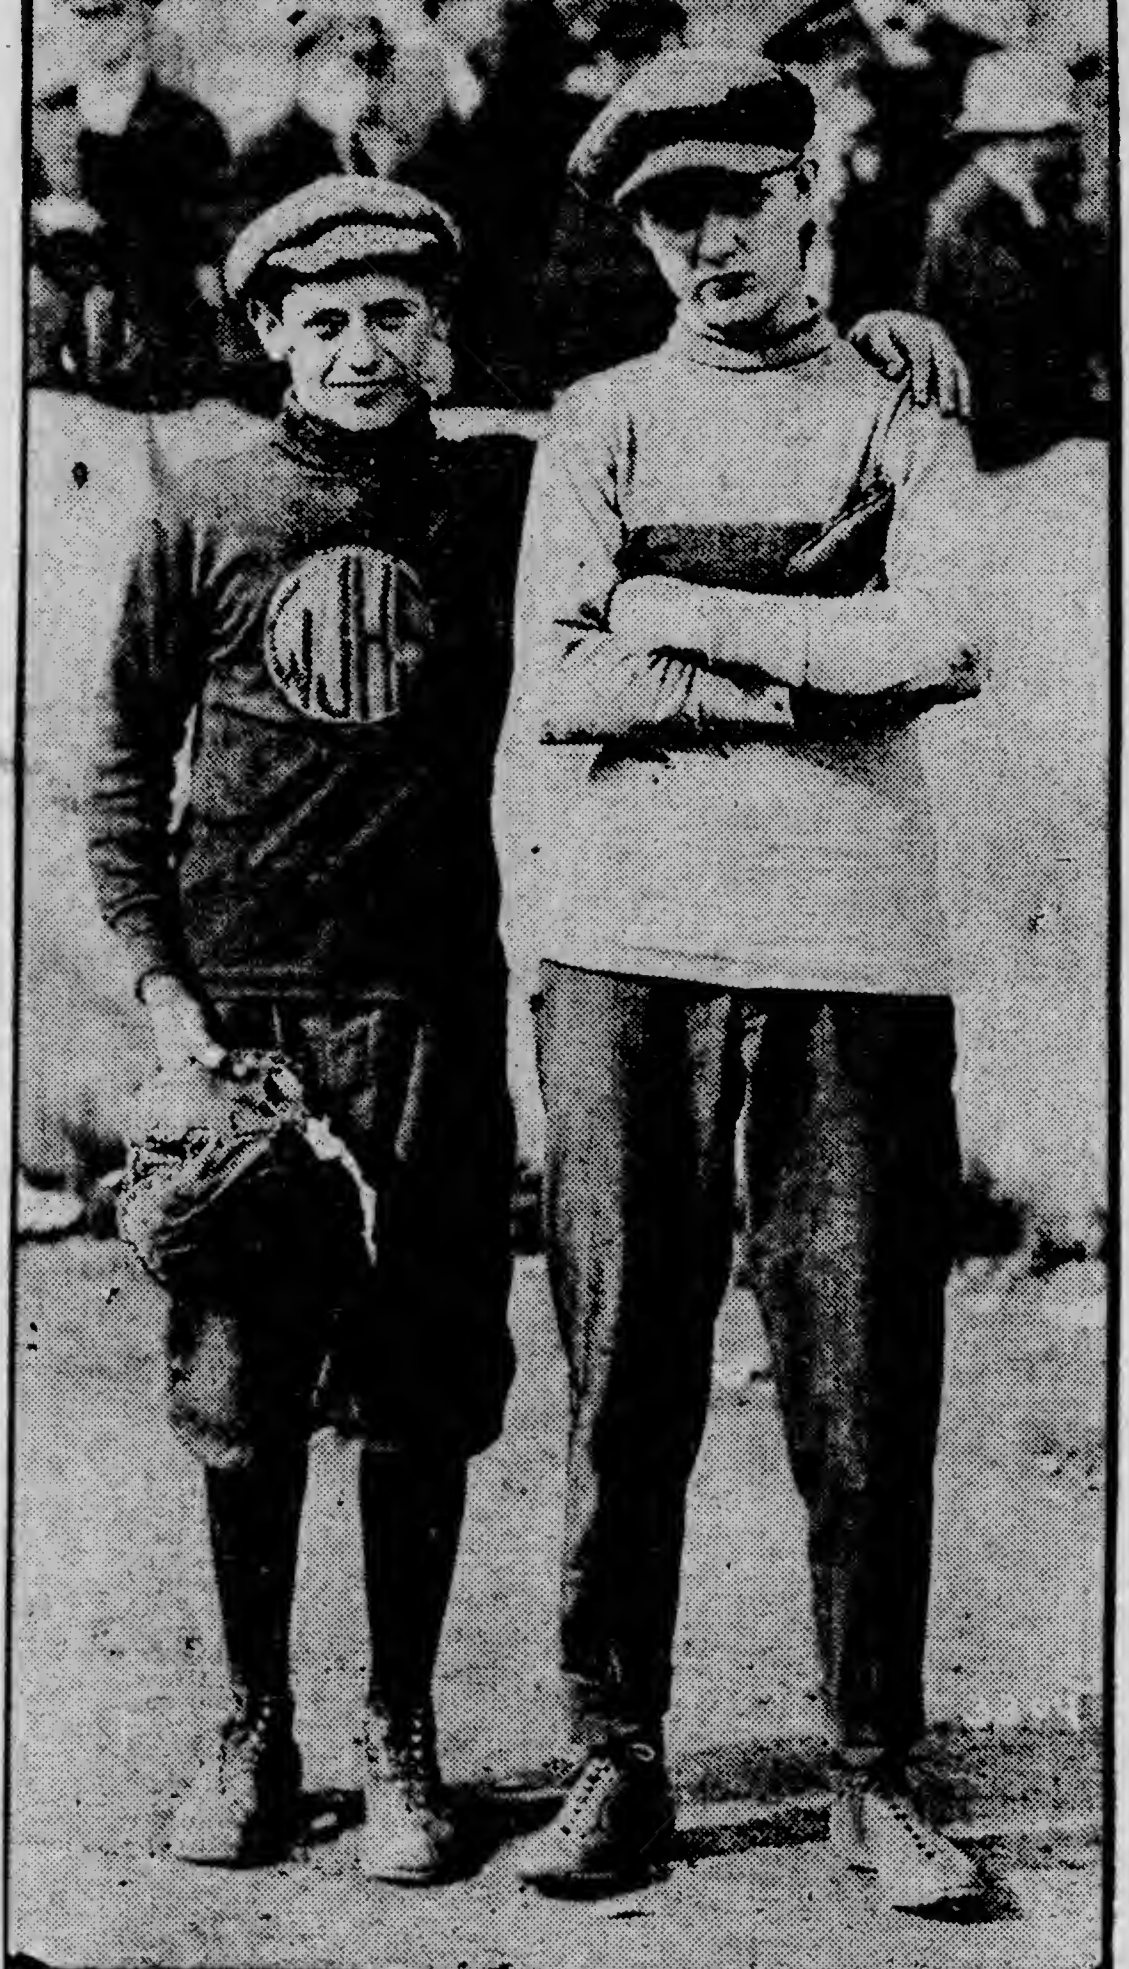

Galesburg, Ill., June 10.—Eddie O'Donnell took the lead in the first quarter mile and, maintaining that position in front of eleven rivals to the finish, won the second annual Galesburg 100-mile automobile race yesterday in 1:35:35. Tom Alley was second, Billy Chandler third, Joe Cooper fourth, W. W. Brown fifth. The only accident was that suffered by Louis Felo, Cooper's mechanic, who got a piece of glass in an eye. Earl Jacks, Brown's mechanic, rode the race with a broken left arm.

CATCHING FINE BALL FOR THE PHILADELPHIAS

"RED" KILLIFER.

"Red" Killifer of Philadelphia, famous both as a catcher and as the man who jumped to the Federal league and then back to the National league in a trice and bringing one of the first big injunction cases against baseball into the courts, is catching great baseball for the Phillies this season. The passing of Deoin has left the burden of the catching for Killifer, and he is performing the job in great style.

"PENNSY" OARSMEN ARRIVE AT COLONY

Crews Gather at Poughkeepsie for College Regatta.

Poughkeepsie, N. Y., June 10.—Coach Vivian Nicholas had his three Pennsylvania crews on the Hudson late last evening, the Pennsylvania oarsmen having augmented during the afternoon the rowing colony gathered for the intercollegiate regatta. Marcy, who stroked the Pennsylvania varsity crew here last year, was in at stroke this afternoon. It was nip and tuck between Marcy, Chickering and Shoemaker as to who will stroke the crew, with the odds in favor of Marcy. The boating of the big crew, however, is not final and may be changed within a week. It is evident that Nickalls is not pleased with

the fact that Pennsylvania's junior varsity crew makes a better showing than the seniors.

MISSOURI "CHAMP" WINS GOLF MATCHES

Mill City Man Slated for Contest at Memphis Turney.

Memphis, Tenn., June 10.—Alden B. Smith of St. Joseph, former Missouri champion, won the feature matches of yesterday's play in the championship tournament of the trans-Mississippi Golf association, disposing of J. D. Cady of Rock Island, Ill., winner of the title last year, one up in the morning round, and in the afternoon eliminating Wick Richardson of Memphis, one up in nineteen holes.

Others who remained as championship contenders last night, were Harry G. Legg, Minneapolis; Reuben G. Bush, New Orleans; Byron Heard, Houston, Texas, and four Memphis players, A. H. Mallory, G. W. Foose, J. E. Evans, Jr., and D. S. Weaver. Legg defeated J. M. Scroggs, Memphis, one up in the first round yesterday and in the afternoon won over Jack Falls of Memphis, 2-1.

In today's round, Legg is matched with Mallory. Heard with Foose, Evans with Weaver and Bush with Swift.

WASHINGTON SCHOOL TEAM DEFEATED BY ADAMS NINE

Opening Baseball Game in Grade School Championship Series Is Won By Western Division Team, 9 to 4; Hard Hitting Decides Contest.

First blood goes to the Adams team in the Duluth grade school baseball championship contest. Yesterday at Athletic park, before a mob of howling, banner-waving and enthusiastic school kids, the Adams vanquished the Washington school nine by the score of 9 to 4.

Clean hitting won for the Western division representatives. Nordstrum of the Adams hit a home run in the fifth inning, the ball going clear to the third field fence. It was a remarkably long hit for a kid and brought forth a chorus of yells from the wildly bedecked crowd of Adams rooters.

In the third round Beck of the Adams drove out a triple to deep center. While Brown was steady and showed some good flashes in the box, he was also hit hard at times.

One of the distinct features of the play of the Washington team was the work of little Lindros in left field. The kid made a running catch of a foul in the second inning that was worthy of a professional player. During the course of the game he also pulled down several other difficult catches.

The catching of little Cohen was another feature of the Washington play. The kid held Brown up in good shape and used his noodle all the way through the contest.

Willis Pitcher Steadily.

Willis pitched nice ball for the Adams and was given good support by

his mates. The big boy had a nice break and mixed this with a fast one that he shot down the grade. Swanson held up his battery mate in faultless fashion.

While beaten, the little Washington team was in the game every minute of the time. Some fast plays were pulled by the Eastern division representatives, a lightning double play coming in the third round and shutting off what looked like a large frame for the hustling Adams.

The eyes of the spectators were opened by some of the fielding stunts of the kiddos. Sharp fielding in several innings choked off threatened runs. Some of the kids acted like veterans of more mature years. The playing was far above the average that one would look for in eighth grade kids.

J. Harris Trux, resident in a new straw hat and an official smile, threw the first ball over the plate. J. Harris was representing the mayor, that worthy being unable to be present. Neal Beaton umpired the bases and Lovell Miller, the former colored mascot for the Pittsburgh National league team, called the strikes and balls.

Lovell has mannerisms all his own and excited both the mirth and admiration of the spectators by his gestures and postures.

The second game of the championship series is scheduled to be played at Athletic park tomorrow afternoon at 4:15. Should the thoroughly nasty weather but in and spoil the plans, the game will hold over until Saturday.

RULES FIXED FOR BOXERS

State Commission Organizes; St. Paul Man Made Chairman.

St. Paul, Minn., June 10.—Minnesota's boxing commission met yesterday afternoon and formally organized. Frank B. Thompson of St. Paul was elected chairman and James Arneson of St. Paul, former clerk of the Minnesota house of representatives, was elected secretary.

Two official referees were appointed, Capt. Frank Whitmore of St. Paul and William B. Hoke of Minneapolis. Dr. J. M. Fox of Minneapolis and Dr. A. E. Plankers of St. Paul, former football star at the University of Minnesota, were named the commission's medical examiners. S. J. Bennett and Dr. F. Clark were appointed referee and physician respectively at Duluth.

The commission decided that only one club may be licensed in each city at present, and applications for licenses must be made before next Saturday to Secretary Arneson. The license fee

will be \$100, and an additional \$100 will be charged for each show given under club auspices. The salary of the secretary was fixed at \$100 per month. Two more referees and two physicians will be named by the committee for the Twin Cities, probably at their next meeting.

The commission adopted its by-laws, which called for 10-round no-decision bouts. No smoking will be permitted at the shows, and no vendors will be permitted to pass up and down the aisles.

No betting will be permitted, and no boxers, except those on the program, will be introduced from the ring.

The weights for the various classes adopted are as follows:

Flyer, 108 pounds; bantamweight, 115 pounds; featherweight, 125 pounds; lightweight, 135 pounds; welterweight, 145 pounds; middleweight, 155 pounds; commission weight, 175 pounds; and all over the 175-pound mark, heavyweight.

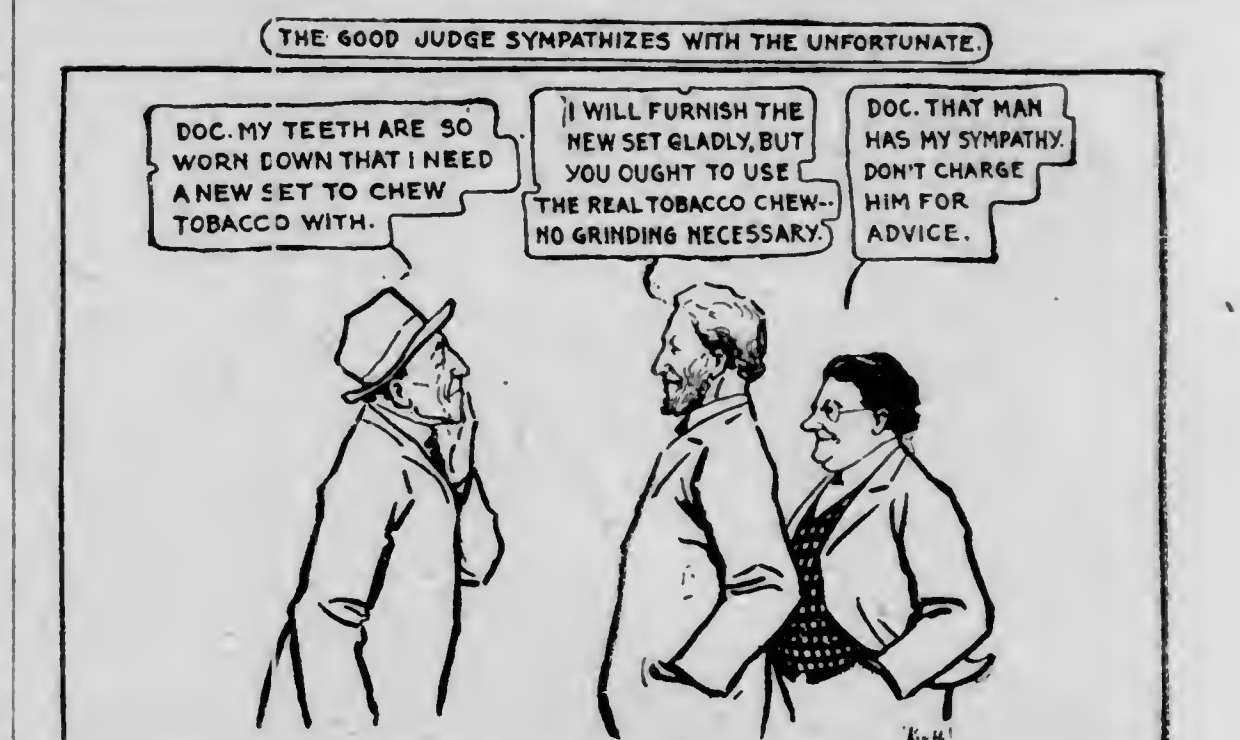

No boxer weighing 140 pounds or under will be permitted to contest with an opponent more than ten pounds heavier than himself.

At the commission's next meeting club licenses will be awarded. There will be only one club in each city. Each club will be allowed to stage twelve bouts a year, the license dating from June 1.

**GRINDING not necessary
with the Real Tobacco Chew**
—and it gives you all the good tobacco satisfaction you are entitled to.

There's the reason in a nutshell why users of the Real Tobacco go out of their way to tell a friend about it.

A little chew of pure, rich, mellow tobacco—seasoned and sweetened just enough—cuts out so much of the grinding and spitting.

THE REAL TOBACCO CHEW IS NOW CUT TWO WAYS!!
W-B CUT IS LONG SHRED. RIGHT-CUT IS SHORT SHRED.

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end. The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much.

Notice how the salt brings out the rich tobacco taste.

MERRITT ALUMNI WILL DINE FRIDAY, JUNE 18

Arrangements for the banquet of the alumni of the Merritt school were completed last night at a meeting of the committee. It will be held on Friday evening, June 18.

Mr. Paulus, principal of the school, will be toastmaster. Among those who will respond and take part in the program will be Miss Mildred Ayotte, Miss Gladys Rickard, Miss Alma Gallagher, Miss Mildred Thayer, Norman Melvor, Miss Bessie Merritt and Miss Emily Erickson.

The following committees are in charge: Program, Miss Anna Gallagher, Miss Gladys Smalley, Miss Gladys Rickard, Miss Mildred Ayotte and Edwin Hanson; decorations, Miss Ida Wicklund, Miss Camilla Peterson, Miss Edna Wicklund, Fritz Nelson, John Young, Norman Melvor and Bessie Merritt; table, Miss Peter and Miss Myrtle Bergstrom.

The mother's club of the school will assist in serving the banquet. The officers of the society are: Norman Melvor, president; Miss Bessie Merritt, vice president; Miss Gladys Smalley, secretary and Miss Peter Bergstrom.

It is proposed to build a basement on the new site this fall which will be utilized for church purposes until such a time as sufficient money can be secured to build the superstructure.

REVENGE IS SWEET.

Street Railway Shop Team Takes
Fall Out of Office Players.

Playing real baseball the street railway shop team defeated the office men by a score of 6 to 5 last evening at a thirty-second avenue west. Last season the office players won the game from the shop men, and did consider the "crowing" about it. The shop men went into the game last evening with determination to wipe out the old defeat, and this spirit is what won the game for them. The result was in doubt until the last inning, when the shop men won by a score of 6 to 5.

The game was the pitching of Strong for the shop men and Morrison for the office men, and home run drives by McLoughlin. Rooters for both teams were out in force. The lineup follows:

Strong.....Morrison
Holt.....Johnson
Hunter.....Murphy
Peterson.....Hokanson
Goss.....Williams

SAYS GOLDEN RULE IS SOLVING LABOR PROBLEM IN AMERICA

IDA TARRELL.

Ida Tarbell, who has been making a study of industrial conditions in the United States, was the chief witness before the industrial commission in New York recently. She told the commission that the golden rule was being observed more and more between employer and employee and that the value of the working man was being more fully recognized every day. In this way a silent evolution was in progress, which was sure to improve the condition of the working man. This she believed was one of the developments of scientific management of business.

A SUBMARINE ACCIDENT OF '64.
From a Mobile, Ala., letter in the Washington Post.
While the whole of the United States is waiting for the navy department to raise the submerged submarine boat F-4, sunk off Honolulu in 1872 feet of water, Mobilians recall the loss of the first undersea craft, that ever destroyed a warship. The Confederate torpedo boat Hunley, which was built in Mobile, sank the United States steam frigate Housatonic in Charleston harbor, Feb. 17, 1864.

The Hunley at different times carried more men than any other submarine. She was built by almost double than did the F-4. Soon after it was carried from Mobile by rail to Charleston, Lieut. Payne of the Confederate navy, with eight others, volunteered to attack the federal fleet with it.

While preparing for the expedition, the crew of a passing steamer caused the boat to sink suddenly, and all hands on board except Lieut. Payne, who was at the moment standing in the open hatchway, perished.

The Hunley was soon raised and again made ready for service. Lieut. Payne again volunteered to command it. While lying near Fort Sumter it capsized and again sank in deep water, drowning all hands except its commander and two others.

Being again raised and prepared for action, Mr. Hunley, one of the constructors, made an experimental cruise in it in Cooper river. While submerged at great depth, from some unknown cause, it became unmanageable and remained for many days on the bottom of the river with its crew of nine dead men.

Nothing is known of its fate, but it is believed that it perished with the enemy.

The Hunley carried to their death thirty-two men, including the man who is believed to have made it possible by financing the work in Mobile. Although built in Mobile, "She" sailed as the submarine was known, never operated against the federal fleet in Mobile waters. One reason, it is said, was because the waters were mined, and another because the block ade there was not effective, as it was at Charleston.

THE SYMPATHETIC WIFE.
Washington Star: "There goes another button," said the man who was standing with his thumb hitched on his waistband.

"Didn't you know it was loose?"
"Of course, I knew it was loose. I knew it was loose just as well as I knew that my holsey needs a darnin' and that I ought to have a lot of needles and thread work done."

"Why don't you tell your wife about it?"
"I haven't the heart to worry her. You know, she's so sympathetic, she isn't happy unless she's knitting something to send over to Europe. Honestly, sometimes I almost wish I was one of those unhappy Belgians."

SCHOOL CHILDREN ARE IN THE THROES OF "EXAMS"

Last Classes in Public Schools
Set for Next
Thursday.

No Graduation Exercises
This Year for the Grade
Pupils.

Programs Arranged for the
Many Parochial Schools
in the City.

Examinations are on in the Duluth schools and thousands of future citizens of the Zenith City are "cramming" to finish up the year's work and be prepared to enjoy the long summer vacation.

Several hundred of the thousands are not planning to take vacation, but will start out in the world for themselves, equipped to be able citizens. The public, parochial and high schools of the city will graduate a larger number of children than ever before in the city's history during the next two weeks.

Teachers in the public schools throughout the city will hold class for the last time this spring, Thursday morning, June 17. Examinations will be finished at noon on Thursday and then the pupils will assemble for receiving their report cards and take their books.

Students of the Washington Junior high school, West Duluth, are the only two which will hold graduation exercises this year as the adoption of the junior high system, recently inaugurated, has caused the graduation of Sept. R. E. Denfeld, has done away with eighth grade graduations.

Students of the Washington Junior high will hold a banquet Saturday night at the school building, to be attended by those who have been in the high for Central high school.

In the parochial school programs have been arranged for graduation exercises in all parts of the city, commencing June 13 and continuing until June 20.

The program of exercises is as follows:

June 13—St. Mary's Star of the Sea school classes under Father Leick; at the church, Third street and Fourth avenue east.

June 14—St. James church classes under Father Lynch, at the church, Fifty-seventh avenue west and Third street.

June 15—St. Peter and Paul's church classes under Father Schulz, Fifth street and Third street.

June 16—St. Anthony church classes under Father Hufnagel, at the school, Third avenue east and Second street.

June 17—St. Jean Baptiste church classes under Father Leick, at the school, Twenty-fifth avenue west and Third street.

June 18—St. Clement's church classes under Father Augustine, O. S. B., at the school, Third avenue west and Third street.

Bishop Will Preside.
Bishop James McGillicuddy will preside at many of these exercises and preside at the graduation exercises of the Catholic high school scientific course and the graduates of the high school. At each school the pupils have arranged programs, with valedictory and salutatory essays and musical numbers.

Miss Spillman will be awarded first grade diploma at the girls' Catholic high school. Miss Alice Murray will be given the second medal for scholarship and Miss Quinn will receive the medal for good conduct.

Boys who complete the courses at the Catholic high school will include nine from the literary-scientific department and six from the commercial department. The literary-scientific graduates are: Albert S. Hart, W. Russell Parley, Urban J. McNally, Vincent J. McKinnon, Arthur J. O'Donnell, Robert C. Gray, George E. Murray and John A. Donalds. The other class consists of: Cecil Carroll, Arthur R. Wilson, Eustace W. Desmond, Raymond V. Gray, Thomas F. Hertog and William Nicholson.

Nineteen girls will receive eighth grade diplomas at the girls' Catholic high school. They are: Helen L. Amore, Jennie Adair, Bessie Blackwell, Isabelle Broutelle, Catherine Bolen, Verma Cady, Cecelia Egan, Regina Espinosa, Leonora Green, Catherine Henneberry, Celestine Morisseau, Alice Murphy, Minnie MacDonnell, Priscilla O'Rourke, Della Purcell, Virginia Pedretti, Rita Spurn, Lucille Taylor and Selma Schneider.

Special Honors.
Special honors for good conduct will be awarded to Regina Espinosa, Priscilla O'Rourke, Rose Spillman, Helen Taylor and Rose Spillman.

Scholarship honors have been won by Regina Espinosa, Rose Spillman, Helen Taylor, Alice Murphy, Lucille Taylor and Priscilla O'Rourke. The program to be presented at the joint exercises of the boys' and girls' Catholic high schools follows:

Piano solo—"A la Bien Aimée," Schuetz.
Chorus—"The Wanderer's Night Song," E. J. Dillion.
Essay—"The United States—Friend of International Conciliation," W. Russell Parley.

Violin solo—"Romance," from the Concerto, E. J. Dillion.
Miss Teresa Lynn at the Piano.
Sketch—"A Happy Ending," Misses Alice Graves and Irene Gratto.

"Stars of a Summer Night," Boys' Glee Club.
Essay—"America's Greatest Need" and Valedictory, McKinnon, John A. Donalds, Vincent J. McKinnon, Herbert Presentation of diplomas, by the Right Rev. James McGillicuddy, presiding.

More Funds for Those in

Recognition of the high cost of living in the United States has been taken by the Italian government in a recent edict concerning the wives and children of men who will enlist as volunteers or reserves in the present war.

Attilio Castiglione, royal Italian consul agent for the Head of the Lakes district, received a communication yesterday from the Italian consul at Washington stating that a pro rata pension will be distributed among all needy wives, children and relatives of men called to the front.

"It is quite probable," said Mr. Castiglione in discussing the edict, "that more will be granted those living in the United States than those in Italy, as living prices are much higher on this side of the Atlantic."

Needless to say, all those dependent upon men called to the front will be aided during the war and afterwards, if the man is wounded or killed.

Applications are being received daily from men who will join the Italian army reserves in response to a recent mobilization order. In addition to these, there are a large number who wish to enlist as volunteers, although required to give no services to the colors.

Delayed By Long
Discussions.

Business dragged at the forenoon session of the biennial convention of the Modern Samaritans at the Christie building today, and the election of officers, which was slated to come up, was delayed until late this afternoon.

None of the delegates seemed to know who would be elected, except in the case of C. E. Lovett of this city, imperial good samaritan.

It had been planned to wind up the convention last night, but a number of business matters delayed the session. A large number of Duluth men are among the members of the supreme council, and it is believed that most of them will be elected to office.

SOCIABILITY RUNS PLANNED

Two sociability runs will be staged the latter part of July by the Duluth Auto club.

It was announced this morning that the first run will be made by Twin City motorists, who will come to Duluth to spend a day, and the second will follow two weeks later, when local automobile owners will make a similar trip to the Twin Cities.

Dr. J. D. Park, president of the local club, and H. J. Mullin, secretary, are making arrangements for the two sociability runs, the first ever staged by the club. It is expected that about forty automobiles will make the trip to Duluth. The run will be staged on a roadway running through Sandstone and Hinckley and will be open to all motorists. An entertainment for the visitors will be arranged on their arrival in Duluth.

Twins have extended a similar invitation to local motorists and officials of the Duluth club are now organizing a party to take the trip. About thirty automobiles are expected from this city and the range towns.

MAY LOSE LICENSE; ILL.

Wm. Hesbeck Unable to Raise
Money; Taken to Hospital.

William Hesbeck, who was given until next Monday to pay the \$1,000 for his saloon license at 314 Lake avenue south, was taken ill yesterday afternoon and removed to St. Luke's hospital, where he is continuing to recover. In all probability his license will be canceled at the council meeting next week.

Hesbeck is unable to obtain money for his license and last Monday evening appeared before the council and asked for a week's grace. A resolution denying him a license was held over by Commissioner Silberstein of the safety division.

SPECIAL EDUCATION FOR DEFECTIVE CHILDREN

Special education for Duluth's defective children again is being considered by the board of education, and with this all board members believe they will be able to start a class for defectives.

Parents of defective children will be asked to make application and in case enough respond, a special teacher will be secured from the East and the work started. One child already has been secured.

"I am confident the plan will be working by September," said Mrs. T. J. Davis, board member, yesterday. "This new system is designed to relieve the state institutions and also to allow the smaller children to go to school."

"No child under nine years of age is permitted to attend state institutions. This new system is designed to relieve the state institutions and also to allow the smaller children to go to school."

The board of education committee on schools will meet next Wednesday and consider the matter. The members of this committee are Mrs. Davis, Dr. D. E. Seashore and J. R. McGillicuddy. Because of the crowded condition of the schools, it will not be feasible to establish a defective room in any one of the buildings now used, say board members, but a separate school might be established in the center of the city.

THE OPTIMIST.
Philadelphia Inquirer: On the whole, poets do not seem to have too good a time of it. It is rather rare for an editor to see eye to eye with them in regard to the reality of their work. Percival Phipps had had his work cut out for him by the editors of "Never mind," who were now being told the cold and bitter truth by the sixth. His rage got the better of him.

"Some day," he burst out, "you editors will be fighting for my work."

"Never mind," choried he of the hard heart. "When that day comes, even if I lose, I'll be just as happy!"

BELLIGERENT IS INTERNEED

Judge's Peace Program Includes Reformatory Sentence for Spooner.

Must Break His Habit of Assaulting Policemen and Sentinels.

Earl S. Spooner, 25, West Duluth, is a game "scrapper" and takes considerable pride in his proficiency in that many art.

But Spooner must break himself of the habit of "beating up" officers of the law, or he may expect to spend the major portion of his future life behind prison bars.

Such was the word which Judge Dancer of the district court passed to Spooner this morning when he sentenced him to a term of not more than five years in the state reformatory at St. Cloud, after he had pleaded guilty to a charge of assault in the second degree.

Spoooner admitted that he had struck Patrolman James Woods while the latter was attempting to arrest him on May 22, last. Spooner landed a blow on the officer's jaw which felled him on the spot. In falling, he struck his head, sustaining a severe injury.

The prisoner admitted to the court that he had been court-martialed while in the United States army for fighting with a sentinel and that on another occasion he had been arrested and convicted for assaulting an officer of the law. He was given a suspended sentence at that time.

Lecture From Court.

Judge Dancer gave the prisoner a lecture which he perhaps will not forget. "You made a mistake," said the judge, "but you must not make the same mistake again. You must not allow people of the character you have shown yourself to be in the last few years, to be in the performance of their duties, are entitled to protection that the courts can give them. Their duties are dangerous enough anyhow. They are paid little enough for it and it may well be understood that they must not be interfered with in the performance of their duties."

John R. McKinnon, 21, who was with Spooner at the time the officer attempted to arrest him, and who attempted to interfere with Spooner's half just before the latter struck the officer, was also before the court on a charge of interfering with an officer.

The court gave McKinnon sixty days at the county jail in which to reflect upon the advisability of repeating such a performance. Mason M. Forbes, assistant county attorney, who appeared for McKinnon, asked the court to recommend leniency for either prisoner.

He recommended that the court send Spooner to state's prison, but on account of the latter's youth, he was committed to the reformatory instead.

MARKET HAS HEAVY BREAK

Wheat Slumps With Selling By Operators on Big Crop Prospects.

Flaxseed Sells Down in Big Slump on War Uncertainty.

Duluth Board of Trade, June 10.—The market was weak up to the close with fresh selling of 2½¢ off September 1½¢ off and December 2¢ off. July durum closed 4¢ off and September 1½¢ off.

Oats closed ¼¢ at 44½¢ for on the track; rye unchanged at \$1.11 and barley unchanged at 1¢ off from 65¢ to 70¢.

At Minneapolis, September wheat closed at \$1.01½ bid and calls at \$1.01½ bid.

A further slump developed in the wheat market today as the result of persistent selling pressure and news of demand from exporters. The weakness began with selling at Liverpool, where quotations in all classes of wheat were down as a result of liberal offerings and good supplies in hand at the present. Argentine shipments are expected to be in good volume for a time, the quantity coming from there this month being estimated at 3,000,000 bu. The real foundation is, however, furnished in the government report. Dealers point out that with a big surplus from this country certain to be available for export, even though such a large volume should take place between now and the harvest, the European countries will have prospective good harvest coming along at about the same time, and that the tonnage already contracted for here mounts up to a large volume. There were rumors of reselling by exporters at New York today, this was during the past month the great bulk of the selling has been going to Minneapolis owing to the high premiums being paid by millers there.

The cash grain market at all points was reported strong, Minneapolis paying 8¢ over their July for blue stem. High premiums were also paid at Chicago and at Kansas City cash hard wheat sold unchanged at \$1.01½ bid and \$1.01½ asked, and closed 1½¢ off to the noon hour. Southern corn was unchanged at \$1.07½ and closed off to \$1.06½. December broke 1¢ to \$1.07½, and closed off to \$1.07½, after selling up to \$1.08. There was heavy selling in durum and the quotations in the July future went off to \$1.20 on light trading.

Big Slump in Flax.
Flaxseed market resumed its downward course and was also paid at Chicago were recorded. The weakness was attributed to uncertainty over the war situation. There was heavy selling through the session and the weakness was accentuated in the catching of new orders.

July opened ¼¢ off at \$1.83½, and closed 1½¢ off at \$1.78½. September opened ¼¢ off at \$1.81½, and closed 1½¢ off at \$1.76½. October opened ¼¢ off at \$1.81½, and closed 1½¢ off at \$1.76½. At Minneapolis, July flax closed 12½¢ off at \$1.55½, and October 12½¢ off at \$1.55½.

MARKET GOSSIP.
Kuesch & Schwartz, grain dealers of Chicago, opened up business in Duluth today with offices at No. 311 Board of Trade building, and a board office in the lobby and fax. Finkelsch, manager of the house's local office.

Arthur Huesch, senior partner of the house, who was on the board today, expressed himself as bearish regarding the future course of the market. Taking the government crop report for it, there will be some over yield he said. Foreign dealers are nearly all loaded up on contracts, and it must be remembered that grain will also be available from harvesting in their own countries. Carrying charges are likely to be high this season, and a contingency not to be overlooked.

was received at Duluth today, a considerable period back and local millers have been compelled to buy direct from the elevators this week, track receipts proving inadequate to cover their requirements. This development has resulted in the premium on cash wheat being advanced to 5¢ over July.

Russell's News, New York, reported no change in export situation and small inquiry in old and new wheat. New wheat was reported to have been resold in Liverpool today, August-September delivery equal to \$1.01½ for Chicago September.

Minneapolis cash market was strong with very good demand. No. 1 northern blue stem sold at 8¢ over July and velvet chaff at 1¢ over July. Flour sales held up fairly well. No. 1 northern wheat sold there at from \$1.25 to \$1.28. Wheat stocks in Minneapolis elevators decreased 140,000 bu in five days.

Leconte wired from Medford, Okla.: "Some lowlands have been drowned out. On high lands the head is filling well. Weather is clear and favorable and quite hot. Think wheat in this territory will average 15 bu per acre. Wheat in this locality is slightly advanced by black rust. Conditions to ten days more favorable weather to mature. I believe if weather remains favorable loss from black rust will not be important."

Broomhall cabled from Liverpool: "Weakness in America and pressure of demand from India and other countries caused the decline. Spot market was weak, 2d to 4d lower with cash market weak; Plate, 6d lower; winter, 1d lower; and Manitoba and Indian a selling light."

"There is a noticeable improvement in the general demand at the decline and millers are buying. Stocks are ample, but consumption is not so good with this article weak, but distant offers light."

Duluth car trade: Wheat—No. 1 northern, 1; No. 2 northern, 1; No. 3, 2; western red, 4; winter, 5; mixed, 1; of which were down as a result of liberal offerings and good supplies in hand at the present. FOR SALE—HOUSES.

HOME BARGAIN.

BARE OPPORTUNITY.

Real home bargains are generally old houses, but we are offering one today that is such a rare opportunity that you cannot afford to miss it.

Just think! A new house for two-thirds of its actual cost, and yet offered on the very easiest possible terms.

Beautiful ten-room house, fine East end location, oak floors and finish, elegant condition, six bedrooms, hot water heat, large porch, situated on upland side of street, on lot 100 by 140 feet; good garage; alley paved. Unusual view.

This must be disposed of this month. Some one gets a great bargain. (Not on car line).

Terms Easy.

Price two-thirds of actual cost.

SECRETARY OF STATE TO PUT REVOLVING FUND AMENDMENT IN FIRST PLACE ON BALLOT

ANNOUNCED AT COLERAINE CONFERENCE

Development Association to Work for Passage of Amendment.

Urges Soil Survey and Making of Dynamite By the State.

Reclamation of State's Un-sold Swamp Lands Is Advocated.

By a Staff Correspondent.

Coleraine, Minn., June 11.—(Special to The Herald.)—Julius A. Schmah, secretary of state, today told the Northern Minnesota Development association that he would place the proposed revolving fund amendment for the improvement of Northern Minnesota first on the ballot at the next election. His statement followed an address by Senator P. H. McGarry of Walker, who declared the revolving fund amendment the most important legislation which could be adopted for the northern part of the state. Members of the legislative special construed Mr. Schmah's declaration as a preliminary to an announcement of his candidacy for the Republican nomination for governor. The secretary of state has authority to arrange the proposed constitutional amendments on the ballot as he sees fit.

Revolutions of Convention.
The committee on resolutions reported this morning. The resolutions, aside from recommending an amendment to the original certificate of incorporation, suggested a change in the road laws providing for larger petitions before improvement is made.
Recommended the passage of the revolving fund amendment and provided for a campaign committee to work for the passage of the revolving fund amendment.
Indorsed the national corn show to be held in St. Paul in December and urged every county of Northern Minnesota to have an exhibit there.
Recommended an amendment to the Volstead act of 1908 providing for a limit of \$1.25 an acre be paid to the government for land, any sum in excess of that to be held in the county treasuries to be expended on ditches for draining government lands.
Went on record in favor of a soil survey by men of practical agricultural experience.
Indorsed loans made for dairy cattle and for clearing land in Northern Minnesota.
Recommended that in future the state do not clear more than five acres of land for the plow on any forty, and

SINK SHIPS OF THREE NATIONS

British, Russian and Swedish Steamers Sunk By Submarines.

Zeppelin Airships Sink Two Fishing Smacks in North Sea.

London, June 11.—The Glasgow steamship Strathcarron was torpedoed yesterday without warning by a German submarine while outward bound from Barry. The crew, which put off in boats, was rescued by a steamer and landed at Cardiff.

Russian Steamer Sunk.
The Russian steamer Dain has been torpedoed by a German submarine. The members of her crew were saved.

Swedish Ship Torpedoed.
The Swedish steamer Otgo, bound for Hull, was torpedoed and sunk last night. Otgo, of 375 tons net, was 241 feet long and was built in 1882. She was owned in Solvesborg, Sweden.

Sunk By Zeppelin.
Mansholt, Holland, June 10, via London, 1:12 p. m.—The British fishing smacks Welfare and Laurestina were attacked and sunk by Zeppelins in the North sea. The crews, which took to their boats, were picked up by a Dutch smack and brought here.

GERMAN SUPERIORITY IN MUNITIONS OF WAR OF GREAT ADVANTAGE

MAKES PLEASING PROMISE TO COLERAINE CONFERENCE

JULIUS A. SCHMAHL, Secretary of State.

Great Britain Warned of Necessity of Supplying Itself at Once.

Writer Says Next Three Months Will Be Critical for Allies.

Declares Germany Will Cruelly Use Every Weapon Available.

London, June 11.—"Where Germany once had a marked superiority in munitions, an advantage she will press to its fullest. The only way for the allies to avert disaster is to equip themselves, and to do this, Great Britain must stand behind David Lloyd George as minister of munitions as one man. Moreover, if he is not given a free hand he may resign."

Sir William Robertson Nicholl thus sums up the situation as he sees it, in the current issue of the British Weekly, one of the best known journals in England. Sir William is the editor of the publication and a close friend of (Continued on page 8, first column.)

RIOTING WITH LYNCHING BEE

American and Foreign Miners Have Trouble in Illinois Towns.

One Man Hanged and Several Houses Burned; Militia in Control.

Marion, Ill., June 11.—Rioting in Williamson county shifted last night from Johnston City, the mining town five miles north of here, to Whitesash, a village between Marion and Johnston City. Several houses were burned at Whitesash.

John Strando, a foreigner, was lynched in Johnston City yesterday afternoon after he had confessed complicity in the murder of W. E. Chapman the night before. This murder was a result of ill-feeling that long has been brewing between the foreign miners and the mine officials.

Crowds Disperse.
Three companies of Illinois national guard arrived in Johnston City last night and the threatening crowds dispersed.

Meanwhile, trouble broke out at Whitesash, the result of the ill-will that has prevailed between races in the county. The immediate cause of the trouble at Whitesash, where a number of houses were made their living by the city marshal a week ago. He now is in a Marion hospital. The rioters had dispersed by morning, however.

GUIDES OF TYROL ALL IN IDLENESS

Practically No Tourists Visiting Alps on Account of War.

Santa Maria, Switzerland, June 10, via Geneva and Paris, June 11.—The guides of the Tyrol are idle this summer because with the war in progress virtually no tourists are visiting the mountains. All the well known resorts of these Alps are deserted this year by the customary visitors, and the men who make their living by guiding travelers over the passes and up mountains are now without occupation.

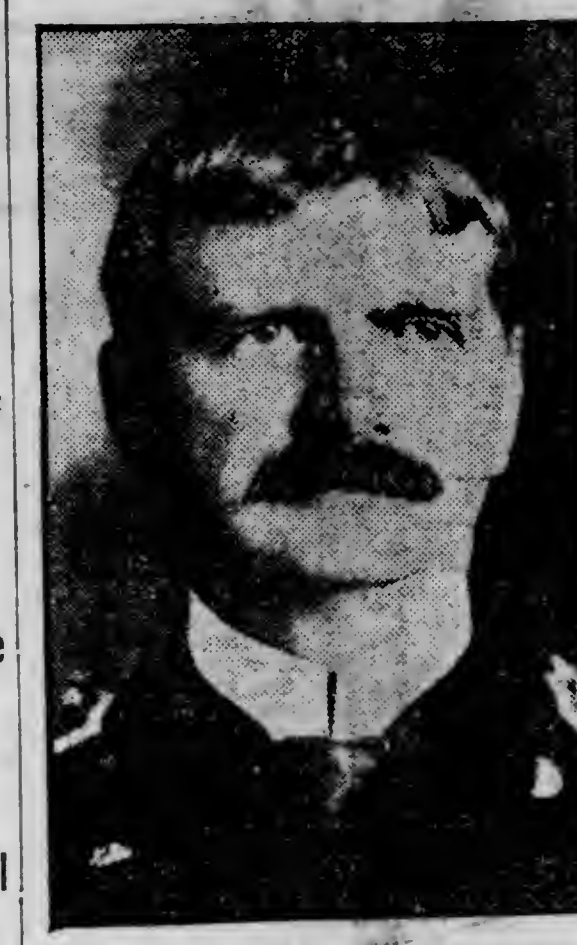

The well known Stelvio pass, the highest carriage road in Europe, whose greatest altitude is 9,555 feet, is deserted. The Stelvio guides gather daily on the Swiss side of the pass and from a point which overlooks the frontier lines of Italy, Austria and Switzerland, they watch the progress of the mountain fighting between Italians and Austrians.

PRESIDENT TO SPEND FOURTH AT CORNISH

Washington, June 11.—President Wilson expects to spend the Fourth of July at the summer White House at Cornish, N. H. It will be his first vacation since the foreign situation became acute. Members of his family plan to go to Cornish about June 26.

U. S. AMBASSADOR HANDS NOTE TO THE GERMAN FOREIGN OFFICE

MADE COMMANDANT OF NAVAL STATION AT BREMERTON, WASH.

CAPT. ROBERT E. COONTZ.

Washington, June 11.—Secretary Daniels has designated Capt. Robert E. Coontz, now commanding the battleship Georgia, as commandant of the naval station at Bremerton, Wash.

CONSPIRACY IS ALLEGED

Grand Jury Investigating Affidavits Made on Lusitania's Guns.

German Reservist Is Arrested on the Charge of Perjury.

New York, June 11.—A Federal grand jury investigation to determine whether there was a conspiracy to "defraud the United States" in connection with the affidavits submitted by the German embassy to the state department to prove that there were guns aboard the steamship Lusitania, was begun here yesterday by the Federal grand jury. It was specifically directed against Paul Koenig, also known as Stenier, who, according to the Federal authorities, is head of a secret service department maintained by the Hamburg-American steamship line.

Arrested For Perjury.
The first result of the investigation was the arrest yesterday for perjury of (Continued on page 8, first column.)

MEXICO'S OLD GRAY WOLF.

ADVANCE ON LEMBERG BY GERMAN FORCES IS TEMPORARILY CHECKED

Russians Fling Invading Army Back Across Dniester River.

First Real Check Since Beginning of Rush Through Galicia.

Another Evidence of Recuperative Powers of Russian Army.

London, June 11.—British observers of the war, forming their opinions on the latest dispatches from Russia, believe that the Austro-German forces threatening Lemberg from the south-east have been checked in their advance. Russia, they declare, has delivered a return blow and a hard one. The great masses of German and Austrian troops which have forced a passage of the Dniester river, near Zorawna, according to the latest announcement of the Russian war office, have been flung back with heavy losses in both men and material.

Lemberg Thought to Be Safe.
Thus for the moment Lemberg is thought to be safe, for nowhere else along the Galician front have the Austro-German forces made progress recently with the exception, of course, of their southern extension into Bukovina. News was received yesterday that Russian reinforcements were moving south along the Dniester river from Mikolajew to Rohatyn, but it was hardly expected here that they would achieve such quick results.

First Real Check.
If this victory has been decisive, it is (Continued on page 8, second column.)

AUSTRIANS SINK BRITISH CRUISER

One of Liverpool Type Torpedoed in the Adriatic.

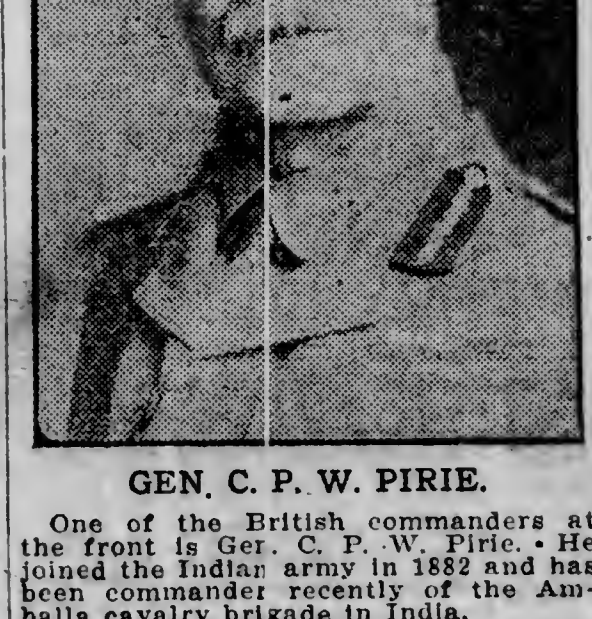

Innsbruck, June 11, by courier to the Swiss frontier and Geneva, and Paris.—Announcement has been made here by the Austrians that one of their submarines yesterday sank a British cruiser of the Liverpool type at a point thirty miles off St. Jean Medua in the Adriatic.

PLOEKEN IS CAPTURED

Italian Troops Take an Important City in Austria.

Emmanuel's Forces Advancing Steadily Through Predil Pass.

Innsbruck, June 11, by courier to the Swiss frontier and Geneva, and Paris.—Italian forces have captured Ploeken, in Austria, close to the frontier. The possession of this location is important as it endangers Austrian communication.

Ploeken is fifteen miles south of the main highway between Laibach and Innsbruck.

An Austrian airship arrived by rail at Laibach yesterday. An Austrian aeroplane has been reported flying high above the Stelvio pass. As the pass itself has an altitude of 10,000 feet, this aeroplane probably was between 12,000 and 13,000 feet above the level of the Stelvio.

Advancing Through Pass.
Udine, Italy, June 11, via Geneva and Paris.—Italian forces today are advancing through Predil pass, at the junction of the Laibach railway at Tarvis, which lies about six miles on the Austrian side of the Italian border. Trains of Italian wounded soldiers are arriving at Udine.

Favorable to Austrians.
Cologne, Germany, June 11, via London.—The correspondent of the Cologne-Gazette, who has been at the front, is said to have been defeated in a battle along the Dniester, near Zorawna, to the east of Stry.

SUMMARY OF THE WAR NEWS

The American note to Germany was presented by Ambassador Gerard this afternoon to the German foreign office. Official announcement was made at Vienna of the sinking in the Adriatic by an Austrian submarine of a British cruiser. The warship is described as of the type of the Liverpool, a light cruiser.

The Italian invasion of Austria over the eastern frontier has made further headway and, according to a report from Innsbruck, Austria, the Italians have captured the town of Ploeken, near the border. A dispatch from Udine, Italy, says the Italian forces are advancing through Predil pass, about six miles on the Austrian side of the line.

Heavy fighting on Gallipoli peninsula has followed the French and British offensive movement undertaken a week ago. It was announced officially in Paris today that additional territory had been won by the French. A new wave from Constantinople states that the French and British lost 2,000 men killed on the night of June 5-6, and that their losses all last week were enormous.

No significant changes are recorded in today's official reports of the fighting in France or on the Russian front.

Two Russian vessels, the steamer Danin, of 650 tons, and the bark Tormasina, have been sunk by German submarines. There was no loss of life.

After their success in the Baltic region, the Russians now claim a considerable victory in Galicia. The Austro-German forces which are attempting to advance on Lemberg from the south are said by the Russian war office to have been defeated in a battle along the Dniester, near Zorawna, to the east of Stry.

An unofficial dispatch from Geneva states that the Teutonic forces were driven back at two points on the Dniester.

The first large battle of the Italian campaign is now under way, having been brought on by the attempt of the Italians to force the Isone river, running north from the Gulf of Trieste. Dispatches from Cologne and Geneva mention heavy fighting, particularly near Gorizia, on the east side of the river, twenty-two miles northwest of the city of Trieste.

The Cologne report states that the Italians were repulsed at this point, as well as near Gradisca and Monfalcone. Capture of Monfalcone by the Italians was announced officially from Rome yesterday. According to the Geneva advice, the battle has not been decided.

Austrian losses in the Gorizia fight were placed at 8,000 to 10,000.

Two British sailing smacks in the North sea were attacked and sunk by a Zeppelin. Submarines sank the British steamer Strathcarron, of 2,000 tons, and a Russian bark. No loss of life is reported in any case.

EQUITY EXCHANGE ANSWERS CHARGES

Admits Some Allegations
of North Dakota's Attorney General.

Fargo, N. D., June 11.—(Special to The Herald.)—The admission that the

capital stock of the Equity Co-Operative exchange is impaired is the strongest feature of the answer of the defendants to the action brought by Attorney General Lunde against the Equity Co-Operative exchange to have its charter annulled, a receiver appointed and the affairs of the exchange wound up on the ground of insolvency. Admitting that part of the capital stock had been used for promotion purposes in subsidizing a weekly publication in their interests and also in sending speakers over the state to interest farmers in the movement, and to that extent the capital stock had been impaired, answer insists the exchange is, however, not insolvent. The first part of the answer admits

the allegations that are self-evident facts; admits charges of extra authority granted George S. Loftus, as sales manager, but claims this contract was changed and his with a weekly publication to promote the interests of the exchange, but contends it is justifiable to counteract the attacks instigated by the chamber of commerce of Minneapolis. All other charges are strenuously denied and the claim is made that higher prices have been secured for grain and that the exchange is now on a safe and secure basis and the institution is in no way insolvent.

WENGER ABSOLVED.

But District Court Jury Returns Verdict Against His Former Partner.

A verdict for \$541.78 was awarded the Security Mercantile company against Harry Goldberg in Judge Cant's division of the district court yesterday afternoon. The plaintiff company sued Mr. Goldberg and Harry S. Wenger for money claimed to be due on an account with a New York fur manufacturer which had been assigned to the plaintiff. The jury found in favor of the plaintiff and Mr. Wenger, one of the defendants. The defendants were in partnership with Mr. Wenger at the trial of the case that the account on which the suit was brought was bought and delivered after the firm had been dissolved and that Mr. Goldberg had taken the business over under the name of the Virginia Fur factory.

NEARLY 100 GRADUATES

Parochial Schools Will Have
Largest Classes in
Their History.

Commencement Exercises to
Continue for Ten
Days.

More pupils will graduate from Duluth's seven parochial schools during the next ten days than ever before in the city's history.

As announced today by the priests in charge of the various institutions, the list of graduates from the eighth grade includes nearly 100 pupils, in addition to the twenty-seven boys and girls who will finish their four years' work at Cathedral high school.

Joint commencement exercises for the boys and girls of the high school and the girls of the Cathedral eighth grade will be held in the Cathedral high school auditorium June 15.

Diplomas will be given the successful pupils at the other six schools in a series of six exercises to be held at the various buildings between June 12 and 20. At each school a program has been arranged, including an address by a prominent Duluthian, essays and declamations by the pupils. In each case Bishop James McElroy will present the diplomas.

The first exercises will be held at St. Mary's Star of the Sea school, Third street and Fourth avenue east (near the direction of Father's class), beginning at 8:15 p. m. On June 14 the St. James classes, under Father Lynch, will hold their exercises at the school, 715 Fifty-seventh avenue west. On June 15, St. Anthony school pupils will receive their diplomas at the school, Third avenue east and Second street. St. Jean Baptiste school at Twenty-fifth avenue west and Third street, will hold their exercises under the direction of Father Robillard on June 17 and on June 20, St. Clements school at Twenty-third avenue west and Second street, will be the center of attention.

No Graduates This Year.

Father Schuler, who is superintendent of the 150 pupils attending St. Peter's and St. Paul's church school at Fifth street and Twenty-fifth avenue west, announced today that no eighth grade class would graduate there until next spring. They will hold exercises, however.

The St. James class is the initial eighth grade class to be graduated, while at the St. Jean Baptiste school, Father Robillard announced that the class of twenty-two is the largest one ever to receive diplomas from that institution.

The list of graduates, giving the school and its address, follows: St. Jean Baptiste, Twenty-fifth avenue west and Third street—Alexandrine M. Belanger, Raymond L. Cabillot, Lea J. Gastonguay, Rachel A. Chamberland, Emmanuel J. Dupont, Roseanna B. Cyr, Viola A. Fish, Paul G. Gagne, Iva G. Guerin, Reine C. Hubert, Viola L. La Jeunesse, Lea J. Letour, James R. Loubert, Dolores H. Marchand, Leopold J. Marchand, Cecilia M. Morneau, Philip L. Queller, Blanche K. Perreault, Roland A. Elton, Irene C. Roy, Alfred A. T. and Pauline A. Esculier.

St. Clements, Twenty-third avenue west and Third street—Edw. J. Quin, Ernest Tobin, Elmer Broderick, Elmer McNary, Albert Drohan, Thore Carpenter, Bernard Ryan, Bernard Schiltz, Anna Drohan, Elizabeth Cass, Mary Myrtland, Gertrude Halla, Alice Cameron and Evangeline Sluchocke.

St. Anthony, at cathedral high auditorium—George Steiner, Ernest Piering and Margaret Underwood.

St. James school, 715 Fifty-seventh avenue west—Marie Meehl, George Brumel, Ella Brown, Austin Baudin, Leona Cashin, Helen Collins, Thomas De Chambeau, James Doherty, Loretta Moran, Clayton Gramann, Fred Hoffman, Rosella Hubert, Julia Janoski, Catherine Leidegger, Lottie Martin, Ursula Brumel, Eudora May, Edward McDougal, Helen O'Connor, John Parchem, Ralph Polasky, Lillian Pelander, Cordelia Quesselle, Lina Rivett, William Werschway and Gladys Brotherton.

PROPERTY OWNERS
WILL CHOOSE PAVING

Choice Will Be Made at
Meeting Next Monday
Evening.

Property owners along East First street will be the final judges of the material to be used in paving that thoroughfare this summer.

This is the decision of Commissioner Trell, head of the works division, and the other members of the city commission, before whom a public hearing on the East First pavement is scheduled for next Monday evening. The hearing will precede the regular council meeting.

"I don't want the impression to get out that I am the one who is making the choice," said Commissioner Farrell this morning. "The reason I have insisted on this is that a majority of the owners recently voted in favor of it. However, my choice is not with me and whatever is finally selected next Monday, that material will be used."

"The owners have a choice of bitulphic or asphalt and if the latter is chosen, I will insist that it is the best kind of asphalt to do with the selection." Commissioners Voss and Silberstein, who went on an automobile tour with Patrick McDermott, local contractor, to inspect Duluth and Superior pavements yesterday, both said this morning that the selection will be left to the property owners. That declared that either bitulphic or asphalt would make a good pavement for East First street.

East First street will be paved from Twenty-eighth avenue to Congdon park.

Fail to Secure Verdict
for Rent.

"We, the jury, in the above entitled action, find in favor of the defendant, the plaintiffs to be allowed \$21.16 for water."

This is the form of a verdict which was returned by a district court jury to Judge Ensign this morning. The court, however, refused to take it on the ground that it was illegal and sent the jury back to try again.

The second finding of the jury found for the plaintiffs and assessed their damages at \$21.16.

Megiddo Deaconesses in Duluth.

W. M. Pickering and a party of six deaconesses have arrived in Duluth in the interest of home missionary work. They are connected with what is known as the Megiddo mission, an organization which had its beginning in Minneapolis.

Rev. L. J. Nichols, the founder and organizer of the mission, has for more than forty years devoted his life to philanthropic and evangelical work. He has given the Bible a life-long study in the languages in which it was written, and in the various tracts of which he is the author, seeks to prove that the Bible contains no conflicting statements from Genesis to Revelations.

While in Duluth these missionaries will make personal calls, hoping to awaken a deeper interest in Christianity.

DULUTH HAILED AS COMING METROPOLIS OF NORTHWEST

Dredging of Channels Will Treble Trade, Says Fred Stevens.

Legislative Junketers Appeal for Closer Union of All Parts of State.

Southern Minnesota took off its hat to northern counties of the state last night when 137 senators, representatives, state officials, their wives and guests concluded their Duluth stay at a dinner tendered them by the Duluth Commercial club.

At the end of the second day of the "adjoined session," when but a small part of Northern Minnesota had been paraded before them, the junketing legislators admitted freely that the object of their trip, namely, to be "shown" already had been accomplished.

"Duluth will be one of the greatest, if not the greatest, city in the Northwest before many years," said Senator Fred C. Stevens of St. Paul, introduced by Chairman Henry Nolte as the former "senator from Minnesota," in the most glowing tribute paid the Zenith City during the evening.

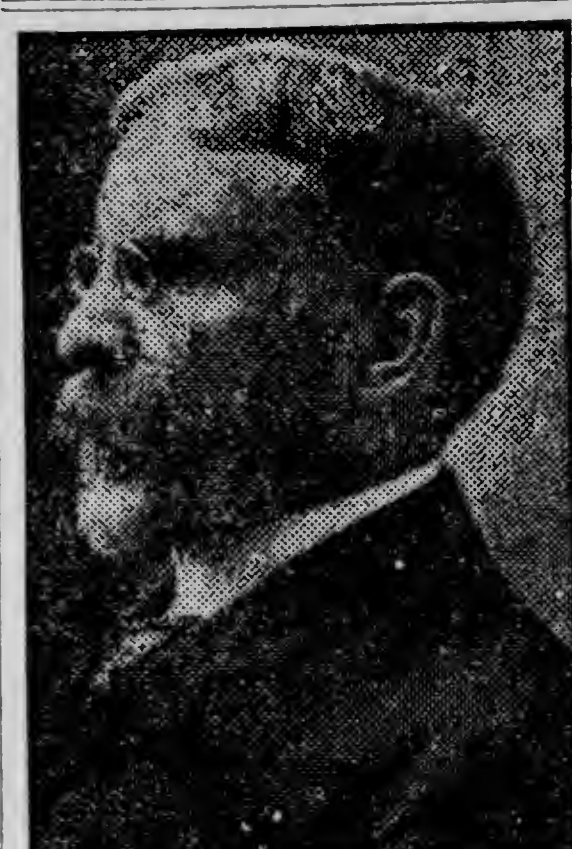

"The Panama canal has impelled the Middle West," said Mr. Stevens, "and this section has a great transportation problem to meet. Canada is doing it by building a 30-foot lock at the Soo and extending the Welland canal."

"The United States is bound to take similar steps and as soon as the channels below the Soo are dredged to a depth of twenty-four and one-half or twenty-five feet Duluth will come into its own. It will mean a triple increase in the imports with a corresponding increase in exports."

"This is not a plan to make Duluth great, but to make the Northwest great, and we of the other parts of the state congratulate Duluth on her location, knowing that Minnesota will have, in Duluth, one of the greatest cities in the world."

"Won't Dany Duluth."

"If Duluth grows to be larger than

FRED C. STEVENS.

the Twin Cities," said Lieutenant Governor J. A. A. Burnquist, "we won't envy you. We'll come up here and help you."

"We can see visions of a great city here—many times as large as the present one and a manufacturing center from which goods will be distributed to all parts of the United States, and of the world."

"The last session of the legislature was called a talking session," said the lieutenant governor, "and this adjourned session is a seeing session. No one spoke at a podium and this morning at the steel plant the members looked blank, I noticed, until we were shown a plant where gas was to be manufactured."

Opposed to war, Mr. Burnquist was reminded of the European struggle while on the U. S. S. Gopher, and expressed a wish that on his next trip he would see no warships in the harbor.

Flirting With Duluth.

A man who "has been flirting with Duluth for thirty-three years," Senator F. A. Duxbury of Caledonia, next took up the song of praise, and added to

acknowledgments of the greatness of Northern Minnesota.

"Thirty-three years ago I saw visions of a wonderful city here at Duluth and even now it is only a village in comparison with the city of my dreams. Here I pause for applause," he said amid laughter, "where are the Duluth boosters?"

"We of the south go north more than you of the north go south," he said, "and we have things impressed upon us as during this trip, we cannot help but realize the magnitude of the state and its resources. There is nothing in this alleged prejudice in the southern counties against the north."

Gunnar B. Bjornson of Minnesota made a strong plea for a closer union of the different parts of the state, and gave an excellent interpretation of the real purpose of the joint when he said: "We should try to obliterate all sectional lines and feelings. If we knew each other better our little misunderstandings would be wiped out. No one has a right to draw any lines within the boundaries of this state, and we have earned that in the last two days."

Good natured rally about the weather marked the session by the legislators from southern counties, Representative Bjornson causing a laugh when he said he had seen Duluth in every conceivable kind of weather—except today's during the last thirty-three years. I. Magnusson said to see this.

"Invoking Junket."

"We came expecting to see a lot," said Senator Patrick H. McGarry, "and we were not disappointed. Senator McGarry chose to look upon Minnesota as a great country. He said he had seen the trip an 'invoking junket.' A more intelligent report to 'stockholders' can be expected in the future, he said."

Senator Ole Lunde of Yellow Medicine county, where they raise 102,800 bushels of corn to the acre and never been in Northern Minnesota before, declared that the trip had been an important factor in the Northwest and even in the United States. We of the

southern counties admit it proudly," he said.

Proving his ability as an impromptu poet, Senator Lunde paraphrasing a verse of "Boston—the home of the bean and the cod," said:

"Here's to Minnesota,
The home of corn and the mine,
Where Duluth and Cloquet,
Without any delay,
Show wonders almost divine."

"Dad" (E. J.) Westlake, senator from Minnesota and the lightning conductor of the "session," refused to be serious.

"Anyone who wants to be governor, can be governor," he stated. "I'm going to retire. Now that the boxing commission has been appointed there is nothing left for the governor to do, anyway."

"My friend Pat (Senator McGarry) said he wouldn't run if my hat was in the ring, and I told him to go ahead."

Alfred J. Rustad of Wheaton, a member of the "third" house, who was called "the second ring of the circus," entertained the visitors with dialect stories, verse and song.

Chairman Nolte, who presided in the absence of President J. B. Cotton of the Commercial club, in opening the program, told the legislators that the club had 1,200 members; that there was nothing frivolous about it; and that its object was to make Duluth a good place to live in.

From the dinner the junketers went directly to their special train, which left for St. Paul at 11 o'clock for Coleraine, Minn. Today they will attend a meeting of the Northern Minnesota Development association in that town.

Before the session at the Commercial club, the visitors put on a busy day's sightseeing, starting with a trip to the steel plant and to town in the morning and concluding with a short voyage round the harbor and out into the lake aboard the Gopher. They lunched at the Spirit Lake branch of the boat club.

SENATORIAL SIDELIGHTS

"Dad" Westlake, senator from Minneapolis and in charge of the tour, was once a railroad conductor. He was collecting fares yesterday and said Senator Charles Adams "had promised to pay him," but that "he hadn't heard from Duluth's other senator."

"You see," he explained, "every time I collect \$35 from a member, I give the Northern Pacific railway \$25 and put \$10 in my pocket."

"It looks pretty soft, doesn't it?"

Representative Gunnar Bjornson of Minnesota saw Duluth thirty-nine years ago and "it wasn't much of a town then."

"Didn't its wonderful possibilities impress even the most skeptical?" asked a Duluth booster, somewhat disappointed at the representative's tone.

"Well, I'll tell you," was the reply, "I must apologize, for I really didn't see much of the town on that first trip."

"But surely," persisted his friend, "you had at least a glimpse of the prospects of a city at a harbor on a lake like this, valuing his arm in the direction of Lake Superior."

There was no recourse from this, and the representative admitted that he was 3 years old at the time of his first trip. With his father and mother, he went to Quebec from his home in Iceland and Duluth was the first city in the United States he visited, as the family made the trip up the lakes from Quebec.

Senator James G. Callahan of Minneapolis has a new straw hat. He insisted on wearing the summer bonnet during the morning, and sheltered it carefully from wind, rain and mud while the legislators saw the steel plant.

When a party started for the U. S. S. Gopher, however, he said: "Aw, the two of us put on a soft cloth hat, some what wrinkled and very much bedaggl'd."

Senator Callahan is a Republican from a Democratic home. He is a newcomer at the last session.

"Dad" McGarry of Glen Garry, Cass county, sometimes is called Senator "Lake Superior." He admitted reluctantly, when the Gopher began to roll in

the lake swell and women in the party began to think, "you should see the lake we have at home."

"But," he added, "you should see the lake we have at home."

"Aldo from Cass county and Glen Garry and a few other things, Senator McGarry has a liking for true fish stories, and he regaled tourists with yarns of fresh water game yesterday."

"A pretty good lake, in this way," Superior," he said as he reached his dock, "but I haven't seen any whales like those we have at home."

Senator F. A. Duxbury has been in Northern Minnesota for the first time as surprised at the things he saw as some other members of the party. "Carlton and Carlton are at a disadvantage under the Dunn law appropriation, but the roads I have seen here are particularly those around Cloquet, are in good condition."

Secretary of State Julius Schmalz was interested in Northern Minnesota, but South America and its possibilities attracted his attention while aboard the U. S. S. Gopher. With N. F. Hugo of Duluth, an old friend, who recently toured South America, he discussed the southern cone. First at Duluth, Schmalz allowed himself to be worried about the possibilities of seasickness.

Later, when the Gopher went out into Lake Superior and began to roll in the heavy seas, she discovered that she was an excellent sailor.

A. J. Rustad of Wheaton, who represented the "third" house, is an inveterate state legislator. He was never at a loss for a good yarn and true to the qualification given by Henry Nolte, he certainly lived up to the "circus" most of the time.

"What in the world becomes of all that coal?" asked Representative James G. Callahan of Minneapolis, who had a lot of coal in his pocket, when he saw the large coal stacks in the harbor.

"I certainly don't know," he replied, "he said, 'and I wish my people had a well territory where shipments of the things Northern Minnesota is doing and may do in the future.'"

experience is that the Eastern market for practically inexhaustible, low-grade dairy products. We have just as much butter on order to go forward as we have on order to go back. It is of interest to the trade to know that all the package freight steamers equipped for the service have added capacity loads on every trip so far this season. Had it not been for the insurance of the boat service from here, a large proportion of the seventeen cars shipped this week would have been sent from Chicago.

A substantial outlet in the East for eggs is also being developed. On account of the cooler temperature, the keeping qualities of Northern Minnesota eggs are better than those shipped farther south. As a consequence, they are in good demand by packers.

Due to the better distributing facilities now being afforded from here, the British Columbia company has established a large creamery at Sioux Falls, S. D. Cream is collected from over a wide territory there and shipments of butter are made from there through this city.

Butter Market Unchanged.

Butter quotations are unchanged today from a week ago at 25 cents a pound for creamery. The market in Duluth is being in a measure controlled, according to the Fitzsimmons-Palmer company and the Stacy-Merrill Fruit company. Shipments of Missouri strawberries are nearly over and supply of Duluth is being in a measure controlled, according to the Fitzsimmons-Palmer company and the Stacy-Merrill Fruit company. Shipments of Missouri strawberries are nearly over and supply of Duluth is being in a measure controlled, according to the Fitzsimmons-Palmer company and the Stacy-Merrill Fruit company.

Green vegetables are being offered more freely, but the marketing of home-grown stuff is being delayed by the weather. Minnesota potatoes are being offered lower at 65 cents a bushel due to the anxiety of growers to dispose of the balance of their holdings. Southern red and white potatoes are selling at 50 cents a bushel and New Mississippi cabbage is selling cheaper to the extent of 50 cents a case.

by making John Gordon, Unionist member of parliament for Londonderry, attorney general.

Mr. Gordon, although an anti-home ruler, is not so pronounced an Ulsterist as Mr. Campbell. The Nationalists agree to accept him for the sake of the elimination of Mr. Campbell. At a meeting held yesterday, and over which John Redmond was presiding, resolutions were passed expressing satisfaction that the protests of the party had been successful in "preventing the lord chancellorship from being given to a Unionist, especially a Unionist with the record of Mr. Campbell."

"BEYOND THE POINT OF ROCKS"

POPULAR DULUTH YOUNG MAN SUCCUMBS AT SPOKANE, WASH.

The body of Oscar Moe, age 26, son of John J. Moe, 2207 West Third street, who died Monday at Spokane, Wash., following an operation for appendicitis, is expected to arrive in Duluth on Tuesday or Wednesday next week. Mr. Moe is in Spokane and will return home with the body of his son.

The young man had not been well for some time. He went west two years ago to assume charge of a branch store of the J. J. Moe & Sons company located at Billings, Mont. This place was disposed of in January and since then the young man had been visiting from place to place on the west coast in an attempt to regain his health.

Oscar is survived by his parents, three brothers, Alfred H. Moe, Duluth; Waldemar J. Moe, Cheyenne, N. D.; and Ralph Moe of this city, and two sisters, Misses Agnes Moe, who is attending school at Cheyenne, N. D., and Lily Moe, who has been attending the Wisconsin university at Madison.

Oscar was born in Duluth and has an extensive acquaintance among the younger people of this end of the city. No arrangements for the funeral will be made until after the arrival of the body.

OSCAR MOE.

BANQUET PROGRAM NEARLY COMPLETE

Bryant Alumni Prepare Interesting Features for Monday Night.

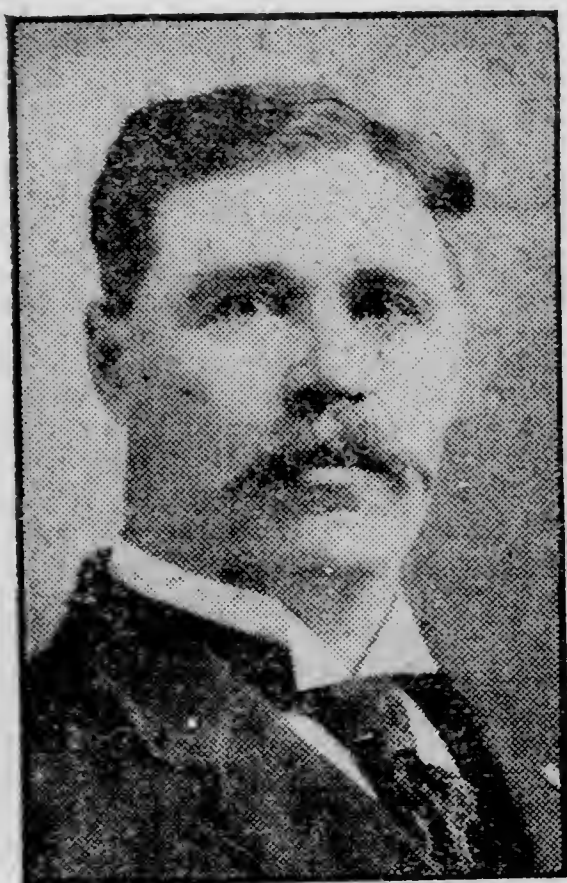

Preparations for the annual banquet of the Bryant alumni association, which will be held Monday evening at the school, are rapidly nearing completion. The committee expects to have at least 150 guests at the affair. The supper will be served in the gymnasium of the school at 7 o'clock.

The class of girls in domestic science from the A seventh and eighth grades, under the direction of Miss Margaret Turner, will prepare and serve the banquet. The decorations for the hall and banquet room were started yesterday afternoon by the boys of the school.

Carl Hanson will be toastmaster. Among the speakers will be Dr. Earl Ward and Lloyd Yergan. Other speakers are also expected, among them being Miss Florence Halverson, who is now teaching school in the northern part of the state. The musical program will include a vocal solo by Miss Eva O'Neill and Miss Jane Doran, and a piano solo by Sheldon Johnson. Miss May Spencer will give a reading.

A special effort is being made by members of the committee to get out the older members of the organization. The class graduating this year has forty-two members and is one of the largest that has been turned out of the school.

WEST END BUILDERS

Notice to the Public

Our attention has been called to some irresponsible person or persons canvassing the city in the interest of an unknown concern styling itself the Free Mileage Coupon Company or some similarly named corporation, representing to Duluth and outside people that this store has adopted their Free Mileage coupons, and that same can be obtained from us.

We deem it our duty to warn the people of Duluth against such person or persons, and to stamp all representations of that nature as untrue and fraudulent. We have not adopted the Free Mileage coupons, nor have we ever negotiated to adopt them. Any representations to the contrary are pure and simple fraud. The coupons or vouchers that we distribute and give freely with all purchases are known as "Security Vouchers," redeemable for merchandise at our and other stores.

RESUBMISSION IS BEING DISCUSSED

Advocates of Idea May In-
voke Referendum in
North Dakota.

Fargo, N. D., June 11.—(Special to The Herald.)—These favoring resubmission in North Dakota announce they will take advantage of the initiative and referendum law and have the matter of prohibition before the voters of North Dakota at the next general election.

Under the law it will be necessary to secure a petition containing a list of names equal to 10 per cent of those cast at the preceding general election, and these signatures must be located in at least a majority of the counties of the state. This would mean that about 9,000 names must be signed to the petition and that the latter must be circulated in at least twenty-seven of the fifty-two organized counties of the state.

SAMARITANS END MEET.

Election of Officers and Business
Discussions Mark Close.

The three-day biennial convention of the Good Samaritans, which has been held at the Christie building, Duluth, closed yesterday afternoon with the election of officers and their installation by John Christie, Duluth, imperial good samaritan. Discussions over business matters and slight alterations in the by-laws and the constitution of the order occupied considerable time previous to the election.

The most important change in the constitution was to the effect that the general council, physician and treasurer will no longer have to be members of the executive board to be eligible for these offices. The salary list was slightly revised—mostly downward.

C. E. Lovett of Duluth was elected imperial good samaritan as was foretold.

Following are the other officers chosen: L. A. Barnes, Duluth, vice imperial good samaritan; John Christie, Duluth, past imperial good samaritan; H. J. Achenbach, Duluth, imperial scribe; J. D. Markham, Rush City, Minn., imperial treasurer; A. E. McManus, Duluth, general counselor; Dr. W. H. Salter, Duluth, imperial medical director.

Following are members of the board of directors: C. E. Barnes, St. Paul; Oscar Erickson, Minneapolis; Andrew French, Plainview, Minn.; A. L. Snerry, Owatonna, Minn.; O. E. Collier, Duluth; J. D. Markham, Rush City, Minn.

Twenty-three delegates from Michigan and Minnesota left Duluth last night.

VOTES POURING IN.

Candidates for "Carnival Queen"

Have Many Supporters.

The contest for the "queen" of the Knights of Pythias carnival, which will be held during the week of June 14 on the grounds adjacent to the Patrick factory, corner Thirtieth and the new west and Superior street, is proving one of the most interesting contests ever held by the Tom W. Allen shows in connection with a local lodge.

All the candidates are popular young women of Duluth. Hundreds of votes are being cast daily for the candidates without personal solicitation.

Standing of the contestants:

Louise Henning 5,700
Ada Johnson 5,313
Mable Miller 5,031
Rose Coran 4,751
Helen Macdonald 3,859
Mamie Le Beau 3,774

WOUNDED SOLDIERS ARE GIVEN SUN BATHS

(Correspondence of the Associated Press.)

Paris, May 20.—Sun baths for the treatment of wounded soldiers are said to have greatly facilitated the healing of wounds. M. d'Arsonval recently explained the system of sunbathing. The patient is sheltered from the wind and they receive sky radiations as well as rays of the sun, the air being raised to a temperature of from 100 to 110 deg. Fahrenheit. These conditions are obtained by the use of absorbing screens of canvas painted white and stretched on wooden frames. The bath is formed by three vertical screens, six feet high and five feet wide, set at an angle of 100 deg., so as to reflect the sun's rays inside, the top being left open.

MUCH LUNACY WILL BE RESULT OF WAR

(Correspondence of the Associated Press.)

London, May 20.—Sir James Clifton-Browne, who stands in the forefront of English authorities on mental and nervous diseases, says that one of the saddest results of the war will be a great increase in the number of lunatics.

Addressing the annual meeting of the Asylum Workers' association, he said: "Much of the aftermath of war will find its way into asylums. The enormous number of criminal injuries will undoubtedly lead to much mental impairment. The large number of cases of shock to the nerves and overstrain will cause much neurasthenia and other disorders. There has been throughout the whole country immeasurable sorrow and bereavement which in many cases will deepen into morbid melancholy."

MINOT MAY SETTLE CONTRACTOR'S CLAIM

(Special to The Herald.)

Minot, N. D., June 11.—(Special to The Herald.)—This city will try to settle the verdict obtained by James Kennedy, the Fargo contractor, of \$16,000 on a basis of \$8,000.

The verdict was obtained by Kennedy in a suit that involved money which he claimed was due to him on a contract for the construction of a waterworks system.

The city withheld the money, claiming Kennedy had delayed the work beyond the time fixed in the contract. He contended it had been impossible to complete the contract because of the city's failure to provide power.

To Enlarge Warren Plant.

Warren, Minn., June 11.—(Special to The Herald.)—A mass meeting of taxpayers of this city was held Wednesday evening for the purpose of discussing the question of doubling the capacity and power of the municipal light and power plant. The Warren plant is at present unable to give the service that the community demands owing to the steady growth and building of new industries. It was practically decided to make the necessary additions immediately.

A Sale of Lingerie Waists at 98c

Another typical "Second-Floor" sale—values up to \$3 in lawns, organdies, lace and pique striped voiles, candy stripe silks, etc. And when we say values to \$3 we mean just that. This is another "opportunity" like the one that awakened so much enthusiasm two weeks ago. Styles are the newest—for the most part high and low neck effects, and three-quarter sleeves. Sizes, 34 to 44. Charming little waists, exactly what we say they are—"bargains" at 98c.

Children's Wash Dresses 49c to \$1.49

Prices are down on the smart little white and colored wash dresses for children, from 2 to 14 years of age. These dresses, the most attractive styles we've ever shown at 75c to \$2, are now reduced to range from 49c to \$1.49. The group includes all the popular colors in plaids, striped and polka dot effects—wearable and durable—surprisingly well designed and made.

United States Insists That Germany Must Safeguard American Lives and American Ships on High Seas

Washington, June 11.—The text of the American rejoinder to the German government's reply to the note following the sinking of the Lusitania follows:

"The secretary of state ad interim to the American ambassador to Berlin:
"Department of State, Washington, June 9, 1915
—American Ambassador, Berlin:

"You are instructed to deliver textually the following note to the minister of foreign affairs:

"In compliance with your excellency's request I did not fail to transmit to my government immediately upon their receipt your note of May 28 in reply to my note of May 15 and your supplementary note of June 1, setting forth the conclusions so far as reached by the imperial German government concerning the attacks on the American steamers Cushing and Gulfight. I am now instructed by my government to communicate the following reply:

CUSHING AND GULFIGHT.

"The government of the United States notes with gratification the full recognition by the imperial German government, in discussing the cases of the Cushing and the Gulfight, of the principle of the freedom of all parts of the open sea to neutral ships and the frank willingness of the imperial German government to acknowledge and meet its liability where the fact of attack upon neutral ships which have not been guilty of any hostile act by German aircraft or vessels of war is satisfactorily established; and the government of the United States will in due course lay before the imperial German government, as it requests, full information concerning the attack on the steamer Cushing.

SINKING OF THE FALABA.

"With regard to the sinking of the steamer Falaba, by which an American citizen lost his life, the government of the United States is surprised to find the imperial German government contending that an effort on the part of a merchantman to escape capture and secure assistance alters the obligation of the officer seeking to make the capture in respect of the safety of the lives of those on board the merchantman, although the vessel has ceased her attempt to escape when torpedoed. These are not new circumstances. They have been in the minds of statesmen and of international jurists throughout the development of naval warfare, and the government of the United States does not understand that they have ever been held to alter the principles of humanity upon which it has insisted. Nothing but actual forcible resistance or continued efforts to escape by flight when ordered to stop for the purpose of visit on the part of the merchantman has ever been held to forfeit the lives of her passengers or crew. The government of the United States, however, does not understand that the imperial German government is seeking in this case to relieve itself of liability, but only intends to set forth the circumstances which led the commander of the submarine to allow himself to be hurried into the course which he took.

THE LUSITANIA.

"Your excellency's note in discussing the loss of American lives resulting from the sinking of the steamship Lusitania adverts at some length to certain information which the imperial German government has received with regard to the character and outfit of that vessel, and your excellency expressed the fear that this information may not have been brought to the attention of the government of the United States. It is stated in the note that the Lusitania was undoubtedly equipped

with masked guns, supplied with trained gunners and special ammunition, transporting troops from Canada, carrying a cargo not permitted under the laws of the United States to a vessel also carrying passengers and serving, in virtual effect, as an auxiliary to the naval forces of Great Britain. Fortunately these are matters concerning which the government of the United States is in a position to give the imperial German government official information. Of the facts alleged in your excellency's note, if true, the government of the United States would have been bound to take official cognizance in performing its recognized duty as a neutral power and in enforcing its national laws. It was its duty to see to it that the Lusitania was not armed for offensive action, that she was not serving as a transport, that she did not carry a cargo prohibited by the statutes of the United States, and that if in fact she was a naval vessel of Great Britain, she should not receive clearance as a merchantman; and it performed that duty and enforced its statutes with scrupulous vigilance through its regularly constituted officials.

GERMANY MISINFORMED.

"It is able, therefore, to assure the imperial German government that it has been misinformed. If the imperial German government should deem itself to be in possession of convincing evidence that the officials of the government of the United States did not perform these duties with thoroughness, the government of the United States sincerely hopes that it will submit that evidence for consideration.

"Whatever may be the contentions of the imperial German government regarding the carriage of contraband of war on board the Lusitania or regarding the explosion of that material by the torpedo, it need only be said that in the view of this government these contentions are irrelevant to the question of the legality of the methods used by the German naval authorities in sinking the vessel.

"But the sinking of passenger ships involves principles of humanity which throw into the background any special circumstances of detail that may be thought to affect the cases, principles which lift it, as the imperial German government will no doubt be quick to recognize and acknowledge, out of the class of ordinary subjects of diplomatic discussion or of international controversy.

SUNK WITHOUT WARNING.

"Whatever be the other facts regarding the Lusitania, the principle fact is that a great steamer, primarily and chiefly a conveyance for passengers and carrying more than a thousand souls, who had no part or lot in the conduct of the war, was torpedoed and sunk without so much as a challenge or a warning, and that men, women and children were sent to their death in circumstances unparalleled in modern warfare. The fact that more than one hundred American citizens were among those who perished made it the duty of the government of the United States to speak of these things and once more with solemn emphasis, to call the attention of the imperial German government to the grave responsibility which the government of the United States conceives that it has incurred in this tragic occurrence, and to its indisputable principle upon which that responsibility rests. The government of the United States is contending for something much greater than mere rights of property or privileges of commerce.

RIGHTS OF HUMANITY.

"It is contending for nothing less high and sacred than the rights of humanity, which every government honors itself in respecting and which no government is justified in resigning on behalf of those under its care and authority. Only her

actual resistance to capture or refusal to stop when ordered to do so for the purpose of visit could have afforded the commander of the submarine any justification for so much as putting the lives of those on board the ship in jeopardy. This principle, the government of the United States understands, the explicit instructions issued on August 3, 1914, by the imperial German admiralty to its commanders at sea to have recognized and embodied, as do the naval codes of all other nations, and upon it every traveler and seaman had a right to demand. It is upon this principle of humanity as well as upon the law founded upon this principle that the United States must stand.

UNITED STATES WILLING TO ASSIST.

"The government of the United States is happy to observe that your excellency's note closes with the intimation that the imperial German government is willing to accept the good offices of the United States in an attempt to come to an understanding with the government of Great Britain by which the character and conditions of the war upon the sea may be changed. The government of the United States would consider it a privilege thus to serve its friends and the world. It stands ready at any time to convey to either government any intimation or suggestion the other may be willing to have it convey and cordially invites the imperial German government to make use of its services in this way at its convenience. The whole world is concerned in anything that may bring about even a partial accommodation of interests or in any way mitigate the terrors of the present distressing conflict.

"In the meantime, whatever arrangement may happily be made between the parties to the war, and whatever may be in the opinion of the imperial German government have been the provocation or the circumstantial justification for the past acts of its commanders at sea, the government of the United States confidently looks to see the justice and humanity of the government of Germany vindicated in all cases where Americans have been wronged or their rights as neutrals invaded.

RENEWES REPRESENTATIONS.

"The government of the United States therefore very earnestly and very solemnly renews the representations of its note transmitted to the imperial German government on the 15th of May and relies upon the principles of humanity, the universally recognized understandings of international law and the ancient friendship of the German nation.

"The government of the United States cannot admit that the proclamation of a war zone from which neutral ships have been warned to keep away, may be made to operate as in any degree an abbreviation of the rights either of American ship masters or of American citizens bound on lawful errands as passengers on merchant ships of belligerent nationality. It does not understand the imperial German government to question those rights. It understands it, also to accept as established beyond question, the principle that the lives of non-combatants cannot lawfully or rightfully be put in jeopardy by the capture or destruction of an unresisting merchantman, and to recognize the obligation to take sufficient precaution to ascertain whether a suspected merchantman is in fact of belligerent nationality or is in fact carrying contraband of war under a neutral flag. The government of the United States, therefore, deems it reasonable to expect that the imperial government will adopt the measures necessary to put these principles into practice in respect to the safeguarding of American lives and American ships and asks for assurance that this will be done.

IS EXPERIENCED AS A STATESMAN

Lansing Has Been Constant Help to President During War.

Washington, June 11.—Robert Lansing, now acting secretary of state, became counselor of the state department April 1, 1914, following the retirement of Dr. John Bassett Moore, who had resigned several weeks before because, as it was understood, of his disagreement with Mr. Bryan's Mexican policy.

Mr. Lansing was known locally as a son-in-law of Gen. John W. Foster, former minister to Mexico, Russia and Spain and secretary of state in the cabinet of President Harrison, and as the counsel and agent of the American and British claims commission, which had for many years been prosecuting claims in connection with the seal fisheries in the Bering sea.

He was born at Watertown, N. Y., Oct. 17, 1864. He entered Amherst college in 1882 and graduated with the class of '89. Studying law for three years at Watertown, he began practice there with a cousin, forming the firm of

Lansing & Lansing in 1889, and continuing as a member of the firm until 1907. In January, 1890, he married Miss Eleanor Foster, the only daughter of Gen. Foster, who when secretary of state in 1892 appointed him an associate counsel for the United States in the Bering sea arbitration. He was counsel for the United States before the Bering sea claims commission in 1896 and 1897 and later in 1902 was associated with Elihu Root, then secretary of war, as counsel before the Alaskan boundary commission in London. For several years he was counsel in the North Atlantic fisheries cases and in arbitration cases at The Hague.

As a state department official, Mr. Lansing has developed a direct, decisive manner of dealing with public questions. Mr. Bryan's many absences from Washington have given him opportunities before this to show his ability as acting secretary. His first duties were connected with the shaping of diplomatic policies arising from the revolution in Mexico.

Reorganized Department. With the outbreak of the war in Europe the position which Mr. Lansing had taken became one of high importance in the conduct of foreign policies. With his aid a complete reorganization of the state department was promptly undertaken for the consideration of the problems that arose from the peculiar conditions of the greatest war in history.

In the earlier stages of the war the preparation of American notes was assigned to Mr. Lansing, and the president's part in them was simply one of revision and general direction. Later

the president has written his own notes, but they have been referred for technical corrections to Mr. Lansing rather than to Mr. Bryan. President Wilson has looked to him officially and privately for help continually. Night and day he has been at the president's call over the telephone, and has taken directions of the innumerable details of problems arising almost every hour.

LAST APPEAL TO COURT FOR BECKER

Briefs for Reargument of Case Filed With Court of Appeals.

New York, June 11.—The last appeal to the courts of New York for the life of Charles Becker, sentenced to die in Sing Sing prison during the week of July 12 for the murder of Herman Rosenthal, the gambler, was made yesterday when his counsel, Martin T. Manton, forwarded to the court of appeals at Albany a brief on a motion for the rearargument of the case. A copy was filed in the district attorney's office here. The court, Mr. Manton claimed in his brief, overlooked two facts of capital importance to Becker which did not appear in the first trial but were established in the second trial by the state's principal witness, Jack Rose, the informer. The brief says that inasmuch as Rosenthal had threatened to expose Becker in a New York newspaper, Becker must have known that an attack at that time would be attributed to his agency. The question that should have been presented to the jury was whether Rose, who hired the gunmen, was animated by a desire to save his own life, which was already imperiled, according to his own testimony, by Rosenthal's representations against him, that is, Becker's indictment for the murder of Rosenthal. The only purpose of the crime in the latter contingency, it is argued, would have been to prevent Rosenthal from doing something which had already been done—namely, to charge public charges against Becker and from attempting something which he could not accomplish, that is, Becker's indictment for the murder of Rosenthal.

If the question instance had been submitted to the jury, there could be

USE OF THE BEAN URGED IN ENGLAND

Meat Prices Rise From Three to Four Cents a Pound.

(Correspondence of the Associated Press.) London, May 20.—The recent rise of meat has caused one of London's great dailies to plead the cause of the bean, a food little used in England.

Meat is the basis of the Englishman's fare. If of the well-to-do class, he buys the best English meat, which is unsurpassed in tenderness and flavor. If unable to afford English meats, he gets the cold storage products of Australia and the Argentine and the United States. Working classes live on stews made of scraps or of frozen rabbits from Australia. Cabbage, sprouts or cauliflower in varying degrees of freshness and potatoes constitute the rest of the staple fare of Britain. Lentils are better known than beans and are beginning to have a small vogue as a meat substitute. But about the only bean is the French haricot. The small white bean, the staple food of the Western ranches, the mining and laboring home of America, and also the large red bean have yet to be

introduced in the British Isles. In no respect are the British more conservative in their diet than the French, but the war has already worked many changes and the recent increase in meat prices amounting from 2 to 4 cents a pound may help the cause of the bean.

IMPORTERS TO APPEAL TO THE PRESIDENT

New York, June 11.—American importers decided at a meeting here yesterday to appeal personally to President Wilson for immediate relief from the British commerce restrictions which are holding up in neutral ports \$20,000,000 worth of non-contraband merchandise from Austria and Germany. A committee of importers of this city was appointed to go to Washington and take up with the president and his cabinet the matter of the British order in council. They will ask, they declared, that a definite understanding be reached with England and France regarding the shipment of merchandise ordered on or before March 1, 1915, whether or not payment for same was made at that date.

JITNEURS MAY ASK FOR REFERENDUM

Would Get Opinion of Public on Liability Insurance.

Duluth may have to stand the expense of another election. Because they claim the cost of liability insurance is too high, Duluth jitney drivers are circulating a referendum petition in an effort to bring the referendum petition, this number being 10 per cent of the total vote cast at the last municipal election, as is required by the city charter. The move was begun yesterday, following a meeting of the Duluth Jitney association at 208 East Superior street. About 1,300 signatures are necessary to the referendum petition, this number being 10 per cent of the total vote cast at the last municipal election, as is required by the city charter. If sufficient names are obtained, the jitney drivers will present the petition to the council and unless the present ordinance, which goes into effect a week from tomorrow, is repealed, the commissioners will have to call a special election for a vote on the measure. The jitney men object to the ordinance in that the cost of the liability insurance is so great that they cannot afford to pay it, said E. M. Kelley, president of the Duluth Jitney association last night. "Five thousand dollars of liability insurance is required by the ordinance and this would cost us about \$125 a year."

ZENITH BOARD ELECTS.

Board and Assistant Editor for Next Year Named.

At a meeting yesterday afternoon of the board of the Zenith, the Central high school annual publication, Miss Eva Tarbuton was elected assistant editor of the 1915 annual. It was also decided that all art work for the annual would be under the supervision of the art department of the school. Jacob Olson, editor-in-chief of the Zenith, appointed the following as members of the board:

Irving Auld, Katherine Birch, Clinton Brooke, Skull Huthford, Eleanor Currie, Margaret Jeffrey, Ben Rasmussen, Charles Le Richeux, Norman Tuffy, Ruth Cole, Pearl Dehaene, Willard Thorpe, Eva Tarbuton, Ruth Hoxie, Edwin Pearson, Lucille Collins, Inez Haugrud and Sam Gofen.

ENSHROUDED IN MYSTERY

Unknown With Big Roll
Swears Wireless Man
to Secrecy.
Instructions From Strange
Employer Came at Night
Over Phone.

Brooklyn, N. Y., June 11.—One of the most interesting of the war commerce secrets that has come to light, and one that reads like the plot of a very lurid bit of fiction, is that of Charles J. Murphy, a Brooklyn wireless operator, who was offered and who accepted an adventure of the most hazardous nature.

According to his own story, Murphy, who sailed Saturday for a three weeks voyage on the United Fruit liner Tenadores, had been living at 308 State street, between trips, and was starting for a walk one evening, when a stranger stopped him outside his home. After making sure that he

was the wireless operator whom he had been seeking, the stranger without introducing himself, explained his purpose.

"I will not tell you who I am, or whom I represent," he said, "but to guarantee my good faith, I will give you a retainer of several hundred dollars if you accept my offer," and he showed a large amount of money in bills. He then explained that if he undertook the job, Murphy would have to hold himself at the disposal of his unknown employers for six weeks. Every night between 10 and 12 o'clock he was to be in his rooms awaiting a telephone call.

Real Mystery of the Deep.
"Sometime within those six weeks, maybe a few days, maybe two weeks, perhaps a month from now a man will call you up between 10 and 12 to make an appointment with you," he said. "You will have your traveling things packed and will meet him, on a street corner, in a cafe, or in a station as he may designate. He will accompany you to a seaport town, seeing that you talk to no one of your departure on the way."

"Once at the seaport you will be taken off in a small boat and be put on board a steamer outside the harbor. The steamer will have no wireless equipment installed, but when you are three days at sea the captain will give you the men and the material for a wireless outfit which you must have put in operation. You will make the trip with the vessel and

will tell no one where you have been." After some parley and the transfer of the substantial retainer, Murphy accepted the offer and went back to his room to think it over. And then he waited. In a moment of extreme doubt, he confided as much of the story as has been told to another Marconi operator and offered to change places with him, even going so far as to proffer the retainer that he had accepted from the mysterious stranger. In a day, he thought better and decided to stand by his bargain.

One day soon after his conversation with his friend, Murphy disappeared and was gone for more than a month. No letter, no wireless message, nor any of the verbal messages that circulate among seafaring men, came to tell where he had gone. He had dropped out as completely as if he had lost his identity.

Wireless Man Back; Lips Sealed.
Then another day he was in Brooklyn again, but with no explanations and no story to tell. Try as they would, even his intimates, if a man who goes alone on a ship with strangers for months at a time can be said to the extent he had boarded in the night at a strange seaport. So persistent and complete was his secrecy that part of his enlistment depended upon the non-appearance of his story in the papers for a certain length of time after his return. If the story appeared before the time set he was to get no more money, was the way they looked at it; and Murphy took no chances.

Only one clue suggested itself to the keeper of his inquisitive friends. Once Murphy absent-mindedly ordered his beer in German, and when he went away he had known no German. The inference is, and it must remain an inference until the secretive adventurer clears the mystery, that either the ship had been loaded by Ger-

man sympathizers with the ostensible purpose of going to a coastwise port, or she must have come from some South American port, where wireless men are hard to obtain. It was even suggested that she may have been loaded with some of the large amount of ammunition which has been shipped to South America recently, and may not have dared to risk interception by landing at a port in the United States.

Ran North of Scotland.
In any case it was probable that she ran north of Scotland and close in toward the Norwegian coast to avoid the British navy. Once near the coast of Norway she could hug the fjords and run into the Baltic, possibly inside the three-mile limit. And once in the Baltic she was in Germany.

Mrs. Murphy, the young wife of the operator, was seen at 308 State street and questioned about the supposed secret voyage, but beyond admitting that her husband had recently made a trip under sealed orders, without knowing his destination or the nature

of the cargo that the ship carried, or the nationality of the vessel, she would say nothing about the story. Apparently she is in the secrecy pact with her husband, for she would not discuss the matter further, deferring the answers to all questions to the time when Murphy will have returned from the present voyage through the West Indies.

IS CRITICIZED BY NORWEGIAN PRESS

German Ambassador to
Norway Has Aroused
Adverse Comment.

(Correspondence of the Associated Press.)
Christiania, May 10.—The criticism of the action of Count von Oberdorff, the German ambassador to Norway, in addressing the Norwegian people through the General Press bureau in a letter at which the newspapers took offense, has been even more widespread than was indicated in the cable reports.

From the outbreak of the war, Count von Oberdorff is said to have attempted to exercise a strong pressure on the Norwegian press, and to have been successful in keeping it from publishing criticisms of German methods of warfare and the treatment of Norwegian merchantships—particularly. His influence through the Norwegian foreign office was said to have been indicated by occasional notes from the department of foreign affairs, requesting that certain reports unfavorable to Germany were not to be mentioned in a critical light, for the sake of Norway's neutrality.

The torpedoing of the Lusitania was

the first occasion on which the Norwegian press voiced its criticisms of German methods, and the articles that followed treated of the incident in strong terms. It appears that the coincidental receipt of two anonymous letters by Count von Oberdorff, concerning the emperor of Germany, led the ambassador to issue an address to the Norwegian people through the General Press bureau. Some of the leading papers refused to publish his statement, while those who did print it accompanied it with strong adverse comment on the propriety of his action. One of the examples of the outspoken way in which the newspapers treated the incident is seen in the Norwegian Shipping gazette, which says:

"When the representative of the German emperor chooses to address the Norwegian people over the head of King Haakon and his cabinet, he has thereby relinquished the respect generally shown representatives of foreign powers at the Norwegian court."

WOMEN MOTOR MEN ON BERLIN STREET CARS

(Correspondence of the Associated Press.)
Berlin, May 16.—Women as motor men on the Berlin street cars, in addition to the hundreds already serving as conductors while their husbands are in the field, are now in prospect. Women also are to replace men at the various railroad stations, where the main duty is to punch the tickets of travelers as they make for their trains, or take them up as they leave the platforms. The latter work is not strenuous and it is believed it can be performed easily by the women.

MEMBERS OF STUDY CLASS GET GLIMPSE OF JAPANESE LIFE IN UNIQUE TEA HOUSE ON PARK POINT

MRS. E. FRANK BARKER IN HER JAPANESE TEA HOUSE.

Mrs. E. Frank Barker's Japanese tea house at 2401 Lake avenue south was the scene this afternoon of the last meeting of the West Duluth study class of the Twentieth Century club. The class has studied the rulers of the European countries this year, but this afternoon's program was the first to be given in a "foreign shore" setting.

The tea house is a bit of Japan with paper walls on a lattice of cedar dovetailed together, protected from Lake Superior breezes by an outer wall and windows, its matting on the floor and its treasures from the Flowery Kingdom. The guests removed their shoes before stepping on the floor, that is not covered but upholstered with pads resembling mattresses that are made of matting padded with rice straw. Surely in Japan it is not necessary to hang guests on hooks or limit a house party by anything but floor space.

Japanese Waitresses.—Tea and wafers were served by Miss Dorothy Engel and Miss Alta Hallock, who were in Japanese costumes. The dishes bore a pine tree design in keeping with "O Matsuri Chaya," which, translated, is "Pine Tree tea house," the name of Mrs. Barker's establishment, which got its name from the pine trees about it.

Sandalwood incense was burned on the charcoal fire in the brazier, made of lacquered wood with a copper lining.

The hostess received her guests in an authentic Japanese kimono of gray-blue silk and a wig she had made in Japan.

Following the study plan of the class Mrs. Barker spoke on the heads of the Japanese government, the emperor, prime minister, older statesmen, bureau, cabinet members, imperial diet, charter oath, constitution and the two chief political parties. In her political talk she touched upon Prince Feigo Tokumori, a great political power in 1871, who is compared by the Japanese people to Gen. Robert E. Lee and whose life has been specially studied by Mrs. Barker, whose grandmother was Sara Jane Lee, a cousin of Gen. Lee. The other part of the program consisted of poems read in Japanese by Mrs. Barker, the translations of which were read by Mrs. Charles Clark Sampson.

Japanese Collection.—Among the additions to Mrs. Barker's Japanese collection, which arrived Tuesday, are a mahogany tea cabinet, an antique screen representing the four seasons of flowers, a brass temple incense burner and a statue of Tokusawa Toyokuni, who in 1602 brought the country to promote unity. This hand-carved wood statue is thought to be 250 years old and was found in a Buddhist temple. It, the screen and lantern were obtained by Mrs. Barker by S. Kogal, one of the greatest Japanese artists and the originator of Damascene work.

Among other things of interest to the guests were writing and dining tables obtained by Hibachi Wada, formerly a student of the University of Pennsylvania, an arm rest, ancient sword rest, a hand-carved temple of wood, which is an exact duplicate and contains a replica of the sacred mirror of Japan, wine bottle, dishes, statues of the gods of wealth, magnanimity and integrity, and examples of modern Japanese art.

On the walls are many autograph photographs of Japanese friends and prints of historic places of the country sent by the Japanese consulate.

Books and Pictures.—The books and pictures form a valuable part of the collection. Among them may be mentioned a book of pictures of the Japanese court and cuts of places and utensils connected with the coronation which will be held next winter, which was issued by the government as an international courtesy.

for the representatives of all countries. Translated the inscription reads, "Grand coronation ceremony of Japan, issued by the imperial bureau of education and presented by S. Kogal to Mrs. E. Frank Barker." There are many autograph books in the collection by Japanese authors and Americans who have made a study of the country. In the collection is a set of copies portraying the lives of the forty-seven ronin, who are among the most cherished heroes of the Japanese people. A play built on this story has just been translated and published in Tokyo and possibly will be studied by one of the Duluth clubs next season.

Mrs. Barker, who has mastered the Japanese language in less than three years, has been called a "linguistic genius" by native who realizes the difficulties of his language with its many thousand characters and several kinds of script, for one kind of script is used if a man is writing to a woman. Enthusiasm has overcome many of the difficulties, for "Next to my own people I admire and esteem the Japanese people," Mrs. Barker says.

PATRIOTISM BEING TAUGHT FROM BRYAN

Applicants for Citizenship Will Be Given Instruction.

Court Sessions Will Be Much More Solemn in Future.

The importance and privilege of becoming a citizen of the United States will be impressed upon applicants seeking their naturalization papers in the future. The spirit of patriotism will be instilled into their minds by an address, which will precede the naturalization court session. District court judges will co-operate with the plan, according to R. K. Doe, Federal immigration examiner at Duluth.

The new order of things will be put into operation July 2 when Judge Page Morris will conduct a session for applicants desiring to be naturalized. At that time Judge Morris will give a short address on various topics concerning the country. The applicants, if successful, will then be sworn in. This hand-carved wood statue is thought to be 250 years old and was found in a Buddhist temple. It, the screen and lantern were obtained by Mrs. Barker by S. Kogal, one of the greatest Japanese artists and the originator of Damascene work.

Among other things of interest to the guests were writing and dining tables obtained by Hibachi Wada, formerly a student of the University of Pennsylvania, an arm rest, ancient sword rest, a hand-carved temple of wood, which is an exact duplicate and contains a replica of the sacred mirror of Japan, wine bottle, dishes, statues of the gods of wealth, magnanimity and integrity, and examples of modern Japanese art.

On the walls are many autograph photographs of Japanese friends and prints of historic places of the country sent by the Japanese consulate.

THIRD NOTE FROM BRYAN

Former Secretary Pleaded With Change of Tone of Press.

At Last Realized Country Does Not Want War, He Says.

Washington, June 11.—Former Secretary Bryan today issued a statement expressing his gratification over what he termed a change in the tone of the press regarding the American note to Germany. The statement follows: "I am glad to note the change in the tone of the press in regard to the note to Germany. From the time the papers began to publish forecasts down to yesterday the jingo editors have been predicting that the matter would be dealt with with great firmness; that Germany would be told there must be no more delay in the acceptance of this country's demands, etc."

"Instead of waiting until the note was issued, they put their own coloring on it to suit their own purposes. It is a relief to find the papers now emphasizing the friendly tone of the note and pointing out that it does not necessarily mean war."

Something Gained.—"Something has been gained if the warlike journalists at last realized that the country does not want war, but that the other hand it will support the president in his efforts to find a peaceful solution of the difficult problem raised by the use of the submarine against merchantmen."

The former secretary, giving out his formal statement, supplemented it with the following remarks: "A congressman replying to a jingo speech, recently said: 'I am personally against war, but I am in favor of the country having what it wants. If the country wants what I have war, but let us first find out if the country does want war. If it becomes necessary to ascertain the sentiment of the country, I suggest that a ballot be taken; let those who want war vote for war, and those opposed to war vote against it, and let the vote be taken with the understanding that those who vote for war will enlist for war and those who vote against war will not be called up until after those who want war have exhausted their efforts.'"

Right of People to Rule.—"I still believe," added Mr. Bryan, "in the right of the people to rule and think the congressman's suggestion might insure deliberate action on the part of the voters."

Mr. Bryan was reminded of the suggestion of some of his friends that in case of war he would be one of the first to enlist.

"I do not want to talk about war, but on one occasion I enlisted to defend my country on the first day war was declared," he replied.

Suleiman Bin Musa. the sultan of Selanor, has affirmed his loyalty to the British empire and has issued an order to all the people living in his country enjoining them to entertain no ill intention against the British government.

EAST END BOYS WILL NOT GET BALL FIELD

Must Be Content With London Road and Fifth Street Grounds.

Boys in the East end will have to play ball on the regular ball grounds at Thirteenth avenue east and London road and Fifteenth avenue east and Fifth street, because the city officials are unable at present to secure any other suitable field in that end of the city.

Last week sixty-nine boys presented a petition to the council, asking for a playground, where they could play ball, and on the same day the council secured permission to use the entire block between Seventeenth and Eighteenth avenues east and Third and Fourth streets. However, it has since been learned that it will be impossible to improve the ground for a ball field, owing to the amount of rock on it, and the fact that the ground has been dropped, the fields at Thirteenth and Fifteenth avenues are open to the boys at all times, the mayor said.

A number of residents in the vicinity of the vacant block at Eighteenth avenue east protested against a ball ground there, immediately after the announcement was made in The Herald last week.

"For the present," the mayor said, "the boys will have to get along with the two fields at Thirteenth and Fifteenth avenues. These are fine grounds and there is room enough for two games on each field."

AWAIT ANSWER FROM GERMANY

Nothing More Can Be Done on Situation Until It Arrives.

Washington, June 11.—The cabinet met today with Acting Secretary Lansing sitting in place of Former Secretary Bryan. While nothing more can be done on the German situation pending a reply to the latest American note delivered today by Ambassador Gerard to the Berlin foreign office.

While the president expects a prompt answer, it is realized that it may be two weeks in coming. In the meantime Germany will be informed of the facts gathered by the American government in connection with the dropping of bombs from an aeroplane on the American steamer Cushing.

The meeting today was held in President Wilson's private study in the White House proper.

Officials refused to make any comment on Mr. Bryan's statement of last night and his announced intention of issuing others. It was declared, however, that the president will make no

reply. There were outward indications, however, that administration officials were not in a hurry to answer the question.

The cabinet discussed the Mexican question.

WILL PLAY WAR GAMES

Members of National Guard Will Leave for Camp Sunday.

Government Paying Much More Attention to Militia Training.

Playing the war game for fifteen hours a day will be the sole occupation of the several hundred members of Third Regiment, Minnesota National Guard, for ten days commencing Sunday.

From the "headquarters" of the Third Regiment, Col. F. E. Resche this morning sent an official bulletin stating that mobilization had begun and that the troops would entrain Sunday afternoon, arriving at Camp Lakeview, Lake City, Minn., on Monday, June 14.

"Annual encampments of the state militia no longer are given over to good times," said the colonel, "and I venture to say that any man who anticipates a pleasant, easy existence will be rudely disappointed."

Since the passage of the Dick bill several years ago the national government has financed the spring maneuvers, so that not a minute of the time in camp will be lost.

"The government is paying a good deal more attention to the militia now than in the past," declared Col. Resche, "and we are endeavoring to make the encampment work as practical as possible. It will include many maneuvers that cannot be executed at home and will be a busy week for all of us."

"This work is very important, and we are making a special effort to have the entire quota of men report for the trip, if possible. Many employers do not realize the true nature of an encampment and because of this have not co-operated in seeing to it that their employees are allowed to go."

Governor Hammond will review the regiment on June 22, the day before the men break camp, and Gen. A. W. Wright of Austin, Minn., brigade commander, will make several inspections, it is thought.

A special train of thirteen coaches will take the Duluth and range companies to Lake City. Company M of Hibbing and P of Eveleth will arrive in Duluth Sunday afternoon in special cars.

The Duluth forces have been assigned to seven cars, one being allotted to Company A, one to Company C, and one to Company E. The non-commissioned officers will have a car, as will the hospital corps and the field staff. Two baggage cars accompany this detail.

Leaving Duluth at about 3 p. m. Sunday, the train will be joined by Company G at Princeton, Minn., and Company B at Ancker.

The second section of the special includes five coaches and two baggage cars, carrying Company K of Stillwater, I of Crookston, H of Olivia, D of Zumbrota, and L of Red Wing. Machine guns from Rochester also will be sent with this section.

Sewer Gas Explodes.

Residents in the neighborhood of First alley, between the railroad and avenues west, were startled by an explosion before daylight this morning. Sewer gas exploded in the alley and blew the cover of a manhole several feet in the air.

Police attracted to the scene discovered the cover lying near the hole, and further investigation revealed the fact that seven or eight windows had been broken in the taphouse shoe repair shop and the Wagner saloon.

LAWRENCE MAY GO FREE

Supreme Court Grants Two Harbors Man New Trial.

Decision May Make Prosecution of Other Indictments Useless.

David H. Lawrence, former probate judge of Lake county and a practicing attorney of Two Harbors, who was convicted in December, 1913, on one of several counts charging him with embezzlement, will probably go free as a result of a decision which was handed down by the Minnesota supreme court today.

The high tribunal reversed the Lake county court, which had made an order denying Lawrence a new trial after the jury had found him guilty. The principle of law upon which the conviction was overturned is said to be one which will make the prosecution of the defendant on similar indictments useless.

While it is not known what disposition the Lake county prosecutor will make of the other indictments against the former county official, it is believed that they will be dismissed on the ground that the evidence obtainable is not sufficient to warrant a conviction.

The particular indictment under which Lawrence was tried and convicted charged that on May 1, 1909, at the city of Two Harbors, he, acting as agent of one Colla Barrett, had in his possession the sum of \$500 in money, belonging to her and that he appropriated the same to his own use.

After the jury had found him guilty, J. R. Richards of this city, defendant's attorney, moved for an order of acquittal and discharge, and, in case that should be denied, for an order setting aside the verdict and granting a new trial. Both motions were denied and an appeal was taken to the supreme court.

The higher court states this principle of law as applied to the Lawrence case: "Where an indictment charges that the defendant was the agent of B, and as such agent had money in his possession, belonging to B which he feloniously appropriated to his own use, it is incumbent upon the prosecution to prove that he was such agent and that the money was the property of the principal."

"Authority on the part of the defendant to receive payment of the principal of a loan secured by notes or mortgage which were not in defendant's possession, cannot be inferred from the fact that the loan was originally made through him and that he had transmitted payments of interest to the mortgagee as they became due."

BURNED WHEN MIXING LYE.

Domestic Is Rushed to Hospital for Medical Treatment.

While making a mixture of lye, Tilda Carlson, a domestic at the home of H. W. Brown, 1714 East First street, caused the substance to shoot up in her face, burning her severely.

The young woman was immediately rushed to St. Luke's hospital, where Police Surgeon Klein attended to her burns. Her condition is not serious.

Little Princess Helps Keep Holland a Neutral Power

PRINCESS JULIANA.

This photograph of Princess Juliana, the heir to the throne of Holland, was made recently. The little princess is now just 6 years old, and she is a healthy child who resembles to live to inherit the throne of Queen Wilhelmina of which she is the sole direct heir. It is largely to preserve the heritage of the little princess that the Holland government has labored to maintain a strict neutrality.

THOUSANDS OF HORSES LOOSE

Five Thousand Belonging to Allies Stampede at Alton, Ill.

Steeds Bought for War Use Frightened at Lightning.

Alton, Ill., June 11.—Five thousand horses belonging to the British and French armies broke from a stockade at East Alton last night and overran the surrounding country.

The horses had been bought by the British and French governments, and were held in the stockade awaiting shipment to Europe.

They became frightened during an electrical storm and broke down the stout timbers and barb wire of the enclosure. The horses overran the towns of East Alton, Benbow City and Wood River and caused much damage.

They delayed two passenger trains, one the Chicago bound midnight train of the Chicago & Alton and the other a Chicago & Eastern Illinois train due at St. Louis.

The headline of the Alton train showed the horses on the right-of-way. Members of the train crew opened fire with revolvers, killing two. The other horses, frightened by the shooting, ran.

For the rest of the night, the horses galloped over the surrounding country, trampling down fences and lawns and knocking down fences and young trees.

An automobile party of five bound from East Alton to Wood River, met a drove of the stampeding horses, and a horse kicked one of the party, Henry Wuestenfeldt, and broke three of his ribs.

When dawn came, French and British army officers who had been in St. Louis buying horses, and stablemen from the national stock yards began a roundup.

GRAIN MANAGERS IN CONVENTION

Heads of Farmers' Co-operative Companies Meet in Minneapolis.

Minneapolis, Minn., June 11.—(Special to The Herald.)—With addresses by three representatives of the United States government and other well-known authorities on the handling of grain, as a part of the program and with a prospective attendance of 700 or more delegates, the National Association of Managers of Farmers' Co-operative Companies opened the annual three days' session in the assembly room of the Minneapolis city hall this morning.

The association comprises the managers of the country elevators which are owned by the farmers and run on the co-operative principle throughout the entire winter and spring wheat region of the Mississippi valley and the Northwest.

The morning session was devoted to appointment of committees and reports of officers. Feature of the program this afternoon were addresses by Mayor W. G. Nye, John C. McHugh, secretary of the Minneapolis chamber of com-

merce, Attorney Neil M. Cronin of Minneapolis, C. J. Reed, Oxford, Mich., Maj. J. S. Murphy of the Soo line, and discussion led by Nils R. Trackland of Drayton, N. D.

OVER 2,000 KILLED.

French and British Losses on Dardanelles Are Heavy.

Berlin, June 11.—A dispatch received here today by wireless telegraph from Constantinople reports that the fighting at Asi Burnn on the Gallipoli peninsula during the night of June 5-6 cost the French and British forces more than 2,000 men killed. The losses of the Franco-British expedition all last week, the message adds, were enormous.

BISHOP MCGOLRICK SPEAKS AT CLOQUET

Cloquet, Minn., June 11.—(Special to The Herald.)—A successful entertainment was given Tuesday evening at the graduating exercises of the Sacred Heart school. Practically all of the numbers were given by the smaller children and were carried out in an exceptional manner, the drills and exercises being especially picturesque. Several one-act plays were given in which all acquired themselves most creditably. The commencement address was given by Rt. Rev. Bishop McGolrick of Duluth after the presentation of the diplomas.

VICE PRESIDENT HAS PRAISE FOR U. S. NOTE

Indianapolis, Ind., June 11.—"I have read with a very great deal of pleasure and satisfaction today the official communication to the German government," said Vice President Marshall, "and I am sure that there shall be found among many large number of men in America who do not fully approve of its tone and contents. The president is meeting conditions and no difference of opinion may desire arbitration and universal peace, conditions are not changed by such desires. He speaks the voice of our common humanity. And I shall be greatly disappointed if the German government does not coincide with his views."

Rain Helps Crops.

Warren, Minn., June 11.—(Special to The Herald.)—A slow drizzling rain fell throughout the county yesterday morning. This, with the several other showers that have fallen in this part of the valley, will supply the ground with sufficient moisture for some time, making conditions for a big crop excellent.

THE CARELESS MAN.

"Chinese Fun and Philosophy," in the St. Nicholas. "There was a man who was careless and unobservant. Once, when he was going abroad, he hastily pulled on his shoes and bound the scarf about his legs, ready to hasten away, when, to his surprise, he found that one of his legs had suddenly become longer than the other."

"He was both puzzled and frightened; for he said to himself, 'What can be the matter? When I last walked, my legs were the same length. How queer it is! I have met with no accident, nor has anyone cut a piece from my foot palm.'"

"He felt his legs and then his feet to solve the mystery. At last he discovered the mistake to be in his shoes, for he had put on one shoe with a thick sole and one with a thin sole."

"These shoes are odd ones and not a pair," said he, so he called loudly for his servant and ordered him quickly to change his boots."

"The servant went into the room to bring the master's boots, but after a little time came back with a much puzzled expression on his face. His master sternly demanded the boots for which he had sent him, but received for his answer:—

"Dear master, it is very strange, but there is no use for me to change your boots, for when I examined the pair of boots in the room I found that they are just like the pair you have on, for one has a thick sole and the other a thin sole."

A Word to Newlyweds

And Getting the Most for Your Money

To practice economy when buying furniture, etc., does not indicate stinginess. Instead it develops a habit that adds much to the buying power of a dollar.

Young people, especially, who begin to practice economy upon the threshold of their married life will have more comfort and happiness than those who are strangers to this quality.

Many experienced young people imagine that to practice economy when buying their home furnishings, they must haggle over price with the salesman in order to get the best figures.

This is no doubt true in some stores, but not in all, and especially not necessary here.

To practice real economy is to make certain of the store which sells at the lowest prices (quality considered, remember).

We believe that no store in this city sells home furnishings for less than we do, and want everyone to make careful comparisons of prices, quality and terms, and we feel confident that your order will be placed with us.

SECRETARY OF STATE TO PUT REVOLVING FUND AMENDMENT IN FIRST PLACE ON BALLOT

(Continued from page 1.)

that ten acres be cleared except stumps and seeded to grass.

Recommended the standardization of types and varieties of potatoes as outlined by the Minnesota Potato Growers' association and the Minnesota Crop Improvement association.

Manufacture of dynamite.

Favored the manufacture of dynamite by the state, but is against having the hazardous work done by convict labor.

Recommended that taxes shall not be increased on land being put under cultivation until at least 25 per cent of each parcel, not to exceed forty acres, shall be so cultivated.

Indorsed the work of the state agricultural extension department and of county agricultural societies and recommended an increase of appropriations by the next legislature.

Indorsed the state immigration department and its work and urged co-operation with it.

Urged that the state investment board use its funds to purchase the \$5,500,000 foreign state bonds into cash and reloan these funds for the reclamation of old state swamp lands under the provision of the Federal grants, and that the state board follow as nearly as possible the wishes and mandate of the laws of 1887 and 1897.

Encouraged the state to encourage drainage, road and reclamation work at a 3 per cent rate set by the 1907 legislature.

Agricultural school.

A recommendation also made that the next legislature pass a measure establishing an agricultural school in Northern Minnesota in connection with the experiment station at Grand Rapids.

The citizens of Coleraine were thanked for their hospitality, the efforts of the association for services rendered and the newspapers for their activities in advancing the cause of Northern Minnesota.

House Day.

This is the summer day of the semi-annual meeting of the Northern Minnesota Development association at Coleraine, for besides the arrival of practically every delegate to the business of the association, the legislative special pulled in hours ahead of the time it was originally booked for.

Governor Hammond arrived shortly before noon and every address on the program was given.

This afternoon Governor Hammond spoke on "Minnesota Development," at John Noonan of Waseca spoke on "Co-operation," in which he urged co-operative action between the Northern Minnesota Development association and the Western Association.

C. R. Middleton of Bemidji, in December, and that ended the business feature of the meetings. An elaborate entertainment has been prepared for this evening.

Address by McGarry.

Senator P. H. McGarry of Walker was called upon to speak on "The Legislature of 1915 and Northern Minnesota."

He said, in part:

"I believe it is fitting to connect the business of the association with Northern Minnesota, for I believe I can truthfully state no measure of merit for the good upbuilding or developing of this northern part of the state was opposed to any extent by the legislature which just passed into history."

Of course, there are many things that perhaps a great many would like to have explained. For instance, how a measure so important to the development of the northern part of the state as the Elwell land should fall and another measure which appears to many so without merit as the frog bill should pass.

"This, however, I will refer to several measures passed for the benefit of Northern Minnesota, which I have touched upon in my experiences in the early days of this section of the state, saying:

Conditions Have Changed.

"Thank indeed was the future of Northern Minnesota those days, and very dark indeed for those who proposed to make this a home. But things have changed, conditions have changed and the wise ones have changed their opinion of the section of the state. Duluth has surpassed the fondest expectations of its future loyal boosters, with promise now of becoming the Chicago of the Northwest."

"The great Mesaba range has proven the wonder of the world in iron ore industry. I will not take your time to go into a detailed statement of the wonderful ore productions of this great iron producing range, but will simply state that this range in 1914 produced over 45 per cent of the total ore shipped from the great mines of this country. The development of the iron ore industry has created a wonderful market for all the products of this state of every kind and nature, and has developed a market to the very door of every farmer, thus giving them the protection of freight rates, which must be added to the cost of goods shipped

SENATOR P. H. MCGARRY
Of Walker.

to this country, while the towns which naturally spring up become a great factor in producing taxes. St. Louis county today pays nearly 33 per cent of the entire taxes of the state, and this county, Itasca county, is one-fourth in assessed valuation, but we are not depending on iron ore alone in this country for the state's holdings of timber. In Northern Minnesota are something over 200,000,000 feet, to say nothing of the private timber holdings.

Manufacturing and Farming.

"Our manufacturing has really only begun. You have been shown the immense steel plant of Duluth with its wonderful possibilities, why to the north, in fact on the very boundary line between Minnesota and Canada, are located the greatest paper and pulp mills in the world. Our water power is again, I say, we are not depending on iron ore alone in this country for the state's holdings of timber. In Northern Minnesota are something over 200,000,000 feet, to say nothing of the private timber holdings."

What the State Done.

"Could nature do more than she has for the great country. And yet what has this great state done to aid in the development of this great region. The answer is nothing. The state of Minnesota has reserved all its mineral, forest and water resources, and has disposed of all its timber and offers to the settler a very meager chance to make a home and a living without one element of hope in the future."

Again, I ask you, what has this great state done to aid the farmer, and I can think of nothing except in a small way assisting in drainage in Northern Minnesota, and in that connection every dollar spent by the state has been returned ten-fold in the increasing price the state land sold for. In fact, the state has lost to foreign states at a very low rate of interest while this great country is being developed for want of money."

We of the north, ask for no donation, but we ask this great state, with its millions of unused money, to invest in this country as a man with small means may have a chance to make a home for himself and family and have something to sell besides his poorly paid day's labor."

The senator closed with a reference to the \$250,000 revolving fund amendment to be submitted at the next election, and suggested that this position of the fund should be used to improve about five acres on every forty-acre tract of land improved, plus \$1 or \$2 per acre and sell it to the farmer or homesteader on long, time and easy payments. When sold, credit this back to the fund, and the fund will be used on each forty-acre tract until the whole 2,500,000 acres of undeveloped state land is improved in this slight manner. He figured this would add 50,000 prospective farmers to the state and would make the state prosper as never before."

Colonization.

B. F. Faast of Eau Claire, Wis., gave one of the most interesting addresses to the convention. He is in charge of the colonization work of Wisconsin, and his subject dealt with methods which he had found best to pursue in that work. He said, in part:

"Colonization, as it has been practiced in the past, is in the very infancy of its development. Most of the past settlement throughout this northern region is the result of unorganized methods. Large percentages of the land sales has not been the result of colonization, but rather the result of individual or scattered land selling efforts. This is largely due to the fact that no large areas of cutover timber lands were opened for settlement purposes at one time. The lumber companies gradually released their land for sale in small tracts as they finished cutting the timber. Land companies and local real estate men sold this land in small acreage, here and there, to actual settlers or to speculators."

The legislature and state officials, laboring men and business and professional men began to realize that the development of the undeveloped lands and the building of cities and the development of a new type of citizenship was a problem worthy of attention of the highest order. These settlements of new farmers result in the growth of villages, this adds to the community and the north and still further increases the purchasing power of the community. These small villages buy their supplies from the larger cities, and I do not say the cities of Duluth, St. Paul and Minneapolis sell millions of dollars worth of goods each year, which ultimately are used by the new settlers in the upper counties of Minnesota and Wisconsin."

Five thousand New Families.

"From the standpoint of the state, this increased wealth is increasing the assessed valuation, which results in the increased tax paid by the state. In the state of Wisconsin, statistics show that approximately 5,000 new families are being cleared and put under the plow each year. This means that 5,000 acres of new land are being brought from the non-productive state into the productive state. Add to this the 5,000 new families with their new homes, their new improvements, their new increased producing and purchasing power to that community and state."

"I want to urge the colonization plan of settlement as against scattered individual methods wherever and whenever possible. I believe in the value of taking into consideration the different related interests and building up an organization just as has every other large and successful line of business. Colonization work is a problem and requires just as much of a thorough organization as does manufacturing, the wholesaling or retail business."

Mr. Faast then outlined the Wisconsin colonization plan which has been proved so successful. He added, "Where there are no colonization efforts, the villages and cities are located in a community, the civic or commercial center, the village and cities in that locality can do much of the work outlined above. Special committees should be appointed to give special attention to assisting colonization and development within the county. In conclusion, he should study the relationship between rural and urban development. To the pioneer in any line of endeavor, who will take advantage of the opportunities that are offered by the development of Northern Minnesota and Wisconsin, there are as great openings, if not greater, than in any other country's development. And what is the development of these undeveloped sections gives a great and lasting service to the community, to the state, and the nation."

More Delegates Arrive.

At yesterday afternoon's session the program took on a more lively aspect. The failure of many to attend the morning session of the association was the result of the fact that many delegates failing to realize the time it took to reach the northern part of the state. However, yesterday afternoon saw the delegates arriving in large numbers, and last night about all who were lacking to bring the association to the north, were the legislators who arrived today."

The association had prepared itself well for the entertainment of the visitors. The banquet men of the city have practically given up all pretense of being a host, and have given up their whole time to the entertainment of those from the south. The association, consequently, has had a very successful and enjoyable time. If the semi-annual session of the association, which is being held at Bemidji, is a success, the people of the north will be well served. The people of the north part of the state did not have just apportionment of its legislative districts which would give it representation to which its size, population and resources entitled it and which the constitution intended should be enjoyed by all.

The growing interest of our people of Northern Minnesota," said Mr. Faast, "is the result of the fact that the present association at Bemidji on Feb. 18, 1910, composed of delegates of thirty counties of the northern part of the state determined and united fight for a just, fair and equal reapportionment of the legislative districts of the state. In such a manner as to give all parts of the state as nearly as possible an equal representation, and not to discriminate in favor of certain districts at the expense of others. The committee to be based on population alone."

The mayor declared that many propositions of the greatest importance, not only to Northern Minnesota, but to the whole state, have been initiated and supported by this administration, and he added: "So eminently fair have these propositions been that the legislature at each session has been compelled to give them their respectful attention. In this association, become laws upon our statute books, among the most beneficial and important to the people that have ever been passed."

Credit to Association.

He gave credit to the association for the following:

Reapportionment and the resultant fairer representation for this part of the state.

The beginning of a state-wide agitation for the building of good roads. Submission to the people a second time of a proposed constitutional amendment providing for the revolving fund of \$250,000 to be used in the construction of roads, ditches, and firebreaks on state lands. "One of the most splendid achievements," he said, "that this association has to its credit."

Concerning this matter, the mayor added:

"The association should now give this proposed amendment wide publicity, so that it may be fully understood by the people at the next election. A thorough understanding of its purpose and its certain inestimable

value which he had found best to pursue in that work. He said, in part:

Luxon-D'Arcy.

Miss Mildred Luxon and James Gerard D'Arcy of St. Paul were married last night at the home of the bride's parents, Mr. and Mrs. George Luxon, 1607 Woodland avenue, by John W. Hoffman, minister of the First Methodist church. Miss Ruth Luxon, sister of the bride, was the bridesmaid and Alfred D'Arcy of St. Paul, brother of the groom, was the best man. Little Elizabeth Gibbs of Edmondson, Alta, was the ring bearer. Mrs. Donna Kiblette Flanagan sang before the ceremony and Mrs. Franklin Bartlett, a sister of the bride played the Mendelssohn wedding march. The bride's gown was of ivory satin made with a train and combined with lace and pearls. The bridesmaid was dressed in pink and carried the ring in a basket of roses. Lilies were arranged about the rooms and the ceremony took place under a canopy of lilies in the parlor. A reception followed the ceremony. Peggy Peabody's Observations

A Wife Should Rule the House.

"The wife should rule the home," declares a prominent New York Judge, in giving his decision on a case before him. Continuing, he states: "Man has not the real ability to rule. Woman has. She is man's master. All down the ages man has flattered himself that he is the lord of the creation. He has never been. Woman is, always was, and always will be the ruler of men."

I do not feel quite so certain that woman is man's master. But I do agree that woman should rule the home, and that she has the inherited ability to do so, not usually possessed by men.

When you find a home that is sort of run down at the heels, so to speak, you will either find that the woman is ignorant of housekeeping duties or that the man of the family keeps the purse strings drawn tight and insists upon being both provider and master in his own house. The man who does this as a rule finds that he has either run into debt or else his

family is not getting the real necessities of life.

The most successful men financially, and in every way too, are those who give their good wives a fair share of the credit, which is richly deserved in most cases. How often do you read that such a man saved his first fortune, with the help of his wife? He trusted her and gave her his money to save. It was her management, careful planning and constant alertness that made the bringing up of their family of children, on the means at hand for several years, at all possible.

How many times I have heard women with small families growing up about them express the wish that they could have a little money to spend as they wished without having to give a strict accounting to their husbands. There are so many things they could buy at odd times at a great saving.

The average woman with a family of children makes a better dispenser of the family money than a man. He sums, but he is not to be compared with the mother of several children, when it comes to making it over the hundreds of small needs which have to be reckoned with in a large family. If a man wanted to make a run on a sane basis he will find that it will pay to let his wife rule the house.

Margaret Olsen accompanied the choir, and will play the great pipe organ in the Minneapolis auditorium at the special jubilee service Sunday.

Harry L. Altman, who was graduated yesterday from the University of Minnesota, has returned to Duluth to spend the summer with his parents, Mr. and Mrs. S. Altman 60730 East Third street.

Dictionary of Cooking Terms.

New York Times: Many cooks read in their cook books and many others, who do not cook, read in the menu cards of the various restaurants they patronize different terms, which explain the way the food they are cooking is to be prepared, or the way the food they are about to order has been prepared, but oftentimes they have only a vague idea of what the terms mean. Here is an explanation of some of them and the wise cook will clip this little cook book dictionary from the paper and paste it in her cook book.

TONIGHT'S ATTRACTIONS.

LYCEUM—Baldwin Players in "Bought and Paid For."

GRAND—Vaudeville and Motion Pictures.

REX—Photoplay, "Stolen Goods."

Theater Gossip.

For two weeks, beginning Sunday afternoon, the Baldwin Players will offer new plays never before in Duluth.

PLAYS NEW TO DULUTH. Opening Sunday afternoon they will be seen in "The Ghost Breaker," a combination of romantic comedy and melodrama. It was presented in New York by a company headed by H. B. Warner, and had a short road tour after a successful engagement in the metropolis.

It was released to stock companies only a few months ago. Just before coming to Duluth, Harry L. Minn, the leading man of the Baldwin Players, appeared in the leading role with a Denver stock company, and he has been assisting William Mortimer in rehearsing the play this week, being familiar with the lines and the "business" for the following week "Help Wanted" will be the attraction.

Neither play was originally planned in Duluth. It was originally planned to offer the Yellow Ticket, as it was not thought the manuscript of "Help Wanted" could be secured in time for the opening of the season.

Three more performances of "Bought and Paid For" will be given, this evening, and tomorrow afternoon and evening. It is generally conceded by Baldwin patrons to be the best production yet seen in Duluth.

There were a number of attractive features in the new show at the Grand theater yesterday. The Japanese Family in the Young Namba pastimes and athletic turns headlines the bill, and their clever work was enjoyed in a degree uncommon to most turns of this kind.

Pearl Davenport, musical comedy star, entertained with a number of popular songs and were several hand-some gowns.

Miss Davenport has a pleasing manner and good personality, and she became a "craze" with the brightest feature of the act of Hank Johnson and Dixie Crane, who were well received when he was assisted by Miss Crane.

Kumby, Bush and Robinson have a novel act entitled "Fun in a Music Hall." There is a lot of good comedy in this.

"The Awakening," a feature film starring Earl Williams and Anita Stewart, is one of the best photoplays seen at the Grand in a long time.

"Hazard of Helen" series. The Hearst News Pictorial shows many interesting news events, and there are several other comedy films.

Today and tomorrow a Jesse L. Lasky production, "Stolen Goods," with beautiful effects, will be shown.

ART IN ATCHISON. Atchison (Kan.) Globe: In a town the size of Atchison it is not necessary to join an art study class to learn the history of art. It is written on the walls of the houses in the town.

Crossing the Delaware hangs on the wall and a chronicle of a woman with a shawl over her head stares over her left shoulder as though she were making a wish on the new moon, the house is ruled from kitchen to parlor by "mother" and she is between 60 and 70 years of age and believes in the "old masters."

When madonnas holding fat babies are on the parlor walls and highly thin women in red robes looking bright yellow horns, which they hold to their mouths with wooden fingers, the lady of the house adores sacred art and knows how to pronounce Fra Angelico, Rondonhouse, Raphael and the rest.

When there is a picture on the wall of a motherly looking woman, while the child look on visitors at the house recognize the art that was born during the Chicago world's fair, and when "Breaking Home Ties" came the rage. A little later period in the art history of the town is represented by pictures on the parlor walls of a fine, healthy looking young man wearing a monk's habit, with the cowl slipping off from his thick hair. "People posted on 'art' know that is a picture of Hoses. When there are pen-and-ink sketches of square-jawed very low-neck evening dresses the rage of Gibson pictures (now about extinct) is represented.

When there are water-color pictures of girls with pink cheeks, lips puckered up as though ready to be kissed, and colored pictures of a chubby little heart is protected with a fender, the neighbor where such safeguards is not provided, and that visit may prove the fatal one.

CRIPPLED BOY GETS NOTHING

Father Accepted \$600 for Loss of Child's Legs.

Supreme Court Upholds Settlement Made Thirteen Years Ago.

Although nearly thirteen years have elapsed since John Hannula, a school boy of 5, was crushed under the wheels of a Duluth & Iron Range Railroad locomotive at Embarras station and lost both of his legs, it was not until today that he learned that the act of his father in accepting \$600 from a claim agent in settlement for his injured son, was upheld by the supreme court today. The Minnesota supreme court today handed down a decision which affirms the order of Judge Bert Fessler denying the cripple a new trial of the action after a jury had decided it adversely to his interests. The young man, now 18, brought suit by his guardian, Erick Johanson, a year ago to recover \$300,000 from the company for the injuries in question. The jury returned a verdict in favor of the railroad company. The young man testified at the trial that he and his brothers and sisters were accustomed to play around a locomotive which stopped daily at Embarras station, located about eighty rods from the schoolhouse. During recess on the noon of Nov. 14, 1902, John and other children were climbing on and off the engine. It suddenly started and the youngster fell under the wheels. He lost both legs.

The company urged two defenses. One was that the claim had been outlawed by the statute of limitations and the other was that the claim had been settled by the boy's father on Feb. 6, 1903. The claim agent testified that the tender was made gratuitously and even after he had been advised that the company was in no way legally liable for the accident.

The supreme court in affirming the trial court's order, held that the evidence was such as to justify a verdict that the defendant was not negligent, and that a release made by the plaintiff's father, was fairly and understandingly made. The higher court also held that the lower court did not err in submitting to the jury the question whether the plaintiff, injured when he was five years and three and one-half months old, was guilty of contributory negligence.

The opinion in the case was written by Commissioner Dibble, formerly of the district court of this county.

MINOT WILL HAVE CHURCH CONVENTION

Minot, N. D., June 11.—(Special to The Herald.)—The North Dakota Christian church convention will be held here June 13 to 20.

Dean Alfred M. Haggard of Drake university, A. F. Haverstick of St. Louis, E. W. Thornton of Cincinnati, and Casper C. Carigous of St. Louis are

among out of state speakers who have been secured.

SUPERIOR PROTEST PLAN OF CITY.

Carpenters Object to Purchase of Theaters for an Auditorium.

A protest was filed today with the city clerk by the Carpenters' union against the city purchasing either of the two theaters offered for a municipal auditorium. The complaint alleges that the people voted that the city build and also that it would remove the purchased building from the city tax roll. The complaint directs attention to the fact that one of the buildings has caught fire three different times and a great many repairs would have to be made before it could be used for an auditorium. The committee that filed the complaint, consists of G. A. Hunter, A. W. Anderson and J. H. Hatch.

JAILED FOR SHOOTING DEER. Settler Refuses to Pay Fine; Family Left in Need.

Although offered an opportunity of paying a fine of \$25 and costs at any time within the next six months, Edward Bravig, 32, a farmer living near Solon Springs, chose rather to spend sixty days in the county jail than to pay the fine for shooting a doe and buck out of season and recently was arrested by Deputy Game Warden Bert Shaver. Bravig has a wife and several small children who are said to be in straitened circumstances.

Second Abatement Suit.

The second abatement action started by the district attorney's office was commenced in district court yesterday. The action is against the property at 1314, 1318 and 1318 1/2 Third street, owned by Thomas Cameron. It is alleged that these buildings were used as a house of ill-fame. The proceedings were started under the Lindley abatement law, and if charges are proved the building may be closed for a year.

Will Build Exchange.

The Superior Telephone company will begin the construction of its new central exchange next week at 1417 John avenue. The building will be ready in the fall. It will cost about \$25,000. The structure will be large enough to provide for the growth of the business under normal circumstances for the next twenty-five years.

HOW MUCH SHOULD ONE HORSE EAT?

Jury Must Decide Problem Brought Up in Damage Suit.

What constitutes an over-dose of corn and oats for a healthy and robust working horse?

This is the question with which a jury in Judge Dancer's division of the district court is concerning itself today in connection with the trial of a lawsuit brought by Louis Nordi against Esa Salo, both Brimson settlers.

Salo rented a span of horses from Nordi during the last logging season. On Feb. 27, 1915, one of the horses

died. Nordi claims that Salo is at fault because he permitted the animal to be fed with an excessive amount of mixed corn and oats.

Nordi values the animal at \$400 and asks judgment for that amount. Salo denies that he was in any way responsible for the horse's death and asks that the case against him be dismissed.

Farmers' Club Picnic.

Warren, Minn., June 11.—(Special to The Herald.)—The Boxville Farmers' club will give its annual picnic next Tuesday and has invited the business men of Warren to be present at the event. Several prominent speakers have been secured and the Warren band will furnish music for the occasion.

The bank is to be owned and controlled by the farmers. The president is Matt Bullis of Sandstone, vice president, W. E. Hogan, Kerrick, and cashier, A. W. Warren of Hinckley. The institution is capitalized at \$25,000.

"Count" Is Divorced; Then Shot; Now Turned Down By Fiancee

FAYETTE PERRY.

Some time ago it was reported that Mourik de Beaufort, a young man who called himself a count and under that title married a Chicago girl, had been killed at the front. His wife divorced him on account of cruelty some time ago. Now word comes from London that the young man is living there in comfort, and that he will return to New York soon to marry Fayette Perry, one of New York's prettiest young actresses. Fayette admits that she was engaged to Mourik, and says she has received letters from him saying that he was shot at Nieuport but was not seriously hurt. She has made up her mind, however, that she does not love him as much as she did, and she says she will not marry him after all.

ENGINEERS TO MEET HERE

State Societies Will Hold Joint Sessions for Two Days.

A special train, which will arrive in Duluth early this evening from St. Paul, will bring to Duluth for a two days' convention members of the Minnesota branches of the American Institute of Electrical Engineers and the American Society of Mechanical Engineers. Joint sessions of the two societies will be held.

The visitors will be escorted to the Commercial club, where W. N. Ryerson of the Great Northern Power company of this city will, this evening, deliver an illustrated lecture on the company's plant at Thomson, J. H. Hearing of the Oliver Iron Mining company will speak on "The Iron Ore Industry of Minnesota."

Tomorrow morning the engineers will make trips to the coal and ore docks at the Head of the Lakes. This will be followed by a luncheon at the Spirit Lake branch of the hotel club, after which a visit to the steel plant will be made. The host for the trip will be furnished by the Commercial club.

The women of the party will be entertained at the Lyceum theater during the program. The bill repelling aid at the Commercial club at 6:30 o'clock tomorrow evening will bring the session to a close.

Cate, associate professor of obstetrics in the University of Minnesota Medical school, and a lecturer on the subject in the school for more than thirty years, died June 7, at his country place on Clearwater lake, Minn. His health had been failing for the past two years. He was 61 years old.

James Pillsbury, a former lumber king of this city, died June 10, at a hospital, after three days' illness from pneumonia. Mr. Pillsbury was born in Massachusetts 28 years ago and is survived by his wife and one daughter.

Albert Hemmaway Michelson, the American consul at Cologne, died June 10, at a hospital, after three days' illness from pneumonia. Mr. Michelson was recently transferred from Hanover to Cologne. For several months he had been engaged in visiting sol-

ANOTHER LOT OF GOLD COMES FROM CANADA

New York, June 11.—Another installment of gold, amounting to \$5,000,000, was received at the sub-treasury today from Ottawa for account of J. P. Morgan & Co.

This makes a total of \$30,000,000 received from Canada by special arrangement between Morgan & Co. and London bankers during the past three weeks. The arrangement is designed to stabilize exchange rates between this center and London which recently fell to the lowest quotation in many years.

ENGINEERS TO MEET HERE

State Societies Will Hold Joint Sessions for Two Days.

A special train, which will arrive in Duluth early this evening from St. Paul, will bring to Duluth for a two days' convention members of the Minnesota branches of the American Institute of Electrical Engineers and the American Society of Mechanical Engineers. Joint sessions of the two societies will be held.

The visitors will be escorted to the Commercial club, where W. N. Ryerson of the Great Northern Power company of this city will, this evening, deliver an illustrated lecture on the company's plant at Thomson, J. H. Hearing of the Oliver Iron Mining company will speak on "The Iron Ore Industry of Minnesota."

Tomorrow morning the engineers will make trips to the coal and ore docks at the Head of the Lakes. This will be followed by a luncheon at the Spirit Lake branch of the hotel club, after which a visit to the steel plant will be made. The host for the trip will be furnished by the Commercial club.

The women of the party will be entertained at the Lyceum theater during the program. The bill repelling aid at the Commercial club at 6:30 o'clock tomorrow evening will bring the session to a close.

NOISELESS STREET CAR WHEEL.

Popular Mechanics: Elimination of
the greater part of the noise that now
accompanies the operation of street
cars and elevated and subway trains
is a prospect of the immediate future
as the result of a new noiseless wheel.
A street car equipped with wheels of
this kind and recently subjected to test
runs at Portland, Me., is reported to
have run as noiselessly as an automobile.
The wheel is made of two sections,
and is in effect a wheel within

a wheel. The inner section is fixed to
the axle while the outer section takes
the bearing on the track. Between the
two sections is a cushion of rubber of
special composition which absorbs the
vibrations caused by the grind of the
tire on the rail and by irregularities
in the track, and it is this that gives
the wheel its noiseless qualities.

TAKE TOWN BY REQUEST

Serbian Troops Occupy
the Albanian Town of
Elbassan.

Now Marching in Direction
of the Adriatic
Coast.

Nish, Serbia, June 11, via London.—
Serbian troops have occupied strategic
positions in Albania. They entered
the Albanian town of Elbassan at the
request of the people, according to
Serbian government officials who say
the Albanians fear the Austrians and
the Turks.

London, June 11.—Serbian troops
are reported to have occupied the Al-
banian town of Elbassan, sixty-four
miles southeast of Scutari and are
said to be marching in the direction
of the Adriatic coast.

This information was contained in a
private message received at Berlin to-
day from Athens and telegraphed to
London by the correspondent at Cop-
penhagen of the Exchange Telegraph
company.

A dispatch from Rome to the Ex-
change Telegraph company says the
Serbians have occupied a town of
Albania, twelve miles southwest of
Griola, and are now marching on the
Albanian coast.

Albanian insurgents, the dispatch
says, have proclaimed a republic.

CRACKERS IN EMERGENCIES.

Los Angeles Times: For emergency
use there is nothing more helpful
than a supply of crackers of various
kinds. With a knowledge of how to
make them, these are the most valu-
able housewife is able to use them as a
substitute for dinner rolls to serve
with soup, or with the salad course
instead of breadsticks or cheese
straws.

They are also capable of
being transformed into dainty morsels
to serve with the sweet course at
the end of the dinner party. For
the afternoon tea-table.

One of the easiest and yet most un-
usual tricks to play with the ordinary
cracker is to serve it in a crisp, puffy
form, suggesting a delicate, light
bubble origin. For this purpose take
Boston crackers, which split readily in
halves.

Fill a shallow basin with ice water
and let the crackers halve in it three
cold bath for four or five minutes.
They will then be so water-soaked

FINE PIANOS AT SACRIFICE

Entire stock of pianos, player pianos, etc., of Kreidler
Music Co., 21 Lake avenue north, at one-third to one-
half off. Sale lasts but 10 more days. Instruments
marked at less than factory cost. People are coming from
all nearby towns to secure a bargain of a lifetime. Very
easy terms of \$1.00 to \$2.00 a week.

The news of the retirement of the Kreidler Music Co. has created
a great furor among piano buyers. Mr. Kreidler, one of the leading
piano dealers, has sold pianos to many of the best known people
in this vicinity.

The store at 21 Lake avenue north is well known to every resi-
dent of Duluth and they will be greatly missed in the business world.
Fine pianos and player pianos such as Mehlin & Sons, Hallet
& Davis, Conway, etc., a fair price and square dealing have made an
enviable reputation for the Kreidler Music Co. in the piano world,
and now that they have decided to retire, and causing the entire stock
to be closed out in 15 days, regardless of cost or former prices, it
means the bargain of a lifetime to the lucky purchaser. It means
that anyone can have a fine piano at once.

Jos. Callaway, acting for the manufacturers, has marked every
instrument at prices so low that every piano will be sold. But 10
days more are left to sell this stock and he feels that prices must
be cut very low.

Fine \$250 and \$350 uprights, \$177 to \$225, and a little higher for
more elaborate cases. \$5 to \$25 down; \$6 to \$10 a month.
In all woods and styles.

\$400 and \$450 uprights in mahogany, oak and fancy walnut, \$276
and \$325. Terms \$10 to \$25 down; \$7 to \$10 a month.
Piano players very cheap. Music free with each one.

Great bargains in second hand pianos. Get one of these for the
children.

Fine concert grand, used, but in good repair, to go very cheap.
All the stock is plainly marked, showing the regular price and
the Factory Representative's closing out price. No haggling. Just a
genuine reduction of one-half to one-third on entire stock.

Come as early in the day as possible.
Sale is positively limited. Remember this sale is positively
limited to 10 more days. There is no doubt but what every piano will
be sold. But at the end of that time any left unsold will be shipped
away. Everything will be wound up at once as the store must be
vacated.

The store will be open every evening until 9 o'clock and you can
make your selection as well then as any other time.
Come today while best selections remain. I shall be unable to
reserve any pianos unless a deposit is made.

Longbird Will Pass Summer in Spain

Answers: One morning a rather
naggy subordinate came into Col.
Goethals' office in the Canal zone.
"I got your letter, colonel," he be-
gan, "and I came to—"
He got no further, for the colonel,
with uplifted eyebrows, cut in:
"Letter? Letter? There must be
some mistake. I have written you no
letter!"

"Oh, yes, colonel," repeated the man.
"I've got it here. It's about the work
done at Miraflores, you see—"
Again the colonel cut in:
"Oh, I see! But you misled me. You
spoke of a letter. You mean, of
course, my orders!"

The colonel's blue eyes stared coldly
at the argumentative man, who,
suddenly feeling that the conversation
was at an end, faded away.

LUCEZIA BORI.

Lucrezia Bori, the prima donna of
the Metropolitan opera house is one
of the few great singers who have
braved the perils of war-torn Europe
this summer. Most of them will spend
their summer in this country. Miss
Bori, however, elected to sail on the
Duce Regil Abruzzi for Naples, whence
she expects to go to her home in
Spain. Mme. Bori created a craze
rules at the opera during the last win-

the leading sopranos of the world un-

DAME FATE HAS PLAYED ROLE IN SPORTING SHOW

Many Athletes Became Great By the Merest Whim of the Fickle Jade; Detroit, Boston and Chicago Look Dangerous in American League; Ball Parks Are Being Used for Vaudeville.

BY BRUCE.

W HAT says Miss Fate is not a confirmed humorist—a lady who laughs with roguish glances behind her fan? Roger Bresnahan became a catcher on a dare. Yes, Roger was dared into going behind the bat and today is not only one of the greatest backstops in the game, but also one of the greatest of managers.

Kid McCoy started boxing because it was feared he would die of consumption. Later McCoy became one of the greatest fighters of his weight in the world.

Frank Chance wanted to become a boxer. When only 18 years of age the man who became world famous as the manager of the Cubs was a corking good amateur heavyweight. One day Chance flipped a coin to determine whether he would box or play baseball. The flip of the coin decided Frank for baseball and instead of a possible mediocre heavyweight, the sporting world was given one of its greatest first basemen and one of its greatest characters.

Jim Corbett on the other hand wanted to become a professional baseball player. Joe Choynski figured largely in developing Corbett as the world's heavyweight champion. It was the rivalry between young Jim Corbett and young Joe Choynski, living in the same neighborhood, that turned Jim Corbett away from the diamond game and set his tottering steps on the slippery paths of pugilism.

By a sort of chance Corbett took to boxing in earnest, and then opportunity and his amazing speed made him the world's heavyweight champion.

Charley Comiskey's parents fought against his playing baseball. The parents even went so far as to interfere with Ted Sullivan in their desire to have Charley enter business. Sullivan put Comiskey off his team, but the natural love for the game and an unconquerable Irish determination combined to make the greatest first baseman of his time—perhaps the greatest of all time.

John L. Sullivan, strangely enough, like Jim Corbett desired to become a professional baseball player. All thoughts of entering the prize ring were strangers to Sullivan in his boyhood days. Fate pulled a cord and some bully appeared and crossed the path of the husky young Boston strong boy. Sullivan gave the bully, famed as a fighter, a terrible licking and then fate smiled in her enigmistic way and sat back and watched the making of the greatest champion of all time.

Barney Oldfield was rated only as a fair bicycle racer back in the glorious old class B days. A friend of Oldfield's broke an arm and asked Barney as a favor to drive him around in his car for a month or so. It would be mean to accuse Dame Fate of breaking the arm of this friend, but the master racing driver of the world grew out of that incident or accident.

Out in the Johnson Circuit. GILLEY MENNINGS is a persistent red-headed sort of a fellow who learned some of the rudiments of law while being jolted back and forth over cobblestones in a baseball bus when in the drab mad of oblivion. Jennings, as the younger generation of this country knows, is the manager of the Detroit Tigers. This looks like a great year for Detroit. Yes, Detroit, Boston and Chicago look like the contenders down to the sear and yellow leaf days of October.

Glance over the batting averages of the American league and you will speedily become convinced that the Yankees will not be serious contenders for the gonfalon. Detroit, in C. J. and Crawford alone, has enough concentrated hitting strength to make the club dangerous.

Boston is strong. The Red Sox have the greatest outfield in either league and a fine pitching staff. Old Man Comiskey has a brilliant performing club that is liable to show

streaks of form that make it unbeatable. The danger in the case of the White Sox, or least has been in the past, is that the club will break and slump badly.

The Very Fickle Fan.

EASTERN exchanges comment upon the fact that the Philadelphia Americans are playing before larger crowds at home this season than was the case a year ago. In the face of this statement where is the red-necked individual who will arise and declare that Connie Mack is obtuse? In the deepening fear of deafening applause Mr. Honus Wagner, well known down in Pennsylvania, refused to doff his hat as he walked to the dog house. When chided and like-wise gently spooned upon this refusal, the well known Teuton replied—"When you boot 'em you're a bum."

Going After the Coin.

CHICAGO papers of recent date carried an announcement of the fact that the Federal league baseball park of that city would be converted into a large hippodrome for night use. Thus will Owner Veeghman camp on the trail of the doughy dollar both day and night. Maybe he has been studying the autobiographies of some of our prominent millionaires.

Ebbett's field is being used for open-air boxing shows and Forbes field at Pittsburgh is being utilized for vaudeville purposes when the poetic shades of evening, of which Hank Longfellow was so fond of dwelling on, follow in the wake of old Sol's fading smile.

These are tough days for the baseball magnate, to be sure, but there seem other ways and means of trapping the dollar that is spurned in the mists and rapturously greeted by those who read the semi-annual reports and the society journals.

NATIONAL LEAGUE

Pittsburgh 2; Boston 1.

Pittsburgh, Pa., June 11.—Pittsburgh defeated Boston yesterday 2 to 1 in a game featured by good pitching by Harmon and Hughes. Collins threw to catch Marvelli at third in the fifth allowed Marvelli to score with Boston's only run. In the seventh Collins tripled and scored on Hinckman's single. Hinckman stole second and scored on a single by Viox. Score: Pittsburgh, 2; Boston, 1. B. H. E. Batters: Hughes, Crutcher, and Whaling; Harmon and Gibson.

Pitchers in Long Duel.

Cincinnati, Ohio, June 11.—Dale and Dell indulged in one of the prettiest pitcher's battles in the season here yesterday, and when darkness settled down at the end of the fourteenth inning Cincinnati and Brooklyn were tied, 2 to 2. Daubert made three hits in four times up and in the tenth was passed. Double plays were made several times for both teams. Molwitz was spied sliding for home in the eleventh

THE VETERAN UMP'S BACK IN THE GAME

HANK O'DAY.

After a strenuous season as manager of the Chicago Cubs, following upon his year as manager of the Cincinnati Reds, Hank O'Day is once more calling 'em when they are over. The dean of the umpires of the present day, Hank is one of the veterans of the game. The death of Sheridan and the passing of Tim Hurst left O'Day as one of the links between past and present baseball. Before becoming an umpire O'Day was a great pitcher of the early days of the game.

Inning and was forced to retire from the game. Score: R. H. E. Brooklyn, 00100001000000—2 10 1 Cincinnati, 00010001000000—2 9 1

St. Louis 13; New York 2. St. Louis, Mo., June 11.—St. Louis slugged Teague and Schupp for seven hits and won 13 to 2 here yesterday. Both teams hit frequently and pitchers were changed often. Scott, Boston's shortstop, who had felled without an error for more than a month, sprained an ankle in practice. Score: St. Louis, 13; New York, 2. B. H. E. St. Louis, 0000001100—13 2 3 New York, 0000000000—2 9 1

Batteries—Teague, Schupp and Smith; Hendell, Donk and Snyder and Gonzales.

AMERICAN LEAGUE

Boston Wins Hard Game.

Boston, June 11.—Boston won from Detroit 6 to 5 yesterday in a game which called on all reserve strength in each team. Both teams hit frequently and pitchers were changed often. Scott, Boston's shortstop, who had felled without an error for more than a month, sprained an ankle in practice. Score: Boston, 6; Detroit, 5. B. H. E. Boston, 001110200—6 11 2 Detroit, 000000000—5 11 2

Batteries—Dell and McCarty; Dale and McKee, Baker; Shore, Leonard, Wood and Thomas.

Washington 8; St. Louis 2.

Washington, June 11.—Washington defeated St. Louis again yesterday 8 to 2 here. The visitors won in the ninth by scoring two runs on Four-nies' pass, J. C. Schilling's and a sacrifice fly by Schilling and Boone's fungible on Blackburn. Score: Washington, 8; St. Louis, 2. B. H. E. Washington, 002210200—8 7 2 St. Louis, 000000000—2 9 1

Batteries—Hoch, Perryman and A. new; Johnson and Almsmith.

Chicago 5; New York 4.

New York, June 11.—Chicago made it two straight from New York yesterday, winning 5 to 4. The visitors won in the ninth by scoring two runs on Four-nies' pass, J. C. Schilling's and a sacrifice fly by Schilling and Boone's fungible on Blackburn. Score: Chicago, 5; New York, 4. B. H. E. Chicago, 000000002—5 7 1 New York, 000300001—4 7 1

Batteries—Scott and Schalk; Fisher and Sweeney.

Philadelphia 11; Cleveland 1.

Philadelphia, June 11.—Philadelphia knocked two Cleveland twirlers off the rubber yesterday and won 11 to 1 here. Score: Philadelphia, 11; Cleveland, 1. B. H. E. Philadelphia, 040010000—11 11 1 Cleveland, 000000000—1 6 2

Batteries—Hagerman, Walker, Jones and Egan; Wyckoff and Lapp.

AMATEUR LEAGUE

TEAMS TO PLAY

Games Scheduled at Athletic Park for Saturday and Sunday.

The Duluth-Edison and the F. A. Patrick team of the Duluth Amateur league are scheduled to meet tomorrow afternoon at 2 o'clock. Athletic park will be the scene of the activities.

Sunday at Athletic park there will be a double-header with the Moose team and Canadian Northern in the first half of the bill and the Moose and the Duluth street railway team in the second half. The first game Sunday is scheduled to begin at 2 o'clock and the second game at 3:30.

All of the teams of the Duluth Amateur league baseball league are believed to be in very good condition and both games should be fast and interesting.

DEFECTIVE PAGE

RAIN SPOILS MANY GAMES

Duluth Team Has Had Seven Postponed Contests to Date.

John Burmeister's Investment at Winnipeg Revives Old Rumor.

The postponement of yesterday's game at Fort William marks the seventh game that the Dooks have had cancelled so far this season. The schedule of the Northern League opened May 6. Some weather we are having.

Right at the start of the season three of the Winnipeg games were crabs by the downpour of heavy rain. There are two games with Fargo that will have to be played later in the season and the game that remains to be played here with Superior.

Old man Weather has this season to date been a prickly thorn in the quiver of the Duluth team. When it has actually rained it has either looked as if it meant to rain or it has looked as if it meant to rain.

For some time large John has possessed a severe itching to own a baseball club. It has been an obsession with the heavyweight.

John Burmeister is a man of many talents. He is both a magnate and a professional. He is also a baseball player. For some time large John has possessed a severe itching to own a baseball club.

Following this effort to get into the Northern league it is not surprising that the rumor that Burmeister was willing to invest in the Duluth team was kicked off by Kid Denial.

Now comes Burmeister and buys a team of the Duluth team, and fans of the league behold the peculiar situation of a baseball club being owned by one of the players.

All this revives the old story of some day Winnipeg will be in a larger league. Taking the map and spreading it across your knee, it is difficult to figure Winnipeg as a member of the American association; and yet, in the face of weary miles, there remains the fact that in normal times and with a decent baseball team, the Peg is about the hottest financial proposition in the way of a minor league baseball town that we have on this continent.

The jump from St. Paul or Minneapolis to Winnipeg could be made in a night. There have been cases where great jumps have been made in baseball circuits. Maybe there is a grain of truth in the old story.

At least one of two will see Winnipeg shaking the shackles of minor league baseball and free for the world to write and scribble blithely into a real league.

Money proposition—real money, aside from the sport of the layout—there is no future for the Northern league. It is at least not for some years to come. Winnipeg in the American association would be a different proposition. Winnipeg has grown with tremendous strides and still growing.

Western Canadian metropolis will possess a power it does not have at this time to arise and paint a rosy picture of the baseball future of Winnipeg.

AMERICAN ASS'N.

Hoosiers Get to Hall.

Indianapolis, Ind., June 11.—Overcoming an early lead, Indianapolis yesterday drove Charley Hall from the slab in the seventh inning and won 4 to 3 here. The visitors won in the ninth by scoring two runs on Four-nies' pass, J. C. Schilling's and a sacrifice fly by Schilling and Boone's fungible on Blackburn. Score: Indianapolis, 4; St. Paul, 3. B. H. E. Indianapolis, 000110001—4 11 1 St. Paul, 000000000—3 11 1

"Squeeze" Play Wins Game.

Cleveland, Ohio, June 11.—Third Baseman Evans of Cleveland used the squeeze play to advantage in the eleventh inning yesterday and sent the Sox home with the winning run. Evans' sacrifice hit gave Minneapolis all of its runs. Score: Cleveland, 3; Minneapolis, 2. B. H. E. Cleveland, 000000001—3 10 1 Minneapolis, 000202000—2 8 1

Batteries—Brenton and Devogt; Singling and Ghent.

Kansas City 6; Columbus 1.

Columbus, Ohio, June 11.—Harry Gardner, former St. Paul player, pitched and hit well yesterday in his first Kansas City performance. The team won from Columbus, 6 to 1. Gardner's triple in the second and Hinckman's triple in the second with two bases occupied. Score: Kansas City, 6; Columbus, 1. B. H. E. Kansas City, 220110000—6 10 1 Columbus, 000000000—1 4 2

Batteries—Gardner and Alexander; Young, Walker and Bran-nan; Hughes; Northrop and Crossin.

Louisville 5; Milwaukee 2.

Louisville, Ky., June 11.—Louisville drove Young from the mound by hitting him hard in the sixth and sixth inning and defeated Milwaukee, 5 to 2 here. Score: Louisville, 5; Milwaukee, 2. B. H. E. Louisville, 001110000—5 6 3 Milwaukee, 000000000—2 6 3

Batteries—Young, Walker and Bran-nan; Hughes; Northrop and Crossin.

FEDERAL LEAGUE

Split on Double-Header.

Brooklyn, N. Y., June 11.—Brooklyn and Newark divided yesterday's double-header, the visitors winning the first 2 to 1 and the home team the second 2 to 1. Heavy hitting, poor fielding and errors made the game a saw affair, five pitchers being used. Reulbach and Wilson had a pitchers' battle in the first game and both received fine support. With the score

tied, Cooper opened the last half of the ninth with a triple. Reulbach passed McGee and Kauff singled, sending home the winning run with nobody out. First game: R. H. E. Newark, 010401210—9 10 1 Brooklyn, 004003000—7 13 2

Batteries—Moseley, Whitehouse, Reulbach and Hariden; Marlon, Lafitte and Land, Pratt.

Second game: R. H. E. Newark, 001000000—1 6 0 Brooklyn, 000010100—2 6 0

Batteries—Reulbach and Hariden; Wilson and Land.

Each Take One Game.

Baltimore, June 11.—Baltimore and Buffalo split even in yesterday's double-header. The visitors took the opener, 6 to 3, while the home team came back strongly in the windup with a score of 13 to 6. First game: R. H. E. Baltimore, 010100000—1 6 0 Buffalo, 010100000—1 6 0

Batteries—Bedient and Blair; Quinn, Bender and Owens.

Second game: R. H. E. Baltimore, 226201000—13 11 1 Buffalo, 000000000—6 11 1

Batteries—Schultz, Ehme and Allen; Smith and Jacklitch.

Kansas City 5; Chicago 3.

Kansas City, June 11.—The rally started in Chicago in the ninth proved ineffectual. Kansas City winning 5 to 3. Cullum was invincible under the ninth, being replaced by Packard who stopped the rally. Score: Kansas City, 5; Chicago, 3. B. H. E. Kansas City, 210000002—5 12 0 Chicago, 010100000—3 10 1

Batteries—Undergast, Black, McCannell and Wilson; Cullum, Packard and Easterly.

REACH SEMI-FINALS IN GOLF TOURNEY

Mill City Man Among Four Winners on Memphis Links.

Memphis, June 11.—Harry G. Legg, Minneapolis; Bryan Heard, Houston, Texas; Aiden D. Swift, St. Joseph, and Ashton Evans, Jr., Memphis, yesterday won their way into the semi-finals of the championship of the trans-Mississippi golf association.

Legg dated a H. Mallory, Memphis, in yesterday's 36-hole match, 7-6; Heard disposed of George W. Foshee, Memphis, 7-5; Swift defeated Reuben G. Bush, New Orleans, one up in 37 holes; and Evans won from W. C. Weaver, Memphis, two up.

The match between Swift and Bush was the most closely contested of the day. At the end of the eighteenth hole in morning round, Bush was two up, but lost his advantage at the twenty-second hole and at the afternoon round Swift was one up.

Swift was one up at the twenty-fifth hole and the thirty-second hole. Legg won an easy victory over Mallory and Heard and Swift won the thirty-second hole. The afternoon round, but at the turn Weaver was four up. Evans started the match on the thirty-second and won two up.

FACTS

Scientists have proven that wheat
flour is the most economical food on
the market today. There is more
energy, muscle and strength-giving
qualities in a pound of flour, costing
three to four cents, than in two
pounds of meat costing 20c to 25c
per pound.

EARTHQUAKES ARE FREQUENT.
Detroit Tribune: Contrary to popu-
lar belief, earthquakes are by no means
rare occurrences. As a matter of fact,
practically all places on the surface of
the earth experience some kind of
tremor or shake at least once an hour,
and lesser tremblings are even more
frequent. This fact has been estab-
lished since the opening throughout the
world of stations where seismographs
record the slightest movement of this
earth of ours.

Science declares that we live in a
perpetual storm center of vibrations
of various kinds. Our ears are con-
stantly assailed with various vibra-
tions of the air. Our eyes are con-
tinually affected by the other vibra-
tions of light and heat, while our
bodies are constantly being shaken by
the tremors of the earth.

Besides the earth's local vibration, it
is now known that its axis wobbles
along through space. Even the sun
and the whole family of planets all
move along in a more or less vibration
fashion.

The seismograph can be made to
serve several other useful purposes be-
sides the recording of earthquakes.
Some of them are so delicate that a
railroad train running a mile away
will affect them.

Probably the most unusual purpose
has been put to it that of determining
the amount of vibration in a locomotive
as a result of unbalanced driving
wheel. Engineers have devised some
ingenious means of cutting down
this vibration, which means a greatly
decreased consumption of coal.

HARDSHIPS IN SWEDEN

War Has Brought Industrial
Depression, Says Re-
turned Tourist.

Army Fully Mobilized—Food
Prices Are Very
High.

The war in Europe is causing a
great deal of hardship to the people
of Sweden and a period of exceeding-
ly hard times will be experienced be-
cause of it, according to Mrs. Leonora
T. Soderberg, 4817 West Fourth street,
who has just returned from Sweden
after spending a year in the country
visiting her relatives. Mrs. Soderberg
left here on June 15, 1914, and re-
turned home Monday. She was accom-
panied on her visit by her daughter,
Virginia.

All kinds of foodstuffs are very
high," said Mrs. Soderberg this morn-
ing. "There is a great scarcity of
everything. The crops last year were
almost a failure and this more than
probably any other thing has caused
the exceedingly high prices of all com-
modities.

Sweden depends largely for much
of its food stuff on importation from
Germany and Russia. These markets
have been closed to the country. There
is a little trade between Sweden and
Denmark but it is not looked on with
favor by the Swedish government. No
food is imported from Germany and
it is from there that the country large-
ly gets its cereals.

"Manufacturing has come to a stand-
still and only a few small factories are
giving men employment. All available
men have been called out to join the
army and the mobilization is com-
plete."

Mrs. Soderberg left Stockholm on
the steamship Oseberg. With the ar-
rival of lightning, three floating
mines in the North sea this morn-
ing. The Oseberg, a great cargo
ship, was taken by the commander of the
ship, she said, to the coast of Norway.
The first part of the voyage considerable
fog was encountered, making it ne-
cessary for the ship to move slowly.

"TAKE MONKEY'S FINGER PRINTS."
New York Sun: It was finger print
day in the monkey house at the Cen-
tral Park Zoo. One ringtail, one java
and one baboon yielded up after a strug-
gle impressions of their fingers and toes
to Patrolman Ryan of the commis-
sioner's office attached to the city
service commission, who is studying
the delectable relation of the anthropo-
mimic to the human.

The ringtail, chattered abjectly and the
young woman expert who refused to
give her name, Head Keeper Bill Syn-
der and Assistant Keepers Joe Cun-
ningham and Bob Horton of the zoo.
Aside from the fact that monkeys are
as suspicious of having their finger
impressions recorded as are hu-
man beings, no definite conclusions
could be drawn. The uproar in the
house after Head Keeper Snyder had
driven out the public and locked the
doors was continuous and tremendous.
The ringtails chattered abjectly and the
javas, ten in all, huddled in a top
corner of their cage. Salia, an ugly
green monkey, and the baboon laid out
of the bars and trapezes and rattled
them with rage.

When facing the ink the behavior
of the animals was a whole good
thing. They clenched their toes and fingers
a good deal and blurred a number of
impressions, but Bill Snyder, who held
them while Ryan took the prints, was
quite satisfied. Ryan would make no
statement, but he believes that after
photographing, enlarging and compar-
ing his results with the police files, he
will have either confirmation or refuta-
tion of the Darwinian theory.

ON THE IRON RANGES

NEW YORKER GIVES GRADUATES ADVICE

Dr. John Gray Urges Virginia Eighth Grade to Be Prepared.

Virginia, Minn., June 11.—(Special to The Herald.)—Preparation was the keynote of the speech delivered last evening at the Socialist opera house by Dr. John Archer Gray, minister emeritus of the Work Peoples church, New York city, before the eighth grade graduating class of the Virginia schools.

About 1,000 members of the graduating class, parents and friends heard the address the subject of which was "The Star Performer."

One hundred and two pupils of the eighth grade last evening received diplomas.

The high school orchestra opened the exercises with a medley of national airs. Rev. J. E. Porter, pastor of the Methodist Episcopal church said the presentation of the diplomas by Dr. Gray addressed the members of the eighth grade class.

Dr. Gray's address was a most inspiring one. He urged the members of the eighth grade class to be prepared for the future. He said that the eighth grade was a time of great importance in the life of a person. He urged the members of the eighth grade class to be prepared for the future. DECREE AGAINST BREWERS STANDS

Virginia Company Must Pay \$5,000 for Death of Boy.

In a decision handed down by the Minnesota supreme court today at St. Paul, the \$5,000 verdict returned against the Virginia Brewing company in favor of Richard H. Terrell, administrator of the estate of a boy, Russell Terrell, in the range division of the district court, was affirmed.

Russell, a son of the deceased, was the foreman of Dec. 31, 1912, and ten or twelve other boys were coasting down a hill on a sled in the city of Eveleth. The sled led from the business portion of the city up a hill to a suburb known as the Adams location. The boy was killed while coming in collision with a sleigh of the defendant company which was coming up the hill on the left hand side of the street.

The violation of the law which provides that all vehicles must keep to the right and center of the street, the supreme court found was evidence of negligence and justified a finding in favor of the plaintiff.

BETTER TIMES ON THE COAST

Steel Corporation Heads Return From Vacation in California.

Report Excellent Crop Prospects and More Hopeful Sentiment.

"Crops all along the line are looking splendid and business conditions on the Pacific coast seem to be improving quite decidedly," said W. A. McGonagle, president of the Duluth, Missabe & Northern railroad this morning, on his return from a vacation in California.

Mr. McGonagle, J. H. McLean, general manager of the Oliver Mining company, and D. G. Kerr, vice president

Lights and Shadows of Police Court

RAID VICTIMS

Colored Woman Sent to Jail; Three Others Plead Guilty.

Meda Price, colored, will have to spend the next eighty-five days in county jail for operating a house of ill fame at 224 1/2 Railroad street.

The Price woman was arrested in a raid made on her home by the police last Tuesday evening, when four other women and two men were also taken into custody.

In police court yesterday afternoon Judge Smallwood found the Price woman guilty and fined her \$100 or eighty-five days.

She is unable to pay her fine and must serve the jail sentence.

This morning Cora Harrison, Morris Allen and James McGowan, pleaded guilty and the court fined them \$100 or eighty-five days.

Sentence was suspended on condition that they leave the city by tomorrow morning. Evelyn Fisher and Willie Staples failed to appear in court and forfeited \$25 bail.

The case against Frances Cooper was dismissed.

DOUBLE TROUBLE FOR JITNEUR.

Found to Be Old Offender When Taken on Bench Warrant.

Ernest Rickard, 23 years old, who was released on his own recognizance when arrested Wednesday evening on charges of running his car without lighting the rear lamp and who failed to appear in police court yesterday, was this morning arrested on a bench warrant issued by Judge Smallwood.

When he was placed behind the bars, the police made the discovery that Rickard is the same jitney driver who was fined \$5 for failing to light his rear lamp several weeks ago and obtained permission to go home and get the money.

Rickard lives at 3723 West Superior street. He will be arraigned this afternoon.

DENIES SELLING LIQUOR.

Elizabeth Borch Held for Conducting Unlicensed Drinking Place.

Elizabeth Borch, 38 years old, who was arrested at 1 o'clock last night

on charges of selling liquor, denied the charges.

She was held in the city jail on \$1000 bail.

CHARGES POLICE WITH SPITE WORK

Saloon Keeper Denies Selling Liquor to Minor and Carrying Weapons.

Spite work, declared C. N. Informant, New Duluth saloon keeper, in police court this morning, is the sole reason for his arrest yesterday on a charge of selling liquor to a minor and carrying concealed weapons.

He denied both charges and his trial was set for Tuesday morning.

The police are now three saloons in New Duluth.

The charges state that the informant sold the liquor to the minor on May 21 and that he carried a revolver last Monday.

ARGUMENT ENDS IN COURT.

Edward Erickson Too Emphatic in Discussing Politics.

Edward Erickson's political beliefs cost him exactly \$10 in police court this morning.

In front of the Gasser grocery store this morning Erickson got into an argument with Charles Rebeck about the politics of the nation.

Rebeck immediately had Erickson arrested on a charge of assault in the third degree.

The latter pleaded guilty and was fined \$10 or ten days.

He paid his fine.

**MUNITIONS OF WAR
FOUND IN CARGO**

Interned German Steamer Had Guns and Aeroplanes Concealed.

Naples, June 11. The German steamer "Day" which has been interned in this port since last August was today unloaded by the Italian authorities.

A thorough search of her cargo was made. Hidden under her cargo were found a number of munitions of war.

These included a number of aeroplanes and a number of guns.

BEACH WILL OPEN JULY 1

First Steps of Preliminary Work Completed By the City.

Bathhouses and Other Improvements Will Now Be Provided.

Duluth will have a real bathing beach at Fairmount park on July 1, according to an announcement made this morning by Park Manager Cleveland.

Yesterday afternoon work was completed on the bathing beach and the thoroughfare is now open to vehicles right into the bathing beach grounds.

About six blocks of the roadway were improved by the park department during the last month.

Within a few days, Mr. Cleveland plans to install the bathing beach a small pavilion and dig a well. This work, he said, would take about two weeks.

"Whether the water will be warm enough by July 1, I cannot say," said Cleveland, "but we plan to have the beach all ready for the public by that time. There will be twenty-four rooms for bathers."

In addition, Mr. Cleveland is planning to improve a large section of the Fairmount park addition purchased this winter.

The improvements will include a ball ground a short distance from the bathing beach. A walkway will be laid out to lead to the ball ground and the ball ground will be a short distance from the bathing beach.

New York shop windows, he would conclude that the general esteem enjoyed by our Hebrew fellow citizens have made the adoption of their language a more serious proposition than it was when he wrote of it so flippantly.

Neither of those writers took so gloomy a view as Beaujour, who, while despondently submitting to our country the adoption of English, regretfully points out that they will never have, at least not all very late, literature of their own, because they lack a national language and because English literature will take the place of their own.

LEGAL NOTICES.

STATE OF MINNESOTA, COUNTY OF ST. LOUIS.

District Court, Eleventh Judicial District.

Minnie Jurevitz, as Administratrix of the Estate of Waldemar Jurevitz, Deceased.

Northern Pacific Railway Co., a corporation, and William J. Robinson, Defendants.

To all persons interested in the distribution of the funds referred to herein, and all persons interested in the Estate of Waldemar Jurevitz, Deceased:

Pursuant to order of the above named District Court, duly made and entered in the above entitled matter, notice is hereby given that the undersigned, Minnie Jurevitz, Administratrix of the Estate of Waldemar Jurevitz, Deceased, has in her possession and control a sum of money received by her as damages on account of the wrongful death of said deceased.

It is the order of the District Court of St. Louis County, Minnesota, in and for the District of Minnesota, for an order allowing and adjusting all attorneys' fees and other expenses incurred in connection with the collection and distribution of said fund, and next of kin of the deceased, and other persons entitled to share in the distribution of said fund as creditors or otherwise, and authorizing and directing the said administratrix to distribute said fund in accordance with such determination.

That said application will be brought on for hearing before said court at a special term thereof to be held in the Court House, City of Duluth, on the 10th day of July, 1915, at 9 o'clock in the forenoon of said day, or as soon thereafter as counsel can be heard, at which time and place all persons interested in the distribution of said fund may assert their claims and will be heard therein.

Dated this 27th day of May, 1915.

THE ANSWER TO THE QUESTION WE ASKED IN OUR AD OF LAST WEEK.

What is the difference between the so-called piano factory representative and the ordinary retail piano store?

The difference is this: The "so-called piano factory representative" is not a factory representative at all; he is financially irresponsible and obtains his pianos entirely on a commission or consignment basis. He does not own or pay for a single piano or even a piano stool. When he pays the factory for the goods he pays with your contract, if you purchase on the contract plan, or purchases pianos usually on the note plan, where they can purchase the cheapest—often not taking quality into consideration.

The Raudenbush & Sons Piano Company have their own factory, and manufacture pianos and player pianos, and own all their pianos, vacuums, 222 West First street, Duluth, sell direct to the people, eliminating the "so-called piano factory representative" and the "ordinary retail piano store" and their profits, which amount to \$100 or more on each piano.

IF YOU WANT TO SAVE THIS AMOUNT, BE SURE AND CALL ON US. WE ARE THE MAKERS.

AWARDS MADE AT FRISCO EXPOSITION

Exhibitors Notified That Work of All Juries Is Completed.

San Francisco, Cal., June 12.—All awards for exhibits at the Panama-Pacific exposition were made yesterday by the juries of awards, and the exhibitors were notified.

No official announcement of awards will be made, exhibition officials said, until contests and appeals have been heard and adjustments made.

A canvass of state buildings resulted in announcements from some commissions entitling enough to tabulate the awards of their states. The remainder were not available.

Illinois' uncompleted list of awards showed two medals of honor, 12 gold medals, 53 silver medals and 80 bronze medals for agricultural exhibits and one silver, two bronze and one honorable mention for educational displays.

Montana was awarded the grand prize in cereals and its commissioners said that Montana had been awarded 3 medals of honor, 70 gold medals, 200 silver medals and 180 bronze medals, all in agriculture.

Awards to New York state include three grand prizes for its exhibits in the departments of education, social economy and agriculture; 33 gold medals and five medals of honor.

Influence with the German government to persuade it not to take any steps that would lead in the direction of war. With this statement, Mr. Bryan expects to end for the present his efforts to lay before the public the situation which caused him to resign the portfolio of secretary of state on Wednesday.

He left the cabinet rather than sign the American note to Germany regarding submarine warfare, Thursday.

He issued an appeal to the American people to stand for persuasion rather than force for asserting rights under international law, and yesterday he made a brief statement expressing gratification that what he termed a change of tone on the part of the "Jingo editors" regarding the note to Germany.

Referring to German-Americans as "fellow citizens in whose patriotism I have entire confidence," Mr. Bryan, besides asking them to use influence with the German government, urged: "That they forget, never to be recalled, any suspicion of lack of neutrality or friendship toward the German people on the part of the president of the United States."

That they should not attempt to connect negotiations between the United States and Germany with those between the United States and Great Britain, "because the causes are different."

Germany should acquiesce in demands that have been made by the United States.

United States without condition "trust" the United States to deal justly with her in the consideration of any changes she may propose in the international rules that govern the taking of prizes growing out of submarine warfare.

Mr. Bryan declared that President Wilson had been unjustly criticized by partisans of both sides in the European conflict; expressed confidence that the adopted country in case of war all the steps he takes to uphold the honor and interests of this great republic, which are bound up with the maintenance of democratic liberty and a wise spirit of humanity among all the nations of mankind."

Mr. Bryan said he might have some announcement to make regarding his future course. He displayed a huge pile of congratulations and telegrams from societies and individuals. More than 1,000 messages have been received.

Late yesterday Mr. Bryan visited the state department. He called upon his successor, Mr. Lansing, and assistant secretaries, stating that he would visit the department from time to time.

"FRIENDS" TURN OUT TO BE HOLDUP MEN

Frank Hill Relieved of Watch and Money by Companions.

Two "friends" offered to get a job for Frank Hill, 252 South First avenue east, yesterday afternoon, and after taking him out along a deserted stretch of the Lester road, pounced upon him and relieved him of \$143 in currency and a \$15 watch.

The holdup took place about two miles from the Birchwood farm and Hill did not have five cents left for car fare when they finished going through his pockets, he told police.

After walking to headquarters, Hill reported that the two men had worked on a cement construction job in the city last week and that one of them had worked with him in a logging camp near Chisholm last winter.

He furnished police with a good description of the amateur holdup artists, one of them being about 5 feet 4 inches tall and weighing 145 pounds. The other man was about the same weight as his companion and has light brown hair.

PLEDGES SUPPORT TO THE PRESIDENT

Roosevelt Applauds Wilson's Stand in Issue With Germany.

New Orleans, La., June 12.—Applauding President Wilson for his stand in the disagreement with Secretary Bryan over the issue between the United States and Germany, Col. Theodore Roosevelt, in a signed statement received here last night from Breton Island, La., pledged his support to the president in all steps he may take to uphold the honor and the interests of the United States.

"According to Mr. Bryan's statement," Col. Roosevelt said, "he has left the cabinet because President Wilson, as regards the matters at issue with Germany, refuses to follow the precedent set in the thirty all-inclusive arbitration commission treaties recently negotiated, and declines to suspend action for a year while a neutral commission investigates the admitted murder of American men, women and chil-

CHARITY WORK FOR MAY

Fewer Cases Handled This Year Than Last But Number Involved Was Greater.

Although the number of cases handled by the Associated Charities during the month of May, 1915, was nine less than the number handled during the corresponding month of the previous year, the number of people involved was larger last month than in May, 1914.

Among other things the report shows that fifty-three new cases involving the welfare of fifty-one men, twenty-nine women and forty-one children were handled during the month as compared with sixty-two new cases in May, 1914, involving fifty-five men, twenty-two women and twenty-seven children.

Of the fifty-three new cases, twenty-two are referred to the charities by other societies or individuals and thirty-one grew out of personal application made direct to the charities.

Thirty-five transient men were advised or assisted. Twenty-four men and thirteen women were given temporary employment and permanent positions were found for four men, two women and two men. Fifteen pairs of shoes and 212 pieces of clothing were given away. Sixty-nine families were furnished with vegetable seeds for their gardens. The seeds were furnished the charities by Congressman C. B. Miller.

The report also shows:

REV. BRUCE BROWN GIVES "AIDS TO CUPID" AT THE CHRISTIAN CHURCH

"If you can't help it, get married, otherwise don't consider it," said Rev. Bruce Brown last night in a sermon on "How to Get Married" at the First Christian church.

"No couple should marry without absolute confidence in each other. There positively should be no marriage without genuine love. I'd let any man wanted to, get a divorce, but forbid remarriage. That would decrease the number of divorces."

With these and other similar statements, equally original, Rev. Brown greatly interested a capacity audience. "There are five conditions to be fulfilled, before a couple should be married," he declared. "There must be love, confidence, acquaintance, repen-

tance and ceremony. They should be acquainted with each other, heart, mind and soul. Their tastes should be the same and their wants should coincide.

"A certain amount of sacrifice is to be expected in marriage. A man should be willing to give up many of his old habits and his old habits. A woman must be willing to give up her old home.

"By love," he continued, "I do not mean admiration for a pretty face or a stately figure. It should be genuine and genuine and should last forever. No sacrifice should be too great where there is love."

Rev. Brown stated that each of the requirements for marriage is required also for entrance to the church. He will speak again tonight and tomorrow morning and night.

PHILLIP APPROVES BILL.

Signs Wisconsin Measure Changing Method of Grain Elevator Taxation.

Madison, Wis., June 12.—Governor Phillip has signed the bill repealing the law providing for an ad valorem tax on grain elevators and warehouses on May 1, and substituting an occupational tax on the owners and operators of such places. The occupational tax is one-fourth of a mill per bushel on wheat and flax, and one-eighth of a mill per bushel on all other grain received at such facilities during the year ending April 3.

This bill is similar to laws in force in Minnesota, Illinois and surrounding states and is considered by grain operators more favorable than the existing Wisconsin laws on the subject.

Boatsteward Arrested.

Libson, N. D., June 12.—(Special to The Herald).—Charged with making weekly trips to various points in Benson county and selling liquor illegally, Joseph Stevens of Verona has been arrested by Sheriff Craig and brought here for trial. It is claimed Stevens had a regular route and always carried large packages of contraband liquors.

In Given Two Years.

Carrington, N. D., June 12.—(Special to The Herald).—Judge Coffey imposed a sentence of two years in the state prison on John Petro, the young Italian, who recently pleaded guilty to an attempted criminal assault on a young woman of this vicinity.

Old Remedy That's Always Best For Liver, Stomach and Bowels

Liver, Stomach and Bowel remedies have been coming and going for 50 years, but Carter's Little Liver Pills keep right on giving health, strength and happiness to millions. Lay aside the harsh cathartics that act violently on liver and bowels and give this old, gentle, sure constipation remedy a trial.

It's really wonderful how speedily they banish headache, indigestion, biliousness and nervousness and clear up sallow, blotchy, pimply skin. Purely vegetable.

ATTRACTIVE DESIGN IN ITALIAN TYPE

We present this week one of the designs that seem to be very popular in this part of the country. The exterior is stucco over frame and if the proper color scheme is carried out the house becomes very attractive. Attention to the floor plans will show a well arranged and convenient home for a family of five people. The first floor is finished in birch and the second floor in white pine, and the building would cost to erect in the city of Duluth about \$4,500.

Jo. Harmon

A DULUTH INVENTOR

Waste in fuel is one of the chief factors in the high cost of living, according to Jo. Harmon, who has lived in Duluth thirty-five years and spent most of his time studying heating problems. Mr. Harmon has 52 years' experience and is an expert on heating plants and appliances. Seeking means to save fuel, he has invented and patented three valuable devices to this end. They are:

A chimney top that prevents "back-drafts" and improves fuel consumption by creating suction. A heat regulator of a pattern greatly improving on older types, and with a timing device. A gas-consumer adjustable to any stove or furnace.

Mr. Harmon is a hand craftsman which means he does his work thoroughly and carefully. He lives at 1909 Jefferson street.

RECORD SHIPMENT OF AUTOMOBILES

Toledo Factory Makes Mammoth Consignment to New York.

What is probably the largest single shipment of automobiles ever made left the big Toledo factory of the Willis-Overland company on Friday.

The entire shipment, which has a total valuation considerably in excess of one-third of a million dollars, is consigned to the C. F. Silver Motor company, Cleveland distributors for Greater New York and the metropolitan district.

The longest "through" freight train known in the history of railroading was required to carry the automobiles. It consisted of more than 125 freight cars and from end to end was more than a mile and a quarter in length. Two of the largest "mogul" engines were used to haul the train.

The tremendous shipment is indicative of the growing demand for cars which the Overland company is striving to meet. During the week ending May 29 shipments were made of 1,300 cars from the Toledo plant. During the present week it is probable that this number will be exceeded by at least 100.

orders now on hand for immediate shipment are approximately 15,000 in excess of shipments. This is in spite of the fact that many departments of the factory are working both night and day in an effort to make the supply meet the demand.

2,200 men are now being employed at the Overland factory.

New buildings, which are just being completed, will add seventeen acres of floor space. With this additional space available, John N. Willys, president of the company, declares he will be able to build and ship an average of 600 cars per day. This will be the production of the Willis-Overland company during the coming season.

Franklin Exhibit.

The exhibit of parts from the Franklin car, as shown at the Chicago and New York automobile shows last winter, are now on display in the showrooms of the Interstate Auto company.

This exhibit is being sent through the country by the Franklin factory and will be shown here for several days, after which it will be shipped to the nearest Franklin agency.

Shanghai, China, has more Studebakers than all makes of automobiles combined. Twenty per cent of the automobiles in Japan are Studebakers.

Five thousand Haynes cars have been built and marketed during the present season. A minimum of 10,000 Haynes cars, models 34 and 35, will be built during the 1916 season.

Henry H. Hower, for the last eight years with the F. B. Stearns company, is the latest Knight motor expert to join the forces of the Knight division of the Willis-Overland company. He started his new duties June 1.

Word has just been received by the Hupp Motor car company that a shipment of Hupp automobiles consigned to the Hupp garage at Pretoria, the Transvaal, South Africa, has been seized by the British government. These Hupp automobiles will be used for military purposes.

One unacquainted with the magnitude of the industry would never imagine that in supplying photographs its automobiles and views of its factories, Studebaker makes over \$8,000 annually. It uses 6,357,325 square inches of photographic paper, and for plates and lantern slides 198,610 square inches of glass.

Since the manufacture of motor cars was commenced last fall, the force of Dodge Brothers employees has been increased from 3,000 to over 7,000. Practically all manufacturing departments are working on day and night shifts.

Approximately 35 per cent of all the motor trucks in the United States are operated in New York, Chicago, Philadelphia and Boston, according to statistics compiled by E. A. Williams, Jr., president of the Garford Motor Truck company, Lima, Ohio.

The Waverly company, electric vehicle manufacturers of Indianapolis, announces the retirement of President William R. Cooley and the elevation to the presidency of Herbert H. Rice, formerly vice president.

THE NEW 1916 OAKLAND IS HERE

The Oakland model 38 for 1916 contains all those principles of construction which made the model 37 of last season so successful—light weight, great strength, high speed motor, low center of gravity and wedge shaped lines; while the general lines of the car have not been altered to any great extent, the body has been considerably enlarged. The radiator, hood, cowl and sides of the body have been raised, giving the car a larger appearance. The seats have been widened and the driving compartment deepened, giving more leg room. Simplicity and strength are strong features of the Oakland chassis.

The motor is a special designed four-cylinder Oakland-Northway, developing up to 39.5-horse power at 2,500 revolutions. Bore and stroke are 3½ and five inches. Body designs consist of five-passenger touring, 2-passenger roadster and 2-passenger speedster, the latter capable of obtaining 60 miles per hour.

The price of the 1916 Oakland, delivered in Duluth, is \$1,090, which is a reduction of \$150 from 1915 price.

grazing sections, conditions are favorable for large motor car sales during the summer months.

Indianapolis, Ind., June 12.—With the 1915 Indianapolis 500-mile race hardly over, preparations for the 1916 contest are already under way. Speedway officials believe the next Indianapolis race will be the greatest in history, surpassing every previous effort on their part both in interest and attendance. At least eleven three-car teams, from present indications will line up for the contest, with the pick of the world's drivers at the wheel.

War order prosperity has a rival in the domestic automobile business of the United States. Everywhere automobiles are being bought as never before. For the first three months of this year sales of automobiles in the United States increased 49 per cent over the same three months last year. The spring selling season, now at its height, will probably show even a greater increase. Since Feb. 16, Franklin sales have increased 107 per cent over same period last year.

GAINING WEIGHT VS. LOSING WEIGHT

By DR. SAMUEL G. DIXON,
Commissioner of Health for Pennsylvania.

If the majority of people were as much distressed about the sudden reduction in their weight as they are over an addition of a few pounds, whose human race would be far better off.

Vanity unfortunately does not lead to the average individual to look upon slenderness of figure as objectionable. If it did thousands of cases of tuberculosis might be discovered in the incipient stage.

One of the early symptoms of tuberculosis is a loss of weight. A decided decrease should be watched with suspicion. It often means that the vital functions are not all that they should be. It is certain under any circumstances to demonstrate that one's physical resistance is being lowered and this in itself opens the way

to unusual susceptibility to disease. If this loss of weight is accompanied by failure of the appetite, night sweats, or a persistent cough or other physical signs, the individual should be consulted and nourishing food, plenty of rest, long hours of sleep in the fresh air, and other measures as he may advise should be resorted to in the effort to build up the body.

An excess of weight, particularly when it means an increase in fat, is a danger sign. However, while people will wear rubber jackets, diaphragms and other contrivances to reduce it, it is vanity that is responsible in the majority of cases. They will neglect themselves for months when decreasing weight should warn them as surely as the falling barometer does of a coming storm, that their physical well-being is in jeopardy.

FOR CHILDREN'S MAGNA CHARTA

Anniversary of the Barons Over King John Marked By Move to Protect All Children.

By ANNA ROCHESTER.

(Exclusive Service The Survey Press Bureau.)

This week is the 700th anniversary of Magna Charta, when the barons of England in conference with King John secured from him the first general bill of rights for the people. All now there is a group of people—not barons but plain Americans—who are anxious to celebrate the anniversary by drawing up a new charter setting forth the rights and needs of childhood—a children's charter.

They tell us that the needs of children are not having a fair show in this country, and that for every one who is pampered and spoiled by prosperous over-indulgent parents there is at least another who never knows what to eat, whose home is demoralized through poverty or drunkenness or vice, whose parents are unable through mental defect or through overwork to give it proper physical or moral training, whose education is neglected or ill-suited to its needs.

The People Behind It.
In short they say, now that certain principles enunciated in Magna Charta have been woven into the fabric of our political institutions, it is high time we should turn our attention to the special needs and rights of childhood.

Who are the members of this disconcerting group, and what do they know about the actual needs of children in America today? The first to present the subject publicly was Roger S. Baldwin of St. Louis, a former probation officer of the juvenile court in that city. The one who has given more time and thought to the matter is the National Child Labor committee's secretary for the northern states. He has taken a man of public affairs, schools, and as superintendent of schools in Porto Rico did pioneer work in industrial training. He has studied children in industry and has had several years of experience with delinquent children as superintendent of a children's house of refuge.

Then there is C. C. Carstens of the Boston Society for the Prevention of Child Abuse, a man of such breadth of view and detailed understanding of children's problems that he is chairman of the children's committee of the National Association of Charities and Corrections has been called an "epoch-making document to be compared with any one other event in the forty-two years of the conference's existence."

Miss Julia C. Lathrop, chief of the

Federal children's bureau, believes the charter is needed, and indorses the proposal to draft one. Dr. P. P. Claxton, United States commissioner of education, has promised to help with the educational sections. It would be impossible to name all the leaders in the field of child welfare who have shown their interest in the charter.

The Framework Convention.
The concrete way in which they propose to help the children is to protect the rights of childhood, to draw up a new charter setting forth the rights and needs of childhood—a children's charter.

They tell us that the needs of children are not having a fair show in this country, and that for every one who is pampered and spoiled by prosperous over-indulgent parents there is at least another who never knows what to eat, whose home is demoralized through poverty or drunkenness or vice, whose parents are unable through mental defect or through overwork to give it proper physical or moral training, whose education is neglected or ill-suited to its needs.

The Problem of Recreation.
"After infancy we come to the problem of recreation. An educational experience begins at an early age, with the vexed questions of child psychology, and the right relation of cultural subjects and elementary industrial training. The tremendous problem of dependency touches on one hand the whole question of industrial training, and on the other difficulties of insuring to each child, whatever his economic status, a normal childhood with home and school training."

Having surveyed the field and established the principles on which we should base our efforts, it is hoped that the charter may set forth these principles, so far as they concern the state, in a standard outline for legislation. Ohio, in her children's charter, is the only state which has any contradictory or usually inconsistent laws in other states these laws are scattered through the statute books, sometimes in one place and sometimes in another. "In New York we have consolidated and classified statutes, yet if anyone asks what are the state laws affecting children, no person in New York of any position on without considerable research answer the question."

The benefits of the children's charter will not be confined to this clearing up of the principles on which the organization and that committee should base their work. In fact the friends of the charter are inclined to believe that its greatest value may lie in the simple fact that it will encourage co-operation. The drafting of the charter, which must be in itself a cooperative effort, will teach workers in the various fields to think of their work as a part of a larger whole. The relation for instance, between the school attendance officer, the factory inspector, the juvenile court worker and the administrator of mothers' pensions will become a practical help to each of them. For the children, such co-operation all along the line should mean that the one that is now available for the child who happens to come under the eye of the official or the social worker who is fitted to meet his case, will be extended to a larger proportion of those who need it.

For All Children.
The charter will deal with the whole of childhood. It is of interest to the mother whose heart is wrung by the sufferings of poor babies in those districts where infant mortality is a shame and a problem. It is of interest to the father who looks to his children but knows that there are many others who have no guardian. It is of interest to the educator who would see all children enjoy an unfolding of the spirit and development of the best in each. It is of interest to the employer who will see in it the future elimination of the inefficient worker. It is of interest to clergymen, social workers, state officials and everyone in any way connected with a child.

The National Conference of Charities and Correction last month, after the question of the charter had been presented at one of the big public sessions by Mr. Claxton, a small informal meeting was held of those who were especially interested in the subject, and a special committee on the charter was appointed with Mr. Carstens as chairman. The charter cannot, like the Magna Charta, be drafted in a day. The issue is not so simple as the rights demanded of King John, but we may hope that before the year is out we shall see an outline of the twentieth century's idea of what a charter should be.

A CHECK-BOOK AFFAIR

Why is it poor business for cash to circulate from hand to hand?

Because the exchange of money in amounts larger than one dollar is a check book affair.

You should have a receipt for such money expenditures—and banks never pay a check without the other party's indorsement. And that indorsement turns the check into a legal receipt the minute the money is paid.

Commencement exercises of Central high school in the auditorium of the school.

SCHOOL affairs, both in Duluth and outside, have held the center of the stage this week and promise to assert their importance next week. Many hundreds of graduates all over the country will have to tell just what will await war, and make the world an ideal place to live in, before the world at large will be permitted to settle down again to the ordinary humdrum life.

Many who have been away at school have returned and next week and the week after will see the return of those who are attending eastern colleges and universities which close late.

Miss Mary Gladys Reynolds, whose wedding to August John Frey will take place next Wednesday, was the guest of honor at a bridge given Tuesday afternoon by Mrs. W. A. McClaran and Mrs. R. B. Liggett at the home of Mrs. McClaran at a bridge given Wednesday night by Mrs. N. F. Hugo and at a bridge given Wednesday night by Mrs. F. W. De Vey.

Another guest of honor for a series of affairs was Miss Adelaide Thurston whose sister, Mrs. Frank E. Parker, entertained at bridge Wednesday and Thursday afternoon and at tea yesterday afternoon.

The commencement exercises of the normal school began Sunday afternoon when Rev. T. W. MacLean gave the class sermon in the school auditorium. Wednesday morning the seniors held their class day exercises. Wednesday night the alumni gave their annual banquet which was followed by a reception and Thursday morning the diplomas were presented.

Other school affairs held this week were the closing exercises of Miss Wilson's elementary school Wednesday morning and the banquets given last night by the alumni of Salter and Lowell schools.

Monday night Mrs. W. S. Adams and Miss Marion S. Todd entertained at the home of Mrs. Adams in honor of Miss Faith Helen Rogers and the Evening Drama class held a social meeting at the home of Mrs. M. Cook Tuesday afternoon. Mrs. J. B. Gillfillan of Minneapolis gave an anti-slavery talk at the home of Mrs. F. E. House and Tuesday night the Woman's Rotary club met in the library.

Wednesday afternoon Mrs. Watson Mendenhall entertained at a bridge luncheon and the Temple Aid society gave a luncheon and bazaar at the Spaulding hotel. The first bridge game of the season was held at the Northland Country club, followed by a dinner-dance.

Yesterday afternoon Mrs. E. Frank Barker entertained a study class of the Twentieth Century club at a Japanese afternoon in her new tea house and the Woman's Guild of Glen Avon

Presbyterian church gave a lilac tea at the home of Mrs. A. R. Macfarlane. The first dinner-dance of the season will be held tonight at the main house of the boat club.

Monday afternoon and Monday night advanced students of the Flaten Conservatory of Music and Expression will give recitals at the Rex theater.

The wedding of Miss Mary Gladys Reynolds and August John Frey will take place Wednesday night at 8 o'clock at St. Paul's Episcopal church. Friday afternoon and Friday night the Drama league will present "Her Husband's Wife" at the Orpheum theater.

The closing events of Central high school will take place next week. Tomorrow afternoon Rev. A. W. Ryan will preach the class sermon at St. Paul's Episcopal church. The class day exercises will be held Wednesday night in the assembly hall, the annual junior-senior ball Thursday night at the Masonic temple and the commencement exercises Friday night in the assembly hall.

Events of Interest.

A handkerchief shower was given last Saturday in honor of Miss Yelma Suvala, her home, 212 Gilbert street. The evening was spent in dancing and games. A favor at games was won by Miss Alma Swanson and Sigurd Soberg. The other guests were:

Peggy Peabody's Observations

Begin to Save Now.

This story is not unique, but it is too bad that there are not more just like it. I know a young man and I have watched his business career with a great deal of interest and he has been unusually successful.

Last week he made his first payment on a house a little way out of the city, investing \$700 money that he had saved. Whether the young man bought for investment or for a future home, I do not know, but in either case it is one of the best things he ever did or ever will do.

Most do by making small monthly payments, which he can easily afford, he will own the place and it will be a source of income to him for life.

The average working boy will tell you that it is practically impossible to save money or that one who does it must be of a penurious or mean nature. But it is not so. The one of whom I write is a good, whole-souled boy of generous impulses and has quite as many of the pleasures of life as most boys of his age and circum-

stances. He has, however, made an inflexible rule to save a certain portion of his salary each week.

My young friend intends to get something for his money and is making himself independent, instead of letting the small change slip through his fingers for mere nothing. He has formed the habit of saving instead of spending money foolishly, and one habit is just as easy to acquire and just as hard to break as the other.

Another great advantage is that if he is to occupy this house as a home, instead of paying rent all his life, he will pay the same amount for a few years and at the end of that time will own a home. And this is a priceless satisfaction. It is not necessary to buy a piece of property or a home outright. Put down what you can afford and let your future home or investment pay for itself as time goes on. It is a sane and safe way of doing things.

It is not alone a matter of economy or frugality. It develops manhood and womanhood and gives one a sense of independence and courage. While paying rent you can never rid yourself of the feeling that you are at the mercy of the owner of the house, however good and kind he may be. You can own your home by saving. Begin to save now, if you haven't already started.

PERFECT BEAUTY

The fashion of the present day requires that the complexion of the well-groomed woman shall be clear and of snowy whiteness. The regular use of

GOURAUD'S ORIENTAL CREAM

will bestow the charms that are so admired. Gou- raud's Oriental Cream is a liquid powder, far surpassing the dry powders that have to be applied so frequently to gain the desired effect. It whitens, softens and clears the skin. It is absolutely free from grease and consequently does not encumber the growth of hair.

Rightly Immolations on the Altar of Thespis

MISS LUCILE BRADLEY, Who Will Be "Mrs. Higgins" in "Her Husband's Wife."

NIGHTLY immolations on the altar of Thespis have left the members of the cast of "Her Husband's Wife" mere shreds of emotion. The play will be presented by members of the Drama League next Friday afternoon and evening, and the members of the cast are rehearsing every evening, and some afternoon of the direction of Willard Webster of Minneapolis.

The company is an exacting coach, and if any of the members of the little company joined it merely "for lack" they have suffered a rude awakening. Not infrequently the members have been reduced to tears, and the men to profanity, when the coach has rehearsed one scene or perhaps ten or fifteen lines, twenty or thirty times when rehearsal was over the members of the company swear by their coach, but during rehearsal they are more inclined to swear at him.

Mr. Webster has high professional standards, and he is doing his best to enforce them with a firm hand. Every rehearsal lasts from 7:30 until 11 p. m., and sometimes there are extra rehearsals for some member or members of the company who are weak in a particular scene. The performers admit that if they live through it, it will prove excellent training, but at present they view Mr. Webster's "kill or cure" methods as getting wonderful results, and predict that the performance next week will be about the most finished amateur effort ever seen in Duluth.

The committee which is in charge of the sale of seats and boxes is delighted over the business part of the undertaking and have visions of the Little Theater from debt.

Under the auspices of St. Luke's Hospital association Mme. Harriet Labadie will read J. O. French's Welsh play, "Change," at the Orpheum Tuesday, June 22. This play deals with the effects on modern thought on a conservative family. Mme. Labadie, who appeared in Duluth last July under the auspices of St. Luke's association, read Isaac's "The Bolt's House."

DRAMA VAUDEVILLE MOTION PICTURES

COMMENT ON PLAYS AND PLAYERS WHAT THE PRESS AGENTS PROMISE

DULUTH'S summer amusement program promises to be rather limited. Only two special attractions in the musical or dramatic line are scheduled as yet. Next week the drama league members will present "Her Husband's Wife" at the Orpheum theater, and it should be of much interest from a dramatic standpoint, for the company has had the services of a professional coach, and much is expected of the performance.

On June 29 Pavlova will be in Duluth with her big company of dancers, and a special orchestra.

For the next two weeks the stock company will offer new plays never before seen in Duluth and which Duluth would probably not otherwise have seen.

Later in the summer there will be some hand concerts, but aside from the attractions mentioned Duluth's summer amusement program does not offer many attractions.

"GHOST BREAKER" AT THE LYCEUM

Comedy - Melodrama With Odd Name Chosen By Baldwin Players.

Tonight will be the last appearance of the Baldwin Players in a rather exceptional production of "Bought and Sold For." The stock company members have done the best work in this Broadway drama, that they have shown since their engagement in Duluth.

Opening Sunday afternoon the stock company will hear "The Ghost Breaker," which will be seen in Duluth for the first time. About two years ago, Paul Dickson, its author, was appearing at the Orpheum theater in a vaudeville play, which was the first performance in Duluth. The play was a New York success, and the company headed by M. B. Warner had a long run there, later taking a short road tour. The war conditions prevented it being sent on tour last season, and it was released to stock companies. Harry L. Minton, the leading man of the Baldwin company, appeared in the play shortly before coming to Duluth, and he has been of great assistance to William Mortimer this week in rehearsing the company.

"The Ghost Breaker" is described as a combination of romantic comedy and melodrama. It is the story of a young Kentuckian, who having just shot an enemy and seeking to escape with him into a room in the Manhattan hotel, New York, not knowing that it is one of a suite belonging to a Spanish princess. Naturally the lady of royal blood is somewhat startled, but rather an unusual hour for visitors, being in the neighborhood of 5 o'clock in the morning, and she is just about to hand him over to the authorities, when she strikes a bargain with him, in return for shielding him from the law he is to engage in the unheard of occupation of a ghost hunter. In a castle that the princess owns there is a hidden treasure, but it has mysteriously disappeared including the princess' own brother. When the young Kentuckian friend has expressed his scorn of ghosts and asked his oath of allegiance to the princess, he is embarked on a course of adventures both thrilling and ludicrous, which ends only with the final curtain. In a trunk he is smuggled out of the castle and onto an ocean liner, where his negro servant awaits him, and the third act sees the entire party in Spain, ready for the great encounter. There is a preliminary skirmish at an old inn, and then comes the invasion of the haunted castle and the duel

with the ghost, which has made every audience so far gasp for breath. All ends well of course, with a suggestion of marriage bells in the near future. The scenic settings are unusual and decidedly effective, notably the ghostly hall of the ancient castle. "The Ghost Breaker" will open with the Sunday matinee and continue all week with matinees Wednesday and Saturday. Mr. Minton will be cast as the young Kentuckian, Miss Bronaugh as the princess, and Walter Baldwin, Jr., as the negro servant, a role with great comedy possibilities.

JAP ACT AT GRAND.

Two Headliners Will Feature Bill for Next Week.

The Young Namba family of Japanese, which headlines the present excellent bill at the New Grand, is probably one of the most sensational acts on the American stage. The offering consists of Japanese pastimes and games which include dare-devil stunts in balancing and other hazardous feats.

"Fun in a Music Shop" is the musical frolic offering of Kumbry, Bush and Robinson. They are all good comedians with a repertoire of all that goes to make pleasing entertainment. Johnson and Crane offer a novel

diversion in "Songs of the Season and Dances of the Day" in which they feature the latest society dances and popular selection from the late musical comedies.

Pearl Davenport, singing comedienne and late star of musical comedies, has a singing act of decided originality. Featured among the photo plays is "The Awakening," a two-reel subject with Earl Williams and Anita Stewart. One of the Helen Holmes stories of railroad life, "A Railroad's Bravery," "Dad Visits the Zoo," a comedy and the Hearst-Selig News of events complete the bill.

On Monday a double headline bill will feature Princess Kalama Duo of Hawaiian entertainers and Ralph Bayle company of versatile entertainers, who include in their repertoire everything from dainty dances and singing to weight lifting and acrobatics.

Pettie Elva, juvenile singing comedienne, and Earl Edwards in a comedy singing and talking diversion, are among the other vaudeville offerings. The feature photograph, "The Awakening," introduces Edna Mayo and Bryant Washburn in a thrilling drama of three reels. "Polishing Up Polly," a comedy, and "Won Through Merit," a drama, complete the bill.

On Tuesday and Wednesday the third chapter of the "Diamond From the Sky," entitled "A Silent Witness," will be added to the program.

EXTRA FEATURES AT REX.

Star Attractions Crowded in Next Week's Program.

Next week will find every day crowded full of delightful surprises at the Rex. Sunday there will be the usual good show and Mr. Runkel has promised to render a number of the old favorite songs on the organ. From the number of request signs received at the box office Mr. Runkel's engagement would be indefinite, if he played each request.

The first release of the Pyralis Art Film corporation on the Metro program will play at the Rex Monday and Tuesday in the drama, "Four Feathers." Howard Estabrook, a handsome young leading man, well known on the legitimate stage, has earned his picture stardom in this his first screen production. "Four Feathers" is thrilling and full of the elements of danger and adventure. Tuesday afternoon a trio of singers who originally toured the states with the "Bird of Paradise" company last year will appear at the theater for one week, opening Tuesday afternoon. Original Hawaiian songs will be sung.

For Wednesday and Thursday the Paramount program has spruced up in keeping with the stirring times at the Rex, and two productions will be featured. "Bootie's Baby," featuring

Mimi Yvonne, the famous child actress, is a story that will delight both young and old. "The Man on the Case," by Victor S. Solt, is a laughable story of a young millionaire who wants to marry a girl who will love him for himself, and not his money, and a sentimental girl who determines to marry only for love.

Friday and Saturday winsome, adorable Marguerite Clark will flash her smile of welcome for two whole days. In the title role of the "Pretty Sister of Jose," Frances Hodgson Burnett's charming and picturesque romance, and Maude Adams' former starring vehicle. The role is one calling into play a thousand moods and whims from the magnetic little star, who as the dark-eyed belle of Madrid, has vowed never to lose her heart, but who when finally conquered by the handsome Sebastian, loves truly and devotedly.

At the New Sunbeam.

Three exceptionally good feature pictures comprise the program for Sunday at the Sunbeam.

"After the Storm," a two-reel Biograph subject is the feature attraction on the bill. This photograph is a story of a Quaker maid who waited in vain for her lover to return as he had promised, on the afternoon that the storm forced them to seek shelter in the deserted hut.

She did not know that he was ill and when he regained consciousness and asked his mother to bring Mary to him, it was too late because her father had died of his illness. Mary was lost to sight. Unable to forget her, Hilton sought to temper the misfortunes of others and in company with Dr. Gray he daily made the rounds of the city, and he was not knowing drawn to one of the children. Eventually he adopted the lad not knowing that it was his own son. Then Nathan Cooper repented of his act and he adopted the boy.

After years of suffering the two were finally reunited and were happy at last. "The Girl at Nolan's," a two-reel Western play, produced by the Vitagraph company, is a love story that will interest everyone. Charlie Chaplin will be seen Sunday in his farce comedy, "The Tramp."

Salter Now With Glaser.
Ed. P. Salter, who was first manager

of the New Grand theater in this city, is now general representative for Vaughan Glaser and company, now on tour in "A Grain of Dust." Mr. Salter came to Duluth a little more than a year ago and supervised the construction of the handsome new playhouse. He opened the house in September and remained in charge until some time in October. Mr. Salter is widely known in the theatrical world and has been connected with leading theatrical enterprises for many years.

Jane Cowl has had a unique opportunity to try out roles for the purpose of finding one which will suit her. She has been playing the leading parts in a number of new plays which Oliver Morosco has been trying out with his stock company in Los Angeles. Several of them were determined on for permanent production, but Miss Cowl cared for none of them. Finally she was pleased with her role in a play called "Common Clay," and is to appear in it next season under the management of A. H. Woods.

Richard Carr is to revive "The Dictator," in which William Collier starred a number of years ago. Carr has announced for production next season a play based on Harry Leon Wilson's popular story, "Rueful of Red Cap." Arrangements have been made for Harrison Rhodes, the dramatist, to write the play. Carr has been engaged for the title role.

Florence Moore of the well known vaudeville team of Montgomery and Moore, will star on her own account next season. She has signed a contract for a number of years with Philip Bartholomae, who expects later on to star her in a play from his own pen. Montgomery and Moore have been headlines in vaudeville for a number of years. Miss Moore will appear with "Maid in America" at the Palace theater, Chicago, for the present. It will be January before New York will see her in Mr. Bartholomae's new musical comedy.

The Hippodrome in New York, which was given over to moving pictures several months ago, has finished in that capacity. It is said that though the receipts averaged close to \$3000 per week it was not enough to make the venture profitable.

Sophie Brandt, remembered as a prima donna of unusual vocal attainments in several musical comedy productions, and chiefly in the principal female role of "The Waltz Dream" is preparing for a career in grand opera, and is now in Naples for that purpose.

The director of the Comedie Francaise of Paris, has announced that Se-

purpose. She expects to make her debut next season.

The European war has so affected conditions in Australia that James J. Corbett, actor and former champion pugilist of the world, has curtailed by several months his theatrical tour of the province. Corbett has cabled friends that he is on his way home. He had intended to be absent until the fall.

Montgomery and Moore have been headlines in vaudeville for a number of years. Miss Moore will appear with "Maid in America" at the Palace theater, Chicago, for the present. It will be January before New York will see her in Mr. Bartholomae's new musical comedy.

The Hippodrome in New York, which was given over to moving pictures several months ago, has finished in that capacity. It is said that though the receipts averaged close to \$3000 per week it was not enough to make the venture profitable.

Sophie Brandt, remembered as a prima donna of unusual vocal attainments in several musical comedy productions, and chiefly in the principal female role of "The Waltz Dream" is preparing for a career in grand opera, and is now in Naples for that purpose.

The director of the Comedie Francaise of Paris, has announced that Se-

purpose. She expects to make her debut next season.

The European war has so affected conditions in Australia that James J. Corbett, actor and former champion pugilist of the world, has curtailed by several months his theatrical tour of the province. Corbett has cabled friends that he is on his way home. He had intended to be absent until the fall.

Jane Cowl has had a unique opportunity to try out roles for the purpose of finding one which will suit her. She has been playing the leading parts in a number of new plays which Oliver Morosco has been trying out with his stock company in Los Angeles. Several of them were determined on for permanent production, but Miss Cowl cared for none of them. Finally she was pleased with her role in a play called "Common Clay," and is to appear in it next season under the management of A. H. Woods.

Richard Carr is to revive "The Dictator," in which William Collier starred a number of years ago. Carr has announced for production next season a play based on Harry Leon Wilson's popular story, "Rueful of Red Cap." Arrangements have been made for Harrison Rhodes, the dramatist, to write the play. Carr has been engaged for the title role.

Florence Moore of the well known vaudeville team of Montgomery and Moore, will star

husband, a mother, a father, a son,
a daughter, a friend—humanity. There
is plenty of room in the heart of one
who loves his kind for the warmest
affection for the dumb things who
abide with, depend upon and are loyal
to humankind.

It is true that one could imagine
better ways to spend money than
this. Doubtless these New Yorkers
who have been bereaved of a pet mon-
key have plenty, and have not missed
what they spent in honoring the grave
of their pet. Doubtless, too, with the
same money they could have brought
happiness to many children; and may-
be that would be monument enough.

It's all a matter of taste. What
these people have done is their own
business. What you prefer to think
of their taste is your business.

"What the sun seems to need," says
the Chicago News, "is a place in the
sky." Evidently Chicago and Duluth
have something in common besides a
lake front.

CAREFUL, JITNEURS!

The Herald, while it has favored
regulation of the jitneys in the public
interest, has opposed any such regu-
lation as would put them out of busi-
ness.

The regulation ordinance that has
been adopted is moderate and fair.
Indeed, a survey of the laws and or-
dinances adopted in other places
shows pretty conclusively that the
Duluth ordinance is about the most
moderate that has been adopted any-
where.

Those interested in the jitney busi-
ness will make a very grave mistake,
in our opinion, if they proceed with
their referendum plan. They run the
risk of turning public sentiment
sharply against them, which is the
last thing they should desire.

If this mild ordinance should be
submitted to a referendum and ap-
proved, under the charter it could not
be amended without a vote of the
people, even should more radical regu-
lation become necessary. If the jit-
neers insist upon a referendum, there-
fore, the council would be entirely
justified in immediately framing an-
other and stronger ordinance, far-
reaching enough to obviate the need
of any more radical changes later.

The jitneers would much better ac-
cept the terms of the present ordi-
nance rather than to subject the city
to the expense of a referendum elec-
tion which would be a complete
waste of public funds.

And then, maybe, it's just a judg-
ment from heaven on the summer fur
idea.

GET RICH SLOWLY.

The American Bankers' association,
through its savings bank section, is
circulating some facts that The Her-
ald is very glad to pass along, be-
cause they emphasize and enforce the
strength and possibilities of personal
thrift.

It is no "get-rich-quick" scheme the
bankers offer. But if any experience
in life is proved, it is that "get-rich-
quick" schemes do not work. They
work just often enough to prove the
rule, and to prove the companion rule
that nothing is appreciated, nothing
does any good, that is not worked
for and earned. Riches gained quick-
ly are lost quickly.

The plan proposed by the bankers
is based on this proposition: that if a
man earning twenty dollars a week
saves five dollars a week he can dou-
ble his income by the end of twenty
years; and of course he will be in-
creasing it all the time.

Here is how it works: Jones, who
is earning twenty dollars a week and
is twenty-two years old, decides to try
the plan, and starts chucking five
dollars a week into a savings bank
that pays four per cent interest. At
the end of four years Jones has to his
credit \$1,123.69. He takes out a
thousand dollars and buys a six per
cent mortgage with it. When he has
another thousand, he buys another
six per cent mortgage; and so on. In
twenty-five years Jones will have
fourteen thousand dollars invested in
six per cent mortgages and \$761.33
in the savings bank. Three years
later Jones will have \$7,000 in mort-
gages and \$779.22 in the savings bank,
and his income will be \$1,051.20 a
year, or \$20.21 a week—his income,
that is, from investments. He will
be fifty years old, and secure against
the storms of adversity.

Meanwhile, Jones will have sacri-
ficed something; but he will have
sacrificed little that counts. The sim-
ple, plain living that he will have
forced himself into isn't all loss, by a
long shot. It means, finally, better
health, more contentment, a saner
and better ordered existence.

Jones, of course, thinks he can't do
this. Twenty-eight years is too long
to wait. He can't spare a quarter of
his salary. He wants an automobile.
He wants this and he wants that. He
is young, unafraid, and the future has
no terrors for him.

Yet, though twenty-eight years is a
long time to look ahead, it is a short
time looking back; and pretty soon
he will have passed through his
twenty-eight years—marvelously
soon, he will think when he is fifty.
What then?

And so he can't spare a quarter of

his salary? What would he do if his
salary were cut that much? Starve?
No; he'd get along. He could get
along just as well if he did the cut-
ting himself and saved the difference.

One thing sure is that if Jones
spends it he can't keep it; that if he
doesn't keep it he will be building no
old age income; and that if HE does
not build his old-age income NO-
BODY ELSE WILL.

Italy should find Abbatemaggio and
his friends invaluable additions to her
army.

THE PROGRESS OF WARFARE.

We like to think that the world is
progressing; that civilization is ad-
vancing; yet to do so, nowadays, we
must forget the war.

The world may be steadily climb-
ing, but war is still headed down to-
ward the depths.

There is nothing surprising about
that, though. The purpose of progress
is constructive. The purpose of war
is destructive. Man has perfected
and improved most of his processes,
and there is nothing illogical in the
parallel of general progress along other
lines and a vast increase in the hor-
ror of war. The more cunning
and ingenious war methods be-
come, the more destructive and ter-
rible their results. The same hu-
manity which has developed a highly
cultivated state of existence has de-
veloped highly devilish methods of
interrupting existence—which is, of
course, the purpose of war.

There are gases and turpentine shells
and the like—whatever started it, ap-
parently they are all at it or about to
be at it; all those who can, at least.
These are devilish enough, surely; for
those who were at first inclined to
accept the use of such methods as a
sort of anesthetic way of killing have
had to revise their ideas since it was
reported that gases often effect a
lingering, three-day death of constant
agonies.

This is a milestone in warfare from
which it is possible to take an ac-
counting of the past and see which
way development has gone: up or
down.

The New York Globe relates this
incident of the Civil war: "In 1862,
during the peninsula campaign, when
the Union troops were marching on
Richmond, General Rains, who com-
manded the rear guard of Long-
street's corps on its withdrawal from
Yorktown, proposed to plant a num-
ber of explosive shells in the road
along which the Army of the Poto-
mac was expected to advance. Gen.
Longstreet, when the proposal was
brought to his attention, forbade its
execution on the ground that he did
not recognize it as a proper or ef-
fective method of warfare." The case
was carried up to the Confederate
secretary of war, who upheld Long-
street's decision.

"Perhaps," adds the Globe, "Long-
street was over-scrupulous, but one
cannot but honor the motive inspir-
ing him. Longstreet did not accept
the doctrine that a man dehuman-
ized himself when he put on a uni-
form—did not accept the doctrine that
a people engaged in a struggle for
existence had a right to do any-
thing."

What general today would shrink
from such a plan?

When a man "puts on a soldier's
uniform" he enlists himself for the
purpose of killing other men. That
isn't dehumanizing himself; but it is
devoting his ingenuity and his energy
to an unhuman business. The pur-
pose of war is to kill. It takes a fine
process of reasoning to draw distinc-
tions between methods of killing.
War, which aims to kill, is seen at
its logical destination when it is en-
gaged in killing with utter disregard
of means, and judging the means of
killing only according to their effi-
ciency.

As warfare becomes more highly
developed, it becomes not more mer-
ciful, but more merciless; not more
human, but more brutal; not more
civilized, but more savage.

Man, engaged in the pursuits of
peace, is journeying upward.

Man, engaged in the barbarous busi-
ness of war, is journeying to the
depths of savagery.

Wilbur Glen Voliva predicts the
conquest of the world by the Zionists.
If they don't hurry up about it a
whole lot of the world won't be
worth the conquering.

MARRIAGE AND EMPLOYMENT.
A piece in a Portland paper tells
how the traction interests of that
community have "come out strong
for Cupid."

The superintendent of the company
has issued a bulletin in which he
urges every man in his employ to
"get married, settle down and be-
come a good citizen, a happy father
and a consistent booster."

"Single men may be as loyal to the
company and just as efficient as mar-
ried men," the superintendent is quoted
as saying, "but we have just taken
a census of our train men, and find
that our best ones are men of fami-
lies. The more ties the men have,
the steadier and more reliable they
become."

That's sound sense, both from the
viewpoint of the company and that of

the men. A married man has given
himself to the company, has moored
himself by his matrimonial ties, and it
stands to reason that his employers
are much more likely to find him
where he was put when they look for
him than they are in the case of a
single man with no family ties.

Moreover, a man who is married
and is raising a family and—we hope
—is paying for a home is not only a
better and more reliable employee, but
a better and more reliable citizen.

He has a stake in the community. His
citizenship is concrete, while the citi-
zenship of the bachelor is likely to be
more or less abstract. Abstract convictions
never mean so much as concrete
ones.

And we hope the Portland street
car company is following up this pol-
icy by paying its married men all it
can possibly afford to pay, so as to
help them to rear their children as
they should and to give them tidy
homes with yards to play in and gar-
dens to delve in.

According to all accounts, Sodom
and Gomorrah have little on some of those
European towns.

EXTRAVAGANT POVERTY, THRIFTY WEALTH.

While the impecunious clerks
are buying stylish new straw hats,
the capitalists who employ them
are taking last year's hats down to
be cleaned.—Crocketon Times.

Isn't it the truth?

Of course it's exaggerated a little.
Not all capitalists furnish up last
year's straw for this year's wear. Some
of them are really stylish, and vie with
their fifteen-dollar a week clerks in
keeping up with the latest.

But on the whole there is more real
slavery to fashion, and more seridom
to the burden of expense that it en-
tails, among people of small means
than among those of large means.

A man with an income of a thou-
sand dollars a week will pay two dol-
lars for a straw hat, or one five-hun-
dredth of his weekly income.

A man with an income of fifteen
dollars a week will cheerfully dig up
three dollars, a fifth of his weekly
income, or even five dollars, a third,
for his short-lived headgear.

Of course there is another side to
it. The millionaire can afford to go
shabby, and the clerk can't. That's
one drawback to being a clerk, and
one more point on which the mechan-
ic who makes his twenty-dollar a
week has it upon the clerk.

But in the main there is a very im-
portant economic factor at work here
that might, if studied, prove profit-
able.

There is plenty of evidence to jus-
tify this rule: that the "impecunious
clerk" is impecunious because he buys
a new, stylish and expensive hat,
while the capitalist is a capitalist be-
cause he cleans up the old hat when
it is presentable for another season,
even if it isn't quite in style.

The capitalist is thrifty, and the
clerk is not.

The capitalist can afford a new hat
and doesn't buy one, so he has his
money left for something else.

The clerk can't afford a new hat
but buys it, so he has no money left
for anything.

There are nobler virtues than
thrift, but none sounder, more lasting,
giving more durable satisfaction, or
that this country is in greater need of
studying.

Who ever thought staid old June
would get fickle too? Is it the new
dances?

GOOD ADVICE FROM THE GOVERNMENT.

Smallpox is conquered. Diphtheria's
terrors have been stolen by anti-
toxins. Typhoid fever, through pre-
ventive cleanliness and vaccination, is
on the run. Tuberculosis is yielding to
science. Infantile mortality is mar-
velously lessening through the use of
clean milk and better prophylaxis.

The great plagues that threaten hu-
man life are doomed. It is only a
question of time before cancer and
pneumonia will succumb to the as-
saults of science.

Yet there is a type of diseases, the
diseases of maturity, that attack hu-
manity at its floodtide of life when
its capacity of usefulness to society
is greatest, and this type is awesomely
on the increase.

This menace includes the diseases
of the heart, blood vessels and kid-
neys that destroy an annually increas-
ing number of people in their years
of greatest usefulness.

The normal term of life is length-
ening, the proportion of deaths before
forty is decreasing; but the death rate
after forty is alarmingly on the in-
crease, and from diseases mainly in-
curable.

Why?

Too tense an existence; too much
worry; too much work and too little
recreation; narrow lives centered in
single grooves without rejuvenating
adventures in the bypaths to which
wholesome hobbies conduct people;
too much intemperance; above all,
over-eating and under-exercising.

The class of diseases that is under-
mining the adult population is large-
ly incurable but entirely preventable;
and prevention lies along the simple,
easy and economical lines of simple

living and abundant outdoor exercise.
Taking note of this tendency, the
United States public health service
has issued a prescription which is
commenced without reserve to every
indoor worker, no matter how
"healthy" he is. Indeed, the healthier
he is the more likely it is that he is
over-eating and under-exercising—
abusing his health. The prescription
follows:

Take exercise. Take daily exer-
cise. Have a hobby that sets you out
of doors. Walk to your busi-
ness, to your dressmaker, walk for
the sake of walking. Join a walk-
ing club and keep your weekly
score of miles. Keep chickens,
make a garden, wheel the baby, or
play golf or any other outdoor
game, but take two hours' outdoor
exercise every day.

If you went to a high-priced spe-
cialist and paid him ten thousand dol-
lars for advice, he couldn't possibly
give you a better prescription than
that; though if he deserved the price
he charges he would add: "Eat slow-
ly; eat simply; eat a little less all the
time than you could; eat meat only
once a day and cut it out one day a
week."

Another genius who evidently loves
to waste his time is the man who in-
vented decollete shirts for those of his
own sex.

first is dependent for its answer on the reader's conception of the individual life—heredity environment or human nature. The story is that of Lydia Lammeter, a woman of a very high and very careful breeding, who is left alone in the world and sets out to find her way by the one person among all her acquaintances in whom she has put her right faith—her husband, and the rest of her life is influenced by one of the three forces in human nature.

As to the second question, one person's guess is as good as another's. It would seem that the author of *Chambers* is George Randolph Chester as the author of

Of course this may not be Chester's work. It lacks anything of the Wallingford character. But Chester had a few other roles, and done them well; and as a reader of "The Ball of Fire" can read "The Seas of God" and now seem to see a more human hand at work. Back of both, he must be lacking in analytical power.

Light and Amusing.

THE COCONUT, a Best Cure Comedy, by Ruth M. Dancy Stuart. New York: Hearst's International Library company. \$1 nc.

Was 'Ships that Pass in the Night' the first sanatorium story? It almos

seems as if it was. Then who wrote the first diary story? Probably Mark Twain, if he were among us, would claim the honor for his respective "diaries" of Adam and Eve. At least that would be logical, if not even with in gunshot of the fact.

But here we have both styles of fiction combined. "Blessy," a young wife, is in a rest cure sanatorium and

writes to her husband about the other patients, the nurses, the doctors, the

scenery, her own thoughts, and in fact nearly everything she thinks of or sees. The breath of a scandal comes along, when she suddenly stops writing and merely suffers a while. The story is light and inconsequential and the matter of being light is old. But the matter is interesting. The light summer reading "The Cocoon" is pretty likely to find great and widespread favor.

PARCEL POST SERVICE

Directions for Ordering and Shipping by Parcel Post:

Any article advertised here is available to any part of the United States, if not over 20 pounds in weight nor more than 72 inches in length and girth combined. Parcels of 50 pounds can be sent through local, first and second zones (second zone limit 150 miles). If the article you order is very valuable it may be insured or accorded special delivery service on payment of the usual fees. Such valuable articles will be insured upon request against loss.

When ordering shoes, rings, hats, dresses, waists, coat suits or anything that requires

a perfect fit, be careful and give your correct size. Duluth firms will be very careful to give you just the size you order.

When ordering dress goods, silks, colored goods or any article where a particular color is wanted be certain and specify the exact shade, and merchants will see that you get what you order.

By conforming to these simple rules your orders will be sent out the same day received and in many cases will be delivered by the postman direct to your home the following day.

Parcel Post Rates

Parcels weighing four ounces or less are available at the rate of 1 cent for each ounce or fraction of an ounce, regardless of distance. Parcels weighing more than four ounces are available at the following pound rates, a fraction of a pound being considered a full pound.

Continued Gratifying News Is Coming From This New Giant Copper Property

The latest report from the superintendent states that they are "averaging about four feet a day in sinking on the east side of the property and values are increasing steadily with depth—running at the present depth of thirty feet from 6 to 18 per cent copper. The work on the west side is showing fine. Pits Nos. 1 and 2 are looking exceptionally good; values running 15 per cent in lead, 16 ounces in silver and high in copper."

The management reports that they are increasing the forces and rapidly perfecting arrangements for a steady production of high-grade copper, gold and silver. Have you reflected on what this means for the future price of the stock? As soon as the public learns of the riches of this property's vast ore bodies I predict a scramble for its shares. Listed on the New York curb.

Yesterday's closing bid, \$1.35.

Full information cheerfully furnished upon request.

NORTH BUTTE'S 3000-LEVEL OPENS BEYOND EXPECTATION

Vein and Ore Body Growing Better as Drifting Proceeds.

Record-Breaking Operations Are Continued By Butte & Superior.

Butte, Mont., June 12.—(Special to The Herald.) The 3000-foot level of the North Butte is opening beyond all expectation. The vein and ore body both are gradually growing larger and better as drifting proceeds on the Edith May vein, although there were 15 feet of ore and three feet of very high grade directly in the crosscut. Beginning last week, the North Butte Mountain electric hoist lifted practically all of the ore mined by the North Butte, with the exception of about 100 tons, which was still hoisted through the shaft. This week the change was made complete, and now all work is being done through the Granite Mountain shaft. The old Speculator shaft is being used exclusively for ventilation purposes, although it will be kept in shape so that it can be used in case of emergency. The new electric hoist is working to perfection, and the output of the North Butte is being increased. The output of the North Butte is being increased. The output of the North Butte is being increased.

During January, February and March the total output of the North Butte was approximately 15,000 tons, and the tonnage for April, May and June will be about 20,000 tons. The output of the first three months of the year was 3,353,325 pounds of copper, 188 ounces of silver, and 180,650 ounces of gold. The production of copper for the present quarter will be close to 6,000,000 pounds of copper. The increase for June over May is estimated at 1,500,000 pounds. The output of the North Butte is being increased. The output of the North Butte is being increased.

Butte & Superior continues its record-breaking operations and for the month of May its payroll was the largest in the history of the company. More than \$175,000 was paid out to its employees in Butte. The wage scale for miners was \$4 per day, based on the price of copper, which was well above \$100 per ton. The output of the North Butte is being increased. The output of the North Butte is being increased.

BIG PROFITS GO TO SHAREHOLDERS

Mines and Works Divide \$26,570,951 During Five Months.

During the five months just ended American metal mines and works (not including iron, coal or minor metals) produced a record profit of \$26,570,951. That these mines have a history of profitable operation is evidenced by reports made to Mining and Engineering. The output of the North Butte is being increased. reliable source that capitalists who are interested in the proposition will shortly offer the people of this city a chance to co-operate in building the proposed railway. The necessary capital to finance the project, and who can and will see it through to a successful conclusion, have, after viewing it from all angles come to the conclusion that the line is worth building. The proposed line will be a paying road. The people of Three Forks and also those along the line are naturally expected to support the project in a material way, and the promoters propose to build the new line only in case the people of this city and those along the line furnish free right-of-way for the tracks. It is possible also that they may be called upon for other assistance.

The important fact as regards Three Forks, however, is that by giving the necessary support, our city is assured another railroad, which would mean

much more to us than the locating of a county seat in Three Forks. It is evident that the location of a line between Three Forks and the Keating and other mines in the vicinity of Radersburg would bring immediate and lasting benefit to the business men of this city, but in addition to this the mining interests at Radersburg have given definite assurance that if the line is built, they will immediately build and place in operation in Three Forks a concentrator plant of sufficient size to handle all ore mined in the Radersburg district.

PIEGAN-GLOSTER'S MILL LOOKS GOOD

Helena, Mont., June 12.—Everything is satisfactory at the Piegian-Gloster

property in the Marysville district, according to C. W. Goodale of Butte, who with J. E. Corbette of Butte, but stockholders and officers in the Barnes-King Mining company, recently inspected the property.

Power was turned on in the mill two weeks ago, but the minor adjustments always required in new plants, and which develop while operating first, have not all been made. However, Goodale says these adjustments should be completed shortly, and then the plant will be put into regular commission. At present between 30 and 40 men are employed. Eventually from 15 to 20 men will be employed in the mill, and 50 in the mine.

"Don't make it appear that we need men," said Mr. Goodale, "for we don't. Men are rustling at the mine every day, but there isn't anything doing and their walk is in vain."

CENTRAL HIGH SCHOOL WILL CLOSE YEAR WITH COMMENCEMENT PROGRAM NEXT WEEK

Among those who will figure in the class night exercises at Central high school Wednesday night are: Hazel Burnside and Dorothy Segor, star members of the class play cast. Miss Burnside, having been selected as the "best girl mixer" in the class, will present a huge wooden bowl to the girl answering the same description in the junior class. Miss Miller will read an essay.

At Central high school, as in all of the other public schools of the city, the students will close their work next week. During the week just closed, the students of Central high school completed their active work, and the examinations will be held next week. The members of the senior class will be redeemed on Wednesday of next week, and Friday, so that their work is now practically finished.

Next week the examinations will be held on Monday, Tuesday and Wednesday. Thursday the final grades will be made out, and on Friday the students will be given their diplomas. At this time also they will learn their fate for the last year's work. Members of the fourth year class are not worrying any more about studies. The lower grades, however, are working hard time before the examinations in hard study. The schedule of examinations for next week is as follows:

Monday, 8:30-10:15—History. 10:15-12:00—Commercial geography and agriculture. 12:45-2:30—Latin. 2:30-4:15—French, Biology, Norwegian. Tuesday, 8:30-10:15—Physics. 10:15-12:00—German and commercial arithmetic. 12:45-2:30—Latin. 2:30-4:15—Physiology and commercial law. Wednesday, 8:30-10:15—Mathematics. 10:15-12:00—History. Outside of the examinations next week, the most important events are the class night exercises on Wednesday, the junior-senior ball on Thursday, and the commencement exercises on Friday.

Class night exercises are looked forward to by the members of the senior class with considerable interest. The exercises will be given by the senior class, and the play is given by the fourth year pupils, and the exercises will be given by the senior class.

COMPANY OF SOLDIERS AND REGIMENTAL BAND MEET THE LEGISLATORS

Spectacular Reception is Given to the Party at Fort Frances.

Canadians in Training to Join the British Army in France.

Beautiful Day Spent on Rainy Lake and Visitors Delighted.

By a Staff Correspondent.

Fort Frances, Ont., June 14.—(Special to the Herald.)—The most spectacular reception yet accorded the members of the legislative party now touring the North was this morning at Fort Frances, when a company of soldiers and the regimental band met the visitors at the international bridge. The party left the train at International Falls and took autos for a short trip across the river into Canadian soil. Fort Frances people furnished the autos. A committee which went ahead to the special to make arrangements consisted of Dr. D. C. McKenzie, mayor of Fort Frances, colonel of the Ninety-eighth regiment, and president of the board of trade, and James A. Matheson, M. P. E. They extended a warm invitation to the whole party to visit the Canadian city and be their guests as long as possible.

The auto party was met at the international bridge by the soldiers now under arms and drilling here in preparation for accompanying the Third Canadian contingent to France. About 200 sturdy young men belong to the company and they were backed in their reception by the Canadian band which played brisk martial airs. Marching military companies and

Election at Athens Favorable to Friends of Venizelos.

Athens, June 14.—A dispatch from Athens to the Havnas news agency says that the candidature of the party of M. Venizelos, the former premier, who gave up office on account of his policy in favor of war on the side of the allies, were elected in Athens and that elsewhere through the kingdom his partisans were successful.

King Constantine has not yet learned the result of the election, as his physical condition still continues to cause anxiety.

A change of ministry will be impossible until parliament meets and the session may be postponed by the government for forty days. The present cabinet consequently may remain in power until the end of Aug. 15.

BRYAN TO TELL HOW TO END WAR

Former Secretary to Propose Means for Settling Great Conflict.

Washington, June 14.—Former Secretary Bryan announced through friends here today that he will issue another statement proposing a means of ending the war.

The statement, which will be issued Tuesday or Wednesday, will not deal with his resignation from the cabinet but with "the war, as it is, the causes that led to it and the way out."

The statement will be entitled "The Causeless War." It was said it would be Mr. Bryan's last "for the present."

This led to the belief among some of the lower classes that German sympathizers had been drinking water of this factory. In the beginning there was a demonstration, but the crowd rapidly developed into a mob that could not be controlled.

All day Thursday and until Friday morning the crowd looted and destroyed. Certain Russian workmen demanded the dismissal of the German employees at the factory. Question

Moscow, Friday, June 11, by mail to Petrograd, June 14, via London.—Moscow for two days past has seen street rioting and anti-German demonstrations of a serious nature. The police have found it impossible to control the crowds and the people indulged their desires for looting and destruction until they were tired out.

The demonstrations started because of an outbreak of illness among some men employed in a certain factory.

TWO IRON BEDS HANG TO BOW

Yacht Withdraws From Collision With Steamer's Furniture.

Vanadis and Bunker Hill Clash in Fog; Two Killed.

New York, June 14.—C. K. G. Billings steam yacht Vanadis reached Glen Cove, L. I., early today with the body of John J. Brown of Boston, one of the two victims of a collision in Long Island sound last night between the yacht and the big white passenger steamer Bunker Hill of the Metropolitan line. The body of the other victim, George H. Kendrick, also of Boston, was brought back to New York by the Bunker Hill when she returned earlier in the night with a hole in her side thirty feet high and nearly twenty feet long.

Brown and Kendrick and three others injured in the accident were passengers on the Bunker Hill bound for Huntington bay. The yacht backed out of the hole in the Bunker Hill's side with her bow smashed and festooned with iron bedsteads and other furniture swept from the state rooms of the sound liner.

Brown's death wound was received when he lay in bed. In the opinion of Capt. Farrington of the Vanadis, the Vanadis backed away from the Bunker Hill when she carried on her sharp bowsprit, amid other wreckage, two iron beds. In one of these beds, Capt. Farrington believes, Brown lay, falling, bruised, cut and unconscious into the water as the colliding craft cleared each other.

The Vanadis lay, a sorry looking wreck, at anchor at Glen Cove, today, preparing to undock. Her entire front was crushed in, her bowsprit was broken off short, and her forward timbers ripped apart and splintered to within three feet of the water line.

Two blows, apparently, were struck by the yacht, the second after the recoil of the first.

When the Vanadis anchored early today, Coroner Lyster went aboard and took the statements of her officers and wireless operators. Mr. and Mrs. Billings, who were on board, and Mrs. Billings' father, left for New York soon thereafter.

TRANS-ATLANTIC SHIP TORPEDOED

British Steamer Hopemount Sunk By Submarine; Crew Saved.

London, June 14.—The British steamship Hopemount of 3,300 tons gross, was torpedoed and sunk today at a point west of St. Ives, Eng., by a German submarine. The crew of the Hopemount was saved.

St. Ives is a popular resort in Cornwall, seven miles northeast of Penzance. The Hopemount was built in 1904 in Newcastle and was owned by the Hopemount Shipping company, Ltd. She was 331 feet long, 48 feet beam and 22 feet deep. The Hopemount on her last voyage across the Atlantic left Newport, News April 14, bound for St. Nazaire.

Danish Schooner Fired.

London, June 14.—Two Danish schooners, the Katrine and the Morat, were stopped today by a submarine. The crew of the Katrine was sent aboard the Morat and the former vessel was then set on fire. The Katrine has arrived at the Firth of Forth, Scotland.

GERMAN ESTABLISHMENTS IN MOSCOW DESTROYED BY MOB

Russian City Is Scene of Uncontrolled Looting and Rioting for Two or Three Days.

Moscow, Friday, June 11, by mail to Petrograd, June 14, via London.—Moscow for two days past has seen street rioting and anti-German demonstrations of a serious nature. BRITISH SHIP SUNK BY MINE IN WHITE SEA

Arndale, Built in 1906, Lost on Way to Port of Archangel.

London, June 14.—The British steamship Arndale of 3,553 tons gross, has been sunk as the result of striking a mine in the White sea.

The British steamer Arndale was built in 1906 at Sunderland. She was 340 feet long, 48 feet beam, and 23 feet deep. She was owned by the J. Smaltes & Son Steamship company, Ltd., London.

The Arndale was carrying a cargo to Archangel, the only important Russian port bordering on the Arctic ocean.

Rates Unreasonable.

Washington, June 14.—The interstate commerce commission today pronounced unreasonable and unlawful joint class freight rates, already canceled, on railroad lots of grain from Iowa points to Kansas City, Mo. The city board of trade, exceeded the total of the intermediate local rates and the commission found them to be in violation of the long and short haul clause.

ELEVATED AND SURFACE LINES ARE AFFECTED

First Time in Generation That All Street Car Service Was Tied Up.

Over 14,000 Employees Quit, Rendering 1,310 Miles of Track Idle.

Hundreds of Thousands Obligated to Walk From Homes to Business.

Chicago, June 14.—What is said to be the greatest street car strike the United States has known began here at 4 o'clock this morning. Fourteen thousand persons were thrown out of employment, 1,310 miles of elevated and surface track rendered idle and a burden thrown on steam roads, automobiles, vans and other vehicles which they were able to meet only in small part.

For four hours not a car moved. Then a South side elevated train, carrying but few passengers, made a round trip as a test. As a result it was announced that an attempt would be made to run trains with strikebreakers and guards every fifteen minutes. The surface lines made no attempt to work. Private guards were stationed over all company property, but no disorder was reported early.

Business Resumed.

Business was not paralyzed, but it was hampered. The strike in one way or another affected every branch of the city's activities.

GEN. VON MACKENSEN TAKES RUSSIAN LINES ALONG ENTIRE FRONT

Occupies Positions Held By the Czar's Troops for Over Forty-three Miles in Galicia.

Attacked By French in West Are Repulsed and Severe Defeat Is Administered to Enemy.

Berlin, June 14, via London, 3:20 p. m.—Official announcement was made here this afternoon that Gen. von Mackensen has occupied the Russian positions along the entire front in the eastern arena of the fighting from Czerlawa to Sieniawa.

These places are in Galicia. Sieniawa is eighteen miles northwest of Jaroslau on the river San. The statement follows:

German Statement.

"Western theater of war: The French suffered a severe defeat on the front of Lievin and Arras. After the enemy's columns, which were preparing to make an advance by storm had been repulsed several times in the course of the day by our artillery, strong enemy attacks in close formation were begun toward evening against our positions on both sides of the Lorette hills and on the Neuville-Rocourt front. Our opponents were repulsed everywhere with heavy losses."

German Statement.

"Eastern theater of war: In the neighborhood of Kuzle, northwest of Shavli, a few enemy positions were taken. Three officers and 200 men were taken prisoners. Southeast of the road from Miasnopol of Kovno our troops took the first Russian line by storm. Three officers and 313 men were captured."

Southwestern theater: Gen. von Mackensen began an attack over a line extending seventy kilometers (forty-three miles). Starting from their positions at Czerlawa, northwest of Mogilevka and at Sieniawa, the enemy's positions have been taken along the entire length of this front. Sixteen thousand prisoners fell into our hands yesterday."

Attacks by the troops under Gen. von Linsingen and Gen. von der Marwitz also made progress.

Slow Progress By French.

London, June 14.—Although the French would appear to be unrelenting in their offensive work, which is putting them slow progress in the western front, the situation in the eastern arena of the war is not so favorable. The Austro-Germans are striving every nerve to deliver a crushing blow to the Russians, remains of the utmost importance. No confirmation has yet been received of the report that the Austro-Germans have recaptured Zuzawa, but further to the south they are across the river Dniester and on Russian soil in Bessarabia.

Great Activity.

Not for months past has there been such general activity on the eastern front. Checked at the Petrograd front, the Austro-Germans have developed an offensive on both wings at the same time. In the north they are attacking in Poland to the north of Przemysl. There is continued fighting going on at the same time in the Baltic provinces, so it may be said that the Austro-Germans are at (Continued on page 10, second column.)

ABANDON ADVANCE TOWARD LEMBERG

Russian Forces Prove Too Strong for Austro-German Armies.

London, June 14.—The Austro-German attempt on Lemberg has been abandoned, according to the Petrograd correspondent of the Daily News. The correspondent says that with the defeat of Gen. von Mackensen, his army moving along the railway to Mosaicvka started an attack with three hours of cannonading to which the Russians did not reply.

"When the enemy was within 200 yards of the trenches," he adds, "the Russians opened a tremendous fire and charged. They took the enemy's front line along both sides of the railway and repulsed them. The Austro-Germans failed to fortify their second line, but the Russians, pressing on in great numbers north and south, poured a cross fire from both ends and killed over 20,000 before dawn, when the enemy began a disorderly retreat. The Russians are still in close contact with them and continue to fight."

SUMMARY OF THE WAR NEWS

In northern Galicia, between Przemyśl and Lemberg, there has been a renewal of furious fighting and according to an official announcement from Berlin today the Teutonic allies have gained an important victory. An attack along a forty-five mile front is said to have resulted in capture of the Russian positions between Czerlawa, northwest of Mogilevka, and Sieniawa, northwest of the San. The announcement says 16,000 prisoners were taken yesterday.

A press dispatch from Petrograd gives another version of what apparently was the same battle. It is said 20,000 men of the Austro-German attacking forces were killed. The remainder being routed.

In northern France heavy fighting continues. The German war office today announced that the French had sustained a severe defeat near Arras. The French military authorities asserted a German work had been captured near Lorette, but admitted that Germans had recaptured part of the entrenchments at Souchez, won the previous day.

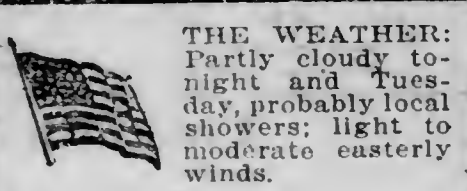

The British steamer Hopemount of 3,300 tons was sunk off Land's End by a German submarine. The crew were rescued.

Heavy fighting has been resumed on Gallipoli peninsula between the French and British forces and the Turkish army which is defending the approach to Constantinople. The Turkish war office announced that attacks of the allied forces against the right wing of the Turks were repulsed and that the attackers were thrown back to their original positions, with heavy losses.

Occupation of the Corinthian town of Valentia by the Italians is announced officially at Rome. Along the Isonzo river a battle of intense nature has been in progress for several days. Although the Italians apparently have won some advantages, the Austrians have brought up reinforcements and are offering determined resistance.

The 5,500-ton British steamer Arndale has been sunk in the White sea by a mine. A German submarine set fire to a Danish schooner, after placing her crew on another Danish sailing vessel, which was permitted to proceed.

COWS AND HUMAN VANDALS HAVE RUN OF ONEOTA CEMETERY

COWS AT LARGE IN CEMETERY.

Desecration of graves by vandals, cows running at large, the stealing of flowers and breaking of branches of trees will be discussed by lot owners and directors of the Oneota cemetery association at its annual meeting to be held this evening at the West Duluth public library. The association will also hold its annual election of officers and trustees this evening.

Owners of lots have been much aroused over the report that cows and other animals have been overrunning the cemetery and that vandals have been stealing flowers, breaking limbs of trees and causing other damage in and about the cemetery. It is proposed to discuss some means of preventing this in the future.

The accompanying photograph was taken recently by Mrs. George Murray, who recently was elected director of the cemetery association.

Mrs. Murray and Mrs. I. P. Swangie have been active in trying to prevent destruction of graves in the cemetery and the pictures will be shown at the meeting in order to bring before the lot owners the need of spending money to protect their interests.

It is claimed that the cemetery association has about \$10,000 in cash on hand. Until early this spring no meeting of the association had been held in nine years. The present officers of the organization are: Leonidas Merritt, president; W. B. Geuchell, secretary and treasurer. The directors are: Mr. Merritt, Mr. Getchell, Alfred Merritt, John Hall, Dr. David Graham, Dr. P. Burdette, Mrs. I. P. Swangie, William McMurtrie and Mrs. George Murray. The latter three were elected this year.

PROGRAM FOR FOURTH READY

All Schools in City Invited to Participate in Relay Race.

Band Concert and Games on the Courthouse Square.

Final arrangements for the civic celebration on the Fourth of July were made this morning by J. R. Batchelor, director of the city's newly organized playground and recreation system, who has been placed in charge of the festivities.

This morning Mr. Batchelor sent communications to all the grade schools in the city, inviting the principals to select teams for the relay race to be staged at 1 o'clock on the morning of Independence day. Each school will have a team of about twelve boys to run the entire course, which will be from the city hall, to Twelfth avenue east, up to the Boulevard, west to Mesaba avenue, down to Superior street and then east to the city hall. Mayor Prince will start the race and each runner will carry a flag, which he will give to his teammate on the next relay team, before the latter can continue the run.

Mr. Batchelor went over the proposed course in an automobile. The Third Regiment band, Mr. Batchelor said, will play a program of music for the play festival on the courthouse lawn in the afternoon. The program will open with a selection by the band, to be followed by a grand march, including all the children. The children will be marched finally in a group before the band and "The Star Spangled Banner" will then be sung by the entire assembly. Following this the program of games will be staged under the direction of Mr. Batchelor and his assistants.

Plans for the evening are now being made and will not be announced for a day or two, Mr. Batchelor said. It is understood that a display of fireworks will be featured in the evening.

FLAG DAY AT CITY HALL.
Capt. Cleveland Distributes Banners at Every Office.

Employees at the city hall are today observing Flag day through the kindness of Capt. Henry Cleveland, park manager.

Bright and early this morning Capt. Cleveland distributed small flags in every office at the city hall building. This is an annual custom with Mr. Cleveland, who also distributes small rabbits during Easter week and jack-o'-lanterns for Halloween.

GARRANZA AND VILLA TO FIGHT FOR CAPITAL

Battle Said to Be in Sight for Control of Mexico City.

Washington, June 14.—Attention of Washington officials was focused again today on the military situation in Mexico, where there was a possibility of important developments which might bring ultimate peace in the southern republic. Chief interest centers in the outcome of the prospective battle between Carranza troops and Villa forces for the possession of Mexico City, now in the hands of Villa's men.

Arrival of Carranzas. El Paso, Tex., June 14.—The anticipated arrival late today of George C. Carranza and Miguel Diaz Lombardo from Aguila Calientes was being awaited with keen interest in American and Mexican circles. They were expected to have authentic knowledge of the military situation between Villa-Oregon forces in Central Mexico. It was generally believed that the coming of Lombardo to the border at this time was to keep in close touch with the situation at Washington and observe the effect of the Villa reply to President Wilson's warning.

HEARING ON PLEA OF LEO M. FRANK RESUMED

Atlanta, Ga., June 14.—The hearing on Leo M. Frank's plea for commutation of his death sentence to life imprisonment was resumed before Governor Slaton today and was expected to be completed by tonight.

Solicitor Dorsey presented his brief against Frank's application and made an oral argument.

MORE WORK, LESS PLAY

Militia Camp This Year Is
More Than Mere
Holiday.
Fifteen Coach Loads of
Militiamen Off for
Lake City.

Thirteen coach loads of militiamen and equipment, constituting the "militia special," left Duluth at 9 o'clock last night for the annual ten-day encampment at Lake City, Minn. Col. F. E. Reiche is in command of the detachment, which contains 264 men. Company F of Eveland and Company M of Hibbing arrived in special coaches several hours before the main train was made up, and were joined here by three Duluth companies, a band of twenty-eight pieces, a hospital corps of ten men, a field corps of five and medical corps of three men. Fifty men went from Company C, forty-five from Company E, and thirty-nine from Company A of Princeton and Company B of Anoka, in special cars, joined the train en route to the Twin Cities, the troops arriving at Camp Lakeview early this morning. A strenuous program of drills, rifle practice and maneuvering has been mapped out for the ten days in camp, and the soldiers will learn that the government is paying much more attention to the militia training, with the result that encampments are more work and less fun. Governor W. S. Hammond, as commander of the state troops, will inspect the Third regiment June 22, the day before camp is broken. At the end of the trip, many men are expected to take examinations which may entitle them to higher ranking.

HIGHER AVERAGE OF FERTILITY

Statistics Back Up the
"Come to Minnesota"
Slogan.

Fred D. Sherman, commissioner of immigration, has prepared statistics to show that Minnesota has a higher average of fertility and a better general crop-producing record than any of a group of seven nearby states. The statistics show that Minnesota has produced more rice, potatoes and hay to the acre than has Iowa, South Dakota, Nebraska, Kansas, Indiana, Ohio and Illinois.

Minnesota is fourth as to corn production per acre, and third as to corn, and fifth as to barley.

The statistics are being put out by Mr. Sherman to impress on the farmers of other states the reason for his "Come to Minnesota" slogan.

The list includes Dean A. F. Curtis, Ames, Iowa; J. C. McDowell, Washington, D. C., who will talk on "Farm Management"; Senator L. E. Foster of Springfield, Minn., whose subject is "Beef Cattle"; Prof. T. H. Haacker, Prof. Andrew Boss and Prof. T. G. Patterson

of the University farm, St. Paul. The delegates to the meeting will be entertained at a banquet to be held during the evening of June 23 at the Commercial club. P. Craig of this city is vice president of the state association.

On June 24, the day following, the annual convention of the Minnesota and North Wisconsin Guernsey Breeders' association will be held at the farm of George C. Stone near Two Rivers. Mr. Stone is president of the association.

**BIG PRIZES FOR
CORN GROWERS**

Farmers Have Chance to
Compete for \$5,000 in
Trophies.

Corn growers of the Northwest will have an opportunity to compete for \$5,000 worth of prizes to be offered at the first national corn show which will be held in St. Paul in December, under the auspices of the First National bank of St. Paul.

H. L. Dow of St. Paul was in Duluth Saturday in the interests of the show. Mr. Dow announced that 128 loving cups worth \$5,000 would be given away to prize winners and that farmers of Minnesota, North and South Dakota, Montana, Washington, Oregon and Idaho were eligible to compete.

The prizes will be given to the farmers displaying the finest collections of ten ears of any variety of corn grown within their district. The trophies have been donated by the Northwest.

**DULUTH PRIEST IS
IN BEMIDJI HOSPITAL**

Bemidji, Minn., June 14.—(Special to The Herald).—Rev. Father Charles Groux, chaplain of the Sacred Heart institute at Duluth is a patient at St. Anthony's hospital in this city, suffering from a complication of diseases. He came to Bemidji for treatment on account of the climate being recommended to him. He is now under the care of Dr. Rowland Gilmore and it is expected that he will be able to return to his work at Duluth before long.

"BEYOND THE POINT OF ROCKS" PRIZE WINNERS IN "WHY LIKE TO SHOP IN WEST END" CONTEST

Mrs. A. Yernberg, 2105 West Third street, has been awarded by The Herald the first prize for writing the best letter stating "Why I Like to Shop in the West End." Out of a large number of answers received, her communication was considered the best. The prize is \$10 in trade at any of the stores in the West end, whose advertisement appeared in The Herald on Thursday evening, June 3.

The second prize was awarded to Mrs. C. Bates, 2416 West Second street. This prize is worth \$7.50 in trade at any of the stores in the West end, whose advertisement appeared in The Herald on Thursday evening, June 3.

A great deal of interest was taken in the contest. More than 300 letters were received from the residents and school children of the district. All praised the merchants for their well kept business places, the pure spirit shown in providing hand concerts and other forms of entertainment and for the courteous treatment that the people are given by clerks and proprietors.

The winners will each receive a communication either today or tomorrow from The Herald making them ex-wives of the stores they wish the order for the prize.

The following is the communication of Mrs. Yernberg, which was awarded the first prize:

WHY I LIKE TO SHOP IN THE WEST END.
I like to shop in the West end. I'll tell you the reason why. Because I can get whatever I need in eatables and stuff that is dry. If ever I need anything in the line of hats and clothes I'll surely not forget to buy at Hill's, Le Maire's or Moe's.

There is another dry goods store on the upper side of the street. Johnson & Thygesen is their name. They carry a line completely. Opposite them is Mohaupt's store. Where dishes and toys are cheap. And many other things galore. With prices not too steep.

All young men and women. On matrimony. Try Anderson Furniture Co. And your money will be well spent. Or, Hagstrom & Lundquist. Carry an excellent furniture line. And will furnish your home completely.

OPEN PIT MINING AT BALKAN MINE

Winston Bros. to Remove 200,000 Tons From Michigan Property.

Crystal Falls, Mich., June 14.—A deal that has been hanging fire some time has been closed and the announcement is made that the Winston Bros. will mine 200,000 tons of ore for the Balkan Mining company out of the open pit.

The ore will be mined by the open pit method and hauled out over the same tracks and with the same equipment that the Winston people have employed in removing the over burden.

Stripping Work Near Ore.
The stripping work is getting down to a depth now where the ore is being reached. The work of equipping the Balkan property is not far enough advanced to allow of immediate mining and even if it was the fact that the stripping is still carried on would undoubtedly interfere with the work.

The Winston Bros. have had a couple of small churn drills at work in the pit for the past two months drilling the hard clay overburden for blasting. These drills will be continued in use for the breaking up of the hard ledge and the ore will be loaded with the drag line just as the over burden has been.

BIG PEACE MEETING AT DEVIL'S LAKE, N. D.
Representatives of All Creeds Against War and Approve Wilson's Stand.

Devils Lake, N. D., June 14.—(Special to The Herald).—Declaring their approval of the Christian attitude of President Wilson, and at the same time "protesting against any act of any official of the government that may in any way involve us in war," Devils Lake citizens, Sunday afternoon, went

on record as unalterably in favor of peace. At a mass meeting held at the opera house in response to a call of the clergy of the city, Protestants, Catholics and Lutherans joined in a statement that "we should be willing rather to suffer some wrong temporarily than to do anything that would aid and abet the horrors of the present war."

The address of Attorney Fred J. Traynor was an eulogy of President Wilson, in which he commended the meeting to go on record as firmly behind the chief executive no matter what Eugene Fendler, a prominent club woman of the city; Rev. Albert Torbet of the Presbyterian church; Prof. J. A. Haig, a prominent educator presided.

The following resolution adopted as the sense of the meeting, which is addressed to President Wilson, will also be forwarded to William J. Bryan, ex-secretary of state.
"To the president of the United States of America:
We, the people of Devils Lake and citizens of United States, representatives of various religious creeds do solemnly proclaim that we sincerely approve of the Christian spirit you have shown during your administration, and of your peaceful attitude toward all creeds."

"We also proclaim that we firmly believe that war is legalized murder, and whoever does an act to involve any nation in war or willingly participates in war, commits a grave sin. We believe that the wages of sin is death, and we protest against any act of any official of our government that may in any way involve us in war."

FINE WISCONSIN HOGS SHIPPED TO ST. PAUL.
Ashland, Wis., June 14.—One of the choicest carloads of hogs ever raised in the Northwest, or in fact from any community, was shipped from Ashland to St. Paul.

In the carload were hogs from three farmers residing in the vicinity of Ashland, Sandy John, Pat Slattery and William Kinkel. Thirty-one of the porkers came from Sandy John's farm at Deer Creek. The weight of the thirty-one hogs was over 2,500 pounds, the average weight being over 300 pounds.

"ONLY FOUR MORE DAYS," IS SCHOOL CHILDREN'S SONG

Thousands of Young Duluthians Busy With Graduation and "Exams."

"Four more days and we'll be free," sang school children throughout the city this morning, for Friday is the last day of books and studies until next September.

Graduation activities, coupled with examinations, will occupy most of the time of the high school and grammar school students from now until Friday, and then the thousands of youngsters, with several hundred young men and women, will begin their long vacations. Nearly 300 high school seniors will receive their diplomas this week, the largest number ever to be graduated from public and parochial schools at one time. Twenty-seven boys and girls will receive theirs from Bishop James McGorick Tuesday night. On Thursday night the Denfeld high school seniors will receive theirs from the Denfeld high school. On Friday night the large class of Central high school seniors will receive theirs from the Central high school. In the high schools, class work has been completed for the year, and with the exception of one or two examinations, the student is free to devote his time to work on the commencement and class night programs.

At Central high this morning, Asst. Supt. Schilling gave an examination to a large class of seniors preparing to enter college next fall. Aside from Central high commencement exercises, the feature of the week's activities will be the annual high school dance, to be given at the Masonic temple Thursday evening. Both high schools will give their annual class play this week, the Central high students on Wednesday night in the school auditorium and the Denfeld graduates Tuesday night at the Alhambra theater on Central avenue.

ROOSEVELT ON ARBITRATION

Some of Colonel's Views Given at Meeting of Security League.

Extracts From Letter Which He Wrote to Hudson Maxim.

New York, June 14.—Delegates from twenty-five states assembled here today in a two-day peace and preparation conference, held under the auspices of the national security league, at which America's military needs were on the program for discussion by three former secretaries of war, two former secretaries of the navy and other speakers.

The meeting opened with an address of welcome by City Controller William A. Prendergast and was next addressed by Hudson Maxim, inventor of the gun which bears his name. Theodore Roosevelt's views on arbitration treaties, expressed in a letter written by him to Mr. Maxim, were given by Mr. Maxim. After referring to letters on imperialism, sent to Mr. Maxim by Oscar Straus and others, Col. Roosevelt's message continued:

"Unlucky Body of Men." The professional pacifists, the professional peace-party men, who, during the last five years have been so active, who have pushed the ineffectual all-American treaties at Washington who had condoned our criminal inactivity as regards Mexico, and above all, who regard the questions raised by the world war as now raging, and who have applauded our subject failures to live up to the obligations imposed upon us as a signatory power of the Hague convention, are at least an unluckily body of men, and taken as a whole, are probably the most undesirable citizens of this country. Such preaching, such preaching, if reduced to practice, is ruinous to national character. Such men have been doing their best to make us the China of this nation is to prepare itself so that it can protect itself. The prime duty for this nation is to put before peace. It is wicked to be neutral between right and wrong, and this statement can be successfully refuted only by men who are prepared to hold up Pontius Pilate, the arch-typical neutral of all time, as worthy of our admiration. Iconic peace may be the worst crime against humanity, and righteous war may represent the greatest service a nation can at a given moment render to itself and to mankind.

time and that the improvement should be put over until next year. Since last January property owners have filed protests and succeeded in postponing improvements on Superior street from Sixteenth to Twenty-third street, Second street, from Fourth avenue west to Fifth avenue east, Grand avenue, from Thirtieth to Fifty-fourth avenues west. One other petition against the paving of East Seventh street did not contain a sufficient number of signatures. The petition filed today will be read at the council meeting tonight and the city clerk instructed to check over the names and property owned by the signers. If there are a sufficient number of signers, then Commissioner Farrell will have to lay the improvement over until next year. Last week bids were opened and Rogers & McLean submitted the lowest proposal on a concrete highway. B. Totman and twenty-seven other property owners have signed the petition.

"OLD GLORY'S" BIRTHDAY IS COMMEMORATED IN DULUTH

Public Buildings Fly Flags and School Children Hold Patriotic Exercises; Tribute of Duluth Elks; Chance to Learn National Anthem.

Who can recite this song?
Oh, say, can you see, by the dawn's early light,
What so proudly we hail at the twilight's last gleaming,
Whose broad stripes and bright stars,
Thro' the perilous fire of war and its swinging,
O'er the ramparts we watched, were so gallantly streaming?
And the rocket's red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there,
Oh, say, does that star-spangled banner yet fly?
O'er the land of the free and the home of the brave?

On the shore dimly seen thro' the mists of the deep,
Where the foe's haughty host in dread silence reposes,
What the toiling, the drudging, the half-disclosed,
Now it catches the gleam of the sun in full glory reflected now shines on the stream:
'Tis the star-spangled banner—oh, long may it wave
O'er the land of the free and the home of the brave?

And where is the band who so vauntingly swore,
That the havoc of war and the battle's confusion,
A home and a country should leave us no more?
Their blood has washed out their foul footsteps' pollution,
No refuge could save the hireling and slave
From the terror of flight or the gloom of the grave;
And the star-spangled banner in triumph doth wave
O'er the land of the free and the home of the brave?

Oh, thus be it ever, freemen shall stand
Between their loved home and wild war's desolation,
Blest with vict'ry and peace, may the heaven-rescued land
Praise the Power that has made and preserved us a nation!
Then conquer we must, when our cause it is just,
And this be our motto, "In God is our trust!"
And the star-spangled banner in triumph shall wave
O'er the land of the free and the home of the brave?

"Old Glory's" birthday, June 14, was commemorated in Duluth today. Public buildings were decorated with the stars and stripes and at noon school children stopped their examinations and assembled to participate in short patriotic programs. Although no definite programs were arranged in any of the buildings, principals had been asked by Supt. R. E. Deifield to make some observation of the day. A salute to the flag, the story of the stars and stripes and the origin of the Stars and Stripes and patriotic songs were usually comes after school is out for the year, but this term, because of the fact that the session will last a week longer than formerly, the boys and girls were given an opportunity to attend exercises.

Although the emblem of a comparatively young nation, the Stars and Stripes is one of the oldest of the

world's flags, say historians, and stands for record of stability and progress never equaled. Various lodges, at their meetings tonight, will take notice of Flag day and its significance, and have additional prepared for the occasion. Duluth Elks will play their annual tribute, with street and club rooms. They will be held under the auspices of Duluth lodge, No. 133 and Ray M. Hughes will be the principal speaker. W. S. McCormick has been chosen to deliver the tribute to the flag.

ONLY FOUR ASK LICENSES

Jitney Drivers in No Hurry to File Their Applications.

Petition for Referendum Not Filed—Will Amend Ordinance.

Only four jitney drivers have filed their insurance policies and applications for a license to operate on Duluth streets, pursuant to the ordinance, which goes into effect next Saturday morning. Unless the jitney drivers succeed with their referendum petition in causing a special election on the jitney ordinance, all those operating without a license next Saturday and thereafter will be liable to arrest and a jail sentence.

No referendum petition had been filed with City Clerk Borgen up to a late hour this afternoon and in all probability will not come up before the council this evening. In that event, no action will be taken by the commissioners until the petition is filed, when it will be read and referred to the clerk, who will be instructed to check up the names. At least 1,800 registered voters must sign the petition to make it legal. Silberstein said this morning that the jitney ordinance will not be revoked and that it will be placed before all the voters of the city at a special election, if the referendum number of names. The amendment, providing for regular routes, will come up for passage tonight, he said.

The four jitney drivers who have filed their insurance policies and applications follow: Harry Sampson, 32, 200 South First avenue east, Maxwell car to operate from Twenty-ninth avenue to Fifteenth avenue east; Axel Vid Larson, 38, 5018 Toga street, Ford car to operate from Twenty-ninth avenue west to Twenty-fourth avenue east; John Burzinski, 28, 11 Vernon street, Dodge car to operate from Twenty-ninth avenue east to Sixteenth avenue east; and A. POLICE RAID THREE HOUSES

Six Are Taken in Police Dragnet; One Shot Fired at Officers.

Four Jump Bail; One Fined; Sixth Sent to Work Farm.

Continuing one of the most sweeping campaigns against disorderly rooming houses waged in Duluth during recent years, police raided three places Saturday night and early Sunday morning. Six persons were taken in the police dragnet.

Early Sunday morning Sergeant John Roberg, with Patrolman Grinager,

visited the Ryan hotel, 527 West Superior street, arresting Louis Lomburg, age 28; Matt Bellinen, age 26; Lillian Carilla, age 24, and Anna Kemp, age 25.

All four of them were charged with disorderly conduct and were released in \$15 bail to appear in court this morning. Judge Smallwood ordered the bail forfeited in each case when the defendants failed to put in an appearance today.

Ruth Pearl Ball, age 32, colored, arrested at 326 West Michigan street, Sunday morning, by Sergeant Roberg, pleaded guilty this morning to a charge of keeping a house of ill-fame. She was sentenced to pay a fine of \$75 and costs or serve eighty-five days at the county jail. Sentence was stayed for twenty-four hours.

When Sergeant Roberg, with Officers Duff and Grinager, visited the New York hotel, Seventh avenue west and Superior street, Saturday night, no women were found. Harry Williams, age 27, was arrested.

When taken to the street, Williams broke away from the officers and ran nearly a block before he was recaptured. During the chase he fired several shots from a revolver which he carried, "frightening" the officers, as he is said to have explained.

In municipal court today he was sentenced to fifteen days at the work farm on a charge of carrying concealed weapons. The more serious charge of resisting arrest was not pressed.

DULUTH ELKS GOING TO FARIBAULT, MINN., TO LAND THE 1916 STATE CONVENTION

"We Will Meet You and Greet You in Duluth 1916." The Duluth Elks are bent on landing the 1916 convention of the Minnesota State Elks association. They are going after it with a vengeance. And when the Elks of the state gather at Faribault this week for their annual get-together meeting and frolic, the Duluth members of the order will be decked out with badges bearing the above inscription. They will also be loaded down with arguments that Duluth should be given a chance to entertain the Elks next year.

The local delegation will consist of about 150 Elks. Some of them will take their wives. The party will leave Duluth on a special train over the Northern Pacific Wednesday afternoon. John E. Samuelson, exalted ruler Duluth lodge, No. 133, will leave for Faribault tomorrow evening to make preliminary arrangements for the part that Duluth lodge will play in the events of the next two days and to be on the ground when the local delegation arrives.

Duluth Elks are taking with them

all sorts of novelties to make the affair more interesting. They will also distribute literature advertising Duluth as the best convention city of the state. The ball team of the local lodge will be in readiness to enter a competition which has been arranged at Faribault and is confident that it will "cop" some of the prizes.

The convention will last two days, Thursday and Friday, and according to advance notices received here will be one continual round of pleasure. One of the features will be a monster parade of uniformed Elks. A prize of \$100 will be offered for the best uniformed marching club. A prize of \$75 will be given to the club having the largest number in the line of parade. Other prizes listed:

Tallest Elk \$50.00
Shortest Elk \$50.00
Fattest Elk \$50.00
Handsomest Elk \$50.00
Best decorated auto in parade \$50.00
Second best decorated auto \$25.00
The officers of the association

will act as judges for all prizes. A "grand, glorious stag social session" will be held at the Faribault Elks' club Thursday evening, beginning at 8 o'clock. The women will be entertained Thursday afternoon with auto rides to various points of interest in the vicinity of Faribault.

On Friday afternoon a picnic dinner will be served at the fair grounds which will be followed by an Elks' frolic, concerning which the following announcement has been made:

"The frolic committee has just returned from a trip through creation's corners, including Fremont, Milwaukee and Cranberry Center. They are not giving out details but it is generally understood that there will be a limited array of oddities and curious creatures, also aerobically races, polo games, submarine diving and labyrinthic wilderness of other contrivances, including a form of frolicking freaks, headed by the famous funny clown, Bill Koons, Ralph Smith, champion swimmer of the world, Prof. Bob Eldridge and his trained troop of vaudeville warblers."

A grand ball at the armory at Faribault will up the glorious occasion. During the social session and baseball games, the ladies will be entertained at luncheon, vaudeville and special features.

SELLS HORSES TO FRENCH GOVERNMENT

Duluth Trader Sends Four Carloads to Fill War Order.

During the last week Moses Goldberg, proprietor of the Zenith sales stable, sold four carloads of horses to the French government.

Two carloads of twenty horses each were shipped from here last Monday and the final consignment was sent out Saturday. Mr. Goldberg returned this morning from St. Paul, where he turned his horses over to the French government.

This is the first order filled by a local horse market for any of the powers, although it is understood, have been sold by American dealers to the various European governments. The horses shipped from Duluth weighed from 1,200 to 1,400 pounds each and will be used either in the cavalry or for transport.

"Because of the large sale of horses in this country to the warring powers," said Mr. Goldberg this morning, "on his return from St. Paul, the price of horse flesh was up and five officers were wounded. Sheriff A. D. Hood, probably fatally, during a riot here early today when a mob attempted to take Smith from the officers."

During the fighting that followed Smith's body was riddled with bullets.

WARNING TO LAUNCH OWNERS

Collector Reminds Them of Law—Inspector Is Appointed.

George C. Luckenbill of this city was today appointed by Harris Bennett, collector of customs, to the position of navigation inspector for the port of Duluth. His duties will be to look after motor boats, gasoline launches and excursion steamers to see that they are properly safeguarded to protect the lives of passengers and crews. The boats must be properly provided with life preservers and not be overcrowded.

The position of navigation inspector is virtually a new one here. Last year the duties of this office were attended to for one month only.

Mr. Bennett said today that he wished to notify all owners of craft included in the list to make proper provisions according to law so that it would be unnecessary to impose fines.

NEW MARK IN CEREMONIALS

Shriners Report Record-Breaking Celebration at Grand Forks.

Class of 300 Initiated—New Temple Opened—Unique Parade.

The greatest Shrine celebration ever staged in the Northwest, is the verdict of Duluth Shriners, who attended the ceremonial of Ken temple at Grand Forks last Friday. The local delegation of thirty Shriners, headed by Loyd Ayres, potentate, returned yesterday.

In addition to the ceremonial proper, at which 300 candidates were initiated into the order, this being one of the largest classes in the history of the fraternity, there was a parade at 4 o'clock in the afternoon and a banquet following the initiation. The festivities also marked the official opening of the new Masonic temple recently dedicated by the lodges of the North Dakota city.

Besides the local delegation, there were representatives from St. Paul, Minneapolis, Fargo and various cities throughout Minnesota, North and South Dakota and Montana. Buffalo, Bill Cody accompanied the Minneapolis delegation.

Description of Parade. An account of the celebration in the Grand Forks Daily Herald follows: The fun began at 4 o'clock in the afternoon when the big street parade left the Masonic temple, headed by Grand Marshal Nelson, North and South Dakota and Montana. Buffalo, Bill Cody accompanied the Minneapolis delegation.

George Dais, illustrious potentate of Ken temple, and his wife, who were drawn through the streets in canopied chariots by white clad candidates who were compelled to hang on to the rope by devil's equipment with pitchforks, and preceded by Ken temple band.

One of the most artistic features of the parade was the float of the Devils Lake contingent, Ken temple, which consisted of a boat made of white flannel material containing two young girls and a red devil.

I. A. Berg was marshal of the second division of the parade, and was followed by Crookston members of the order in uniforms of red and white. The third division was largely given over to animal exhibits. These included a real walking dragon, a lion, and a polar bear. A candidate dangling from a gallows in the lion's cage added greatly to the effectiveness of the exhibit.

The Williston delegation furnished a float showing an Indian tepee with a painted warrior standing beside it and inscribed "Way Out West in Williston."

The Arab patrol and other members of Ken temple marched in the last section of the parade, which was headed by the Hussar band of Larimore.

"Members of Ken temple marched in the rear of the Arab patrol, and were followed by a number of dignitaries, including the city, who were gaily decorated with shrive pennants and colors. The parade started to the Masonic temple, where it disbanded."

WARNING TO LAUNCH OWNERS

Collector Reminds Them of Law—Inspector Is Appointed.

George C. Luckenbill of this city was today appointed by Harris Bennett, collector of customs, to the position of navigation inspector for the port of Duluth. His duties will be to look after motor boats, gasoline launches and excursion steamers to see that they are properly safeguarded to protect the lives of passengers and crews. The boats must be properly provided with life preservers and not be overcrowded.

The position of navigation inspector is virtually a new one here. Last year the duties of this office were attended to for one month only.

Mr. Bennett said today that he wished to notify all owners of craft included in the list to make proper provisions according to law so that it would be unnecessary to impose fines.

NEW MARK IN CEREMONIALS

Shriners Report Record-Breaking Celebration at Grand Forks.

Class of 300 Initiated—New Temple Opened—Unique Parade.

The greatest Shrine celebration ever staged in the Northwest, is the verdict of Duluth Shriners, who attended the ceremonial of Ken temple at Grand Forks last Friday. The local delegation of thirty Shriners, headed by Loyd Ayres, potentate, returned yesterday.

In addition to the ceremonial proper, at which 300 candidates were initiated into the order, this being one of the largest classes in the history of the fraternity, there was a parade at 4 o'clock in the afternoon and a banquet following the initiation. The festivities also marked the official opening of the new Masonic temple recently dedicated by the lodges of the North Dakota city.

Besides the local delegation, there were representatives from St. Paul, Minneapolis, Fargo and various cities throughout Minnesota, North and South Dakota and Montana. Buffalo, Bill Cody accompanied the Minneapolis delegation.

Description of Parade. An account of the celebration in the Grand Forks Daily Herald follows: The fun began at 4 o'clock in the afternoon when the big street parade left the Masonic temple, headed by Grand Marshal Nelson, North and South Dakota and Montana. Buffalo, Bill Cody accompanied the Minneapolis delegation.

George Dais, illustrious potentate of Ken temple, and his wife, who were drawn through the streets in canopied chariots by white clad candidates who were compelled to hang on to the rope by devil's equipment with pitchforks, and preceded by Ken temple band.

One of the most artistic features of the parade was the float of the Devils Lake contingent, Ken temple, which consisted of a boat made of white flannel material containing two young girls and a red devil.

aid duke's vassals down said trap-door.

Russle strict, but loving, orders to the beautiful princess, she follows the American to the castle of haunts, and is "in at the finish," as they say in Kentucky when fifty hounds catch one fox. The fox in this case, of course, is the naughty duke; and the buried treasure, located by the keen eye of the all-seeing American hero, is restored to the princess, of course. Then what? Why, the princess wants to know just what "kind of a country" is Kentucky? Say, it's some "country." So she decides to return there with our hero and become Mrs. Jarvis, under which name Minton flags this week.

Throughout the play the hero treats his weird adventures with a sense of humor, and his valet supplies the comedy relief whenever a scene threatens to become serious. The one weak spot in the plot of the melodrama that was satirized.

Aside from the two leads, Walter Baldwin, Jr., as the colored valet does some excellent work this week, and was responsible for many a hearty laugh. Mark Elliston makes a very villainous duke. Miss Lotus and Miss Lavinia attend the graduation. Miss Lavinia is the daughter of the Spanish innkeeper, and the latter as the maid to the princess. Once again Al Smith is a detective.

"The Ghost Breaker" will continue all week with matinees Wednesday and Saturday. Next week "Help Wanted" will be the bill.

PAVLOWA AND RUSSIAN BALLET COMING TO DULUTH

Miss Anna Pavlova is coming to the Lyceum June 23 with her sensational Russian ballet and symphony orchestra. The coming of Pavlova, who is recognized as without a peer in the theatrical world, is to be the artistic and musical treat of the year.

A Pavlova program is unique. It is something of opera, something of drama, and something of dancing. The ballets to be presented here are in reality operatic in their scope, and the story is told in pantomimic action, with a beautiful musical accompaniment.

A great European scenic novelty surprise is the offering of Ralph-Bayle entertainment, ranging from dainty dancing and beautiful singing to heavy light lifting and acrobatics. Special scenery and electrical effects add to the artistic value of the offering.

The favorite juvenile singing comedienne, La Petite, offers a repertoire of character and popular songs in a charming and delightful manner.

Earl and Edwards have a goodly variety of bright lines and a repertoire of clever songs which they deliver to gratifying results.

Featured among the photoplays is the stirring drama, "The Coward," which introduces Edna and Bryant Bryant Washburn. The story is in three reels.

"Polishing Up Polly," a comedy, and "Won Through Merit," a drama, complete the bill.

On Tuesday and Wednesday the third chapter of "The Diamond From the Sky," entitled "A Silent Witness," in which is featured a thrilling and dramatic race for life between an automobile and a railroad train will be added to the above program.

On Thursday Charlie Chaplin will hold forth in a laugh convulsing comedy, "The Propertyman," in two reels.

The stirring and romantic drama, "Four Feathers," at the Rex today has its leading play.

SPECIAL MUSIC FEATURES AT REX, or Howard, Saturday night. A hand-picked band of musicians, under the leadership of a young man who, by reason of fear, fails to respond to his country's call in time of war and nearly loses sweetheart, friends and country.

In addition to the usual feature play this afternoon and evening, a very entertaining program will be given between the hours of 2 and 3 in the afternoon and from 8 to 9 o'clock in the evening.

THEATRE Gossip.

A double headline bill is again in order at the New Grand this week with the double bill of "The Ghost Breaker" and "The Propertyman."

WRITING A FRIENDLY NOTE ON THE SPORT SITUATION

St. Boniface Comes for Four-Game Series; College Players for Connie Mack; Lajoie Is Hissed; Are the Federal Baseball Teams Losing Money?

BY BRUCE.

ST. BONIFACE will make its first appearance of the season tomorrow. The Dooks are playing the final game of the present road trip today. Starting with the St. Boniface series the Dooks follow with Grand Forks, Minneapolis and Fargo. This will bring to Athletic park four teams that have not as yet shown in the local ball yard this season.

The Dooks will be home the greater part of the remainder of the present month. The at home series that starts here tomorrow will, before its completion, complete the circuit trips of every team in the league and will give the fans an opportunity to get a line on the flag contenders.

Get This Lurid Line.

There appeared under an obscure headline the simple statement: "Connie Mack expects to strengthen the American league champions this summer by the addition of some college players."

Can you imagine a player fresh from the seat of learning breaking into the lineup of last year's Athletic team? Lo and sweetly batted a year in a year filled to the brim with the desecrated shillings and upsets and the changing of old pretenses—passes and it is meekly stated that the former invincible baseball machine is to be strengthened by the addition of some college players.

Yes, to think that John McGraw and Connie Mack, the sparring partners for those memorable years in the world's largest baseball bout, are now in the collar positions of their respective leagues!

A well known business man once remarked that it was an excellent idea to be good to the office boy, as you never know what shifts the wheel of business might bring; also it might prove a wise admonition to spread along the idea that baseball magnates should be considerate of the feelings and comfort of the bat boy. You can never tell—tomorrow he might be jeering at you.

The Swing of the Pendulum. NAPOLEON LAJOIE stepped leisurely and gracefully from the seat of a hack up in Woonsocket and began a baseball career some two decades ago that was to be one of the most sensational in the long and brilliant annals of the sport. The Kellys, Gores, Ansons, Clarksons and others have passed in luminous parade and a new generation came trooping by to the throne of progress, and wearing a bright star on his tunic came the heroic figure of Nap Lajoie. Crowds have risen shrieking to their feet and hurled plaudits back and forth across the park, the frenzy of their delight being barbaric in its wild intensity. Napoleon Lajoie was one of the great figures of modern baseball. His batting eye was the greatest, perhaps, of all time, and his wrist with that gnarled-fingered old man, Anson, the prestige of batting honors.

And now, as time passes with the inevitable step of the years, we see the little figure of the man who started, hissing him off the ball field. Fickle fans! The ebb and flow of tide is emblematic of the rise and fall of heroes. A new figure rose to startle the baseball world. Edward Trowbridge Collins was proclaimed king of second base. The throne was abdicated, unwillingly and grudgingly by the great Lajoie. And then Collins passed from Philadelphia and the former king came back to the fields where he formerly was greeted as a hero. What has happened? Lajoie, hitting over .300 has been placed on the bench to placate the fickle fans. Fickle, fickle fans! And yet it is a wise player who can pause at the very crest of his success and look with calm eyes into the future.

What About the Feds? **BAN JOHNSON** is a persistent cuss—but then he is paid \$25,000 a year you know. But, anyway, regarding him, he says that it would be the shining part of wisdom for the magnates of the Federal League to shy the sponge into the ring right now and thus save the thousands of dollars that will be lost if the Fed forces continue through the season.

Reputed facts and figures regarding the Federal league have been published from time to time. These reputed facts and figures regular follow class facts and figures?

Are the brewers, bakers and non-descript millionaires behind the Federal league losing money in such a steady and engulging stream as to cause a drain on a plethoric purse? Is the Federal league losing money in much greater proportion than either of the major league teams?

What will be the end of the present baseball fight—a battle that has shaken the baseball world to the very hinges of its foundation and has threatened to sweep away the very supports of the game?

Indeed it is a wise and far-seeing

follower of the game who can answer these queries. There is good basis for the belief that the millions as a rule. But in the straits of the present baseball stringency sweet scented solace comes to the Feds because of the fact that many of the teams of the two major leagues are also undoubtedly oozing forth kate to the thin morning air.

Maybe the millionaires behind the Fed cause have collaborated on a brave and self-sacrificing resolve to hold out and lose money until that point of the endurance contest is reached where the men behind the organized leagues will cry enough.

That the big game as a rule—but maybe it is true in this case. As a steadily losing commercial proposition one vaguely wonders in the evening of the day just how long baseball, as presently conducted, is going to continue to hold out.

ORE DIGGERS

Eddie Jackson Pitches the White Sox to a 9-to-0 Win.

Chief Cadreau Is Easy for His Former Team Mates.

Virginia, Minn., June 14.—The Ore Diggers proved easy for Duluth in yesterday's game, the visitors winning by the score of 9 to 0. Chief Cadreau, former White Sox twirler, was on the mound for the locals and proved easy for the invaders, twelve hits being gathered off his delivery. Eddie Jackson held the home hitters safely in leash at every stage of the game.

In the fourth a fast throw by Croake from short right out off a local run at the plate. In the ninth the home brigade started a rally, which was stopped, however, before a local run could count from third.

Timmy Collins home-runned in the first round with a crown on the brow. In the sixth the aborigine was hit hard and some loose play upon the part of the locals did not help matters any. McCullough and Kernan contributed errors that swelled the score.

In the ninth round Bud Croake hit what was an ordinary double and while the ball was being fumbled and then wildly hurled to all parts of the diamond.

St. Louis Wins Double Victory. St. Louis, Mo., June 14.—St. Louis nipped out a double victory from Pittsburgh here yesterday, winning the double-header 8 to 5 and 2 to 1. The visitors tied the first game in the ninth, but in the following inning three close singles and a base on balls enabled Miller to score the winning run for St. Louis. Score: R. H. E. First game: St. Louis, 8; Pittsburgh, 5.

Second game: St. Louis, 2; Pittsburgh, 1. Batteries—Knepper, Allen and O'Connor; Henry, Groom, Davenport, Crandall and Hartley.

Divide on Double-Header. Kansas City, Mo., June 14.—Kansas City and Chicago divided a double-header yesterday, the locals taking the first 8 to 4, and Chicago the second 3 to 2. The second was a 10-inning battle between McConnell and Henning. Scores: R. H. E. First game: Kansas City, 8; Chicago, 4. Second game: Chicago, 3; Kansas City, 2.

Even Break at Newark. Newark, N. J., June 14.—An even break was the best Newark could do yesterday against Buffalo. Scores: R. H. E. First game: Newark, 3; Buffalo, 3. Second game: Newark, 3; Buffalo, 3.

CARLTON BEATS CLOQUET. Carlton, Minn., June 14.—(Special to The Herald.) The Carlton Reds defeated Cloquet in a fast game on the local grounds Sunday, 3 to 1. The visitors got their lone tally in the eighth on a scratch hit after two were out.

The visitors only occupied bases three times, one man getting to second in the fifth and two on in the eighth. "Doc" Watkins pitched a good game, whiffing fourteen of the sawmill city's hard hitters. He allowed three hits. Bonneville hauled a good game for the visitors, allowing four hits and whiffing seven men. The game was played in one hour and twenty minutes.

Disbrow Wins Feature Event. Milwaukee, Wis., June 14.—Louis Disbrow won the feature event, a 100-mile automobile race, \$5,000 sweepstakes, free-for-all, from a field of eleven starters at the state fair grounds here yesterday. Eddie Heane finished second and John Raimy third. Time, 1:36:38.

In the five-mile event, Lon Laumeberry finished first, Captain Kennedy second, and Frank Jennings third. Time, 9:44.5.

Call, a state league recruit, a Cleveland amateur in 1914, finished and did well. Scores: R. H. E. First game: Cleveland, 10; Kansas City, 2. Second game: Cleveland, 10; Kansas City, 2.

Hoosiers Win Last Game. Indianapolis, June 14.—Bunched hits in the first inning gave Indianapolis a 4-to-1 victory yesterday over Milwaukee in the first game of the series. Milwaukee made its run in the same inning on three singles and a sacrifice. Two games were to have been played, but a storm that swept the city made only one possible. Score: R. H. E. Milwaukee, 1; Indianapolis, 4.

Louisville 2; St. Paul 1. Louisville, June 14.—St. Paul dropped the first game of a four-game series to Louisville, 2 to 1. Although Northrop yielded more than twice as many hits as Hall, he was steadier in the pinches. Corridon's triple, following a single by Stansbury, sent over the winning run. Score: R. H. E. St. Paul, 1; Louisville, 2.

Columbus 4; Minneapolis 2. Columbus, Ohio, June 14.—Minneapolis made slight use of nine hits in yesterday's game which Columbus won, 4 to 2. Shelton's running catch, followed by a throw home, stopped the visitors in the fourth with the bases full and the score tied. Rain brought an end to playing. R. H. E. Columbus, 4; Minneapolis, 2.

Strong Support for Boxing Bill. Springfield, Ill., June 14.—Sportsmen were prepared today to make a final and strenuous effort to obtain the passage of the Carroll boxing bill before the adjournment of the legislature.

As passed by the senate, the Carroll bill legalizes the holding of ten-round, no decision boxing bouts, under the supervision of a state athletic commission, to be composed of three members to be appointed by the governor. It provides that 6 per cent of the net receipts of such bouts be paid to the state and that the salary of members of the commission shall be \$5,000 a year.

HARD BATTLE FOR THE LEAD

Phillies Hold First Place in Nationals; Sox in American.

Association Leaders Retain Positions; Federals Make Many Shifts.

Sox Makes Best Showing. Of the two Chicago teams in the leadership, the White Sox made slightly the better work of it, holding their lead, although getting nothing better than an even break, whereas the Cubs lost more games than they won and had to relinquish their proprietorship. The American league found easy going in New York, but encountered thornier paths in Boston and Washington, where their other games of the week were played. Meanwhile, their hustling rivals from Detroit were finding the Bostonians equally hard to beat. Jennings' men were thus forced to surrender the leadership after one day's occupancy and failed to regain lost ground by succumbing in a desperate battle in Philadelphia, while the White Sox were losing a close struggle with the Nationals. Clark Griffith's team made the record won in games won, mounting faster than any other team in either league. With the return of Shanks and Chick Gandil to the line-up, the Washingtons have shown notable improvements in form. They passed New York and went into the first division, continuing to do better than keep pace with the Bostonians, just ahead of them. If the team representing the national capital continues to maintain its recent gait, the race in the younger league is likely to develop added interest. Most observers have counted on the Yankees as factors in the race, predicting that the struggle for the pennant would lie between the Yankees and Boston. On recent form, however, the Washingtons will have to be included in the list of possible candidates.

Out of the Running. The remaining clubs in the league seem already out of the running, even for first division honors, although Branch Rickey doubts expects to get better results with his St. Louis club when his really formidable pitching staff rounds into form again. With Connie Mack, the season looks more

like one of foundation-laying for future years than one in which a serious bid for honors is to be made now. Neither Cleveland nor New York seems to the majority of critical observers of the game inherently strong enough to break permanently the ranks of the leading quartet.

Nationals Run Evenly. Fortunes of National league teams ran remarkably even during the week. Only the Philadelphia did better than the average, and only the New York did worse. The advantage gained by the Quakers however, was largely lost Saturday when they remained idle while the Cubs played the Bostonians, bent them and after a day's truce, rebounded back to a tie with the lead with Pat Moran's men. Chicago is showing in and out streaks in its batting, making the lowest average of hits per game of either league during the week, only to come back yesterday with hitting that effectually stopped the Braves.

The continued notable closeness of the National league race and the illustration on Saturday when, as a result of the games played, every club of the eight shifted positions. Such shifts are possible nearly every day now, so compact is the bunching of the teams.

None has shown form consistent enough to develop a pronounced winning streak. The Brooklynians are a case in point, having won three of their last four games, but they were not able to strike a decisive blow, when they struck a decisive snag. One game won and another lost was the best they could do with the Reds. The two teams took part in an unusual pitching duel, however, by playing two games in succession for a total of twenty-nine innings.

St. Louis Showing Good. Aside from the contestants for the leadership, the week's play gave St. Louis more reasons for encouragement than any other team. The Cardinals overcame the New Yorks, and kept them struggling vainly to keep out of the lead. Huggins' men topped the list in batting during the seven-day period and made the most runs. Their demand for a place in the first division has hardly been denied at this time, especially as their pitchers are, as a rule, proving capable of holding their ends up. The Giants, on the contrary, while still batting well, are getting less well from their hits and are finding the pitching problem a serious one. One encouragement, however, was Mathewson's exhibition against the Cardinals, the veteran showing much of his old form, and winning his game.

The banner performance on the diamond during the week was that of Ray Caldwell, pitcher for the Yankees. Each day of the week's last three, the elongated twirler made a home run, twice in succession as a pinch hitter and once in the course of a game in which he occupied the mound twice two men scored ahead of him on his drives. Both as a batter and box man, he is proving an invaluable man for his team.

Leaders in the American Association retained their places although Milwaukee and Louisville had a hard battle for second place honors. Indianapolis, with a good record, is in Cleveland's line of fire. St. Paul threatens the Blues, and notes a victory over Minneapolis, and hopes to win the Miller's bringing up the rear.

MAY DEFEAT UNION PLAN

Hardly Expected Two Lutheran Bodies Will Be Amalgamated.

Hauge Evangelical Lutheran Synod to End Meeting Wednesday.

Grand Forks, N. D., June 14.—(Special to The Herald.)—Submission to the individual congregations of the Hauge Evangelical Lutheran synod of the question of amalgamating with the United Lutheran and the Norwegian Lutheran church, which probably will be the action of the synod at its meeting here today, is expected to result in defeat of the movement so far as this synod is concerned.

For three days amalgamation has been discussed.

Under the laws of the Hauge Lutheran synod, the laymen are the governing force. The older members of the denomination, judging from the sentiment expressed in the debate, are almost unanimously opposed to the movement. The pastors, as a rule, are strongly in favor of the amalgamation, while younger members of the synod are divided—with the majority of these probably in favor.

It will be necessary to submit the entire matter to each individual congregation for a final vote. These congregations then will continue to return back to the general synod at the 1916 gathering.

No action has yet been taken on the recommendation of President Hanson, of the synod, that education be adopted for all departments of the denomination's educational institution.

This matter is being threshed out what viewpoint will be taken by the committee. A year ago the synod approved partial coeducation at the seminary, but now it is proposed to open the entire institution for both sexes.

Final sessions of the synod will be held Wednesday evening, and it is on that day that the next meeting place will be chosen.

District Elections.

Red Wing—Edward Johnson, Minneapolis.

Northern Minnesota—Rev. A. A. Dahl, Ada.

Rocky Mountain—Rev. Theodore Himle, Santa Rosa, Cal. J. Skarpness, Centerville.

Turtel Mountain—Rev. T. J. Lund, Minot.

Three men were received into the ministry and Tuesday night they will be ordained by President M. O. Hanson. The men to be received into the office of the ministry are: Rev. A. A. Dahl, Santa Rosa, Cal.; J. Skarpness, Centerville.

The ordination services will be held in Zion Lutheran church.

Rev. J. J. Skarpness, superintendent of home missions, delivered a brief address on missionary work. He told of the home mission work done in the synod, and urged the pastors and members of the synod to put forth greater efforts in missionary work.

BADGER G. A. R. IS MEETING AT WAUSAU

Wausau, Wis., June 14.—The forty-ninth annual encampment of the Grand Army of the Republic of Wisconsin will be opened here tonight by a patriotic institute at which addresses will be delivered by local and state members of the G. A. R. and allied organizations. State Commander S. A. Cook of Neenah will deliver the principal address.

The first session of the convention, tomorrow morning, Mayor John Klinge of Wausau will give the address of welcome. The election of officers and the selection of the place for holding the next encampment will be made in the afternoon.

The feature of the convention, the parade, will be held Tuesday afternoon.

ON PRESERVING EGGS.

Crookston Experiment Farm Tells How Best to Do It.

Crookston, Minn., June 14.—(Special to The Herald.)—Prof. C. E. Brown, of the Crookston Experiment farm, states that now is the time to preserve eggs for next winter's use, as April, May and June are the best months for packing eggs, especially in the northern states.

There are several good methods of preserving eggs, according to Prof. Brown, but the water-glass method is the best. The water-glass can be used in several ways, but the best is to use it in a solution of one part of water-glass to four parts of water.

The receptacle used should preferably be an earthenware jar with a ten gallon capacity. The eggs should be placed in the jar, one by one, and the jar should be filled with the water-glass solution. The jar should be placed in a cool cellar. A piece of oiled paper or some other waterproof cover should be placed over the top of the jar, and the liquid will spill rapidly. Keep the eggs at least two inches below the surface of the liquid.

Hettinger, N. D., June 14.—(Special to The Herald.)—Justice A. A. Bruce of the state supreme court will be the principal speaker at the nettinger celebration to be held here July 8. There are to be some local speakers on the program and committees have arranged a large line of entertainments and amusements for the occasion.

by the national conference of the Lutheran Free Church of America in session here petitioning God to guide President Wilson and his advisers so that this country may be spared the horrors of war; commending arbitration in the settlement of international differences; favoring an embargo on arms and munitions of war to foreign countries; and praying for lasting peace between the warring governments.

TEACHERS' SCHOOL OPEN

Training School at Crookston Begins Twelve Weeks' Session.

Crookston, Minn., June 14.—(Special to The Herald.)—The teachers' training school at the Agricultural school here opened today. All arrangements for a successful session have been made and advance registrations show indications of a larger attendance than at previous sessions.

The fact that a minimum of twelve weeks of professional training is necessary for securing a first grade certificate for the year 1916, is tending to increase the enrollment at these summer schools.

The work offered is such as will furnish credit in all subjects taken for the full six weeks term.

The best work in professional training will be offered in the model school conducted at the school and also in rural school methods and primary method courses given. Rural teachers who have not had the professional training necessary for a first grade certificate are especially urged to take advantage of the opportunities offered here.

PLEDGE THEIR LOYALTY.

North Dakota German-American Alliance Adopts Resolutions.

Bismarck, N. D., June 14.—The German-American Alliance of North Dakota in annual convention here in adopting resolutions relative to the war in Europe, says in part:

"We take this opportunity to make public the fact that while naturally sympathetic with the land of our nativity in the present conflict, we feel the history of German-Americans in the United States in the past should be assurance that in case of such an unfortunate crisis as war, German-American citizens will be found standing shoulder to shoulder with all citizens, and doing valiant service for our country and the Stars and Stripes. Yet we feel that as American citizens we should be permitted to discuss, approve or disapprove of the attitude of the administration in either its domestic or foreign policies, or its attitude toward Germany and her enemies without being classed as enemies of our country."

In commenting on the Lusitania disaster, a resolution says:

"We sorely regret the loss of lives of non-combatants of all nations through the effective use of submarine warfare by Germany, yet feel and believe that all calamities might have been avoided had a firmer stand been taken by the United States against England's order-in-council against international law, justice, and precedent—the right to stop neutral vessels on high seas carrying food and other non-combatants of war to Germany, and its allies."

MARKET SLUMPS SHARPLY ON HEAVY SELLING PRESSURE

Wheat Breaks Again on Bearish Crop News and Limited Demand.

Flaxseed Declines on Absence of Crushers' Support Through Session.

Duluth, June 14.—The market was weak around the close on renewed selling pressure with no support apparent.

July wheat closed 3/4c off; September 3/4c off and December 3/4c off. July durum closed unchanged and September 2 1/2c off. Oats closed 1/2c off at 40c for on the track; rye unchanged at 1 1/2c; and barley unchanged at 1 1/2c to 1 3/4c.

At Minneapolis, July oats closed 1/2c up at 55c bid. Minneapolis September wheat closed at 95c and calls at 1.05.

After opening strong and advancing moderately on higher Liverpool cables, the wheat market turned easy again today, with the appearance of selling by some of the big Chicago operators and on reports of better weather over the Southwest.

Wheat closing was reported to have started in Oklahoma, and it is expected that harvesting will begin in about ten days in Southern Kansas. The plant is said to be looking well in most districts of the Southwest, but the seed in backward on account of the long drawn-out rains. Advice from over the Northwest shows that little corn is being planted there. Little corn is being planted there.

Correspondents to the wheat plant through the frosts of last week, but the seed was said to have been killed in a few districts. The rains have stopped in the Dakotas and Western Minnesota, and growers are feeling better.

Trading was quiet on the Duluth board, there being no incentive to push business along in any quarter. Cash demand from millers was good, and the comparatively few cars of spring wheat were promptly shipped. The market was quiet on the Duluth board, there being no incentive to push business along in any quarter.

Flaxseed showed weakness once more, sharp declines were prominent. Inquiry from crushers was light and some liquidation was in evidence.

There was no special feature in the market, but prices appeared to slide off easily. July flax opened 1/2c up at \$1.70 and closed 1/2c off at \$1.65. October opened 1/2c up at \$1.80 and closed 1/2c off at \$1.75.

At Minneapolis, July flax closed 1/2c off at \$1.65. October flax closed 1/2c off at \$1.75. At Buenos Aires, flax closed 1/2c off at \$1.75.
